Unconditionally and irrevocably guaranteed by KBC Bank NV

(Incorporated with limited liability in Belgium)

EUR 10,000,000,000

Euro Medium Term Note Programme

Under this EUR 10,000,000,000 Euro Medium Term Note Programme (the “**Programme**”), KBC IFIMA S.A., a public limited liability company (*société anonyme*) incorporated under the laws of the Grand Duchy of Luxembourg, with registered office at 4 rue du Fort Wallis, L-2714 Luxembourg, Grand Duchy of Luxembourg and registered with the trade and companies register (RCS Luxembourg) under number B193577 (the “**Issuer**” or “**KBC IFIMA S.A.**”) may from time to time issue notes that are guaranteed by the Guarantor (the “**Notes**”) denominated in any currency agreed between the Issuer and the relevant Dealer(s) (as defined below). Any Notes issued under the Programme on or after the date of this Base Prospectus are issued subject to the provisions herein. This does not affect any Notes issued prior to the date of this Base Prospectus.

The payments and, where applicable, delivery of all amounts due in respect of the Notes will be guaranteed by KBC Bank NV (the “**Guarantor**”) pursuant to a deed of guarantee dated 19 January 2022 as amended and/or supplemented and/or restated from time to time (the “**Guarantee**”) executed by the Guarantor.

The maximum aggregate nominal amount of all Notes from time to time outstanding will not exceed EUR 10,000,000,000 (or its equivalent in other currencies).

The Notes may be issued on a continuing basis to any Dealer appointed under the Programme from time to time, which appointment may be for a specific issue or on an ongoing basis and which may include KBC Bank NV acting in its capacity as a Dealer separate from that as a Guarantor (each a “**Dealer**” and together the “**Dealers**”).

This Base Prospectus has been approved as a base prospectus by the *Commission de surveillance du secteur financier* (the “**CSSF**”) as competent authority under Regulation (EU) 2017/1129 (the “**Prospectus Regulation**”). The CSSF only approves this Base Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation. Approval by the CSSF should not be considered as an endorsement of the Issuer, the Guarantor or the quality of the Notes. Investors should make their own assessment as to the suitability of investing in the Notes.

According to Article 6(4) of the Luxembourg act dated 16 July 2019 on prospectuses for securities (the “**Luxembourg Law on Prospectus**”), the CSSF does not assume any responsibility for the economic and financial soundness of the transactions contemplated by this Base Prospectus or the quality or solvency of the Issuer or the Guarantor. **The CSSF has neither reviewed nor approved the information contained in this Base Prospectus in relation to any issuance of any Notes that are (i) not to be listed on the Official List of the Luxembourg Stock Exchange and admitted to trading on the regulated market of the Luxembourg Stock Exchange and/or (ii) not to be offered to the public and, in each case, for which a prospectus is not required in accordance with the Prospectus Regulation.** In relation to any Notes, this Base Prospectus must be read as a whole and together with the relevant Final Terms (as defined below). Any Notes issued under the Programme on or after the date of this Base Prospectus are issued subject to the provisions described or incorporated by reference herein. Application may also be made to the Luxembourg Stock Exchange for Notes issued under the Programme during the period of 12 months from the date of approval of this Base Prospectus to be admitted to trading on the Regulated Market of the Luxembourg Stock Exchange and to be listed on the official list of the Luxembourg Stock Exchange or, if specified in the relevant Final Terms, on a specific segment of the regulated market of the Luxembourg Stock Exchange to which only qualified investors (as defined in the Prospectus Regulation) have access (the “**Professional Segment**”). References in this Base Prospectus to Notes being “**listed**” (and all related references) shall mean that such Notes are intended to be admitted to trading on the Luxembourg Stock Exchange’s regulated market and are intended to be listed on the official list of the Luxembourg Stock Exchange or, if applicable, the Professional Segment. The Luxembourg Stock Exchange’s regulated market is a regulated market for the purposes of Directive 2014/65/EU of the European Parliament and of the Council on markets in financial instruments and amending Directive 2002/92/EC and Directive 2011/61/EU, as amended (“**MiFID II**”). No certainty can be given that the application for the listing of any Notes will be granted. Furthermore, admission of the Notes to the Official List and trading on the regulated market of the Luxembourg Stock Exchange or, if applicable, the Professional Segment is not an indication of the merits of the Issuer or the Notes. Unlisted Notes may also be issued pursuant to the Programme. The relevant Final Terms in respect of the issue of any Notes will specify whether or not such Notes will be listed on the Official List and admitted to trading on the regulated market of the Luxembourg Stock Exchange or the Professional Segment (or any other stock exchange).

This Base Prospectus received approval from the CSSF on 19 January 2022 and will be valid for 12 months from the date of its approval by the CSSF in relation to Notes which are to be admitted to trading on a regulated market in the European Economic Area (the “EEA**”) and/or offered to the public in the EEA other than in circumstances where an exemption is available under Article 1(4) and/or 3(2) of the Prospectus Regulation and will expire with respect to such Notes on 19 January 2023. The obligation to supplement this Base Prospectus in the event of a significant new factor, material mistake or material inaccuracy does not apply when this Base Prospectus is no longer valid.**

The final terms to this Base Prospectus in respect of the issue of any PD Notes (as defined below) (the “**Final Terms**”), which will complete the applicable terms and conditions of the Notes, will be filed with the CSSF. Copies of the Final Terms in relation to PD Notes to be admitted to trading and listed on the Official List of the Luxembourg Stock Exchange will also be published on the website of the Luxembourg Stock Exchange at www.bourse.lu.

The Programme provides that Notes may be listed or admitted to trading, as the case may be, on such other or further stock exchanges or markets as may be agreed between the Issuer and the relevant Dealer(s). In the case of Notes which are (i) to be admitted to trading on a regulated market (as defined in the Prospectus Regulation) of an EEA Member State other than the regulated market of the Luxembourg Stock Exchange (a “**Host Member State**”); or (ii) offered to the public in a Host Member State, the Issuer will request that the CSSF delivers to the competent authority of the Host Member State a certificate of approval pursuant to Article 25 of the Prospectus Regulation attesting that the Base Prospectus has been drawn up in accordance with the Prospectus Regulation.

Notes to be issued under the Programme during the period of twelve months from the date of this Base Prospectus which are (a) offered to the public in the EEA in circumstances which require the publication of a prospectus under the Prospectus Regulation whether or not such Notes are listed and admitted to trading on any market; or (b) admitted to trading on a regulated market as defined under MiFID II (including the regulated market of the Luxembourg Stock Exchange) are hereinafter referred to as the “**PD Notes**”. Any PD Notes which have a denomination of less than EUR 100,000 (or its equivalent in any other currency) are hereinafter referred to as “**Non-Exempt PD Notes**”.

PD Notes issued under this Programme may be issued in any denominations of not less than EUR 1,000 as agreed between the Issuer and the relevant Dealer(s).

The Issuer may also issue unlisted Notes and/or Notes not admitted to trading on any regulated market (as defined under MiFID II) or offered to the public within the EEA which do not require the publication of a prospectus under the Prospectus Regulation (“**Exempt Notes**”).

The Notes of each Tranche will initially be represented by a temporary global Note (a “**Temporary Global Note**”) which will be delivered on or prior to the issue date thereof to a common safekeeper (the “**Common Safekeeper**”) or a common depository (the “**Common Depository**”), as the case may be, in either case for Euroclear Bank SA/NV (“**Euroclear**”) and Clearstream Banking, S.A. (“**Clearstream, Luxembourg**”), and/or any other agreed clearance system which will be exchangeable, as specified in the applicable Final Terms, for a permanent global Note (a “**Permanent Global Note**”) upon certification as to non-U.S. beneficial ownership as required by U.S. Treasury regulations. A Permanent Global Note will be exchangeable for definitive Notes, either upon request or only upon the occurrence of an Exchange Event, all as further described in “*Form of the Notes*” below.

The rating of certain Series of Notes to be issued under the Programme may be specified in the applicable Final Terms. Whether or not each credit rating applied for in relation to relevant Series of Notes will be issued by a credit rating agency established in the European Union and registered under Regulation (EC) No. 1060/2009, as amended, (the “**CRA Regulation**”) will be disclosed in the applicable Final Terms. A security rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency.

Prospective purchasers of Notes should ensure that they understand the nature of the relevant Notes and the extent of their exposure to risks and that they consider the suitability of the relevant Notes as an investment in the light of their own circumstances and financial condition. Certain issues of Notes involve a high degree of risk and potential investors should be prepared to sustain a loss of all or part of their investment. It is the responsibility of prospective purchasers to ensure that they have sufficient knowledge, experience and professional advice to make their own legal, financial, tax, accounting and other business evaluation of the merits and risks of investing in the Notes and are not relying on the advice of the Issuer, the Guarantor or any Dealer in that regard. For a discussion of the risks see “*Risk Factors*” below. An investment in Notes linked to one or more Reference Items may entail significant risks not associated with investments in a conventional debt security. Such Notes may be principal protected or, alternatively, the principal invested in such notes may be at risk. If the Notes are principal protected, such protection is nevertheless dependent on the Issuer, failing which, the Guarantor complying with its obligations with respect to the Notes. If the Notes are not principal protected, the amount paid by the Issuer on redemption of the Notes may be less than the nominal amount of the Notes, together with any accrued interest, and may in certain circumstances be zero.

IMPORTANT INFORMATION RELATING TO THE USE OF THIS BASE PROSPECTUS

The Notes have not been and will not be registered under the United States Securities Act of 1933, as amended (the “**Securities Act**”), and are subject to U.S. tax law requirements. Subject to certain exceptions, the Notes may not be offered, sold or delivered within the United States or to, or for the account or benefit of, any U.S. persons as defined in Regulation S promulgated under the Securities Act (“**Regulation S**”) except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act (see “*Subscription and Sale*” below).

IMPORTANT – EEA RETAIL INVESTORS – If the Final Terms in respect of any Notes includes a legend entitled “Prohibition of Sales to EEA Retail Investors”, the Notes are not intended to be offered, sold or otherwise made available to, and should not be offered, sold or otherwise made available to, any retail investor in the European Economic Area (“**EEA**”). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, “**MiFID II**”); (ii) a customer within the meaning of Directive (EU) 2016/97 (the “**Insurance Distribution Directive**”), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129 (the “**Prospectus Regulation**”). Consequently, no key information document required by Regulation (EU) No 1286/2014 (as amended, the “**PRIIPs Regulation**”) for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

IMPORTANT – UK RETAIL INVESTORS – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom (“**UK**”). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (the “**EUWA**”); (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000 (the “**FSMA**”) and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA. Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the “**UK PRIIPs Regulation**”) for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

PROHIBITION OF SALES TO CONSUMERS IN BELGIUM – If the Final Terms in respect of any Notes specifies the “Prohibition of sales to consumers in Belgium” as “Applicable”, the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any consumer (*consument/consommateur*) within the meaning of the Belgian Code of Economic Law (*Wetboek van economisch recht/Code de droit économique*) in Belgium.

MIFID II PRODUCT GOVERNANCE / TARGET MARKET – The Final Terms in respect of any Notes may include a legend entitled “*MiFID II Product Governance*” which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a “**distributor**”) should take into consideration the target market assessment. However, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels. A determination will be made in relation to each issue about whether, for the purpose of the MiFID II Product Governance rules under EU Delegated Directive 2017/593 (the “**MiFID II Product Governance Rules**”), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes,

but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MIFID II Product Governance Rules.

UK MiFIR product governance / target market – The Final Terms in respect of any Notes may include a legend entitled “*UK MiFIR Product Governance*” which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a “**distributor**”) should take into consideration the target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the “**UK MiFIR Product Governance Rules**”) is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels. A determination will be made in relation to each issue about whether, for the purpose of the UK MiFIR Product Governance Rules, any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the UK MIFIR Product Governance Rules.

EU BENCHMARK REGULATION – Amounts payable under the Notes may be calculated by reference to one or more “benchmarks” for the purposes of Regulation (EU) No. 2016/1011 of the European Parliament and of the Council of 8 June 2016 (the “**EU Benchmark Regulation**”). In this case, a statement will be included in the applicable Final Terms as to whether or not the relevant administrator of the “benchmark” is included in ESMA's register of administrators under Article 36 of the EU Benchmark Regulation. Certain “benchmarks” may either (i) not fall within the scope of the EU Benchmark Regulation by virtue of Article 2 of that regulation or (ii) the transitional provisions in Article 51 of the EU Benchmark Regulation, apply such that the administrator of certain other “benchmarks” which would otherwise be in scope at the date of the relevant Final Terms is not required to obtain authorisation/registration (or, if located outside of the European Union, recognition, endorsement or equivalence).

All references in this document to “**U.S. dollars**”, “**USD**” and “**U.S.\$**” refer to United States dollars, those to “**Sterling**” refer to pounds sterling, and those to “**euro**”, “**€**” and “**EUR**” refer to the currency introduced at the start of the third stage of European economic and monetary union pursuant to the Treaty on the Functioning of the European Union, as amended.

In this Base Prospectus, unless contrary intention appears, a reference to a law or a provision of a law is a reference to that law or provision as extended, amended or re-enacted.

All references in this document to “**KBC Bank Group**” refer to KBC Bank NV together with its subsidiaries and all references in this document to “**KBC Group**”, “**Group**” or “**KBC**” refer to KBC Group NV together with its subsidiaries.

References to “**Affiliate**” in this document, means in relation to any entity (the “**First Entity**”), any entity controlled, directly or indirectly, by the First Entity, any entity that controls, directly or indirectly, the First Entity or any entity directly or indirectly under common control with the First Entity. For these purposes “**control**” means ownership of a majority of the voting power of an entity.

This Base Prospectus contains or incorporates by reference certain statements that constitute forward-looking statements. Such forward-looking statements may include, without limitation, statements relating to the Issuer's or the Guarantor's business strategies, trends in its business, competition and competitive advantage, regulatory changes and restructuring plans.

Words such as **believes, expects, projects, anticipates, seeks, estimates, intends, plans** or similar expressions are intended to identify forward-looking statements but are not the exclusive means of identifying such statements. The Issuer and the Guarantor do not intend to update these forward-looking statements except as may be required by applicable securities laws.

By their very nature, forward-looking statements involve inherent risks and uncertainties, both general and specific, and risks exist that predictions, forecasts, projections and other outcomes described or implied in

forward-looking statements will not be achieved. A number of important factors could cause actual results, performance or achievements to differ materially from the plans, objectives, expectations, estimates and intentions expressed in such forward-looking statements. These factors include: (i) the ability to maintain sufficient liquidity and access to capital markets; (ii) market and interest rate fluctuations; (iii) the strength of global economy in general and the strength of the economies of the countries in which the Issuer or the Guarantor conducts operations; (iv) the potential impact of sovereign risk in certain European Union countries; (v) adverse rating actions by credit rating agencies; (vi) the ability of counterparties to meet their obligations to the Issuer or the Guarantor; (vii) the effects of, and changes in, fiscal, monetary, trade and tax policies, financial regulation and currency fluctuations; (viii) the possibility of the imposition of foreign exchange controls by government and monetary authorities; (ix) operational factors, such as systems failure, human error, or the failure to implement procedures properly; (x) actions taken by regulators with respect to the Issuer's or the Guarantor's business and practices in one or more of the countries in which the Issuer or the Guarantor conducts operations; (xi) the adverse resolution of litigation and other contingencies; (xii) the Issuer's or the Guarantor's success at managing the risks involved in the foregoing.

The foregoing list of important factors is not exclusive; when evaluating forward-looking statements, investors should carefully consider the foregoing factors and other uncertainties and events, as well as the other risks identified in this Base Prospectus.

This Base Prospectus contains various amounts and percentages which have been rounded and, as a result, when those amounts and percentages are added up, they may not total.

This Base Prospectus constitutes a base prospectus in respect of all Notes other than Exempt Notes issued under the Programme for the purposes of Article 8 of the Prospectus Regulation.

Each of the Issuer and the Guarantor (together the “**Responsible Persons**”) accepts responsibility for the information contained in this Base Prospectus and the Final Terms for each Tranche of Notes issued under the Programme. To the best of the knowledge of the Issuer and the Guarantor (each having taken all reasonable care to ensure that such is the case) the information contained in this Base Prospectus is in accordance with the facts and does not omit anything likely to affect its import.

The applicable Final Terms will (if applicable) contain information relating to any underlying equity security, ETF share, basket of equity securities and/or ETF shares, index, inflation index, equity index, currency or debt security (each a “Reference Item”) to which the relevant Notes relate and which is contained in such Final Terms. However, unless otherwise expressly stated in the relevant Final Terms, any information contained therein relating to a Reference Item will only consist of extracts from, or summaries of, information contained in financial and other information released publicly by the issuer, owner or sponsor, as the case may be, of such Reference Item or component thereof. Each of the Issuer and the Guarantor will, unless otherwise expressly stated in the applicable Final Terms, confirm that such extracts or summaries have been accurately reproduced and that, so far as it is aware, and is able to ascertain from information published by the issuer, owner or sponsor, as the case may be, of such Reference Item or component thereof, no facts have been omitted that would render the information reproduced inaccurate or misleading.

This Base Prospectus is to be read in conjunction with any supplement hereto and all documents which are deemed to be incorporated herein by reference (see “*Documents Incorporated by Reference*” below). This Base Prospectus shall be read and construed on the basis that such documents are incorporated by reference and form part of this Base Prospectus. This Base Prospectus may only be used for the purposes for which it has been published. The information on websites referred to in this Base Prospectus are for information purposes only and do not form part of the Base Prospectus.

To the fullest extent permitted by law, any Dealer appointed under the Programme from time to time does not accept any responsibility for the contents of this Base Prospectus or for any other statement, made or purported to be made by the Dealer or on its behalf in connection with the Issuer, the Guarantor, or the issue and offering

of the Notes. Each Dealer accordingly disclaims all and any liability whether arising in tort or contract or otherwise (save as referred to in this section) which it might otherwise have in respect of this Base Prospectus or any such statement. The statements made in this paragraph are made without prejudice to the responsibility of the Issuer and the Guarantor under the Programme.

No person is or has been authorised by the Issuer, the Guarantor or any Dealer to give any information or to make any representation not contained in or not consistent with this Base Prospectus or any other information supplied in connection with the Programme or the Notes and, if given or made, such information or representation must not be relied upon as having been authorised by the Issuer, the Guarantor or any Dealer.

Neither this Base Prospectus nor any other information supplied in connection with the Programme or any Notes (i) is intended to provide the basis of any credit or other evaluation or (ii) should be considered as a recommendation or constituting an invitation or offer by the Issuer, the Guarantor or any Dealer that any recipient of this Base Prospectus or any other information supplied in connection with the Programme or of any Notes should purchase any Notes. Each investor contemplating purchasing any Notes should make its own independent investigation of the financial condition and affairs, and its own appraisal of the creditworthiness, of the Issuer and/or the Guarantor. Neither this Base Prospectus nor any other information supplied in connection with the Programme or any Notes constitutes an offer by or on behalf of the Issuer or the Guarantor or any Dealer to any person to subscribe for or to purchase any Notes.

Neither the delivery of this Base Prospectus nor the offering, sale or delivery of any Notes issued hereunder shall in any circumstances imply that the information contained herein concerning the Issuer and/or the Guarantor is correct at any time subsequent to the date hereof or that any other information supplied in connection with the Programme is correct as of any time subsequent to the date indicated in the document containing the same. The Dealers appointed under the Programme from time to time expressly do not undertake to review the financial condition or affairs of the Issuer or the Guarantor during the life of the Programme. Investors should review, *inter alia*, the documents incorporated herein by reference when deciding whether or not to purchase any Notes.

The distribution of this Base Prospectus and the offer or sale of Notes may be restricted by law in certain jurisdictions.

This Base Prospectus does not constitute an offer to sell or the solicitation of an offer to buy any Notes in any jurisdiction to any person to whom it is unlawful to make the offer or solicitation in such jurisdiction.

The distribution of this Base Prospectus and the offer or sale of Notes may be restricted by law in certain jurisdictions. None of the Issuer, the Guarantor and the Dealers represent that this Base Prospectus may be lawfully distributed, or that any Notes may be lawfully offered, in compliance with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assume any responsibility for facilitating any such distribution or offering. In particular, unless specifically indicated to the contrary in the applicable Final Terms, no action has been taken by the Issuer, the Guarantor or the Dealers which is intended to permit an offer to the public of any Notes or distribution of this Base Prospectus in any jurisdiction where action for that purpose is required. Accordingly, no Notes may be offered or sold, directly or indirectly, and neither this Base Prospectus nor any advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations. Persons into whose possession this Base Prospectus or any Notes may come must inform themselves about, and observe any such restrictions on the distribution of this Base Prospectus and the offering and sale of Notes. In particular, there are restrictions on the distribution of this Base Prospectus and the offer or sale of Notes in the United States, the EEA and the United Kingdom, see “*Subscription and Sale*” below.

The Notes may not be a suitable investment for all investors. Each potential investor in the Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor may wish to consider, either on its own or with the help of its financial and other professional advisers, whether it:

- has sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained or incorporated by reference in this Base Prospectus or any applicable supplement or in the applicable Final Terms;
- has access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;
- has sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including Notes where the currency for principal or interest payments is different from the potential investor's currency;
- understands thoroughly the terms of the Notes and is familiar with the behaviour of any relevant indices and financial markets; and
- is able to evaluate possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Legal investment considerations may restrict certain investments. The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (1) Notes are legal investments for it, (2) Notes can be used as collateral for various types of borrowing and (3) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules.

No debt securities falling under Article 19 of Commission Delegated Regulation (EU) No 2019/980 (the “**Delegated Regulation**”), i.e. securities that are exchangeable for or convertible into shares, will be issued under this Base Prospectus.

Should the Issuer intend to issue a type of Non-Exempt Note that is not expressly documented under this Base Prospectus, which may in particular concern certain types of Credit Linked Notes, for which the relevant Category A information within the meaning of Article 26 of the Delegated Regulation is not included in this Base Prospectus, the Issuer will make such information available to prospective investors in accordance with the requirements of the Prospectus Regulation (such as, for example, by the publication of a drawdown prospectus containing the required Category A information referred to above).

RISK FACTORS

This section sets out the principal risks inherent in investing in Notes issued under the Programme, including key risks relating to investments linked to the different underlyings or bases of reference.

Each of the Issuer and the Guarantor believes that the following factors may affect its ability to fulfil its obligations under Notes issued under the Programme. All of these factors are contingencies which may or may not occur and neither the Issuer nor the Guarantor is in a position to express a view on the likelihood of any such contingency occurring.

In addition, factors which are material for the purpose of assessing the market risks associated with Notes issued under the Programme are also described below.

Each of the Issuer and the Guarantor believes that the factors described below represent the principal risks inherent in investing in Notes issued under the Programme, but the inability of the Issuer or the Guarantor to pay interest, principal or other amounts on or in connection with any Notes may occur for other unknown reasons or for reasons which may not be considered significant risks by the Issuer or the Guarantor based on the information currently available to it or which it may not currently be able to anticipate and the Issuer and the Guarantor do not represent that the risks of holding any Notes as set out below are exhaustive. Prospective investors should also read the detailed information set out elsewhere in this Base Prospectus (including any documents incorporated by reference herein) and reach their own views prior to making any investment decision and consult with their own professional advisors (if they consider it necessary).

THE PURCHASE OF NOTES MAY INVOLVE SUBSTANTIAL RISKS. PRIOR TO MAKING AN INVESTMENT DECISION, PROSPECTIVE INVESTORS SHOULD CONSIDER CAREFULLY, IN LIGHT OF THEIR OWN FINANCIAL CIRCUMSTANCES AND INVESTMENT OBJECTIVES, (I) ALL THE INFORMATION SET FORTH IN THIS BASE PROSPECTUS (AND ANY SUPPLEMENT, IF APPLICABLE) AND, IN PARTICULAR, THE CONSIDERATIONS SET FORTH BELOW AND (II) ALL THE INFORMATION SET FORTH IN THE APPLICABLE FINAL TERMS.

AN INVESTMENT IN NOTES LINKED TO ONE OR MORE REFERENCE ITEMS MAY ENTAIL SIGNIFICANT RISKS NOT ASSOCIATED WITH INVESTMENTS IN A CONVENTIONAL DEBT SECURITY, INCLUDING BUT NOT LIMITED TO THE RISKS SET OUT BELOW. SUCH NOTES MAY BE PRINCIPAL PROTECTED OR, ALTERNATIVELY, THE PRINCIPAL INVESTED IN SUCH NOTES MAY BE AT RISK. IF THE NOTES ARE PRINCIPAL PROTECTED, SUCH PROTECTION IS NEVERTHELESS DEPENDENT ON THE ISSUER, FAILING WHICH, THE GUARANTOR, PERFORMING ITS OBLIGATIONS WITH RESPECT TO THE NOTES. IF THE NOTES ARE NOT PRINCIPAL PROTECTED, THE AMOUNT PAID BY THE ISSUER ON REDEMPTION OF THE NOTES MAY BE LESS THAN THE NOMINAL AMOUNT OF THE NOTES, TOGETHER WITH ANY ACCRUED INTEREST, AND MAY IN CERTAIN CIRCUMSTANCES BE ZERO.

CERTAIN ISSUES OF NOTES INVOLVE A HIGH DEGREE OF RISK AND POTENTIAL INVESTORS SHOULD BE PREPARED TO SUSTAIN A LOSS OF ALL OR PART OF THEIR INVESTMENT.

Capitalised terms used herein and not otherwise defined shall bear the meanings ascribed to them in the “Terms and Conditions of the Notes” below.

RISK FACTORS RELATING TO THE ISSUER AND THE GUARANTOR

1 Factors that may affect the Issuer's ability to fulfil its obligations under Notes issued under the Programme

The Issuer is a finance vehicle whose principal purpose is to raise debt to be on-lent to the Guarantor and other subsidiaries of the Guarantor. The Issuer does not have any trading assets and does not generate trading income. Notes issued under the Programme are guaranteed pursuant to the Guarantee. Accordingly, if the Guarantor's financial condition were to deteriorate, the Issuer and investors in the Notes may suffer direct and materially adverse consequences.

The risk factors as set out below in respect of the Guarantor may also apply, directly and/or indirectly, to the Issuer, due to the interconnectedness of the credit risks of the Issuer and the Guarantor (since the Issuer is a fully-owned subsidiary of the Guarantor) and due to the Guarantor itself guaranteeing the obligations of the Issuer under the Guarantee.

2 Risks relating to the business activities of KBC Bank Group and the markets in which it operates

2.1 Coronavirus (COVID-19) pandemic

Whilst the KBC Bank Group thoroughly assesses the risks assessments related to the Guarantor and the KBC Bank Group, the worldwide outbreak of the COVID-19 pandemic is an unprecedented event which has put this assessment and its underpinnings to the test.

There have been four explicit areas of particular focus for the Guarantor in this respect: (i) credit risk, (ii) liquidity risk, (iii) market risk and (iv) broader operational resilience.

The worldwide economic challenges resulting from this crisis have the largest impact on credit losses in general, including credit losses incurred by the KBC Bank Group, both now and in the years ahead. Such credit losses include, but may not be limited to, credit losses situated in KBC Bank Group's loan portfolio. Please also refer to the risk factor entitled "*Credit risk*".

In addition to the general credit risk, the Coronavirus crisis will also have a negative impact on counterparty credit risk, as certain counterparties will be adversely impacted by this crisis, preventing them from fulfilling their financial obligations towards the KBC Bank Group.

Whilst the Guarantor may also face potential losses stemming from financial instruments to which the Guarantor is exposed via its trading and non-trading activities, this risk is not currently seen as being particularly higher as a direct consequence of the current Coronavirus crisis. Please also refer to the risk factors entitled "*Market risk in non-trading activities*" and "*Market risk in trading activities*".

Funding and liquidity risk also increase during a crisis as trust between financial institutions might decrease or disappear, which can influence the KBC Bank Group's funding capabilities in the market as well as its liquidity position. As at the date of this Base Prospectus the liquidity position of the KBC Bank Group remains solid. Please also refer to the risk factor entitled "*Liquidity risk*".

Other risks are also impacted by the Coronavirus crisis, such as operational risk, both within the KBC Bank Group and in third parties to which the KBC Bank Group has outsourced some of its activities. Operational risks are related to business continuity management, information security, outsourcing risk and IT risk. Please also refer to the risk factor entitled "*Operational risk*".

The transition to new ways of working due to this crisis (e.g. remotely, from backup locations and home office) was organised without major incidents. New information flows were established to provide management with the most up-to-date and relevant information.

The Coronavirus pandemic has also led to regulatory developments in the jurisdictions in which the Guarantor operates. As stated in the section “*Note 1.4: Impact of the coronavirus crisis*” on pages 121 to 126 of the Guarantor’s 2020 Annual Report which is incorporated by reference into this Base Prospectus as set out in the section entitled “*Documents incorporated by reference*” on page 50 and following of this Base Prospectus, impairment on loans totalling EUR 1,068 million was recognised for the 2020 financial year. The impairment comprises collective impairment charges related to the Coronavirus crisis for an amount of EUR 783 million (EUR 111 million captured by Expected Credit Loss (“ECL”) models, and a management overlay of EUR 672 million) and other impairment charges for an amount of 285 million. As stated in the section “*Covid-19 (note 1.4)*” on pages 24 to 26 of the extended quarterly report for the second quarter of 2021 of KBC Group NV, which is available at <https://www.kbc.com/content/dam/kbcom/doc/investor-relations/Results/2q2021/2q2021-quarterly-report-en.pdf> and is not incorporated by reference into this Base Prospectus, the Group performed an update of its COVID-19 impact assessment in the second quarter of 2021 which resulted in a total collective COVID-19 ECL of EUR 628 million (versus EUR 757 million at the end of the first quarter of 2021). The latter implies an ECL decrease of EUR 129 million in the second quarter of 2021 compared to the 26 million ECL decrease of the first quarter of 2021. Including the total Coronavirus-related ECL, the credit cost ratio amounted to 0.60% in 2020. Disregarding the collective Coronavirus-related ECL, it would have been 0.16%. According to the extended quarterly report for the second quarter of 2021 of KBC Group NV, the credit cost ratio of the Group for the first six months of 2021 stood at – 0.22% (- 0.06% excluding the amount recorded for the Coronavirus crisis). For more information on the financial impact of the Coronavirus pandemic on the KBC Bank Group, as well as a status overview of the different government and sector measures in each of the KBC Bank Group’s core countries, please refer to pages 121 to 126 of the Guarantor’s 2020 Annual Report.

Please also refer to the risk factor entitled “*Legal and regulatory risk*”. Examples include the measures and regulations adopted by the Belgian Federal Government regarding the granting of payment deferrals, additional lines of credit and other types of financial relief provided by the Belgian financial sector. Payment deferrals, guarantee schemes and liquidity assistance measures were also adopted by the local governments in our other core countries, in close cooperation with the national regulator.

The Coronavirus pandemic had a negative impact on the profitability and performance of the Guarantor as well as on the credit rating and more specifically the credit rating outlook of the KBC Bank Group. Going forward, the impacts of the crisis may continue to weigh on profitability. For an overview of the Group’s current credit ratings, please refer to the risk factor entitled “*Credit ratings*” on page 15 of this Base Prospectus and the section entitled “*Credit ratings*” in the “*Description of the Guarantor*” on pages 310 and 311 of this Base Prospectus.

The Guarantor also refers to the Guarantor’s 2020 Annual Report (which is incorporated by reference in this Base Prospectus) in its entirety, for the financial reporting on the full-year of 2020 (in which the COVID-19 crisis started).

2.2 Legal and regulatory risk

The Guarantor’s business activities are subject to substantial regulation and regulatory oversight in the jurisdictions in which it operates.

Recent regulatory and legislative developments applicable to credit institutions, such as the KBC Bank Group may adversely impact the Guarantor and/or its subsidiaries, its business, financial condition or

results of operation. A non-exhaustive overview of certain important regulatory and legislative developments, such as changes to the prudential requirements for credit institutions, capital adequacy rules, recovery and resolution mechanisms, is set out in the section entitled “*Banking supervision and regulation*” in the “*Description of the Guarantor*” starting on page 328 of this Base Prospectus.

Moreover, there seems to have been an increase in the level of diligence (e.g. additional ad hoc data collection exercises, questionnaires, etc.) applied by governments and regulators to enforce applicable regulations and calls to impose further charges on the financial services industry in recent years (e.g. additional levy of taxes). Such increased scrutiny or charges may require the Guarantor to take additional measures which, in turn, may have adverse effects on its business, financial condition and results of operations.

One of the factors that currently remain uncertain, is the structure of the future relationship of the United Kingdom (the “UK”) with the European Union (the “EU”). The trade deal contains limited application to financial services and no decisions on regulatory equivalence through which the EU recognises the UK regulatory regime and its different rules. This absence of equivalence recognition has its consequences, especially for cross-border financial activities between the UK and the EU.

The technical negotiations linked to the Financial Services Memorandum of Understanding which sets out a framework for regulatory co-operation and a joint forum for discussing rules and procedures as well as the sharing of information, were concluded before the end of March 2021. However, further formal steps need to be undertaken on both sides before the Memorandum of Understanding can be signed. The KBC Bank Group does not expect there to be any material impact on its activities. The focus of the KBC Bank Group has now shifted to following up regulatory equivalence decisions and the possible regulatory divergence that the UK wants to pursue.

Not only Brexit, but also environmental, social and governance (“ESG”) risks are high on the agenda of the legislators and regulators, leading to a number of directives, guidelines and disclosure requirements. These have to be gradually implemented in the coming years with the main focus on strategy, governance, risk management and internal and external reporting. The Guarantor is taking the necessary actions to implement and to be compliant with all new regulation aiming for a timely implementation. The importance of such disclosure for market participants, investors and society in general will only increase. For example, based upon the disclosure, financial institutions, and the Guarantor in particular, will be judged on how well they adapt to climate change and other ESG related aspects.

Operational resilience is also increasingly becoming a focus point of regulators, inspired by the Coronavirus crisis and the increasing cyber threats. The ECB announced that they will engage with institutions to ensure that operational disruptions are properly planned for, managed and mitigated. Within the KBC Bank Group, key building blocks (such as business continuity management, cyber security and outsourcing risk management) are in place and are being further improved. However, whether additional steps are needed and how the different existing building blocks can be better integrated will be investigated further.

Any failure by the Guarantor to meet legal and regulatory requirements could result in administrative, civil and/or criminal actions or sanctions.

2.3 Performance risk

In recent years, the Guarantor’s performance remained very strong (e.g. as reflected in the high return on equity of 5.9% as at 31 December 2020, despite the adverse impact of the Coronavirus (COVID-19) pandemic), which underlines the resiliency of its business model in a challenging environment.

The Guarantor is operating in a dynamic environment and a world of disruption, bringing opportunities, but also challenges and risks which are re-shaping the financial industry, including:

- A persistent low and negative interest rate environment which has a negative impact on the Guarantor's activities.
- Big technology companies challenging the traditional financial players in providing no-frills, no-hassle services and superior customer experience. Clients have become accustomed to convenience, instant delivery of products and services, and personal advice anywhere at any time. These competitive pressures could result in increased pricing pressures on a number of the Guarantor's products and services and in the loss of market share in one or more such markets.
- Increased attention on sustainability and climate change are changing the expectations, mindset, consumption and investment patterns of our stakeholders. At the same time the Guarantor needs to manage the impact of worldwide climate change on its banking and investment activities. These changes are expected to further affect the activities and products of the Guarantor in the coming years.
- Traditional bank financing solutions are being bypassed by growing disintermediation in corporate and financing for small and medium enterprises ("SMEs"), facilitated by the development of the EU Capital Markets Union. These changes could result in increased pricing pressures on a number of the Guarantor's products and services and in the loss of market share in one or more such markets.
- Strong regulatory pressure and uncertainty, with continued challenges in terms of level playing field requires a lot of attention and even more staff being involved in regulatory reporting activities.
- Mergers and acquisitions activities, as well as change projects in line with overall KBC strategy could negatively impact the performance of the Guarantor if such activities and projects are not managed and implemented well.

2.4 Credit risk

Credit risk is the potential negative deviation from the expected value of a financial instrument arising from the non-payment or non-performance by a contracting party (for instance a borrower), due to that party's insolvency, inability or lack of willingness to pay or perform, or to events or measures taken by the political or monetary authorities of a particular country (country risk). Credit risk thus encompasses default risk and country risk, but also includes migration risk, which is the risk for adverse changes in credit ratings.

The Guarantor is subject to a wide range of credit risks, potentially putting pressure on profitability (higher impairments), capital and risk profile. Although current indications are that the impact of the COVID-19 pandemic on credit quality is likely to be less negative than initially feared, such impacts may still materialise, especially as a result of the lifting of all supporting measures or in case the current vaccines prove to be less effective for new variants of the Coronavirus.

The main source of credit risk is the Guarantor's loan portfolio. It includes all the loans and guarantees that the Guarantor has granted to individuals, companies, governments and banks (including debt securities if they are issued by companies or banks). The aggregate outstanding amount of the KBC Bank Group's loan portfolio amounted to EUR 181 billion on 31 December 2020. Most counterparties are private individuals (44.3%) and corporates (46.7%). Most counterparties are located in Belgium

(64.0%) or in the Czech Republic (17.6%). 3.3% of this portfolio comprises impaired loans (i.e. loans where it is unlikely that the full contractual principal and interest will be repaid/paid).

The mortgage portfolio of the KBC Bank Group amounts to roughly EUR 71 billion, which constitutes 45 per cent. of the KBC Bank Group's loans and advances to customers being EUR 157.6 billion, excluding reverse repos (see note 2.3 of the Guarantor's 2020 Annual Report). EUR 37.8 billion of the mortgage portfolio has been granted by the Belgium Business Unit, of which EUR 427 million has an indexed loan-to-value ratio of over 100 per cent. (i.e. 0.27 per cent. of the KBC Bank Group's loans and advances to customers). This more vulnerable part of the mortgage portfolio is thus very limited. There are no foreign exchange loans granted through the Belgium Business Unit.

The main sources of other credit risks are trading book securities, counterparty risk of derivatives and government securities.

A more detailed breakdown of the Guarantor's loan portfolio, including information on impairments, can be found on pages 54 and following of the Guarantor's 2020 Annual Report and the impact of the Coronavirus crisis can be found in Note 1.4 of the consolidated financial statements to the Guarantor's 2020 Annual Report. More information on credit risks relating to trading book securities, counterparty risk of derivatives and government securities can be found on page 59 of the Guarantor's 2020 Annual Report. The Guarantor's 2020 Annual Report is incorporated by reference into this Base Prospectus as set out in the section entitled "*Documents incorporated by reference*" on page 50 and following of this Base Prospectus.

2.5 Operational risk

The Guarantor is exposed to a large array of operational risks, which are defined as risk of loss resulting from inadequate or failed internal processes and systems, human errors or sudden man-made or natural external events that could give rise to material losses in services to customer and to loss or liability to the KBC Bank Group. These events can potentially result in financial loss, liability to customers, administrative fines, penalties and/or reputational damages.

The Guarantor endeavours to hedge such risks by implementing adequate systems, controls and processes tailored to its business. Nevertheless, it is possible that these measures prove to be ineffective in relation to operational risks to which the Guarantor is exposed, including in crisis situations such as the COVID-19 pandemic (see above).

The main operational risks of the Guarantor are as follows (in order of importance):

- *Conduct and compliance risk*: The risk of losses or sanctions due to failure (or the perceived failure) to comply with the statutory and regulatory codes of integrity and conduct or with internal policies in this regard and with the institution's own values and codes of conduct in relation to the integrity of its activities. This also includes the current or prospective risk of losses arising from inappropriate supply of financial services, including cases of willful or negligent misconduct. Conduct risk covers many "hard" legal aspects, such as informing customers, providing the required transparency, avoiding misleading information and forced tying of products, selling the right product to the right customer and at the right time, conflicts of interest in doing business, manipulation of benchmarks, obstacles to changing financial products during their lifetime, automatic provision of products or unfair treatment of customers' complaints. There are also softer aspects to include in conduct risk. These are based specifically on behaviour and are linked to people, culture and mindset.

- *Information security risk*: The risk arising from loss, misuse, unauthorised disclosure or modification, inaccessibility, inaccuracy and damage of information.
- *IT (Information Technology) risk*: The risk of losses resulting from misalignment between business and IT strategies, from the inability of IT to implement business and regulatory requirements in a timely manner or from unstable or unavailable IT services.
- *Process risk*: The risk of losses caused by insufficient, badly designed or poorly implemented processes and processing controls and unintentional human errors or omissions during normal (transaction) processing.
- *Model risk*: The risk of losses or potential for adverse consequences arising from decisions based on incorrect or misused model outputs and model reports. There is a distinction between model errors and wrong application of the model (e.g. use of outdated models).
- *Outsourcing risk and third party risk*: Risks stemming from problems regarding continuity, integrity and/or quality of the activities outsourced to or partnered with third parties (whether or not within a group) or from the equipment or staff made available by these third parties.
- *Legal risk*: The risk of losses caused by bad management of disputes, the inability to protect our intellectual property (IP), failure to manage (non-)contractual obligations or failure to timely and correctly detect, assess and implement legislation and regulations.
- *Fraud risk*: The risk of deliberate abuse of procedures, systems, assets, products and/or services by one or more persons who intend to deceitfully or unlawfully benefit themselves or others.
- *Business continuity risk*: The risk that business activities cannot be continued at an acceptable pre-defined level resulting from the lack of a strategic and tactical capability of the organisation to plan for and respond to serious (business) disruptions, crises or disasters.

The Guarantor continues to monitor operational risk closely in the context of the Coronavirus crisis. As at the date of this Base Prospectus, no major issues or incidents have been reported and operational losses remain well under control, due to appropriate actions being taken in all areas of operational risk, including intensified monitoring and management of cyber-attacks.

2.6 Market risk in non-trading activities

Market risk is defined as the potential negative deviation from the expected value of a financial instrument (or portfolio of such instruments) due to changes in the level or in the volatility of market prices (e.g. interest rates, exchange rates and equity or commodity prices). Market risk is related to trading and non-trading activities.

The KBC Bank Group is mainly exposed to interest rate risk, credit spread risk and equity price risk:

- Interest rate risk is the potential negative deviation from the expected value of a financial instrument or portfolio due to changes in the level or in the volatility of interest rates. The value of interest bearing positions will decrease when market interest rates increase and vice-versa, unless the position contains inherent protection against such decrease, such as a variable or floating interest rate mechanism. The KBC Bank Group estimates that, as at 31 December 2020, an increase of market interest rates by 10 basis points would lead to a decrease of the value of the KBC Bank Group's total portfolio by EUR 64 million.
- Credit spread risk is the risk due to changes in the level or in the volatility of credit spreads. The value of the KBC Bank Group's positions will decrease when credit spread increases,

and *vice versa*. This is mainly relevant for the KBC Bank Group's portfolio of sovereign and non-sovereign bonds. As at 31 December 2020, the total carrying value (i.e. the amount at which an asset or liability is recognised in the KBC Bank Group's accounts) of the KBC Bank Group's sovereign and non-sovereign bond portfolio combined was EUR 51.51 billion. The KBC Bank Group estimates that an increase in credit spread of 100 basis points across the entire curve would lead to a theoretical negative economic impact of EUR 0.66 billion on the value of both portfolios combined.

- Equity risk is the risk due to changes in the level or in the volatility of equity prices. The total value of our equity portfolio as at 31 December 2020 was EUR 0.27 billion. The KBC Bank Group estimates that a 25% drop in equity prices would have a negative impact of EUR -59 million on the value of this portfolio.

More information regarding market risks in non-trading activities generally, and interest rate risk, credit spread risk and equity risk specifically, can be found on pages 60 and following of the Guarantor's 2020 Annual Report. More information on credit risks relating to trading book securities, counterparty risk of derivatives and government securities can be found on page 59 of the Guarantor's 2020 Annual Report. The Guarantor's 2020 Annual Report is incorporated by reference into this Base Prospectus as set out in the section entitled "*Documents incorporated by reference*".

The COVID-19 pandemic increased the "low-for-longer" sentiment, meaning that interest rates remained at a low level, depressing interest income. Low interest rates are seen as a factor in boosting equity prices and lowering credit spreads. An uptick in interest rates may therefore have a negative impact on equity markets and on credit spreads. In the context of the post-pandemic recovery, inflation is rising across the globe mainly linked to supply shortages, which are at this point considered temporary. If they are more sustained, this could result in more structural inflation and higher interest rates.

2.7 Liquidity risk

Liquidity risk is the risk that the Guarantor will be unable to meet its liabilities and obligations as they come due, without incurring higher-than-expected costs.

CRD IV requires the Guarantor to meet targets set for the Basel III liquidity related ratios, i.e., (i) the liquidity coverage ratio ("**LCR**") which requires banks to hold sufficient unencumbered high quality liquid assets to withstand a 30-day stressed funding scenario and (ii) the net stable funding ratio ("**NSFR**") which is calculated as the ratio of an institution's amount of available stable funding to its amount of required stable funding.

Any failure of the Group to meet the liquidity ratios could result in administrative actions or sanctions or it ultimately being subject to any resolution action.

Due to the challenges for the economy posed by the crisis resulting from the COVID-19 pandemic, the ECB decided in March 2020 to allow credit institutions to use the liquidity buffers. The ECB launched the targeted longer-term refinancing operation in June 2020 (the "**TLTRO III**") to support the real economy, in which the KBC Bank Group participated. The KBC Bank Group's liquidity figures remained very strong at any moment evidenced by an NSFR of 146% and a 12-month average LCR of 147% per end December 2020.

Please also refer to the section entitled "*Liquidity risk*" on pages 75 to 77 of the Guarantor's 2020 Annual Report. The Guarantor's 2020 Annual Report is incorporated by reference into this Base Prospectus as set out in the section entitled "*Documents incorporated by reference*".

Liquidity risk can be sub-divided in contingency liquidity risk, structural liquidity risk and operational liquidity risk.

Contingency liquidity risk is the risk occurring when the Guarantor may not be able to attract additional funds or replace maturing liabilities under stressed market conditions. This risk, assessed on the basis of liquidity stress tests, relates to changes to the liquidity buffer of a bank under extreme stressed scenarios.

Structural liquidity risk is the risk occurring when the Guarantor's long-term assets and liabilities might not be (re)financed on time or can only be refinanced at a higher-than-expected cost. Typical for banking operations, funding sources generally have a shorter maturity than the assets that are funded, leading to a negative net liquidity gap in the shorter time buckets and a positive net liquidity gap in the longer-term buckets. This creates liquidity risk if the Guarantor would be unable to renew maturing short-term funding.

Operational liquidity risk is the risk occurring when the Guarantor's operational liquidity management cannot ensure that a sufficient buffer is available at all times to deal with extreme liquidity events, in which no wholesale funding can be rolled over.

Besides a liquidity risk management framework and a funding management framework, standards for stress testing and policies on the internal liquidity adequacy assessment process ("**ILAAP**"), collateral management, use of public funding sources and intraday liquidity management are also in place to steer the overall liquidity risk management process of the Group.

Stressed or extreme market conditions as mentioned above can be triggered, for example, by the COVID-19 pandemic. So far, the liquidity position of the KBC Bank Group has been able to withstand the stress of the Coronavirus crisis and remains very strong. A Coronavirus stress test indicates that a prolonged stress period can be overcome by the Guarantor.

2.8 Market risk in trading activities

The KBC Bank Group is exposed to market risks via the trading activities of its dealing rooms in Belgium, the Czech Republic, Slovakia, Bulgaria and Hungary, as well as via a minor presence in the United Kingdom and Asia. Wherever possible and practical, the residual trading positions of the Group's foreign entities are systematically transferred to KBC Bank NV, reflecting that the Group's trading activity is managed centrally both from a business and a risk management perspective. Consequently, KBC Bank NV holds about 96% of the trading-book-related regulatory capital of the KBC Bank Group.

Market risk exposures in the trading book are measured by the Historical Value-at-Risk ("**HVaR**") method, which is defined as an estimate of the amount of economic value that might be lost due to market risk over a defined holding period. The KBC Bank Group uses the historical simulation method, based on patterns of experience over the previous two years. The KBC Bank Group's HVaR estimate, calculated on the basis of a one-day holding period, was EUR 8 million as at 31 December 2020, and varied between EUR 4 million and EUR 11 million during the financial year of 2020.

2.9 Credit ratings

The credit ratings of the KBC Bank Group are important to maintain access to key markets and trading counterparties. Please also refer to the section entitled "*Credit ratings*" in the "*Description of the Guarantor*" on pages 310 and 311 of this Base Prospectus for an overview of the KBC Bank Group's current credit ratings.

Any failure by the KBC Bank Group to maintain its credit ratings could adversely impact the competitive position of the KBC Bank Group, make entering into hedging transactions more difficult and increase borrowing costs or limit access to the capital markets or the ability of the KBC Bank Group to engage

in funding transactions. In connection with certain trading agreements, the KBC Bank Group might also be required, if its current ratings are not maintained, to provide additional collateral.

As at the date of this Base Prospectus, the long-term debt ratings remained the same for KBC Bank Group as they were at the start of the Coronavirus crisis (notwithstanding, the Moody's long-term debt rating has been downgraded, but driven by methodology changes applied by Moody's).

2.10 Capital adequacy

The requirements of Directive 2013/36/EU of the European Parliament and of the Council of 26 June 2013 on access to the activity of credit institutions and the prudential supervision of credit institutions and investment firms, as last amended by Directive (EU) 2021/1338 of 16 February 2021 and as may be further amended or replaced from time to time ("**CRD**") include a capital conservation buffer and, in certain circumstances, a systemic buffer and/or a countercyclical buffer which come on top of the minimum requirements. These additional requirements have an impact on the Guarantor and its operations, as it imposes higher capital requirements.

Due to the challenges for the economy posed by the Coronavirus crisis, the ECB decided in March 2020 to allow credit institutions to operate temporarily below the level of capital defined by the pillar 2 guidance ("**P2G**"), and the capital conservation buffer. These temporary measures were enhanced by the appropriate release of the countercyclical capital buffer by the National Bank of Belgium. Various local competent authorities in the Guarantor's core markets also decided to release the countercyclical capital buffer.

Any failure of the Guarantor to meet the regulatory capital ratios could result in administrative actions or sanctions or it ultimately being subject to any resolution action.

Please refer to the section entitled "*Banking supervision and regulation*" in the "*Description of the Guarantor*" starting on page 328 of this Base Prospectus in which a broader overview of the capital adequacy requirements is provided.

RISK FACTORS RELATING TO THE NOTES

3 Risks relating to the structure and terms of the Notes

3.1 Noteholders may be required to absorb losses in the event that the KBC Bank Group becomes non-viable or fails

Noteholders may lose their investment in the event that the KBC Bank Group becomes non-viable or fails. In such circumstances and aside from parts of the KBC Bank Group that can still go through normal insolvency proceedings, resolution authorities may require senior notes to be bailed-in, including (without limitation) the rights of Noteholders under the Guarantee.

In order to safeguard financial stability and minimize taxpayers' exposure to losses, Directive 2014/59/EU providing for the establishment of an EU-wide framework for the recovery and resolutions of credit institutions and investment firms (as amended, the "**Bank Recovery and Resolution Directive**" or "**BRRD II**") as implemented in the Banking Law (as defined below) and as transposed into (i) Belgian Law by the law of 25 April 2014 on the status and supervision of credit institutions, and any other law or regulation relating to the transposition of Directive 2014/59/EU under Belgian law and (ii) Luxembourg law by the Luxembourg act dated 18 December 2015 on the failure of credit institutions and certain investment firms, as amended (the "**BRR Law**"), includes a "bail-in" tool in relation to unsecured debt (including the rights of Noteholders under the Guarantee) and a statutory "write-down and conversion power" in relation to regulatory capital instruments. These powers allow resolution authorities to write down the claims of unsecured creditors (including the rights of Noteholders under the Guarantee) of a failing institution in order to recapitalise the institution by allocating losses to its shareholders and unsecured creditors, or to convert debt into equity, as a means of restoring the institution's capital position.

The bail-in power includes the power to cancel a liability or modify the terms of contracts for the purposes of reducing or deferring the liabilities of the relevant financial institution and the power to convert a liability from one form to another, all with a view to recapitalising the failing credit institution.

The BRR Law is applicable, among others, to financial institutions (within the meaning of the BRR Law) incorporated under Luxembourg law that are (i) subsidiaries of credit institutions or certain investment firms (both within the meaning of the BRR Law) and (ii) supervised on a consolidated basis with of their parent company (in accordance with Articles 6 to 17 of Regulation (EU) 575/2013 on prudential requirements for credit institutions and investment firms, as amended (the "**CRR**")). The Issuer is a financial institution established under Luxembourg law that is subsidiary of the Guarantor (a Belgian credit institution), covered by its consolidated prudential supervision. It follows that the Issuer meets these criteria and, as a result, falls within the scope of the BRR Law. The Resolution Authority (which for the Issuer means the EU Single Resolution Board together with the resolution committee of the *Commission de surveillance du secteur financier* (the "**CSSF**"), acting in its capacity as the resolution council) has the power to bail-in (i.e. write down or convert) the liabilities arising out of the Notes issued by the Issuer.

The Resolution Authority (which for the KBC Bank Group and the Guarantor means the EU Single Resolution Board together with the resolution committee of the National Bank of Belgium) has the power to bail-in (i.e. write down or convert) senior debt such as the liability of the Guarantor under the Guarantee, after having written down or converted tier 1 capital instruments and tier 2 capital instruments. On 31 December 2020, the Guarantor's tier 1 and tier 2 capital amounted to EUR 17.8 billion in total.

Potential investors in the Notes should consider the risk that a Noteholder may lose all of its investment, including the principal amount plus any accrued and unpaid interest, if such statutory loss absorption measures are acted upon or that the rights of the Noteholders under the Guarantee or the Notes may be converted into ordinary shares.

Noteholders may have limited rights or no rights to challenge any decision to exercise such powers or to have that decision reviewed by a judicial or administrative process or otherwise.

3.2 The Notes will rank behind certain deposits and secured liabilities

All Notes will constitute direct, unconditional, unsecured and unsubordinated obligations of the Issuer and the Guarantee will constitute direct, unconditional, unsecured and unsubordinated obligations of the Guarantor. All Notes and the Guarantee rank and will rank *pari passu* with all present and future unsecured and unsubordinated obligations of the Issuer or the Guarantor, respectively, without any preference among themselves save to the extent that laws affecting creditors' rights generally in a bankruptcy or winding-up may give preference to any of such other obligations.

In case of bankruptcy or resolution of the KBC Bank Group, the Notes (including the obligations of the Guarantor under the Guarantee) will rank behind deposits of SMEs and physical persons, and *pari passu* with deposits of large enterprises in excess of EUR 100,000 and derivatives. This means that in such case, Noteholders will only be repaid after and to the extent that such deposits have been repaid first and hence bear a greater risk should the KBC Bank Group become (i) subject to the "bail-in" tool referred to in section "Noteholders may be required to absorb losses in the event that KBC Bank Group becomes non-viable or were to fail" above or (ii) insolvent. On 31 December 2019, the Guarantor, on a non-consolidated basis, had a total amount of customer deposits of EUR 204 billion (as reported in accordance with Belgian Generally Accepted Accounting Principles). The Guarantor does not separately report deposits of large enterprises, SMEs and physical persons.

Creditors that benefit from security rights granted by the Issuer or the Guarantor, will be paid in priority from the proceeds of that security and remaining proceeds (if any) will be paid to the other creditors (including the Noteholders) in accordance with their rank. On 31 December 2019, the book value of the Guarantor's pledged assets amounted to EUR 19.7 billion (on a non-consolidated basis in accordance with Belgian Generally Accepted Accounting Principles).

Below is an overview of the ranking of the various debt, equity and derivative instruments issued by KBC Bank Group in case of bankruptcy or resolution. The Notes fall within the category of "Other Preferred Senior Unsecured Liabilities".

Common Equity Tier 1	
Additional Tier 1	
Tier 2 + other Subordinated Liabilities	
Non Preferred Senior Unsecured Instruments <i>(art. 389/1, 2° Belgian Banking Law 25 April 2014)</i>	
Other Preferred Senior Unsecured Liabilities	} Pari passu
Derivatives	
Deposits Large Enterprises (> EUR 100,000)	

Deposits SME and Physical Persons (> EUR 100,000)
Covered Deposits (< EUR 100,000)
Secured Liabilities

Furthermore, it should be noted that the Banking Law introduced (i) a general lien on movable assets (“*algemeen voorrecht op roerende goederen*”/“*privèlège général sur biens meubles*”) for the benefit of the deposit guarantee fund (“*garantiefonds voor financiële diensten*”/“*fonds de garantie pour les services financiers*”) as well as (ii) a general lien on moveable assets for the benefit of natural persons and SMEs for deposits exceeding EUR 100,000. These general liens could have an impact on the recourse that Noteholders would have on the estate of the Guarantor in the case of an insolvency as the claims which benefit from a general lien will rank ahead of the claims of the Noteholders.

3.3 The Issuer may redeem the Notes prior to their stated maturity, subject to certain conditions

The Issuer may redeem the Notes prior to their stated maturity in accordance with the Conditions in the following circumstances:

- when, for reasons outside its control, the Issuer or the Guarantor would be unable after taking reasonable measures available to it to make payments of principal or Interest Amounts under the Notes or payments in respect of the Guarantee without having to pay additional amounts as a result of any change in, or amendment to, amongst other things, the laws or regulations of the Grand Duchy of Luxembourg or Belgium, which change or amendment becomes effective on or after the date on which agreement is reached to issue the first Tranche of the Notes (see Condition 5(b) (*Redemption for tax Reasons*));
- if so specified in the applicable Final Terms, at the discretionary option of the Issuer (see Condition 5(c) (*Redemption at the option of the Issuer (Issuer Call)*));
- in the event that the Calculation Agent determines that the performance of the Issuer’s obligations under the Notes or, as the case may be, the Guarantor’s obligations under the Guarantee or that any arrangements made to hedge the Issuer’s obligations under such Notes have or will become unlawful, illegal or otherwise prohibited in whole or in part (see Condition 5(f) (*Illegality*)); and
- in case the relevant Benchmark Reference Rate that is required to make any calculations on the Notes has ceased to be calculated and/or published and no successor or replacement rate has been determined by the Issuer in accordance with Condition 3(g) for any reason whatsoever.

If the prohibition of sales to consumers in Belgium is specified as applicable in the applicable Final Terms, the Notes will be redeemed at their applicable Early Redemption Amount, which will be (i) the Fixed Early Redemption Amount or the product of the Fixed Early Redemption Percentage and the nominal amount, as specified in the applicable Final Terms, together with accrued but unpaid interest if “Including Interest” is specified to be applicable in the applicable Final Terms or (ii) if no Fixed Early Redemption Amount or Fixed Early Redemption Percentage is specified in the applicable Final Terms, the fair market value thereof on the date of redemption, including accrued interest (if any), adjusted to account fully for any losses, expenses and costs to the Issuer (or any of its Affiliates) of unwinding any underlying or related hedging and funding arrangements, all as determined by the Calculation Agent.

If the prohibition of sales to consumers in Belgium is specified as not applicable in the applicable Final Terms, the Notes will be redeemed at (i) the fair market value, (ii) at the choice of the Noteholder at, (a)

the fair market value or (b) the amount which is the product of (x) the market value of the savings component and the derivative component, where account is taken of the accrued unpaid interest and (y) the nth power of the sum of 1 and the funding rate from that date until maturity (whereby n equals the remaining maturity expressed in years), or by default, the fair market value, or (iii) the higher of the fair market value or the nominal amount, in each case without any costs being charged for such termination and with a pro rata refund to the Noteholder of the costs initially paid by the Noteholders to the Issuer. In case of an early redemption due to a force majeure, the Notes shall redeem at the fair market value, without any costs being charged for such early termination.

The Early Redemption Amount may be less than the nominal amount of such Note, and may not be sufficient such that if an investor were to reinvest such amount, it would, on the scheduled redemption date, be worth an amount equal to the nominal amount of such Note.

3.4 The Issuer and the Guarantor are not prohibited from issuing additional debt

There is no restriction on the amount of debt that the Issuer or Guarantor may issue, which may rank senior to or *pari passu* with the obligations under the Notes or the Guarantee and which may benefit from security or guarantees not offered to the Noteholders. The Guarantor has also issued and may continue to issue covered bonds and allocate certain assets to a special estate for these purposes, and the Noteholders do not have recourse to such special estate.

The issue of any such debt or securities may reduce the amount recoverable by investors upon the Issuer's or Guarantor's bankruptcy. If the Issuer's or the Guarantor's financial condition were to deteriorate, the holders could suffer direct and materially adverse consequences, including suspension of interest and/or reduction of interest and/or reduction of principal and, if the Issuer or the Guarantor were liquidated (whether voluntarily or involuntarily), the Noteholders could suffer a loss of their entire investment.

The Guarantor may be required to issue additional debt because of regulatory requirements. In order to make the bail-in power (as described above) effective, credit institutions (including the Guarantor) must at all times meet a minimum requirement for own funds and eligible liabilities ("MREL") so that there is sufficient capital and liabilities available to stabilize and recapitalize failing credit institutions. The EU Single Resolution Board ("SRB") requires the Group to achieve a ratio of 9.67% (of risk weighted assets ("RWA")) by 31 December 2021 using eligible instruments of both the Group and the Guarantor. Currently, the Group satisfies this requirement since its MREL ratio consolidated as of 31 December 2019 is 10.4% of RWA.

3.5 Amendments to or the discontinuation of EURIBOR or other reference rates or benchmarks may adversely affect the value and liquidity of and return on certain Notes

Amounts payable with respect to certain Notes may be determined by reference to reference rates such as the Euro Interbank Offered Rate ("EURIBOR") and the Norwegian Interbank Offered Rate ("NIBOR") or other benchmarks within the meaning of the EU Benchmark Regulation ("Benchmarks"). EURIBOR is provided by the European Money Markets Institute ("EMMI") and NIBOR by the Norske Finansielle Referanser AS ("NoRe"). As at the date of this Base Prospectus, EMMI and NoRe appear in the register of administrators and benchmarks established and maintained by ESMA pursuant to Article 36 (*Register of administrators and benchmarks*) of the EU Benchmark Regulation.

Amendments to the way in which these reference rates are calculated or discontinuation of these reference rates can adversely affect the value of and return on any affected Notes. These reference rates are the subject of ongoing national and international regulatory reform. The implementation of the

anticipated reforms may result in changes to a benchmark's administration, causing it to perform differently than in the past, to be eliminated entirely or resulting in other consequences which cannot be predicted as at the date of this Base Prospectus. Any such consequence could have an adverse effect on any Notes linked to such a benchmark.

The EU Benchmark Regulation, which became applicable on 1 January 2018, applies to the provision of Benchmarks, the contribution of input data to a Benchmark and the use of a Benchmark within the European Union. Among other things, it (i) requires benchmark administrators to be authorised or registered (or, if non-EU-based, to be subject to an equivalent regime or otherwise recognised or endorsed) and (ii) prevents certain uses by EU supervised entities of benchmarks of administrators that are not authorised or registered (or, if non-EU based, not deemed equivalent or recognised or endorsed).

The EU Benchmark Regulation could have a material impact on any Notes linked to or referencing a benchmark in particular, if the methodology or other terms of the benchmark are changed in order to comply with the requirements of the EU Benchmark Regulation. Such changes could, among other things, have the effect of reducing, increasing or otherwise affecting the volatility of the published rate or level of the relevant benchmark.

More broadly, any of the international or national reforms, or the general increased regulatory scrutiny of benchmarks, could increase the costs and risks of administering or otherwise participating in the setting of a benchmark and complying with any such regulations or requirements.

Separately, the euro risk free-rate working group for the euro area has published a set of guiding principles and high level recommendations for fallback provisions in, amongst other things, new euro denominated cash products (including bonds) referencing EURIBOR. The guiding principles indicate, amongst other things, that continuing to reference EURIBOR in relevant contracts (without robust fallback provisions) may increase the risk to the euro area financial system. On 11 May 2021, the euro risk-free rate working group published its recommendations on EURIBOR fallback trigger events and fallback rates.

Such factors may have (without limitation) the following effects on certain benchmarks: (i) discouraging market participants from continuing to administer or contribute to a benchmark; (ii) triggering changes in the rules or methodologies used in the benchmark; and/or (iii) leading to the disappearance of the benchmark. Any of the above changes or any other consequential changes as a result of international or national reforms or other initiatives or investigations, could have a material adverse effect on the value of and return on any Notes linked to, referencing, or otherwise dependent (in whole or in part) upon, a benchmark.

Any changes to the administration of a Benchmark or the emergence of alternatives to a Benchmark as a result of regulatory reforms, may cause such Benchmark to perform differently than in the past or to be discontinued, or there could be other consequences which cannot be predicted. The potential discontinuation of a Benchmark or changes to its administration could require changes to the way in which the Rate of Interest is calculated in respect of any Notes referencing or linked to such Benchmark. The development of alternatives to a Benchmark may result in Notes linked to or referencing such Benchmark performing differently than would otherwise have been the case if such alternatives to such Benchmark had not developed. Any such consequence could have a material adverse effect on the value of, and return on, any Notes referencing or linked to a Benchmark.

The Conditions provide for certain fall-back arrangements in the event that a published Benchmark Reference Rate (including any page on which such Benchmark Reference Rate may be published (or any successor service)) becomes unavailable or a Benchmark Event (as defined in the Terms and Conditions) otherwise occurs. The Issuer may, after appointing and consulting with an Independent

Adviser, determine a Successor Rate or Alternative Reference Rate to be used in place of the relevant Benchmark Reference Rate where that relevant Benchmark has been selected as the Reference Rate to determine the Rate of Interest. The use of any such Successor Rate or Alternative Reference Rate to determine the Rate of Interest may result in Notes linked to or referencing the relevant Benchmark Reference Rate performing differently (including paying a lower Rate of Interest) than they would do if the relevant Benchmark Reference Rate were to continue to apply in its current form.

Furthermore, if a Successor Rate or Alternative Reference Rate for the relevant Benchmark is determined by the Issuer, the Conditions provide that the Issuer may vary the Conditions, as necessary, to ensure the proper operation of such Successor Rate or Alternative Reference Rate, without any requirement for consent or approval of the Noteholders.

If a Successor Rate or Alternative Reference Rate is determined by the Issuer, the Conditions also provide that an Adjustment Spread may be determined by the Issuer to be applied to such Successor Rate or Alternative Reference Rate. The aim of the Adjustment Spread is to reduce or eliminate, so far as is practicable, any economic prejudice or benefit (as the case may be) to Noteholders as a result of the replacement of the relevant Benchmark with the Successor Rate or the Alternative Reference Rate. However, there is no guarantee that such an Adjustment Spread will be determined or applied, or that the application of an Adjustment Spread will either reduce or eliminate economic prejudice to Noteholders. If no Adjustment Spread is determined, a Successor Rate or Alternative Reference Rate may nonetheless be used to determine the Rate of Interest.

In addition, if the relevant Benchmark Reference Rate has ceased to be calculated and/or published and the Issuer, for any reason, does not determine the Successor Rate or Alternative Reference Rate, the Rate of Interest will revert to the Rate of Interest applicable as at the last preceding Interest Determination Date before the relevant Benchmark was discontinued and such Rate of Interest will continue to apply until maturity. In such case, the Issuer may also decide to early redeem the Notes at the Early Redemption Amount (see risk factor “*The Issuer may redeem the Notes prior to their stated maturity, subject to certain conditions*” above).

Any such consequences could have a material adverse effect on the value of, and return on, any Notes to which the fall-back arrangements are applicable. Moreover, any of the above matters or any other significant change to the setting or existence of any relevant reference rate could adversely affect the ability of the Issuer to meet its obligations under the Notes and could have a material adverse effect on the value or liquidity of, and the amount payable under, the Notes.

3.6 The market continues to develop in relation to SOFR as a reference rate for Floating Rate Notes

Where the applicable Final Terms specifies that the Variable Rate of Interest for an Interest Period will be determined using CMS SOFR, the Variable Rate of Interest will be determined by reference to the SOFR Swap Rate. Such rate will differ from the USD LIBOR ICE Swap Rate of the relevant designated maturity in a number of material respects, including (without limitation) that the underlying compounded daily Secured Overnight Financing Rate ("SOFR") is a backwards-looking, risk-free overnight rate, whereas the USD LIBOR underlying the USD LIBOR ICE Swap Rate is expressed on the basis of a forward-looking term and includes a risk-element based on inter-bank lending. As such, investors should be aware that the USD LIBOR ICE Swap Rate and the

SOFR Swap Rate may behave materially differently as a floating rate of interest in respect of the Notes.

The ongoing development of compounded daily SOFR as a reference rate in the capital markets, as well as the continued development of SOFR-based rates, such as the SOFR Swap Rate, for such markets and the market infrastructure for adopting such rates, could result in reduced liquidity or increased volatility or could otherwise affect the market price of any Notes that reference a SOFR Swap Rate. The market, or a significant part thereof, may adopt an application of the SOFR Swap Rate that differs significantly from that set out in the Conditions and used in relation to Notes that pay a floating rate of interest that reference a SOFR Swap Rate issued under this Base Prospectus.

To the extent the SOFR Swap Rate is not published, the applicable rate to be used to calculate the Variable Rate of Interest in respect of an Interest Period, will be determined using the fallback provisions set out in the Conditions. Any of these fallback provisions may result in interest payments that are lower than, or do not otherwise correlate over time with, the payments that would have been made on the Notes if the SOFR Swap Rate had been published as expected as of the Issue Date of the Notes.

3.7 Conflicts of interest

The Agent, some of the Dealers and their affiliates have engaged in, and may in the future engage in, commercial dealings in the ordinary course of business with the Issuer, the Guarantor or any of their affiliates (including, but not limited to, lending, depositary, risk management, advisory and banking relationships). They have received, or may in the future receive, customary fees and commissions for these transactions. In addition, in the ordinary course of their business activities, the Dealers and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of the Issuer or its affiliates. The Dealers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

The Issuer, the Guarantor and their affiliates may have existing or future business relationships with any Reference Item(s) and will pursue actions and take steps that they or it deems necessary or appropriate to protect their and/or its interests arising therefrom without regard to the consequences for a Noteholder.

Such activities could present conflicts of interest, could influence the prices of the Notes or other securities and could adversely affect the value of the Notes.

Potential investors should also be aware that the Issuer is a wholly-owned subsidiary of the Guarantor, that the Guarantor may act as Dealer and that the interests of KBC Bank NV and the Issuer may conflict with the interests of the Noteholders. Moreover, the Noteholders should be aware that KBC Bank NV, acting in whatever capacity, will not have any obligations vis-à-vis any Noteholders and, in particular, will not be obliged to protect the interests of any Noteholders.

The proceeds of the Notes are used to fund the activities of the Guarantor. As such, there may be influence on the placing of the Notes with investors. The Guarantor has put in place clear and effective arrangements for the identification, prevention and management of the potential conflicts of interest that may arise in relation to the placement of the Notes, which include disclosure where the effective organisational and administrative arrangements to prevent or manage these conflicts of interest are not sufficient to ensure, with reasonable confidence, that risks of damage to the interests of the client will

be prevented. In such case, the description shall explain the general nature and sources of the conflicts of interest, as well as the risks to the client that arise as a result of the conflicts of interest and the steps undertaken to mitigate these risks, in sufficient detail to enable the client to take an informed decision whether or not to invest in the Notes.

Where the Issuer or the Guarantor acts as Calculation Agent or the Calculation Agent is an affiliate of the Issuer or the Guarantor, potential conflicts of interest may exist between the Calculation Agent and Noteholders. The Calculation Agent is entitled to carry out a series of determinations which affect the Notes. Such determinations could have an adverse effect on the value of the Notes and on the amounts payable to investors under the Terms and Conditions of the Notes (the “**Conditions**”), whether in the case of interest payments or redemption payments following an early redemption event or at maturity, in each case giving rise to a potential conflict of interest in respect of the interests of the Noteholders. Subject to regulatory obligations, the Calculation Agent will pursue actions and take steps that it deems necessary or appropriate in accordance with the Conditions without regard to the consequences for Noteholders. The Calculation Agent may at any time be in possession of information in relation to the Notes which may not be available to Noteholders. There is no obligation on the Calculation Agent to disclose such information to Noteholders.

Potential conflicts of interest may arise in connection with Notes that are offered to the public, as any distributors or other entities involved in the offer and/or the listing of such Notes as indicated in the applicable Final Terms, will act pursuant to a mandate granted by the Issuer and can receive commissions and/or fees on the basis of the services performed in relation to such offer and/or listing.

The Issuer, the Guarantor and any Dealer may at the date hereof or at any time hereafter, be in possession of information in relation to a Reference Item (as defined under paragraph 4.5 below) that is or may be material in the context of the Notes and may or may not be publicly available to Noteholders. Subject to any applicable laws and regulations, there is no obligation on the Issuer, the Guarantor or any Dealer to disclose to Noteholders any such information.

3.8 The Noteholders may be bound by amendments to the (Conditions of the) Notes to which they have not consented, which may result in less favorable terms of the Notes for all or certain Noteholders

The Conditions contain provisions for calling meetings of Noteholders (including by way of conference call or by use of a video-conference platform) to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority. Noteholders may have diverging interests and amendments considered beneficial by the majority of Noteholders could be considered detrimental by a minority of Noteholders, who would still be bound by the decision of the relevant majority.

The Conditions also provide that the Agent and the Issuer may agree, without the consent of the Noteholders to any modification (subject to certain specific exceptions) of the Agency Agreement (as defined under “*Terms and Conditions of the Notes*”) which is not prejudicial to the interests of the Noteholders or any modification of the Notes, the Coupons, the Agency Agreement, the Guarantee or the Deed of Covenant (as defined under “*Form of the Notes*”) which is of a formal, minor or technical nature or is made to correct a manifest error or to comply with mandatory provisions of law.

If the Prohibition of sales to consumers in Belgium is specified as not applicable in the applicable Final Terms, adjustments and modifications cannot relate to an essential feature of the Notes and the Notes cannot be early redeemed by the Issuer, unless in the case of force majeure or an event which substantially alters the economics of the contract as initially agreed between the parties and for which

the Issuer is not accountable. In addition, any adjustment or modification may not create a significant imbalance between the rights and obligations of the parties to the detriment of the Noteholder and the Issuer may not charge costs to the Noteholder for any such adjustment or modification.

3.9 Investors who hold less than the minimum Specified Denomination may be unable to sell their Notes and may be adversely affected if definitive Notes are subsequently required to be issued

In relation to any issue of Notes which have denominations consisting of a minimum Specified Denomination plus one or more higher integral multiples of another smaller amount, it is possible that such Notes may be traded in amounts that are not integral multiples of such minimum Specified Denomination. In such a case a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in their account with the relevant clearing system at the relevant time may need to purchase a principal amount of Notes such that their holding amounts to a Specified Denomination in order to (i) receive a definitive Note in respect of such holding (should definitive Notes be printed) or (ii) be able to transfer their Notes (subject in all cases to the rules and procedures of the relevant clearing system).

If definitive Notes are issued, holders should be aware that definitive Notes which have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade.

3.10 Regulatory risk – dividend equivalent withholding may affect payments on the Notes

Section 871(m) of the U.S. Internal Revenue Code of 1986 causes a 30 per cent. withholding tax on amounts attributable to U.S. source dividends that are paid or “deemed paid” under certain financial instruments if certain conditions are met (such instruments, “**Specified Notes**”). If the Issuer or any withholding agent determines that withholding is required, neither the Issuer nor any withholding agent will be required to pay any additional amounts with respect to amounts so withheld. Prospective investors should refer to the section “*Taxation – U.S. Dividend Equivalent Withholding*”.

For the purposes of withholding under the U.S. Foreign Account Tax Compliance Act, commonly known as FATCA, Specified Notes are subject to a different grandfathering rule than other Notes. Prospective investors should refer to the section “*Taxation - Foreign Account Tax Compliance Act*”.

3.11 Scaling factor

A Scaling Factor other than 100 per cent. will change both the extent to which the Reference Item’s performance must vary in order to create a payment for the Noteholders, and the quantum of such payment. Depending on the other variables applicable to the Notes, in particular whether there is a negative Interest Multiplier, a Scaling Factor may or may not be detrimental to Noteholders’ interests.

If any Interest Amount or Redemption Amount is based on the positive performance (requiring an increase in value) of the Reference Item during the relevant Interest Period or the term of the Notes, the application of a Scaling Factor of less than 100 per cent. to the initial value of such Reference Item will increase both the likelihood of such payment becoming due, and its ultimate quantum. Conversely, if such a Scaling Factor were greater than 100 per cent., then the Reference Item will have to perform to a greater extent to ensure that it exceeds the initial value multiplied by the Scaling Factor.

Generally, if a Reference Item is applied to Notes in conjunction with a Multiplier greater than 100 per cent. or contains some other leverage factor, such as the Scaling Factor, the effect of changes in the Reference Item on the principal or Interest Amount payable is likely to be magnified.

3.12 Notes where a Maximum Rate of Interest applies

Notes where a Maximum Rate of Interest applies, will be less exposed to the positive performance or fluctuations of the Reference Item.

Notes where a Maximum Rate of Interest or Cap Rate or Cap % applies to a particular Interest Basis, have an interest rate that is subject to a maximum specified rate. The maximum Interest Amount payable in respect of such Interest Basis will occur when the applicable formula leads to a Rate of Interest which is higher than the maximum specified rate, in which case the Rate of Interest will be limited to the Maximum Rate of Interest specified in the Final Terms. Investors in such Notes will therefore not benefit from any increase in the relevant Reference Rate or value of the Reference Item which would otherwise cause such interest rate to exceed the maximum specified rate. The market value of these Notes would therefore typically fall the closer the maximum specified rate.

3.13 Notes subject to optional redemption by the Issuer

An optional redemption feature permitting the Issuer to call the Notes early is likely to limit the market value of Notes. If the Issuer may elect to redeem Notes, the market value of those Notes generally will not rise substantially above the Optional Redemption Amount at which they would be redeemed.

The Issuer may be expected to redeem all the Notes when its cost of borrowing is lower than the interest rate on the Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

3.14 Cessation of Reference Rate

If the Reference Rate required to make calculations on the Notes has ceased to be calculated and/or published and no successor or replacement rate has been established by the Issuer in accordance with the Conditions for any reason, the Issuer may redeem the Notes at their Early Redemption Amount together (if appropriate) with accrued interest. At such time, Noteholders may not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

3.15 Additional Disruption Events

The Issuer may specify in the Final Terms any of the following Additional Disruption Events: “Change in Law”, “Hedging Disruption”, “Increased Cost of Hedging”, “Increased Cost of Stock Borrow” (applicable only for Equity Linked Notes and Index Linked Notes), “Insolvency Filing” (applicable only for Equity Linked Notes) and/or “Loss of Stock Borrow” (applicable only for Equity Linked Notes and Index Linked Notes) as Additional Disruption Event.

In case such specified Disruption Event occurs, the Issuer may in its sole discretion (a) require the Calculation Agent to determine the appropriate adjustment to the Conditions and/or the applicable Final Terms to account for the Additional Disruption Event and determine the effective date of that adjustment; or (b) redeem all Notes at the Early Redemption Amount.

If the Prohibition of sales to consumers in Belgium is specified as not applicable in the applicable Final Terms, adjustments and modifications shall be subject to the conditions set out in Condition 11(a), paragraph 3.

3.16 Alternative Currency Provisions

If the applicable Final Terms specify that “Alternative Currency Provisions” are applicable, then if the Issuer in agreement with the Calculation Agent determines that it would be commercially impracticable for the Issuer to satisfy any payment obligation in respect of the Notes when due in the Scheduled Currency as a result of a Specified Currency Disruption Event, the Issuer in its sole and absolute discretion may either (i) postpone the obligation to pay, (ii) replace the payment obligation by an obligation to make payment of the Alternative Currency Equivalent or (iii) redeem all but not part of the Notes.

Investors should note that in case the obligation to pay is being postponed, the relevant payment will be due on the date so postponed (within the Maximum Alternative Currency Number Business Days), investors shall receive no Interest Amounts or other sums payable in respect of the postponement of the payment of such amount.

Investors should note that the Calculation Agent shall determine any alternative rate or currency in a commercially reasonable manner. There is risk that the amounts to be paid to investors will therefore be determined in a manner other than what investors may have expected.

In making any determination in respect of any Specified Currency Disruption Event, neither the Issuer nor the Calculation Agent shall have regard to any interests arising from circumstances particular to any one or more Noteholders (whatever their number) and, in particular, but without limitation, shall not have regard to the consequences of any such determination for any one or more Noteholders (whatever their number), resulting from their being for any purpose domiciled or resident in, or otherwise connected with, or subject to the jurisdiction of, any particular territory or any political sub-division thereof.

No Noteholder shall be entitled to claim, from the Issuer or the Calculation Agent or any other person, any indemnification or payment in respect of any tax consequences or other losses of any such determination upon individual any Noteholders.

All notifications, opinions, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained for the purposes of Condition 11 by the Issuer or the Calculation Agent will (in the absence of wilful default, bad faith or manifest error) be binding on the Issuer, the Paying Agents and all Noteholders.

3.17 Notes issued as Green Bonds may not be a suitable investment for all investors seeking exposure to green or sustainable assets

The Issuer may issue Notes where the use of proceeds is specified in the relevant Final Terms to be for the financing and/or refinancing of specified “green” or “sustainability” projects of the KBC Bank Group, in accordance with certain prescribed eligibility criteria (see “*Use of Proceeds*”) (any Notes which have such a specified use of proceeds are referred to as “**Green Bonds**”).

In connection with an issue of Green Bonds, the Issuer may request a sustainability rating agency or sustainability consulting firm to issue an independent opinion (a “**Compliance Opinion**”) confirming that any Green Bonds are in compliance with the International Capital Market Association (“**ICMA**”) Green Bond Principles. The ICMA Green Bond Principles are a set of voluntary guidelines that recommend transparency and disclosure and promote integrity in the development of the green bond market. There is currently no market consensus on what precise attributes are required for a particular project to be defined as “green” or “sustainable”, and therefore the green or sustainable projects to be specified in the relevant Final Terms may not meet all investors’ expectations regarding sustainability performance or continue to meet the relevant eligibility criteria. Although applicable green projects are

expected to be selected in accordance with the categories recognised by the ICMA Green Bond Principles, and are expected to be developed in accordance with applicable legislation and standards, there can be no guarantee that adverse environmental and/or social impacts will not occur during the design, construction, commissioning and/or operation of any such green or sustainable projects. Where any negative impacts are insufficiently mitigated, green or sustainable projects may become controversial, and/or may be criticised by activist groups or other stakeholders. Potential investors should be aware that any Compliance Opinion will not be incorporated into, and will not form part of, this Base Prospectus or the relevant Final Terms. Any such Compliance Opinion may not reflect the potential impact of all risks related to the structure of the relevant Series of Green Bonds, their marketability, trading price or liquidity or any other factors that may affect the price or value of the Green Bonds. Any such Compliance Opinion is not a recommendation to buy, sell or hold securities and is only current as of its date of issue.

Further, although the Issuer may agree at the Issue Date of any Green Bonds to certain allocation and/or impact reporting and to use the proceeds for the financing and/or refinancing of green or sustainable projects (as specified in the relevant Final Terms), it would not be an event of default under the Green Bonds if (i) the Issuer were to fail to comply with such obligations or were to fail to use the proceeds in the manner specified in the relevant Final Terms and/or (ii) the Compliance Opinion were to be withdrawn. Any failure to use the net proceeds of any Series of Green Bonds in connection with green or sustainable projects, and/or any failure to meet, or to continue to meet, the investment requirements of certain environmentally focused investors with respect to such Green Bonds may affect the value and/or trading price of the Green Bonds, and/or may have consequences for certain investors with portfolio mandates to invest in green or sustainable assets.

Potential investors should be aware that Green Bonds may also be subject to the resolution tools granted to the Resolution Authority under BRRD II in circumstances where the Issuer fails or is likely to fail. Please also refer to “*Noteholders may be required to absorb losses in the event that the KBC Bank Group becomes non-viable or fails*” above for further information.

4 Additional risks with respect to specific types of Notes

A wide range of Notes may be issued under the Programme. Notes may have one or more features which contain particular risks for potential investors.

Notes may or may not bear interest. Interest Amounts and Redemption Amounts may be determined on a number of different bases and Notes may accrue separate Interest Amounts determined by reference to different methodologies (each, as specified in the applicable Final Terms, an “**Interest Basis**”). An investor’s return on its investment in the Notes will depend, among other things, on the Interest Amounts and Redemption Amounts payable thereon.

4.1 Zero Coupon Notes

Except where the Notes bear interest on a separate Interest Basis or are redeemed early, Zero Coupon Notes will bear no interest and an investor will receive no return on the Notes until redemption. Any investors holding these Notes will be subject to the risk that if the Notes are redeemed prior to their Maturity Date, an investor may not be able to reinvest the Amortised Face Amount (see below) so as to receive returns equivalent to the Final Redemption Amount that would, absent such early redemption, have been paid on the Maturity Date.

In general, the prices at which Zero Coupon Notes trade in the secondary market tend to fluctuate more in relation to general changes in interest rates than prices for conventional interest-bearing Notes. The

longer the remaining term of the Notes, the greater the price volatility as compared to conventional interest-bearing Notes with comparable maturities.

Zero Coupon Notes are also subject to different early redemption and late payment provisions (see Conditions 5(e) and 5(j)). In contrast to the scenario described in risk factor 3.3 above, if the Prohibition of sales to consumers in Belgium is specified as applicable in the applicable Final Terms, the Early Redemption Amount for Zero Coupon Notes will be the Amortised Face Amount, which is calculated by discounting back to the relevant date of payment the amount that would otherwise have been payable at maturity, using the Amortisation Yield on an annual or semi-annual compounded basis (depending on what is specified in the applicable Final Terms). If the Prohibition of sales to consumers in Belgium is specified as not applicable in the applicable Final Terms, the Early Redemption Amount shall be calculated in accordance with Condition 5(e)(ii).

4.2 Fixed Rate Notes

Fixed Rate Notes will bear interest at one or more fixed Rates of Interest, each of which will remain constant during the specified Interest Periods.

Fixed Rate Notes are subject to the risk that market interest rates increase (or fall insufficiently) during the life of the Notes with the consequence that the real return on the fixed rate element of such Notes, and the value of the Notes, may fall. Even if the Notes provide for the fixed Rate of Interest to increase during their term, any periodic increases may not keep pace with any increase in market interest rates. If the Notes provide for the fixed Rate of Interest to decrease during their term, investors are subject to the risk that the revised Rate of Interest will be below the then prevailing market interest rates and, even where market interest rates are falling, the reduction in the Rate of Interest on the Notes may be greater than any reduction in market interest rates.

4.3 Floating Rate Notes

Floating Rate Notes bear interest calculated by reference to a floating Rate of Interest (a “**Reference Rate**”), which will be subject to market fluctuations in that Reference Rate. Such Reference Rates may be subject to fallbacks if the relevant rate is not published (see Condition 3(b)(ii)(A) and Condition 3(g)). Please also see the risk factor entitled “*Amendments to or discontinuation of EURIBOR or other reference rates may adversely affect the value and liquidity of and return on certain Notes*” above. Payments on the Notes may be delayed, or be of a lower quantum than expected, as a result.

4.4 Range Accrual Notes

Range Accrual Notes will bear interest at a fixed rate of interest on each day within the relevant Interest Period for which the specified Range Accrual Condition is satisfied. Given the potential fixed rate of interest that is payable, the risks outlined in risk factor 4.2 above apply to Range Accrual Notes. In addition, certain risks arise in connection with the particular Range Accrual Condition that applies to such Notes.

The quantum of the Interest Amount will depend on the number of days in the relevant Interest Period (N) on which the “Reference Spread” fixes at a level which satisfies the parameters for the applicable Range Accrual Condition (see Condition 3(c)(iii)). Such parameters will be set by reference to a specified Lower Threshold and, in certain cases, Upper Threshold. If the Reference Spread does not fix at a level satisfying the Range Accrual Condition on any of those days, then N will be zero and no Interest Amounts will be payable for such Interest Period. If N is greater than zero, then the applicable Range Accrual Rate of Interest will be the product of a multiplier (equal to N divided by the actual number of calendar days in such Interest Period (A)) and the specified fixed rate, but capped at any specified Maximum Rate of Interest.

The “Reference Spread” (which could be negative) will be the spread of Variable 1 (based on a benchmark Reference Rate) over Variable 2 (which will be a benchmark Reference Rate or otherwise specified to be zero). Consequently, the accrual of interest on Range Accrual Notes on any day (in other words, the value of N for any Interest Period) will depend on how the performance of Variable 1 (or, if Variable 2 is not zero, the relative performance of Variable 1 against Variable 2) compares with the parameters of the Range Accrual Condition. Small movements in the Reference Spread may, therefore, have very large effects on the value of the Notes and the amount of interest to be paid.

Range Accrual Notes may not accrue interest for extended periods of time, if at all. Range Accrual Notes may pay significantly less interest than a conventional Fixed Rate Note issued at the same time paying interest at a fixed rate equal to the maximum potential fixed rate payable on the Range Accrual Notes. This may have a detrimental effect on the market value of the Range Accrual Notes.

4.5 Reference Item Linked Notes

The Issuer may also issue Notes that pay Interest Amount(s) linked to an index, an underlying equity, an ETF share or a basket of underlying equities and/or ETF shares, an inflation index and/or a currency exchange rate (together with a Reference Rate, each a “**Reference Item**”) and/or Redemption Amount(s) the timing and/or quantum of which is linked to a Reference Item that is an index, an underlying equity, an ETF share or a basket of underlying equities and/or ETF shares or a currency exchange rate (together “**Reference Item Linked Notes**”).

Reference Item Linked Notes involve a high degree of risk and may entail significant risks not associated with investments in a conventional debt security. Reference Item Linked Notes pose risks to investors as a result of fluctuations in the value of the Reference Item(s) to which such Reference Item Linked Notes relate.

If Notes are specified to be principal protected, they are principal protected only at maturity. If Notes are specified to be principal protected, such protection is nevertheless dependent on the Issuer, failing which, the Guarantor complying with its obligations with respect to the Notes. If such Notes redeem before their scheduled maturity, except in case of an Event of Default or where their Early Redemption Amount, Autocall Redemption Amount or Optional Redemption Amount (as applicable) is specified as a higher amount, they may return less than the principal protected amount or even zero. In the case of Notes paying a Redemption Amount linked to the Reference Item which are not principal protected (where the Floor % is specified as less than 100 per cent.), the amount paid by the Issuer on redemption of the Notes may be less than the nominal amount of the Notes, together with any accrued interest, and may in certain circumstances be zero. In the case of Notes which bear interest linked to one or more Reference Items, the Interest Amount(s) payable to Noteholders will be contingent on the performance of the relevant Reference Item(s) and on the structure of such Notes. Prospective investors in such Notes should note that, in certain circumstances, they may not receive any Interest Amount.

Prospective investors in Reference Item Linked Notes should understand the risks inherent in linking the performance of the Notes to the relevant Reference Item(s) and should reach an investment decision only after careful consideration, with their advisers, of the suitability of such Reference Item Linked Notes in light of their particular financial circumstances, the information set forth herein and the information regarding the relevant Reference Item Linked Notes and the particular Reference Item(s) to which the value of, and payments in respect of, the relevant Reference Item Linked Notes may relate, as specified in the applicable Final Terms.

Fluctuations in the value and/or volatility of the relevant Reference Item(s) may affect the value of the relevant Reference Item Linked Notes. Investors in Reference Item Linked Notes may risk losing their

entire investment if the value of the relevant Reference Item(s) does not move in the anticipated direction.

Index Linked Notes and Inflation Linked Interest Notes are not in any way sponsored, endorsed, sold or promoted by the Index Sponsor of the relevant Index or the Inflation Index Sponsor of the relevant Inflation Index. The Index Sponsor or Inflation Index Sponsor (as applicable) makes no warranty or representation whatsoever, express or implied, either as to the results to be obtained from the use of the Index or Inflation Index (as applicable) and/or the figure at which the Index or Inflation Index (as applicable) stands at any particular time on any particular day or otherwise. An investor's decision to invest in the Index Linked Notes or in the Inflation Linked Interest Notes should be made without reliance on the Index Sponsor or Inflation Index Sponsor (as applicable). The Index Sponsor or the Inflation Index Sponsor shall not be liable (whether in negligence or otherwise) for any loss, damages, costs, charges, expenses or other liabilities including, without limitation, liability for any special, punitive, indirect or consequential damages, even if notified of the possibility of such damages to any person for any error in the Index or the Inflation Index and the Index Sponsor or the Inflation Index Sponsor shall not be under any obligation to advise any person of an error therein.

Unless otherwise redeemed or purchased and cancelled early, there is no return on Reference Item Linked Notes other than the potential payment of the relevant periodic Interest Amounts and/or Redemption Amount on maturity.

Other factors which may influence the market value of Reference Item Linked Notes include interest rates, potential dividend or interest payments (as applicable) in respect of the relevant Reference Item(s), changes in the method of calculating the level of the relevant Reference Item(s) from time to time and market expectations regarding the future performance of the relevant Reference Item(s), its composition and such Reference Item Linked Notes.

If any of the relevant Reference Item(s) is an index, the value of such Reference Item on any day will reflect the value of its constituents on such day. Changes in the composition of such Reference Item and factors (including those described above) which either affect or may affect the value of the constituents, will affect the value of such Reference Item and therefore may affect the return on an investment in Reference Item Linked Notes.

4.6 Autocall Notes

Autocall Notes are a form of Reference Item Linked Note that shall be early redeemed if the parameters for the applicable Autocall Condition (see Condition 5(d)(iii)(I)) are satisfied in respect of any Autocall Observation Date. Such parameters will be set by reference to how the Autocall Variable (being the value or average value of the specified Reference Item to which the Autocall Notes are linked) performs against the product of (i) the Autocall Strike (being (i) a specified strike level, price or rate or (ii) a value or average value of the specified Reference Item) and the applicable Scaling Factor (see risk factor 4.10).

The Reference Items to which Autocall Notes may be linked are Index, Underlying Equity (which may be an ETF Share) or Basket of Underlying Equities (which may be or include an ETF Share) and Currency exchange rates. Prospective investors should also consider risk factor 4.5 above and the relevant sections of risk factor 4 relating to the specific Reference Item to which the Notes in which they wish to invest are linked.

Where the Autocall Redemption Amount is linked to the performance of the relevant Reference Item, unless the Floor % is specified in the applicable Final Terms to be greater than or equal to 100 per cent., the Autocall Redemption Amount could be less than the nominal amount of such Autocall Notes and investors could lose all or a significant portion of their investment.

4.7 Notes issued at a substantial discount or premium

The market values of Notes issued at a substantial discount or premium from their nominal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing Notes. Generally, the longer the remaining term of the Notes, the greater the price volatility as compared to conventional interest-bearing Notes with comparable maturities.

4.8 Notes with Multipliers

Notes with variable interest rates and redemption payments can be volatile investments. Where any one or more of an Interest Multiplier, Autocall Multiplier, Index Redemption Multiplier, Equity Redemption Multiplier or Currency Redemption Multiplier (each, a “**Multiplier**”) applies to the Notes, their market value may be even more volatile than for Notes that do not include such feature(s).

The Multiplier will determine the level of exposure of the investor to the Reference Item and will be specified as a percentage. A Multiplier (other than an Autocall Multiplier) may be a positive or a negative number.

If the Multiplier is lower than 100 per cent., it may reduce the effects of the gains and losses on the Reference Item. If the Reference Item is performing well, Noteholders will not benefit from the positive performance of the underlying Reference Item to the fullest extent.

If the Multiplier is higher than 100 per cent., the exposure of the Noteholders to the effects of the losses and gains on the Reference Item will be increased. If the Reference Item is not performing well, investors may receive a lower Interest Amount, Redemption Amount or Autocall Redemption Amount.

If a Multiplier is specified as a negative percentage, investors will generally benefit from under-performance of the relevant Reference Item, subject to the application of a Scaling Factor and/or Margin.

5 Additional risks associated with Credit Linked Notes

Investors in the Credit Linked Notes should be aware that the Credit Linked Notes may redeem early if a Credit Event has occurred and Credit Payment on Maturity does not apply, but may redeem later than the Scheduled Maturity Date pending the determination of a Credit Event or Event Determination Date or the determination of the Auction Final Price or Final Price in respect of a Credit Event. In particular, prospective investors should be aware that notes to which “Credit Payment on Maturity” applies will only pay the relevant redemption amount of such Note on the Scheduled Maturity Date (or the final Redemption Date, if later) even though the Credit Event which leads to the calculation of the redemption amount occurs some time prior to the Scheduled Maturity Date. In certain circumstances, the Credit Linked Notes may redeem at zero.

If “Credit Payment on Maturity” applies, the occurrence of a Credit Event will not result in the early termination of the Credit Linked Notes. Investors are therefore exposed to the risk that, following the occurrence of a Credit Event, they will not receive any principal and a lower rate of interest from either the Interest Suspension Accrual Date up to the Scheduled Maturity Date.

The market price of Credit Linked Notes may be volatile and will be affected by, amongst other things, the time remaining to the maturity date, prevailing credit spreads and the creditworthiness of the relevant Reference Entity or Entities, which in turn may be affected by the economic, financial and political events in one or more jurisdictions.

There may exist at times only limited markets for the Credit Linked Notes or no market for the Credit Linked Notes and for the obligations of the Reference Entity or Entities to which the Credit Linked Notes are linked, resulting in low or non-existent volumes of trading in the Credit Linked Notes and such obligations, and therefore a lack of liquidity and price volatility of the Credit Linked Notes and such obligations.

The primary credit risk of the Credit Linked Notes is that of the Reference Entity or Entities identified in the relevant Final Terms. The occurrence of a Credit Event in relation to a relevant Reference Entity will directly and materially affect the return and/or value of an investor's investment in the Credit Linked Notes. The likelihood of a Credit Event occurring in respect of a relevant Reference Entity will generally fluctuate with, among other things, the financial condition and other characteristics of such Reference Entity, general economic conditions, the conditions of certain financial markets, political events, developments or trends in any particular industry and changes in prevailing interest rates. Prospective investors should review each Reference Entity and conduct their own investigation and analysis with respect to the credit risk of each Reference Entity and the likelihood of a Credit Event with respect to such Reference Entity.

Set out below are additional factors to which prospective investors should have regard when considering an investment in the Credit Linked Notes.

5.1 Risks related to the structure of a particular issue of the Credit Linked Notes

A number of the Credit Linked Notes may have features which contain particular risks for investors. Set out below is a description of the most common such features:

Risk of Loss of Interest

Save as otherwise provided in the relevant Final Terms, if a Credit Event occurs interest may be reduced from the Interest Suspension Accrual Date until such Applicable Proportion of the Credit Linked Notes is redeemed on an Applicable Proportion of the Credit Linked Notes.

Risk of Loss of Principal

Investors bear the risk of a total loss of principal if a Credit Event and a Relevant Event Determination Date occur. The Outstanding Aggregate Nominal Amount of the Credit Linked Notes is likely to be lower following a Credit Event and may be zero. In addition, Noteholders should be aware that if "Credit Payment on Maturity" applies to the Notes, then payment of the Redemption Amount will only be made at maturity of the Notes notwithstanding that the Credit Event leading to the calculation of the Redemption Amount occurs before the Scheduled Maturity Date of the Notes and Noteholders will not receive any interim payment of principal in respect of such Note.

The Redemption Amount will reflect the market value of the obligations of the Reference Entity in respect of which a Credit Event occurred less a deduction for Unwind Costs (see further "*Unwind Costs*" below).

5.2 Risks relating to the Credit Linked Conditions and the Credit Derivatives Determinations Committees

Credit Linked Conditions

The terms and conditions of the Credit Linked Notes do not incorporate by reference the definitions and provisions of the 2014 ISDA Credit Derivatives Definitions, as such definitions may be amended by the supplements thereto and there may be differences between the definitions used in the Conditions of the Credit Linked Notes and the Credit Derivatives Definitions. Consequently, investing in Credit Linked Notes is not exactly the same as entering into a credit default swap that incorporates the Credit Derivatives Definitions.

While ISDA has published the Credit Derivatives Definitions in order to facilitate transactions and promote uniformity in the credit derivatives market, the credit derivatives market is expected to continue to evolve and change. Consequently, the Credit Derivatives Definitions and the terms applied to credit derivatives, including Credit Linked Notes, are subject to interpretation and further evolution. Past events have shown that the views of market participants may differ as to how the Credit Derivatives

Definitions operate or should operate. As a result of the continued evolution in the market, interpretation of the conditions governing the Credit Linked Notes may differ in the future because of changes to market standards. Such a result may have a negative impact on the Credit Linked Notes.

Changes to the terms applicable to credit derivatives generally may not be predictable or favourable to the Issuer or Noteholders. Future amendments or supplements to the terms applicable to credit derivatives generally will only apply to Credit Linked Notes that have already been issued if the Issuer and the Noteholders agree to amend the Credit Linked Notes to incorporate such amendments or supplements and other conditions to amending the Credit Linked Notes have been met.

The 2014 ISDA Credit Derivatives Definitions introduced new “Asset Package Delivery” provisions which enable an Asset Package to be the subject of an Auction held to determine the Auction Final Price for a Reference Entity following the occurrence of an Asset Package Credit Event. As at the date of these Credit Linked Conditions, the Auction Settlement Terms have not been updated to reflect such Asset Package Delivery provisions. The Calculation Agent has discretion to adjust the Auction Final Price for any Asset Package if it determines that the Auction Final Price does not reflect the price for the entire Asset Package and in doing so the Calculation Agent may, but is not obliged to, have regard to any Auction Settlement Terms published by ISDA to settle credit derivatives transactions following an Asset Package Credit Event.

Credit Derivatives Determinations Committees

The Credit Derivatives Determinations Committees (each, an “**ISDA DC**”) were established pursuant to the March 2009 Supplements to the 2003 ISDA Credit Derivatives Definitions to make determinations that are relevant to the majority of the credit derivatives market and to promote transparency and consistency. Further information about the ISDA DCs may be found at www.isda.org/credit.

Whether or not a Credit Event or Succession Event has occurred, and certain decisions relating thereto, may be dependent on determinations made by the ISDA DC. In certain circumstances, determinations made by the Calculation Agent may be overridden by subsequent determinations made by an ISDA DC. If the Issuer delivers a Credit Event Notice or Succession Event Notice to the Agent, the Noteholders should be aware that such notice may be superseded by a determination of an ISDA DC.

In making any determination in its capacity as Calculation Agent or Issuer, the Issuer shall have regard to and, where applicable, be bound by decisions made by an ISDA DC.

Investors, in their capacity as Noteholders, will not have the ability to refer questions to an ISDA DC since the Credit Linked Notes will not constitute an actual credit default swap transaction. As a result, Noteholders are dependent on market participants in actual credit transactions to refer specific questions to the relevant ISDA DC. Neither the Issuer nor the Calculation Agent, acting in any capacity, have any duty to the Noteholders to refer, or to desist from referring, specific questions to the relevant ISDA DC.

Noteholders shall have no recourse against the Issuer, the Calculation Agent, any institutions serving on an ISDA DC or the external reviewers in the event of any loss arising directly or indirectly from any action, determination or resolution taken or made by an ISDA DC.

The Final Terms set out certain representations relating to the relevant ISDA DC which are deemed to be made by each Noteholder.

Exposure to Reference Entities, Obligations, Underlying Obligations, Underlying Obligors, Reference Obligations and Valuation Obligations

Unless otherwise provided in the relevant Final Terms, investors in Credit Linked Notes are exposed to the credit risks and other risks associated with each relevant Reference Entity and their Obligations,

Underlying Obligations, Underlying Obligors, Reference Obligations, Valuation Obligations and any relevant jurisdictional risks.

The Basket Credit Linked Notes and Index Tranche Credit Linked Notes are linked to the credit risk of more than one Reference Entity. The likelihood of a Credit Event occurring in respect of any of the Reference Entities referenced by a Basket Credit Linked Note or Index Tranche Credit Linked Note will differ for each Reference Entity and prospective investors should conduct their own analysis of the credit risk of each of the multiple Reference Entities for the relevant Basket Credit Linked Note or Index Tranche Credit Linked Notes.

Further, in respect of Basket Credit Linked Notes or Index Tranche Credit Linked Notes, the credit risk to Noteholders may be increased, amongst other things, as a result of the concentration of Reference Entries in a particular industry sector or geographic area, or the exposure of the Reference Entities to similar financial or other risks as other Reference Entities.

The risk that the Noteholders bear in relation to the Credit Linked Notes is a function of both the risk of a Credit Event occurring in respect of the Reference Entity or Entities and the risk relating to the amount that may be recovered following such Credit Event. Where a Credit Event results in a high recovery rate, the Noteholders will incur a relatively small loss. Conversely, where a Credit Event results in a low recovery rate, Noteholders will incur a larger loss.

Synthetic Exposure

The Credit Linked Notes do not represent a claim against any Reference Entity and, in the event of any loss, investors in Credit Linked Notes will not have recourse under the Credit Linked Notes to any Reference Entity nor shall a Noteholder have any legal, beneficial or other interest whatsoever in any of the Obligations, the Reference Obligations or the Valuation Obligations relating to a Credit Linked Note. The Issuer is not obliged to own or hold any Obligation or Reference Obligation, and no inference may be drawn from the Programme, the Credit Linked Conditions or any relevant Final Terms that the Issuer holds any such Obligation or Reference Obligation or has any credit exposure to any Reference Entity. Amounts payable under the Credit Linked Notes are not, in any direct or indirect way, limited by, associated with, or linked or calculated by reference to, any loss of bargain, cost of funding or any other actual loss or cost suffered by the Issuer as a result of its holding or not holding any Obligation or Reference Obligation.

Redemption after Scheduled Maturity Date

Redemption may occur irrespective of whether the Relevant Credit Event is continuing on or after a Relevant Event Determination Date. The relevant Redemption Date may be later than the Scheduled Maturity Date. If the Issuer determines, in its sole and absolute discretion, that one or more Reference Entities is or may be subject to (a) a Credit Event, (b) if “Grace Period Extension” is specified as being applicable in the relevant Final Terms, a Potential Failure to Pay or, (c) if “Repudiation/Moratorium” is specified as being applicable in the relevant Final Terms, a Potential Repudiation/Moratorium, the Credit Linked Notes then outstanding shall not be redeemed on the Scheduled Maturity Date but shall be redeemed instead on the Extended Maturity Date. If an extension of the Scheduled Maturity Date applies pursuant to and in accordance with Credit Linked Condition 9 (*Maturity Date Extension*), the Issuer may deliver a Credit Event Notice or the Credit Derivatives Determinations Committee may make a DC Credit Announcement which will trigger settlement of the Credit Linked Notes after the Scheduled Maturity Date.

5.3 Risks relating to the Credit Event Redemption Method

The Credit Event Redemption Method specified in the relevant Final Terms will affect how the Credit Linked Notes are redeemed. Prospective investors should assess whether the Credit Event Redemption Method is appropriate for them prior to investing in the Credit Linked Notes.

Auction Redemption

If “Auction Redemption” is specified as being applicable in respect of the Credit Linked Notes, then the amounts payable by and/or rights and obligations of the parties under the Credit Linked Notes in respect of the relevant Reference Entity or Reference Obligation will be determined in accordance with the Auction Final Price. This may result in a lower recovery value than a Reference Entity or Reference Obligation would have if such Auction Final Price had not been used.

If “Auction Redemption” is specified as being applicable with respect to the Credit Linked Notes but a Credit Derivatives Determinations Committee does not decide to conduct an Auction with respect to obligations of the relevant Reference Entity satisfying the relevant characteristics as set out in the relevant Final Terms, then the Fallback Redemption Method shall apply. In such circumstances, the Final Price will be determined pursuant to the Valuation Method.

Noteholders should note that they will not be able to deliver a Customer Physical Settlement Request (as defined in the Credit Derivatives Auction Settlement Terms) to the Issuer in respect of their holding of Credit Linked Notes.

In the event of a Governmental Intervention Credit Event or certain Restructuring Credit Events which constitute an Asset Package Credit Event, the Auction Final Price may be determined by reference to the value of the Asset Package received or retained by a Relevant Holder in place of the Prior Deliverable Obligation or Package Observable Bond in connection with such Asset Package Credit Event. Such Asset Package may be worth significantly less than the original Package Observable Bond prior to such Asset Package Credit Event and may result in a significantly lower Redemption Amount being paid out to Noteholders than would have been the case following the relevant Credit Event had the Auction Final Price been determined only by reference to Valuation Obligations.

Cash Redemption

If “Cash Redemption” is specified as being applicable in the relevant Final Terms with respect to the Credit Linked Notes or “Cash Redemption” is the Fallback Redemption Method, then the Calculation Agent will value the Reference Obligation or any other obligation of the Reference Entity fulfilling certain criteria including the Valuation Obligation Category and Valuation Obligation Characteristics by asking for quotations from Quotation Dealers. The date, time and method of such auction, and the selection of the Reference Obligation, will impact the Final Price. The Quotation Dealers selected by the Calculation Agent must be financial institutions, funds or other entities that purchase or deal in obligations similar to the Reference Obligation and may include the Issuer or any guarantor; however, the Quotation Dealers have no duty towards any Noteholder and may not be aware that the purpose of the auction is to determine a Final Price for purposes of the Credit Linked Notes or any other Credit Linked Notes.

Investors should note that the Final Price determined pursuant to a dealer poll may be significantly different to the Auction Final Price.

In the event of a Governmental Intervention Credit Event or certain Restructuring Credit Events which constitute an Asset Package Credit Event, the Final Price may be determined by reference to the value of the Asset Package received or retained by a Relevant Holder in place of the Prior Deliverable

Obligation or Package Observable Bond which would otherwise have been valued in order to determine the Final Price. Such Asset Package may be worth significantly less than the original Prior Deliverable Obligation or Package Observable Bond prior to such Asset Package Credit Event and may result in a significantly lower Cash Redemption Amount being paid out to Noteholders than would have been the case following the relevant Credit Event had the Final Price been determined only by reference to Valuation Obligations.

Fixed Recovery Redemption

If “Fixed Recovery Redemption” is the applicable Credit Event Redemption Method, the occurrence of a Credit Event may result in the recovery for Noteholders being materially lower than the prevailing price of the relevant obligations of the relevant Reference Entity.

Credit Payment on Maturity

If “Credit Payment on Maturity” applies, the occurrence of a Credit Event will not result in the early redemption of the Credit Linked Notes. Investors are therefore exposed to the risk that, following the occurrence of a Credit Event, they will receive lower interest payments from the Interest Suspension Accrual Date up to the Maturity Date, and the Redemption Amount will only be payable on maturity of the Notes.

Redemption Failure/Alternative Redemption

If the Redemption Amount in respect of such Note cannot be paid when due as a result of a Redemption Failure Event, the Noteholder, after providing a release and indemnity to the satisfaction of the Issuer, may request such payment to be made to an account or person not affected by such Redemption Failure Event, provided that, if such Redemption Failure Event is continuing for 90 calendar days after the Scheduled Maturity Date or other scheduled payment or delivery date (including the applicable Redemption Date), in respect of an amount to be paid by the Issuer, if the Noteholder has not requested such payment to be made to an account or person not affected by such Redemption Failure Event, the Issuer’s obligations in respect of such payment will be discharged.

5.4 Other risk factors

Index Tranche Credit Notes

Noteholders are exposed to losses arising from Credit Events in relation to Index Tranche Credit Linked Notes only to the extent that the Aggregate Loss Amount exceeds the Loss Threshold Amount. The likelihood that Noteholders will be exposed to losses is therefore greater for more subordinated tranches (i.e. those with a lower Attachment Point).

Leverage

Certain Credit Linked Notes may be leveraged or highly leveraged investments, including, without limitation, Credit Linked Notes linked to a notional amount of one or more Reference Entities or Reference Obligations exceeding the Original Aggregate Nominal Amount of the Credit Linked Notes. The use of leverage will magnify the adverse impact of Credit Events.

Investors should note in particular that Index Tranche Credit Linked Notes may be leveraged such that the losses on those Notes are enhanced, although losses are limited to an investor’s initial investment.

Hedging

In the ordinary course of their business, including without limitation in connection with their market-making activities, the Issuer, the Quotation Dealers and/or any Agent or any Affiliate of any of

them (each such entity, a “**Programme Party**”) may effect transactions for their own account or for the account of their customers and hold long or short positions in any applicable Reference Obligation or related derivatives. In addition, in connection with the offering of the Credit Linked Notes, the Issuer and/or any other Programme Party may enter into one or more hedging transactions with respect to any applicable Reference Obligation or related derivatives. In connection with such hedging or market-making activities or with respect to proprietary or other trading activities by the Issuer and/or any other Programme Party, the Issuer and/or any other Programme Party may enter into transactions with respect to any applicable Reference Obligation or related derivatives which may affect the market price, liquidity or value of the Credit Linked Notes and which could be deemed to be adverse to the interests of the relevant Noteholders. The Issuer and/or any other Programme Party may pursue such hedging or related derivatives actions and take such steps as they deem necessary or appropriate to protect their interests without regard to the consequences for any Noteholder.

Unwind Costs

Any Redemption Amounts payable to Noteholders following the occurrence of a Credit Event will reflect the Unwind Costs, if applicable, of the Issuer. These relate to the costs and expenses incurred by the Issuer in redeeming the Notes early or terminating, liquidating, obtaining or re-establishing any related funding, hedging or trading position in connection with the Notes or a result of a Credit Event occurring. These costs are not known at the Issue Date of the Credit Linked Notes and will depend on interest rates and borrowing costs in the future. Where the Unwind Costs are positive (which is likely to be the case where the Issuer is able to borrow funds for less than the Funding Interest Rate specified on the Issue Date), the relevant Redemption Amount will be increased. However, where the Unwind Costs are negative (which is likely to be the case where the cost of borrowing for the Issuer is higher than the Funding Rate specified on the Issue Date), the relevant Redemption Amount will be reduced.

The Issuer is not under any duty to hedge itself with respect to any Credit Linked Notes, nor is it required to hedge itself in a manner that will result in the lowest Unwind Costs. Investors should be aware that, if Unwind Costs are greater than the applicable Recovery Amount, the Redemption Amount will be zero.

No Guarantee of Performance

The Credit Linked Notes constitute direct, unsubordinated and unsecured obligations of the Issuer that are linked to the credit risk of each Reference Entity and/or Reference Obligation specified in the relevant Final Terms. No Programme Party guarantees the performance of or otherwise stands behind the performance of any Reference Entity or Reference Obligation or is under any obligation to make good losses suffered as a result of Credit Events.

Provision of Information

The Programme Parties may at the date hereof or at any time hereafter be in possession of information in relation to any Reference Entity, any Affiliate of a Reference Entity, any Reference Obligation or any guarantor that is or may be material in the context of an issue of Notes and may or may not be publicly available to Noteholders. There is no obligation on any of the Programme Parties to disclose to Noteholders any such information, except for the Issuer’s obligations to disclose inside information, regulated information and significant new factors in relation to the information contained in this Base Prospectus under any applicable regulatory requirements.

Correlation between Credit Risk of the Reference Entity and Credit Events

Generally, there may be a correlation between the credit risk of a Reference Entity and the occurrence of a Credit Event in respect of such Reference Entity. Market perception may also affect the value of the Notes, particularly in the case of Index Tranche Credit Linked Notes.

Correlation Risks in the case of more than one Reference Entity

The market price of Notes linked to more than one Reference Entity may be adversely affected by the correlation between Reference Entities. A positive correlation indicates that the probability of the occurrence of Credit Events of two Reference Entities tend to move in the same direction which could have the potential to increase losses accruing to Noteholders in the event that such a Credit Event occurs. A negative correlation indicates that the Credit Event probability moves in the opposite direction. The degree of correlation can also change over time. Depending on the structure of the Notes, a change in correlation can therefore have a positive or negative effect on the market value of the Notes.

Correlation Risks between the Issuer and the Reference Entity(ies)

In addition to credit risk of the Reference Entity or Entities identified in the relevant Final Terms, investors are also exposed to the credit risk of the Issuer. In certain circumstances, such as times of general market stress, there may be a correlation between the credit risk of the Reference Entity or Entities and the Credit Risk of the Issuer, meaning that overall risk for the investor will be increased.

5.5 General risk factors

Each of the risks described under these “*General risk factors*” could adversely affect the trading price of the Credit Linked Notes or the rights of Noteholders under the Credit Linked Notes and, as a result, investors could lose some or all of their investment. The Issuer may be unable to pay or deliver amounts on or in connection with the Credit Linked Notes for other reasons and the Issuer does not represent that the statements below regarding the risks of holding the Credit Linked Notes are exhaustive. Prospective investors should also read the detailed information set out elsewhere in the relevant Final Terms (including any documents deemed to be incorporated by reference herein) and reach their own views prior to making any investment decision.

The original issue price of the Credit Linked Notes may include amounts in respect of certain commissions paid with respect to the distribution of the Credit Linked Notes together with certain costs (borne by the Issuer) of hedging the Credit Linked Notes. The price at which the Issuer may be willing to purchase the Credit Linked Notes in the secondary market, all other factors being equal, is likely to be less than the original issue price, since the original issue price included, and secondary market prices are likely to exclude, those commissions and the projected profit included in such hedging costs. Any such secondary market prices may differ from values determined by pricing models used by the Issuer.

Several factors may influence the value of the Credit Linked Notes (and, if such value is adversely affected, investors could lose some or all of their investment). These factors include:

- expected rates of recovery on obligations of the Reference Entity;
- actions of a Reference Entity and its principal creditors;
- the nature of each Reference Entity’s outstanding indebtedness, including its maturity and subordination structure and any guarantees or other support that the Reference Entity has provided to other entities;
- the Credit Events specified as applicable in the relevant Final Terms with respect to a Reference Entity that may trigger early redemption of the Credit Linked Notes;
- Issuer optionality, such as the ability to select the obligations of a Reference Entity that will be delivered or valued or to decide whether or not to trigger settlement;

- correlation among the credit spreads and/or default probabilities of the components of a basket or index, if applicable;
- market liquidity for a particular type of Credit Linked Notes;
- interest rates payable under the Credit Linked Notes;
- the time remaining to the maturity of the Credit Linked Notes; and
- economic, financial, political and regulatory or judicial events or conditions that affect any Reference Entity or its outstanding obligations, or the market for Credit Linked Notes generally or related financial markets, including credit spreads in the market, market liquidity or Credit Transactions relative to the liquidity of related cash instruments or related credit derivatives, and liquidity for secondary assignments of credit derivatives generally.

The market liquidity of referencing indices may vary significantly between the current series of the index and prior series. The market liquidity of Credit Linked Notes based on bespoke portfolios of Reference Entities will generally be less than that of Credit Linked Notes based on standardized indices.

A decrease in the liquidity of an issue of Credit Linked Notes may cause, in turn, an increase in the volatility associated with the price of such issue of Credit Linked Notes. Illiquidity may have a severely adverse effect on the market value of Credit Linked Notes. Any prospective investor in the Credit Linked Notes must be prepared to hold such Credit Linked Notes until redemption or expiry of the Credit Linked Notes. The Issuer may, but is not obliged to, purchase Credit Linked Notes at any time at any price in the open market or by tender or private treaty and may hold, resell or cancel them. The market for Credit Linked Notes may be limited.

If the amount payable on redemption, exercise or expiry of the Credit Linked Notes is less than their issue price, investors may lose all or part of their investment.

In certain circumstances the Issuer may make adjustments to the terms of the Credit Linked Notes or redeem or cancel them at their fair market value as determined by it without the consent of the Noteholders.

The market value can be expected to fluctuate significantly and investors should be prepared to assume the market risks associated with these Credit Linked Notes.

The obligations of the Issuer to make any payments under the Credit Linked Notes are subject to the risk of default of the Issuer. The value of the Credit Linked Notes is dependent on the creditworthiness of the Issuer, which may vary over the term of the Credit Linked Notes.

If investors are required to sell the Credit Linked Notes prior to maturity, investors could receive significantly less than their initial investment.

6 Risks related to the market generally

Set out below is a brief description of the principal market risks, including the impact of fees, liquidity risk, exchange rate risk, interest rate risk and credit risk:

6.1 There is currently no active secondary market for the Notes, which may affect the liquidity and market value of the Notes

There is currently no established secondary market for the Notes, and one may never develop (even if the Notes are admitted to trading). A secondary market for certain Series of Notes may not apply to other Series of Notes. If a market does develop, it may not be liquid and an investor may not be able to find a

timely and/or suitable counterpart. Therefore, investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market or at prices higher than the relevant investor's initial investment. Investors seeking to liquidate/sell positions in the Notes prior to their stated maturity date may receive substantially less than their original purchase price. Therefore, in establishing their investment strategy, investors should ensure that the term of the Notes is in line with their future liquidity requirements. Liquidity is likely to be very limited if the relevant Notes are not listed or no listing is obtained. The degree of liquidity may have a severely adverse effect on the market value of Notes, especially if investors are willing to sell the Notes within a short timeframe. In such circumstances, it is more likely that the Noteholders will have to sell the Notes at a discount in comparison with the nominal value of the Notes. To the extent that an issue of Notes is or becomes illiquid, investors may have to hold the relevant Notes until maturity before they are able to realise any value.

The Issuer may, but is not obliged to, list an issue of Notes on a stock exchange or regulated market. If Notes are not listed or traded on any stock exchange or regulated market, pricing information for the relevant Notes may be more difficult to obtain and the liquidity of such Notes may be adversely affected, and therefore the price of the Notes could be affected by their limited liquidity.

Pursuant to Condition 5(h) (*Purchases*), each of the Issuer, the Guarantor or any of their respective subsidiaries may, but is not obliged to, at any time purchase Notes at any price in the open market or by tender or private agreement. Any Notes so purchased may be held or resold or surrendered for cancellation. If any Notes are redeemed in part, then the number of Notes outstanding will decrease, which will reduce liquidity for the outstanding Notes. Any such activities may have an adverse effect on the price of the relevant Notes in the secondary market and/or the existence of a secondary market.

There may be less liquidity in the secondary market for the Notes also if they are exclusively offered to retail investors without any offer to institutional investors.

6.2 Exchange rate risks and exchange controls

The Issuer will pay principal and any Interest Amounts on the Notes in the Specified Currency. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the "**Investor's Currency**") other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Specified Currency would decrease (i) the Investor's Currency-equivalent yield on the Notes, (ii) the Investor's Currency equivalent value of the principal payable on the Notes and (iii) the Investor's Currency equivalent market value of the Notes.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate or the ability of the Issuer or the Guarantor to make payment in respect of the Notes. As a result, investors may receive less interest or principal than expected, or no interest or principal.

Where the Notes are denominated in a Specified Currency from an emerging or volatile market, investors should note that the risk of the occurrence and the severity of the consequences of the matters described herein may be greater than they would otherwise be in relation to more developed countries. Such Notes should be considered speculative. Economies in emerging or volatile markets generally are heavily dependent upon international trade and, accordingly, may be affected adversely by trade barriers, foreign exchange controls (including taxes), managed adjustments in relative currency values and other

protectionist measures imposed or negotiated by the countries with which they trade. These economies may also be adversely affected by their economic, financial, military and political conditions and the supply and demand for such currency in the global markets. These factors will also impact the market value of the Notes (see risk factor 7.3).

6.3 Market Value of Notes

The market value of an issue of Notes will be affected by a number of factors independent of the creditworthiness of the Issuer, including, but not limited to:

- (i) the value and volatility of the Reference Item(s);
- (ii) where the Reference Item(s) is/are equity securities, the dividend rate on the Reference Item(s) and the financial results and prospects of the issuer of each Reference Item;
- (iii) market interest and yield rates;
- (iv) fluctuations in exchange rates;
- (v) liquidity of the Notes or any Reference Item(s) in the secondary market;
- (vi) the time remaining to any redemption date or the maturity date; and
- (vii) economic, financial and political events in one or more jurisdictions, including factors affecting capital markets generally and the stock exchange(s) on which any Reference Item may be traded.

The price at which a Noteholder will be able to sell any Notes prior to maturity may be at a discount, which could be substantial, to the market value of such Notes on the issue date, if, at such time, the market price of the Reference Item(s) is below, equal to or not sufficiently above the market price of the Reference Item(s) on the issue date. The historical market prices of any Reference Item should not be taken as an indication of such Reference Item's future performance during the term of any Note.

6.4 Credit ratings may not reflect all risks

One or more independent credit rating agencies may assign credit ratings to the Notes. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time.

In general, European regulated investors are restricted under the CRA Regulation (as defined on the cover page of this Base Prospectus) from using credit ratings for regulatory purposes in the EEA, unless such ratings are issued by a credit rating agency established in the EEA and registered under the CRA Regulation (and such registration has not been withdrawn or suspended), subject to transitional provisions that apply in certain circumstances whilst the registration application is pending. Such general restriction will also apply in the case of credit ratings issued by third country non-EEA credit rating agencies, unless the relevant credit ratings are endorsed by an EEA-registered credit rating agency or the relevant third country non-EEA rating agency is certified in accordance with the CRA Regulation (and such endorsement action or certification, as the case may be, has not been withdrawn or suspended, subject to transitional provisions that apply in certain circumstances). The list of registered and certified rating agencies published by the European Securities and Markets Authority ("ESMA") on its website in accordance with the CRA Regulation is not conclusive evidence of the status of the relevant rating agency included in such list, as there may be delays between certain supervisory measures being taken against a relevant rating agency and the publication of the updated ESMA list. If the status of the rating agency rating the Notes changes for the purposes of the CRA Regulation, relevant regulated investors may no longer be able to use the rating for regulatory purposes in the EEA and the Notes may have a

different regulatory treatment, which may impact the value of the Notes and their liquidity in the secondary market. Certain information with respect to the credit rating agencies and ratings will be disclosed in the applicable Final Terms.

IMPORTANT INFORMATION

This section sets out important information relating to the public offers of Non-Exempt PD Notes generally.

IMPORTANT INFORMATION RELATING TO PUBLIC OFFERS OF NON-EXEMPT PD NOTES

Restrictions on Public Offers of Non-Exempt PD Notes in relevant Member States

Certain Tranches of Non-Exempt PD Notes with a denomination of less than EUR 100,000 (or its equivalent in any other currency) may, subject as provided below, be offered in any Member State of the EEA in circumstances where there is no exemption from the obligation under the Prospectus Regulation to publish a prospectus. Any such offer is referred to in this Base Prospectus as a “**Public Offer**”.

This Base Prospectus has been prepared on the basis that it permits Public Offers in Belgium and/or Luxembourg, as specified in the applicable Final Terms (together, the “**Public Offer Jurisdictions**” and each, a “**Public Offer Jurisdiction**”). Any person making or intending to make a Public Offer of Non-Exempt PD Notes on the basis of this Base Prospectus must do so only with the Issuer’s and the Guarantor’s consent (see “*Consent given in accordance with Article 5.1 of the Prospectus Regulation*” below) and provided such person complies with the conditions attached to that consent.

If the Issuer intends to make or authorise any Public Offer of Non-Exempt PD Notes to be made in one or more Member States other than the Public Offer Jurisdictions, it will prepare a supplement to this Base Prospectus specifying such Member State(s) and any additional information required by the Prospectus Regulation in respect thereof. Such supplement will also set out provisions relating to the Issuer’s consent to use this Base Prospectus in connection with any such Public Offer.

Save as provided above, none of the Issuer, the Guarantor or any Dealer has authorised, nor do they authorise, the making of any Public Offer of the Non-Exempt PD Notes in circumstances in which an obligation arises for the Issuer, the Guarantor or any Dealer to publish or supplement a prospectus for such offer.

Consent given in accordance with Article 5.1 of the Prospectus Regulation

In the context of any Public Offer of Non-Exempt PD Notes in a Public Offer Jurisdiction, the Issuer and the Guarantor accept responsibility, in each Public Offer Jurisdiction, for the content of this Base Prospectus under Article 11 of the Prospectus Regulation in relation to any person (an “**Investor**”) to whom an offer of any Non-Exempt PD Notes is made by any financial intermediary to whom each of the Issuer and the Guarantor has given its consent to use the Base Prospectus (an “**Authorised Offeror**”), where the offer is made during the Offer Period specified in the applicable Final Terms and in compliance with all conditions attached to the giving of the consent. Such consent and conditions are described below under “*Consent*” and “*Common conditions to consent*”. None of the Issuer, the Guarantor or any Dealer makes any representation or has any responsibility for any of the actions of any Authorised Offeror, including compliance by an Authorised Offeror with applicable conduct of business rules or other applicable regulatory requirements or other securities law requirements in relation to such Public Offer.

Save as provided below, none of the Issuer, the Guarantor or any Dealer has authorised the making of any Public Offer and the Issuer has not consented to the use of this Base Prospectus by any other person in connection with any Public Offer of Non-Exempt PD Notes. Any Public Offer made without the consent of the Issuer is unauthorised and none of the Issuer, the Guarantor or any Dealer accepts any responsibility or liability for the actions of the persons making any such unauthorised offer.

If, in the context of a Public Offer, an Investor is offered Non-Exempt PD Notes by a person which is not an Authorised Offeror, the Investor should check with such person whether anyone is responsible for this Base Prospectus in the context of the Public Offer and, if so, who that person is. If the Investor is in any doubt about whether it can rely on this Base Prospectus and/or who is responsible for its contents it should take legal advice.

- (g) retain Investor identification records for at least the minimum period required under applicable Rules, and shall, if so requested, make such records available to the Issuer, the Guarantor and/or the relevant Dealer or directly to the appropriate authorities with jurisdiction over the Issuer, Guarantor and/or the relevant Dealer in order to enable the Issuer, the Guarantor, and/or the relevant Dealer to comply with anti-money laundering, anti-bribery, anti-corruption and “know your client” Rules applying to the Issuer, the Guarantor, and/or the relevant Dealer;
- (h) ensure that no holder of Non-Exempt PD Notes or potential Investor in the Non-Exempt PD Notes shall become an indirect or direct client of the Issuer, the Guarantor, or the relevant Dealer for the purposes of any applicable Rules from time to time, and to the extent that any client obligations are created by the relevant financial intermediary under any applicable Rules, then such financial intermediary shall perform any such obligations so arising;
- (i) co-operate with the Issuer, the Guarantor, and the relevant Dealer in providing such information (including, without limitation, documents and records maintained pursuant to paragraph (f) above) upon written request from the Issuer, the Guarantor, or the relevant Dealer as is available to such financial intermediary or which is within its power and control from time to time, together with such further assistance as is reasonably requested by the Issuer, the Guarantor, or the relevant Dealer:
 - (i) in connection with any request or investigation by any regulator of competent jurisdiction in relation to the Non-Exempt PD Notes, the Issuer, the Guarantor, or the relevant Dealer; and/or
 - (ii) in connection with any complaints received by the Issuer, the Guarantor, and/or the relevant Dealer relating to the Issuer, the Guarantor, and/or the relevant Dealer or another Authorised Offeror including, without limitation, complaints as defined in rules published by any regulator of competent jurisdiction from time to time; and/or

- (iii) which the Issuer, the Guarantor, or the relevant Dealer may reasonably require from time to time in relation to the Non-Exempt PD Notes and/or as to allow the Issuer, the Guarantor, or the relevant Dealer fully to comply within its own legal, tax and regulatory requirements,

in each case, as soon as is reasonably practicable and, in any event, within any time frame set by any such regulator or regulatory process;

- (l) ensure that it does not, directly or indirectly, cause the Issuer, the Guarantor, or the relevant Dealer to breach any Rule or subject the Issuer, the Guarantor, or the relevant Dealer to any requirement to obtain or make any filing, authorisation or consent in any jurisdiction;
- (m) comply with the conditions to the consent referred to under “*Common conditions to consent*” below and any further requirements relevant to the Public Offer as specified in the applicable Final Terms;
- (n) make available to each potential Investor in the Non-Exempt PD Notes the Base Prospectus (as supplemented as at the relevant time, if applicable), the applicable Final Terms and any applicable information booklet provided by the Issuer for such purpose, and not convey or publish any information that is not contained in or entirely consistent with the Base Prospectus; and
- (o) if it conveys or publishes any communication (other than the Base Prospectus or any other materials provided to such financial intermediary by or on behalf of the Issuer for the purposes of the relevant Public Offer) in connection with the relevant Public Offer, it will ensure that such communication (A) is fair, clear and not misleading and complies with the Rules, (B) states that such financial intermediary has provided such communication independently of the Issuer, that such financial intermediary is solely responsible for such communication and that none of the Issuer, the Guarantor, or the relevant Dealer accepts any responsibility for such communication and (C) does not, without the prior written consent of the Issuer, the Guarantor, or the relevant Dealer (as applicable), use the legal or publicity names of the Issuer, the Guarantor or the relevant Dealer or any other name, brand or logo registered by an entity within their respective groups or any material over which any such entity retains a proprietary interest, except to describe the Issuer as issuer of the relevant Non-Exempt PD Notes and KBC Bank NV as the guarantor of the relevant Non-Exempt PD Notes on the basis set out in the Base Prospectus;

- (D) agrees and undertakes to indemnify each of the Issuer, the Guarantor, and the relevant Dealer (in each case on behalf of such entity and its respective directors, officers, employees, agents, Affiliates and controlling persons) against any losses, liabilities, costs, claims, charges, expenses, actions or demands (including reasonable costs of investigation and any defence raised thereto and counsel's fees and disbursements associated with any such investigation or defence) which any of them may incur or which may be made against any of them arising out of or in relation to, or in connection with, any breach of any of the foregoing agreements, representations, warranties or undertakings by such financial intermediary, including (without limitation) any unauthorised action by such financial intermediary or failure by such financial intermediary to observe any of the above restrictions or requirements or the making by such financial intermediary of any unauthorised representation or the giving or use by it of any information which has not been authorised for such purposes by the Issuer, the Guarantor, or the relevant Dealer; and
- (E) agrees and accepts that:
- (a) the contract between the Issuer and the financial intermediary formed upon acceptance by the financial intermediary of the Issuer's offer to use the Base Prospectus with its consent in connection with the relevant Public Offer (the "**Authorised Offeror Contract**"), and any non-contractual obligations arising out of or in connection with the Authorised Offeror Contract, shall be governed by, and construed in accordance with, English law;
 - (b) subject to (d) below, the English courts are to have exclusive jurisdiction to settle any disputes which may arise out of or in connection with the Authorised Offeror Contract (including a dispute relating to any non-contractual obligations arising out of or in connection with the Authorised Offeror Contract) ("**Disputes**") and accordingly submits to the exclusive jurisdiction of the English courts;
 - (c) for the purposes of paragraph (III)(b) and (d), the Issuer and the financial intermediary waive any objection to the English courts on the grounds that they are an inconvenient or inappropriate forum to settle any Dispute;
 - (d) this paragraph (III) is for the benefit of the Issuer, the Guarantor and each relevant Dealer. To the extent allowed by law, the Issuer, the Guarantor and each relevant Dealer may, in respect of any Dispute or Disputes, take (i) proceedings in any other court with jurisdiction; and (ii) concurrent proceedings in any number of jurisdictions; and
 - (e) the Guarantor and each relevant Dealer will, pursuant to the Contracts (Rights of Third Parties) Act 1999, be entitled to enforce those provisions of the Authorised Offeror Contract which are, or are expressed to be, for their benefit, including the agreements, representations, warranties, undertakings and indemnity given by the financial intermediary pursuant to the Authorised Offeror Terms.

Any financial intermediary falling within sub-paragraph (B) above who wishes to use this Base Prospectus in connection with an Public Offer is required, for the duration of the relevant Offer Period, to publish on its website the statement (duly completed) set out in paragraph (B)(ii) above.

Common conditions to consent

The conditions to the Issuer's consent are (in addition to the conditions described in paragraph (B) above if Part B of the applicable Final Terms specifies "*General Consent*" as "*Applicable*") that such consent:

- (a) is only valid in respect of the relevant Tranche of Non-Exempt PD Notes;
- (b) is only valid during the Offer Period specified in the applicable Final Terms;

- (c) only extends to the use of this Base Prospectus to make Public Offers of the relevant Tranche of Non-Exempt PD Notes in the Public Offer Jurisdictions as specified in the applicable Final Terms; and
- (d) is subject to any other conditions set out in Part B of the applicable Final Terms.

ARRANGEMENTS BETWEEN INVESTORS AND AUTHORISED OFFERORS

AN INVESTOR INTENDING TO ACQUIRE OR ACQUIRING ANY NON-EXEMPT PD NOTES IN A PUBLIC OFFER FROM AN AUTHORISED OFFEROR OTHER THAN THE ISSUER WILL DO SO, AND OFFERS AND SALES OF SUCH NON-EXEMPT PD NOTES TO AN INVESTOR BY SUCH AUTHORISED OFFEROR WILL BE MADE, IN ACCORDANCE WITH THE TERMS AND CONDITIONS OF THE OFFER IN PLACE BETWEEN SUCH AUTHORISED OFFEROR AND SUCH INVESTOR INCLUDING ARRANGEMENTS IN RELATION TO PRICE, ALLOCATIONS, EXPENSES AND SETTLEMENT, ALL FIXED IN COMPLIANCE WITH ALL APPLICABLE LAWS, RULES AND REGULATIONS. NEITHER THE ISSUER NOR THE GUARANTOR WILL BE A PARTY TO ANY SUCH ARRANGEMENTS WITH SUCH INVESTORS IN CONNECTION WITH THE PUBLIC OFFER OR SALE OF THE NON-EXEMPT PD NOTES CONCERNED AND, ACCORDINGLY, THIS BASE PROSPECTUS AND ANY FINAL TERMS WILL NOT CONTAIN SUCH INFORMATION. THE RELEVANT INFORMATION WILL BE PROVIDED BY THE AUTHORISED OFFEROR AT THE TIME OF SUCH OFFER AND THE AUTHORISED OFFEROR WILL BE RESPONSIBLE FOR SUCH INFORMATION. NONE OF THE ISSUER, THE GUARANTOR AND ANY DEALER (EXCEPT WHERE ANY OF THOSE IS THE RELEVANT AUTHORISED OFFEROR) HAS ANY RESPONSIBILITY OR LIABILITY TO AN INVESTOR IN RESPECT OF SUCH INFORMATION.

Public Offers: Issue Price and Offer Price

Non-Exempt PD Notes to be offered pursuant to a Public Offer will be issued by the Issuer at the Issue Price specified in the applicable Final Terms. The Issue Price will be determined by the Issuer in consultation with the relevant Dealer at the time of the relevant Public Offer and will depend, amongst other things, on the interest rate applicable to the Non-Exempt PD Notes and prevailing market conditions at that time. The offer price of such Non-Exempt PD Notes will be the Issue Price or such other price as may be agreed between an Investor and the Authorised Offeror making the offer of the Non-Exempt PD Notes to such Investor, but in compliance with the Authorised Offeror Terms regarding such price. The Issuer will not be party to arrangements between an Investor and an Authorised Offeror, and the Investor will need to look to the relevant Authorised Offeror to confirm the price at which such Authorised Offeror is offering the Non-Exempt PD Notes to such Investor.

FORM OF THE NOTES

This section provides a general overview of the form in which the Notes may be issued.

Each Tranche of Notes will be in bearer form and will initially be issued in the form of a Temporary Global Note which:

- (i) if the Global Notes (as defined under “*Terms and Conditions of the Notes*” below) are intended to be issued in new global note (“**NGN**”) form, as specified in the applicable Final Terms, will be delivered on or prior to the original issue date of the Tranche to a common safekeeper (the “**Common Safekeeper**”) for Euroclear Bank SA/NV (“**Euroclear**”) and Clearstream Banking S.A. (“**Clearstream, Luxembourg**”); and
- (ii) if the Global Notes are not intended to be issued in NGN Form, will be delivered on or prior to the original issue date of the Tranche to the Common Depository for Euroclear and Clearstream, Luxembourg.

Where the Global Notes issued in respect of any Tranche are in NGN form, the applicable Final Terms will also indicate whether such Global Notes are intended to be held in a manner which would allow Eurosystem eligibility. Any indication that the Global Notes are to be so held does not necessarily mean that the Notes of the relevant Tranche will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any times during their life as such recognition depends upon satisfaction of the Eurosystem eligibility criteria. The Common Safekeeper for NGNs will either be Euroclear or Clearstream, Luxembourg or another entity approved by Euroclear and Clearstream, Luxembourg.

Whilst any Note is represented by a Temporary Global Note, payments of principal, interest (if any) and any other amount payable in respect of the Notes due prior to the Exchange Date (as defined below) will be made (against presentation of the Temporary Global Note if the Temporary Global Note is not intended to be issued in NGN form) only to the extent that certification (in a form to be provided) to the effect that the beneficial owners of interests in such Note are not U.S. persons or persons who have purchased for resale to any U.S. person, as required by U.S. Treasury regulations, has been received by Euroclear and/or Clearstream, Luxembourg and Euroclear and/or Clearstream, Luxembourg, as applicable, has given a like certification (based on the certifications it has received) to the Agent. Any reference in this section “*Form of the Notes*” to Euroclear and/or Clearstream, Luxembourg shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system approved by the Issuer and the Agent, and specified in the applicable Final Terms.

On and after the date (the “**Exchange Date**”) which is 40 days after the Temporary Global Note is issued, interests in such Temporary Global Note will be exchangeable (free of charge) upon a request as described therein for interests in a Permanent Global Note of the same Series without interest coupons or talons against certification of beneficial ownership as described in the second sentence of the immediately preceding paragraph unless such certification has already been given. The holder of a Temporary Global Note will not be entitled to collect any payment of interest, principal or other amount due on or after the Exchange Date unless upon due certification, exchange of the Temporary Global Note for interests in the Permanent Global Note is improperly withheld or refused. Pursuant to the Agency Agreement the Agent shall arrange that, where a further Tranche of Notes is issued which is intended to form a single Series with an existing Tranche of Notes, the Notes of such Tranche shall be assigned a common code and ISIN by Euroclear and Clearstream, Luxembourg which are different from the common code and ISIN assigned to Notes of any other Tranche of the same Series until at least the expiry of the Distribution Compliance Period applicable to the Notes of such Tranche.

Payments of principal, interest (if any) or any other amounts on a Permanent Global Note will be made through Euroclear and/or Clearstream, Luxembourg (against presentation or surrender (as the case may be) of the Permanent Global Note if the Permanent Global Note is not intended to be issued in NGN form) without any requirement for certification. Unless otherwise specified in the applicable Final Terms, a Permanent Global Note will be exchangeable (free of charge), in whole but not in part, for definitive Notes with, where applicable, interest coupons and talons attached only upon the occurrence of an Exchange Event. For these purposes, “**Exchange Event**” means that (A) an Event of Default (as defined in Condition 14) has occurred and is continuing, (B) the Issuer has been notified that both Euroclear and Clearstream, Luxembourg have been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and no successor clearing system is available or (C) the Issuer has or will become subject to adverse tax consequences, which would not be suffered were the Notes represented by a Permanent Global Note in definitive form. The Issuer will promptly give notice to Noteholders in accordance with Credit Linked Condition 20 if an Exchange Event occurs. In the event of the occurrence of an Exchange Event, Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in such Permanent Global Note) may give notice to the Agent requesting exchange and, in the event of the occurrence of an Exchange Event as described in (C) above, the Issuer may also give notice to the Agent requesting exchange. Any such exchange shall occur not later than 45 days after the dates of receipt of the first relevant notice by the Agent. Global Notes and definitive Notes will be issued pursuant to the Agency Agreement.

The following legend will appear on all Notes (other than Temporary Global Notes), on all interest coupons and on all talons for further interest coupons:

‘ANY UNITED STATES PERSON WHO HOLDS THIS OBLIGATION WILL BE SUBJECT TO LIMITATIONS UNDER THE UNITED STATES INCOME TAX LAWS, INCLUDING THE LIMITATIONS PROVIDED IN SECTIONS 165(j) AND 1287(a) OF THE INTERNAL REVENUE CODE.’

The sections referred to provide that United States holders, with certain exceptions, will not be entitled to deduct any loss on Notes or interest coupons and will not be entitled to capital gains treatment of any gain on any sale, disposition, redemption or payment of principal in respect of Notes or interest coupons.

Notes which are represented by a Global Note will only be transferable in accordance with the rules and procedures for the time being of Euroclear or Clearstream, Luxembourg, as the case may be.

A Note may be accelerated automatically by the holder thereof in certain circumstances described in Condition 14. In such circumstances, where any Note is still represented by a Global Note (or any part thereof) and a holder of such Note so represented and credited to their securities account with Euroclear or Clearstream, Luxembourg gives notice that it wishes to accelerate such Note, unless within a period of 15 days from the giving of such notice payment has been made in full of the amount due in accordance with the terms of such Global Note, such Global Note will become void at 8.00 pm (London time) on such day. At the same time, holders of interests in such Global Note credited to their accounts with Euroclear and/or Clearstream, Luxembourg, as the case may be, will become entitled to proceed directly against the Issuer on the basis of statements of account provided by Euroclear and Clearstream, Luxembourg, on and subject to the terms of a deed of covenant (the “**Deed of Covenant**”) dated 19 January 2022 as amended and/or supplemented and/or restated from time to time executed by the Issuer.

In Belgium, Notes shall not be physically delivered, except to a clearing system, a depository or other institution for the purpose of their immobilisation in accordance with article 4 of the Belgian Law of 14 December 2005.

This section sets out the contractual terms and conditions of the Notes. The subsections on Interest Amounts and redemption contain certain options for determining interest payments (if any), early redemption rights and final redemption payments. The Final Terms will indicate which of these options shall apply for each specific Notes issuance.

The following are the Terms and Conditions of the Notes which, as completed in accordance with the applicable Final Terms, will be incorporated by reference into each Global Note (as defined below) and each Definitive Note (as defined below), in the latter case only if permitted by the rules of the relevant stock exchange (if any) and agreed by the Issuer and the relevant Dealer(s) at the time of issue but if not so permitted and agreed, such Definitive Note will have endorsed upon or attached thereto such Terms and Conditions. The applicable Final Terms (or the relevant provisions thereof) will be endorsed upon, or attached to, each Temporary Global Note, Permanent Global Note and Definitive Note. Reference should be made to “Form of Final Terms” above for a description of the content of Final Terms which will include the definitions of certain terms used in the following Terms and Conditions and/or will specify which of such terms are to apply in relation to the relevant Notes.

The Notes are one of a Series (as defined below) of Notes issued by KBC IFIMA S.A., a public limited liability company (*société anonyme*) incorporated under the laws of the Grand Duchy of Luxembourg, with registered office at 4 rue du Fort Wallis, L-2714 Luxembourg, Grand Duchy of Luxembourg and registered with the trade and companies register (RCS Luxembourg) under number B193577 (the “**Issuer**”) pursuant to the Agency Agreement (as defined below).

Interest bearing Definitive Notes (unless otherwise indicated in the applicable Final Terms) have interest coupons (“**Coupons**”) and, if indicated in the applicable Final Terms, talons for further Coupons (“**Talons**”) attached on issue. The applicable Final Terms may specify one or more Interest Basis as being applicable to the Notes. Where more than one Interest Basis is applicable, the Notes shall bear interest in accordance with each of the provisions of this Condition 3 that apply to each applicable Interest Basis. Where an Interest Basis specified in the applicable Final Terms is:

Each Fixed Rate Note bears interest from (and including) its Interest Commencement Date at the rate(s) per annum (expressed as a percentage) equal to the Rate(s) of Interest specified in the applicable Final Terms. Interest will accrue in respect of each Interest Period (as defined in Condition 3(e)) and will be payable in arrear on the Interest Payment Date(s).

The Interest Amount (as defined in Condition 3(e)) payable on Fixed Rate Notes in respect of any Interest Period shall be calculated by applying the relevant Rate of Interest to:

- (A) in the case of Fixed Rate Notes which are represented by a Global Note, the aggregate outstanding nominal amount of the Fixed Rate Notes represented by such Global Note; or

and, in each case, multiplying such sum by the applicable Fixed Day Count Fraction, and rounding the resultant figure to the nearest two decimal places (or, in the case of Japanese Yen, the nearest whole unit) in the Specified Currency, 0.005 (or, in the case of Japanese Yen, half of one unit) being rounded upwards. Where the Specified Denomination of a Fixed Rate Note in definitive form comprises more than one Calculation Amount, the amount of interest payable in respect of such Fixed Rate Note in accordance with this Condition 3(a) shall be the aggregate of the amounts (determined in the manner provided above) for each Calculation Amount comprising the Specified Denomination without any further rounding.

Where the Specified Denomination of a Range Accrual Note in definitive form comprises more than one Calculation Amount, the Interest Amount payable in respect of such Note shall be the aggregate of the amounts (determined in the manner provided above) for each Calculation Amount comprising the Specified Denomination without any further rounding.

The Calculation Agent will notify the Agent of the Interest Amount payable on the Range Accrual Notes in respect of each Calculation Amount for the relevant Interest Period as soon as practicable after calculating the same.

“**Day Count Fraction**” shall have the meaning given to such term in Condition 3(b)(iv).

(vi) *Notification of Range Accrual Rate of Interest and Interest Amounts*

The Calculation Agent will promptly notify the Agent of each Interest Amount and the Agent will cause the Range Accrual Rate of Interest and each Interest Amount for each Interest Period and the relevant Interest Payment Date to be notified to the Issuer, the Guarantor, the other Paying Agents, the Noteholders and any stock exchange on which the relevant Range Accrual Notes are for the time being listed and notice thereof to be published in accordance with Condition 18 (*Notices*) as soon as possible after their determination. Each Interest Amount and Interest Payment Date so notified may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without prior notice in the event of an extension or shortening of the Interest Period. Any such amendment will be promptly notified to each stock exchange on which the relevant Range Accrual Notes are for the time being listed and to the Noteholders in accordance with Condition 18 (*Notices*).

(vii) *Certificates to be Final*

All certificates, communications, opinions, determinations, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of this Condition 3(c) by the Calculation Agent shall (in the absence of wilful default, bad faith or manifest error) be binding on the Issuer, the Guarantor, the Agent, the other Paying Agents and all Noteholders and Couponholders and (in the absence as aforesaid) no liability to the Issuer, the Guarantor, the Noteholders or the Couponholders shall attach to the Calculation Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions pursuant to such provisions.

(d) *Accrual of Interest*

Each Note will cease to bear interest (if any) from the date for its redemption unless either, upon due presentation thereof (if applicable), payment of principal is improperly withheld or refused. In such event, interest will continue to accrue until whichever is the earlier of: (1) the date on which all amounts due in respect of such Note have been paid; and (2) five days after the date on which the full amount of the moneys payable on the Notes has been received by the Agent and/or all assets in respect of such Note have been received by any agent appointed by the Issuer to deliver such assets to Noteholders and notice to that effect has been given to the Noteholders in accordance with Condition 18 (*Notices*).

For the avoidance of doubt, where any Autocall Redemption Amount and/or Interest Amount and/or Redemption Amount in respect of Index Linked Notes, Equity Linked Notes, Currency Linked Notes or Autocall Notes is postponed as a result of the occurrence of a Disrupted Day (in each case in accordance with, and as defined in, Conditions 5(d), 6, 7 and 9 respectively), no Interest Amount or other sum shall be payable in respect of the postponement of the payment thereof.

(f) *Business Day Conventions and Business Days*

- (i) If a Business Day Convention is specified in the applicable Final Terms in relation to any date (including, for the avoidance of doubt, any Maturity Date) and (x) if there is no numerically corresponding day in the calendar month in which such date should occur or (y) if such date

would otherwise fall on a day which is not a Business Day, then, if the Business Day Convention specified is: in the case of Floating Rate Notes, Index Linked Interest Notes, Equity Linked Interest Notes, Inflation Linked Interest Notes or Currency Linked Interest Notes only, the Floating Rate Convention, the relevant Interest Period End Date (i) in the case of (x) above, shall be the last day that is a Business Day in the relevant month and the provisions of (B) below shall apply mutatis mutandis or (ii) in the case of (y) above, shall be postponed to the next day which is a Business Day, unless it would thereby fall into the next calendar month, in which event (A) such Interest Period End Date shall be brought forward to the immediately preceding Business Day and (B) each subsequent Interest Period End Date shall be the last Business Day in the month;

(g) *Benchmark Reference Rate replacement*

Without prejudice to the other provisions in this Condition 3, if the Issuer determines that a Benchmark Event has occurred in relation to the relevant Reference Rate specified in the applicable Final Terms when any Rate of Interest (or the relevant component part thereof) remains to be determined by reference to such Reference Rate, then the following provisions shall apply to the relevant Notes:

- (i) unless the Reference Rate is CMS:
 - (A) the Issuer shall use reasonable endeavours, as soon as reasonably practicable, to appoint and consult with an Independent Adviser with a view to the Issuer determining (without any requirement for the consent or approval of the Noteholders) (A) a Successor Rate or, failing which, an Alternative Reference Rate, for purposes of determining the Rate of Interest (or the relevant component part thereof) applicable to the Notes and (B) in either case, an Adjustment Spread;
 - (B) if the Issuer is unable to appoint an Independent Adviser prior to the IA Determination Cut-Off Date, the Issuer (acting in good faith and in a commercially reasonable manner)

- may still determine (A) a Successor Rate or, failing which, an Alternative Reference Rate and (B) in either case, an Adjustment Spread in accordance with this Condition 3(g);
- (C) if a Successor Rate or, failing which, an Alternative Reference Rate (as applicable) is determined in accordance with paragraphs (i) or (B) above, such Successor Rate or, failing which, Alternative Reference Rate (as applicable) shall be the Reference Rate for each of the future Interest Periods (subject to the subsequent operation of, and to adjustment as provided in, this Condition 3(g));
 - (D) if the Issuer, following consultation with the Independent Adviser (if any) and acting in good faith, determines that an Adjustment Spread is required to be applied to the Successor Rate or the Alternative Reference Rate (as applicable) and determines the quantum of, or a formula or methodology for determining, such Adjustment Spread, then such Adjustment Spread shall be applied to the Successor Rate or the Alternative Reference Rate (as applicable). If the Issuer is unable to determine the quantum of, or a formula or methodology for determining, such Adjustment Spread, then the Successor Rate or Alternative Reference Rate (as applicable) will apply without an Adjustment Spread;
 - (E) if the Issuer, following consultation with the Independent Adviser (if any) and acting in good faith, determines a Successor Rate or, failing which, an Alternative Reference Rate (as applicable) in accordance with the above provisions, the Issuer may (without any requirement for the consent or approval of the Noteholders) also specify such changes to the Conditions, the applicable Final Terms and/or the Agency Agreement as it may determine appropriate in order to ensure the proper operation of such Successor Rate or Alternative Reference Rate or any Adjustment Spread (as applicable), including, but not limited to, (A) the Day Count Fraction, Relevant Screen Page, Business Day Convention, Business Days, Interest Determination Date and/or the definition of Reference Rate applicable to the Notes and (B) the method for determining the fall-back rate in relation to the Notes. The Agent and any other agents party to the Agency Agreement shall, at the direction and expense of the Issuer, effect such consequential amendments to the Agency Agreement and these Conditions as may be required in order to give effect to the application of this Condition 3(g). No consent shall be required from the Noteholders in connection with determining or giving effect to the Successor Rate or Alternative Reference Rate (as applicable) or such other changes, including for the execution of any documents or other steps to be taken by the Agent and any other agents party to the Agency Agreement (if required or useful); and
 - (F) the Issuer shall promptly, following the determination of any Successor Rate, Alternative Reference Rate or Adjustment Spread (as applicable), give notice thereof to the Agent, the Calculation Agent and, in accordance with Condition 18 (Notices), the Noteholders. Such notice shall specify the effective date(s) for such Successor Rate or Alternative Reference Rate (as applicable), the Adjustment Spread (if any) and any consequential changes made to the Conditions, the applicable Final Terms and the Agency Agreement; or
- (ii) if the Reference Rate is CMS or CMS SOFR, the Calculation Agent will determine the Reference Rate as the floating rate it would determine if it were acting as the Calculation Agent (as defined in the ISDA Definitions (as defined below)) under an interest rate swap transaction under the terms of an agreement incorporating the 2006 ISDA Definitions, as published by the International Swaps and Derivatives Association, Inc. (“**ISDA**”) and as amended and updated as at the Issue Date of the first Tranche of the Notes (the “**ISDA Definitions**”) (such rate, the “**Alternative CMS Rate**”). The Calculation Agent may (without any requirement for the consent or approval of the

Noteholders) also specify such changes to the Conditions, the applicable Final Terms and/or the Agency Agreement as it may determine appropriate in order to ensure the proper operation of such Alternative CMS Rate including, but not limited to, (A) the Day Count Fraction, Relevant Screen Page, Business Day Convention, Business Days, Interest Determination Date and/or the definition of Reference Rate applicable to the Notes and (B) the method for determining the fall-back rate in relation to the Notes. The Agent and any other agents party to the Agency Agreement shall, at the direction and expense of the Issuer, effect such consequential amendments to the Agency Agreement and these Conditions as may be required in order to give effect to the application of this Condition 3(g). No consent shall be required from the Noteholders in connection with determining or giving effect to the Alternative CMS Rate or such other changes, including for the execution of any documents or other steps to be taken by the Agent and any other agents party to the Agency Agreement (if required or useful). The Calculation Agent shall promptly, following the determination of any Alternative CMS Rate, give notice thereof to the Issuer and the Agent and the Issuer shall as soon as practicable give notice thereof to the Noteholders in accordance with Condition 18 (Notices). Such notice shall specify the effective date(s) for such Alternative CMS Rate (as applicable) and any consequential changes made to the Conditions, the applicable Final Terms and the Agency Agreement.

An Independent Adviser appointed pursuant to this Condition 3(g) shall act in good faith as an expert and (in the absence of bad faith or fraud) shall have no liability whatsoever to the Agent, the Calculation Agent or the Noteholders for any advice given to the Issuer in connection with any determination made by the Issuer pursuant to this Condition 3(g).

Without prejudice to the obligations of the Issuer under this Condition 3(g), the Reference Rate and the other provisions in this Condition 3 will continue to apply unless and until the Calculation Agent has been notified of the Successor Rate or Alternative Reference Rate (as applicable), the Adjustment Spread (if any) and any consequential changes made to the Agency Agreement and the Conditions (if any).

For the purposes of this Condition 3(g):

“**Adjustment Spread**” means a spread (which may be positive or negative) or formula or methodology for calculating a spread, which the Issuer, following consultation with the Independent Adviser (if any) and acting in good faith, determines is required to be applied to the Successor Rate or the Alternative Reference Rate (as applicable) in order to reduce or eliminate, to the extent reasonably practicable in the relevant circumstances, any economic prejudice or benefit (as applicable) to the Noteholders as a result of the replacement of the Reference Rate with the Successor Rate or the Alternative Reference Rate (as applicable) and is the spread, formula or methodology which:

- (i) in the case of a Successor Rate, is formally recommended in relation to the replacement of the Reference Rate with the Successor Rate by any Relevant Nominating Body; or
- (ii) in the case of a Successor Rate for which no such recommendation has been made or in the case of an Alternative Reference Rate, the Issuer, following consultation with the Independent Adviser (if any) and acting in good faith, determines is recognised or acknowledged as being in customary market usage in international debt capital markets transactions which reference the Reference Rate, where such rate has been replaced by the Successor Rate or the Alternative Reference Rate (as applicable); or
- (iii) if no such customary market usage is recognised or acknowledged, the Issuer, following consultation with the Independent Adviser (if any) and acting in good faith, determines is recognised or acknowledged as being the industry standard for over-the-counter derivative

transactions which reference the Reference Rate, where such rate has been replaced by the Successor Rate or the Alternative Reference Rate (as applicable); or

- (iv) if no such industry standard is recognised or acknowledged, the Issuer, in its discretion, following consultation with the Independent Adviser (if any) and acting in good faith, determines to be appropriate.

“Alternative Reference Rate” means the rate that the Issuer determines has replaced the relevant Reference Rate in customary market usage in the international debt capital markets for the purposes of determining rates of interest (or the relevant component part thereof) in respect of bonds denominated in the Specified Currency of the Notes and of a comparable duration to the relevant Interest Period, or, if the Issuer determines that there is no such rate, such other rate as the Issuer determines in its discretion is most comparable to the relevant Reference Rate.

“Benchmark Event” means:

- (i) the relevant Reference Rate ceasing to be published for a period of at least five Business Days or ceasing to exist; or
- (ii) a public statement by the administrator of the relevant Reference Rate stating that it will, by a specified date within the following six months, cease to publish the relevant Reference Rate, permanently or indefinitely (in circumstances where no successor administrator has been appointed that will continue publication of the relevant Reference Rate); or
- (iii) a public statement by the supervisor of the administrator of the relevant Reference Rate stating that the relevant Reference Rate has been or will be, by a specified date within the following six months, permanently or indefinitely discontinued; or
- (iv) a public statement by the supervisor or the administrator of the relevant Reference Rate that means that the relevant Reference Rate will be prohibited from being used or that its use will be subject to restrictions or adverse consequences, in each case within the following six months; or
- (v) it has become unlawful for the Agent, the Calculation Agent or any other agents party to the Agency Agreement to calculate any payments due to be made to any Noteholders using the relevant Reference Rate.

“IA Determination Cut-Off Date” means no later than five Business Days prior to the relevant Interest Determination Date relating to the next succeeding Interest Period.

“Independent Adviser” means an independent financial institution of international repute or other independent financial adviser experienced in the international debt capital markets, in each case selected and appointed by the Issuer at its own expense.

“Relevant Nominating Body” means, in respect of a Reference Rate:

- (i) the central bank for the currency to which the Reference Rate relates, or any central bank or other supervisory authority which is responsible for supervising the administrator of the Reference Rate; or
- (ii) any working group or committee sponsored by, chaired or co-chaired by or constituted at the request of (A) the central bank for the currency to which the Reference Rate relates, (B) any central bank or other supervisory authority which is responsible for supervising the administrator of the Reference Rate, (C) a group of the aforementioned central banks or other supervisory authorities or (D) the Financial Stability Board or any part thereof.

“**Successor Rate**” means the rate that the Issuer determines is a successor to, or replacement of, the Reference Rate which is formally recommended by any Relevant Nominating Body.

4 Payments

(a) Method of Payment

Subject as provided below:

- (i) payments in a Specified Currency other than euro will be made by credit or transfer to an account in the relevant Specified Currency maintained by the payee with, or, at the option of the payee, by a cheque in such Specified Currency drawn on, a bank in the principal financial centre of the country of such Specified Currency (which, if the Specified Currency is Australian dollars or New Zealand dollars, shall be Sydney or Wellington, respectively); and
- (ii) payments in euro will be made by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) specified by the payee or, at the option of the payee, by a euro cheque.

All payments will be subject in all cases to (i) any fiscal or other laws, regulations or directives applicable thereto in the place of payment or other laws and regulations to which the Issuer, the Guarantor or their Paying Agents are subject and neither the Issuer nor the Guarantor will be liable for any taxes or duties of whatever nature imposed or levied by such laws, regulations or directives or agreements, but without prejudice to the provisions of Condition 12(a) (as applicable), (ii) any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986 (the “**Code**”) or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, any official interpretations thereof, or (without prejudice to the provisions of Condition 12(a) (as applicable)) any law implementing an intergovernmental approach thereto and (iii) any withholding or deduction required pursuant to section 871(m) of the Code.

Any references in these Conditions to payment of any sums in respect of the Notes shall be deemed to include, as applicable, delivery of assets if so provided in the applicable Final Terms and references to paid and payable shall be construed accordingly. The method of delivery of any assets and the liability for the costs and charges arising from such delivery will be as specified in the applicable Final Terms.

(b) Presentation of Definitive Notes and Coupons

Payments of principal in respect of Definitive Notes will (subject as provided below) be made in the manner provided in paragraph (a) above only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of Definitive Notes, and payments of Interest Amounts in respect of Definitive Notes will (subject as provided below) be made as aforesaid only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of Coupons, in each case at the specified office of any Paying Agent outside the United States (which expression, as used herein, means the United States of America (including the States and the District of Columbia and its possessions)).

Fixed Rate Notes in definitive form should be presented for payment together with all unmatured Coupons appertaining thereto (which expression shall for this purpose include Coupons falling to be issued on exchange of matured Talons), failing which the amount of any missing unmatured Coupon (or, in the case of payment not being made in full, the same proportion of the amount of such missing unmatured Coupon as the sum so paid bears to the sum due) will be deducted from the sum due for payment. Each amount of principal so deducted will be paid in the manner mentioned above against surrender of the relative missing Coupon at any time before the expiry of 10 years after the Relevant

Date (as defined in Condition 12(a)) in respect of such principal (whether or not such Coupon would otherwise have become void under Condition 13) or, if later, five years from the date on which such Coupon would otherwise have become due, but in no event thereafter.

Upon any Fixed Rate Note in definitive form becoming due and repayable prior to its Maturity Date, all unmatured Talons (if any) appertaining thereto will become void and no further Coupons will be issued in respect thereof.

Upon the date on which any Floating Rate Note, Range Accrual Note, Index Linked Note, Equity Linked Note, Inflation Linked Note, Currency Linked Note or Long Maturity Note in definitive form becomes due and repayable prior to its Maturity Date, unmatured Coupons and Talons (if any) relating thereto (whether or not attached) shall become void and no payment or, as the case may be, exchange for further Coupons shall be made in respect thereof. A “**Long Maturity Note**” is a Fixed Rate Note (other than a Fixed Rate Note which on issue had a Talon attached) whose nominal amount at issue is less than the aggregate Interest Amount payable thereon (provided that such Note shall cease to be a Long Maturity Note on the Interest Payment Date on which the aggregate Interest Amount remaining to be paid after that date is less than the nominal amount of the relevant Definitive Note).

If the due date for redemption of any Definitive Note is not an Interest Payment Date in respect of an applicable Interest Basis, interest (if any) accrued in respect of such Note on such Interest Basis from (and including) the preceding Interest Payment Date or, as the case may be, the applicable Interest Commencement Date shall be payable only against surrender of the relevant Definitive Note.

(c) Payments in respect of Global Notes

Payments of principal and Interest Amounts (if any) in respect of Notes represented by any Global Note will (subject as provided below) be made in the manner specified above in relation to Definitive Notes or otherwise in the manner specified in the relevant Global Note, where applicable, against presentation or surrender, as the case may be, of such Global Note at the specified office of any Paying Agent outside the United States. A record of each payment made, distinguishing between any payment of principal and any payment of interest, will be made on such Global Note either by the Paying Agent to which it was presented or in the records of Euroclear and Clearstream Luxembourg, as applicable.

(d) General provisions applicable to payments

The holder of a Global Note shall be the only person entitled to receive payments in respect of Notes represented by such Global Note and the Issuer or, as the case may be, the Guarantor will be discharged by payment to, or to the order of, the holder of such Global Note in respect of each amount so paid. Each of the persons shown in the records of Euroclear or Clearstream, Luxembourg as the beneficial holder of a particular nominal amount of Notes represented by such Global Note must look solely to Euroclear or Clearstream, Luxembourg, as the case may be, for their share of each payment so made by the Issuer or, as the case may be, the Guarantor to, or to the order of, the holder of such Global Note.

Notwithstanding the foregoing provisions of this Condition, if any amount of principal and/or Interest Amounts in respect of Notes is payable in U.S. dollars, such U.S. dollar payments of principal and/or Interest Amounts in respect of such Notes will be made at the specified office of a Paying Agent in the United States if:

- (i) the Issuer has appointed Paying Agents with specified offices outside the United States with the reasonable expectation that such Paying Agents would be able to make payment in U.S. dollars at such specified offices outside the United States of the full amount of principal and Interest Amounts on the Notes in the manner provided above when due;

- (ii) payment of the full amount of such principal and Interest Amounts at all such specified offices outside the United States is illegal or effectively precluded by exchange controls or other similar restrictions on the full payment or receipt of principal and Interest Amounts in U.S. dollars; and
- (iii) such payment is then permitted under United States law without involving, in the opinion of the Issuer and the Guarantor, adverse tax consequences to the Issuer or the Guarantor.

(e) *Payment Day*

If the date for payment of any amount in respect of any Note or Coupon is not a Payment Day, the holder thereof shall not be entitled to payment until the next following Payment Day in the relevant place and shall not be entitled to further Interest Amounts or other payment in respect of such delay. For these purposes, “**Payment Day**” means any day which (subject to Condition 13 (*Prescription*)) is:

- (iv) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealings in foreign exchange and foreign currency deposits) in:
 - (A) in the case of Definitive Notes only, the relevant place of presentation; and
 - (B) each Additional Financial Centre (other than TARGET2 System) specified in the applicable Final Terms; and
- (v) a day on which the TARGET2 System is open, unless the applicable Final Terms specify “TARGET Not Required”; and
- (vi) either (1) where a sum is payable in a Specified Currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of such Specified Currency (which if the Specified Currency is Australian dollars or New Zealand dollars shall be Sydney or Wellington, respectively) unless the applicable Final Terms specify “Principal Financial Centre Not Required” or (2) in relation to any sum payable in euro, a day on which the TARGET2 System is open.

(f) *Interpretation of Principal and Interest (Amount(s))*

Any reference in these Conditions to principal in respect of the Notes shall be deemed to include, as applicable:

- (i) any additional amounts which may be payable under Condition 12(a) as a result of a withholding or deduction having made in respect of a principal payment under the Notes;
- (ii) the Final Redemption Amount;
- (iii) the Early Redemption Amount;
- (iv) the Optional Redemption Amount(s) (if any);
- (v) in relation to Zero Coupon Notes, the Amortised Face Amount (as defined in Condition 5(e)(ii)); and
- (vi) any premium and any other amounts (other than interest) which may be payable by the Issuer under or in respect of the Notes.

Any reference in these Conditions to interest or Interest Amount(s) in respect of the Notes shall be deemed to include, as applicable, any additional amounts which may be payable with respect to the Interest Amounts under Condition 12(a).

5 Redemption and Purchase

(a) Redemption at Maturity

Unless previously redeemed or purchased and cancelled as specified below, each Note will be redeemed by the Issuer on the Maturity Date at an amount in the relevant Specified Currency equal to:

- (i) in the case of Fixed Redemption Notes, par; or
- (ii) in the case of Index Linked Redemption Notes, Equity Linked Redemption Notes or Currency Linked Redemption Notes, the applicable Redemption Amount determined in accordance with the provisions of Conditions 6, 7 and 9, respectively.

(b) Redemption for Tax Reasons

If the Prohibition of sales to consumers in Belgium is specified as applicable in the applicable Final Terms, the Notes may be redeemed at the option of the Issuer in whole, but not in part, at any time (if the Notes are not Floating Rate Notes, Index Linked Interest Notes, Equity Linked Interest Notes, Inflation Linked Interest Notes, Currency Linked Interest Notes and/or Range Accrual Notes) or on any Interest Payment Date (if the Notes are Floating Rate Notes, Index Linked Interest Notes, Equity Linked Interest Notes, Inflation Linked Interest Notes, Currency Linked Interest Notes and/or Range Accrual Notes), on giving not less than 30 nor more than 60 days' notice to the Agent and, in accordance with Condition 18 (*Notices*), the Noteholders (which notice shall be irrevocable), if:

- (iii) on the occasion of the next payment due under the Notes, the Issuer has or will become obliged to pay additional amounts as provided or referred to in Condition 12(a) or the Guarantor would be unable for reasons outside its control to procure payment by the Issuer and in making payment itself would be required to pay such additional amounts, in either case as a result of any change in, or amendment to, the laws or regulations of any Tax Jurisdiction (as defined below) or any political subdivision or any authority thereof or therein having power to tax, or any change in the application or official interpretation of such laws or regulations, which change or amendment becomes effective on or after the date on which agreement is reached to issue the first Tranche of the Notes; and
- (iv) such obligation cannot be avoided by the Issuer or, as the case may be, the Guarantor taking reasonable measures available to it,

provided that no such notice of redemption shall be given earlier than 90 days prior to the earliest date on which the Issuer or, as the case may be, the Guarantor would be obliged to pay such additional amounts were a payment in respect of the Notes then due. Prior to the publication of any notice of redemption pursuant to this Condition, the Issuer shall deliver to the Agent a certificate signed by two Directors of the Issuer or, as the case may be, two Directors of the Guarantor, stating that the Issuer is entitled to effect such redemption and setting forth a statement of facts showing that the conditions precedent to the right of the Issuer so to redeem have occurred, and an opinion of independent legal advisers of recognised standing to the effect that the Issuer or, as the case may be, the Guarantor has or will become obliged to pay such additional amounts as a result of such change or amendment.

Notes redeemed pursuant to this Condition 5(b) will be redeemed at the Early Redemption Amount referred to in Condition 5(e) below together (if appropriate) with interest accrued to (but excluding) the date of redemption.

If the Prohibition of sales to consumers in Belgium is specified as not applicable in the applicable Final Terms, this Condition 5(b) shall not apply to the Notes.

(c) *Redemption at the Option of the Issuer (Issuer Call)*

If Issuer Call is specified as applicable in the applicable Final Terms, giving the Issuer an option to redeem, the Issuer may, having given:

- (i) not less than 15 nor more than 30 days' notice (or such other Issuer Call Period of days' notice as is specified in the applicable Final Terms) to the Noteholders in accordance with Condition 18 (*Notices*); and
- (ii) not less than 15 days before the giving of the notice referred to in (i), notice to the Agent,

(which notices shall be irrevocable and shall specify the date fixed for redemption), redeem all (but not some only) of the Notes then outstanding on any Optional Redemption Date (which, if the Notes are due to bear interest, will be an Interest Payment Date) and at their Optional Redemption Amount specified in the applicable Final Terms together with accrued interest (if any). Where the Optional Redemption Date does not fall on an Interest Payment Date, and must fall on a Business Day, such Business Day shall be subject to the Business Day Convention and Additional Business Day Centre(s) specified in the applicable Final Terms.

If the Prohibition of sales to consumers in Belgium is specified as not applicable in the applicable Final Terms, the Issuer Call shall only be made applicable if this call option is one of the main characteristics of the Notes (so-called "callable notes").

(d) *Autocall Early Redemption*

Where the Autocall Early Redemption provisions are specified to be applicable in the applicable Final Terms ("**Autocall Notes**"), if the Autocall Condition is satisfied in respect of any Autocall Observation Date:

- (i) the Issuer shall provide notice of such event to the Noteholders in accordance with Condition 18 (*Notices*) as soon as reasonably practicable following the date on which the Autocall Condition is determined to have been satisfied (an "**Autocall Early Redemption Notice**");
- (ii) such Autocall Early Redemption Notice shall specify the date on which all of the Notes outstanding shall be redeemed early (which will be the next following Interest Payment Date that falls not less than five Business Days following the date on which the Autocall Early Redemption Notice is provided or, if no such date exists, the Maturity Date) at their Autocall Redemption Amount (together with accrued interest(if any)); and

- (VII) “**SF**” means the Scaling Factor specified in the applicable Final Terms.

(e) *Early Redemption Amounts*

- (i) If the Prohibition of sales to consumers in Belgium is specified as applicable in the applicable Final Terms, for the purpose of these Conditions, the Early Redemption Amount in respect of any Note (other than a Note redeeming early in accordance with Condition 5(c) or Condition 5(d) above) shall be, in respect of each nominal amount of such Notes equal to the Calculation Amount, such amount(s) calculated by the Calculation Agent in its sole discretion, acting reasonably, by determining:
 - (A) in respect of a Note other than a Zero Coupon Note, if:
 - (a) a Fixed Early Redemption Amount or Fixed Early Redemption Percentage is specified in the applicable Final Terms, such amount or an amount equal to the product of the Calculation Amount and such Fixed Early Redemption Percentage, as the case may be, together with accrued but unpaid interest if “Including Interest” is specified in the applicable Final Terms; or
 - (b) no Fixed Early Redemption Amount or Fixed Early Redemption Percentage is specified in the applicable Final Terms, the fair market value of such Notes on the date of redemption, including accrued interest (if any), adjusted to account fully for any losses, expenses and costs to the Issuer (or any of its Affiliates) of unwinding any underlying or related hedging and funding arrangements, all as determined by the Calculation Agent. For the purposes hereof: (I) the references to “together (if appropriate) with interest accrued to (but excluding) the date of

redemption” shall be deemed to be deleted from Condition 5(b); and (II) the references to “together with accrued interest thereon to the date of repayment”, shall be deemed to be deleted from Condition 14 (*Events of Default*); or

- (B) in respect of a Zero Coupon Note, subject to Condition 5(j) below, the Amortised Face Amount which on the relevant date of early redemption shall be the scheduled Final Redemption Amount of such Note on the Maturity Date discounted at a rate per annum (expressed as a percentage) equal to the Amortisation Yield applied on the Amortisation Yield Compounding Basis specified in the applicable Final Terms.
- (ii) If the Prohibition of sales to consumers in Belgium is specified as not applicable in the applicable Final Terms, for the purpose of these Conditions, the Early Redemption Amount in respect of any Note (other than a Note redeeming early in accordance with Condition 5(c) or Condition 5(d) above) shall be, in respect of each nominal amount of such Notes equal to the Calculation Amount, such amount(s) calculated by the Calculation Agent in its sole discretion, acting reasonably, by determining:
- (A) in the case of a unilateral termination by the Issuer in the case of a force majeure, the fair market value; and
 - (B) in the case of a unilateral termination by the Issuer other than in the case of a force majeure:
 - (a) in respect of structured Notes with total or partial capital protection, at the choice of the Noteholder, either (a) the fair market value or (b) the amount obtained using the formula stipulated below:

$$(S + D) * (1 + r)^n$$

where:

S = the market value of the savings component on the day of the activating event,

D = the market value of the derivative component on the day of the decision to proceed to early repayment,

where account is taken of the accrued unpaid interest,

r = the annual interest rate that the entity on which the Noteholder is exposed to the principal (more than 50%) credit risk (depending on the circumstances, the Issuer, Guarantor or any other party involved in the construction) offers on the date of the activating event on a debt instrument with the same maturity as the remaining maturity of the terminated structured Note (“funding rate”, which also matches the discount rate used when determining S), from that date until maturity,

n = the remaining maturity expressed in years, and

in case the Noteholder has not communicated their choice to the Calculation Agent within seven Business Days following the date on which notice has been given to the Noteholder of the event giving rise to the early redemption, the fair market value;

- (b) in the case of structured Notes with no capital protection, the fair market value; and

- (c) in the case of unstructured Notes which give a right to the payment of the nominal amount at maturity, the higher of (a) the fair market value or (b) the nominal amount.

If the Early Redemption Amount payable to the Noteholder is determined pursuant to Condition 5(e)(ii)(A) above, the Noteholder will not be charged any costs for the unilateral termination upon the Issuer's initiative.

If the Early Redemption Amount payable to the Noteholder is determined pursuant to Condition 5(e)(ii)(B) above:

- (A) the Noteholder will not be charged any costs for the unilateral termination upon the Issuer's initiative; and
- (B) at the time of the unilateral termination, the Noteholder will be refunded the costs initially paid by it to the Issuer *pro rata* in the following proportion:

$$\frac{\text{Total term of the Notes initially set} - \text{expired term of the Notes at the time of early repayment}}{\text{Total term of the Notes initially set}}$$

- (iii) For the purpose of these Conditions, the Early Redemption Amount in respect of any Note redeeming early on its Optional Redemption Date in accordance with Condition 5(c) above shall be, in respect of each nominal amount of such Notes equal to the Calculation Amount, such amount(s) calculated by the Calculation Agent in its sole discretion, acting reasonably, by determining the relevant Optional Redemption Amount determined pursuant to Condition 5(c) above.
- (iv) For the purpose of these Conditions, the Early Redemption Amount in respect of any Note redeeming early as a result of the Autocall Condition being satisfied, shall be, in respect of each nominal amount of such Notes equal to the Calculation Amount, such amount(s) calculated by the Calculation Agent in its sole discretion, acting reasonably, by determining the relevant Autocall Redemption Amount determined pursuant to Condition 5(d) above.

(f) *Illegality*

In the event that the Calculation Agent determines that:

- a. the performance of the Issuer's obligations under the Notes or, as the case may be, the Guarantor's obligations under the Guarantee, or
- b. any arrangements made to hedge the Issuer's obligations under the Notes,

has or will become unlawful, illegal or otherwise prohibited in whole or in part as a result of compliance with any applicable present or future law, rule, regulation, judgment, order or directive of any governmental, administrative, legislative or judicial authority or power, or in the interpretation thereof, the Issuer having given not less than 10 nor more than 30 days' notice to Noteholders in accordance with Condition 18 (Notices) (which notice shall be irrevocable), may, on expiry of such notice redeem all, but not some only, of the Notes, each Note being redeemed at the Early Redemption Amount together (if appropriate) with interest accrued to (but excluding) the date of redemption.

Paragraph (f)(ii) shall not apply if the Prohibition of sales to consumers in Belgium is specified as not applicable in the applicable Final Terms.

(g) *Cessation of Reference Rate*

In the event that the relevant benchmark Reference Rate that is required to make any calculations on the Notes has ceased to be calculated and/or published and no successor or replacement rate has been determined by the Issuer in accordance with Condition 3(g) for any reason whatsoever, the Issuer having given not less than 10 nor more than 30 days' notice to Noteholders in accordance with Condition 18 (Notices) (which notice shall be irrevocable), may, on expiry of such notice redeem all, but not some only, of the Notes, each Note being redeemed at the Early Redemption Amount together (if appropriate) with interest accrued to (but excluding) the date of redemption.

(h) *Purchases*

The Issuer, the Guarantor or any of their respective subsidiaries may at any time purchase Notes (provided that, in the case of Definitive Notes, all unmatured Coupons and Talons appertaining thereto are purchased therewith) at any price in the open market or otherwise. Such Notes may be held, reissued, resold or, at the option of the Issuer or the Guarantor, surrendered to the Agent for cancellation.

(i) *Cancellation*

All Notes which are redeemed will forthwith be cancelled (together with all unmatured Coupons and Talons attached thereto or surrendered therewith at the time of redemption). All Notes so cancelled and the Notes purchased and cancelled pursuant to Condition 5(h) (together with all unmatured Coupons and Talons cancelled therewith) shall be forwarded to the Agent and cannot be reissued or resold.

(j) *Late payment on Zero Coupon Notes*

If the amount payable in respect of any Zero Coupon Note upon redemption of such Zero Coupon Note pursuant to Condition 5(a), (b) or (c) above or upon its becoming due and repayable as provided in Condition 14 (Events of Default) is improperly withheld or refused, the amount due and repayable in respect of such Zero Coupon Note shall be the amount calculated as provided in Condition 5(e)(ii) above as though the references therein to the date fixed for the redemption or the date upon which such Zero Coupon Note becomes due and payable were replaced by references to the date which is the earlier of:

- (i) the date on which all amounts due in respect of such Zero Coupon Note have been paid to the Noteholder; and
- (ii) five days after the date on which the full amount of the moneys payable in respect of such Zero Coupon Notes has been received by the Agent and notice to that effect has been given to the Noteholders in accordance with Condition 18 (Notices).

6 **Index Linked Notes**

If the Notes are Index Linked Interest Notes and/or Index Linked Redemption Notes then the provisions of this Condition 6 apply, as applicable, as completed by the applicable Final Terms.

Unless Index Linked Notes are previously redeemed or purchased and cancelled, if the determination of (I) an Interest Amount (in the case of Index Linked Interest Notes); or (II) the Redemption Amount (in the case of Index Linked Redemption Notes) is postponed as a result of the occurrence of a Disrupted Day (as defined in Condition 6(d) below) which prevents a Valuation Date falling on its corresponding Scheduled Valuation Date, then payment of any such amount (the "**Index Linked Affected Amount**") shall be postponed to the date which is the Index Linked Interest Payment Extension Number (as specified in the applicable Final Terms) of Business Days following the latest Valuation Date that is necessary to determine such Index Linked Affected Amount,

and such Index Linked Affected Amount shall be paid without any Interest Amount or other sum payable in respect of the postponement of the payment thereof.

(a) Redemption of Index Linked Redemption Notes

Unless previously redeemed or purchased and cancelled, each nominal amount of Index Linked Redemption Notes equal to the Calculation Amount set out in the applicable Final Terms will be redeemed by the Issuer at its Redemption Amount (as defined below) on the Maturity Date.

(b) Adjustments to an Index

(i) Successor Index Sponsor Calculates and Reports of an Index

If a relevant Index is (A) not calculated and announced by the Index Sponsor but is calculated and announced by a successor sponsor (a “**Successor Index Sponsor**”) acceptable to the Calculation Agent or (B) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of that Index, then, in each case, that index (the “**Successor Index**”) will be deemed to be the Index for the purposes of the Notes.

(ii) Modification and Cessation of Calculation of an Index

If (A) on or prior to a Valuation Date the relevant Index Sponsor makes or announces that it will make a material change in the formula for or the method of calculating a relevant Index or in any other way materially modifies that Index (other than a modification prescribed in that formula or method to maintain that Index in the event of changes in constituent stock and capitalisation or contracts and other routine events) (an “**Index Modification**”) or permanently cancels the Index and no Successor Index exists (an “**Index Cancellation**”), or (B) on a Valuation Date the Index Sponsor or (if applicable) the Successor Index Sponsor fails to calculate and announce a relevant Index (an “**Index Disruption**” and, together with an Index Modification and an Index Cancellation, each an “**Index Adjustment Event**”), then the Issuer may take the action described in (a) or (b) below:

- (a) require the Calculation Agent to determine if such Index Adjustment Event has a material effect on the Index Linked Notes and, if so, to either (I) in relation to any Valuation Date, calculate the Reference Price using, in lieu of a published level for that Index, the level for that Index as at the Valuation Time on that Valuation Date as determined by the Calculation Agent in accordance with the formula for and method of calculating that Index last in effect prior to the change, failure or cancellation, but using only those securities that comprised that Index immediately prior to that Index Adjustment Event or (II) substitute that Index with a replacement index using, in the determination of the Calculation Agent, the same or a substantially similar method of calculation as used in the calculation of that Index and the Calculation Agent shall determine the adjustments, if any, to be made to these Conditions and/or the applicable Final Terms to account for such substitution; or
- (b) give notice to the Noteholders in accordance with Condition 18 (*Notices*) and redeem all, but not some only, of the Index Linked Redemption Notes, each nominal amount of Notes equal to the Calculation Amount being redeemed at the Early Redemption Amount.

(iii) Correction of an Index Level

If Correction of Index Levels is specified to be applicable in the applicable Final Terms, with the exception of any correction published after the Correction Cut-Off Date specified in the

applicable Final Terms, if the official closing level of an Index published on a Valuation Date is subsequently corrected and the correction (the “**Corrected Index Level**”) is published by the Index Sponsor or (if applicable) the Successor Index Sponsor within one Settlement Cycle after the original publication, (A) the Issuer shall give notice as soon as practicable of that correction to the Noteholders in accordance with Condition 18 (*Notices*), (B) such Corrected Index Level shall be deemed to be the closing level for such Index for that Valuation Date and (C) the Calculation Agent shall use such Corrected Index Level in determining the relevant Interest Amount and/or Redemption Amount. Corrections published after the Correction Cut-Off Date will be disregarded by the Calculation Agent for the purposes of determining the relevant Interest Amount and/or Redemption Amount.

(iv) *Notice*

Upon the occurrence of an Index Adjustment Event, the Issuer shall give notice as soon as practicable to Noteholders in accordance with Condition 18 (*Notices*) giving details of the action proposed to be taken in relation thereto.

(v) *Offer of a Series of Notes to consumers within the meaning of the Belgian Code of Economic Law*

If the Prohibition of sales to consumers in Belgium is specified as not applicable in the applicable Final Terms, adjustments and modifications pursuant to this Condition 6(b) cannot relate to an essential feature of the Notes and the Notes cannot be early redeemed by the Issuer, other than, in each case, if a force majeure or an event occurs which substantially alters the economics of the contract as initially agreed between the parties and for which the Issuer is not accountable. In addition, any such adjustment or modification may not create a significant imbalance between the rights and obligations of the parties to the detriment of the Noteholder and the Issuer may not charge costs to the Noteholder for any such adjustment or modification.

(c) *Consequences of Disrupted Days: Averaging Payments*

(i) *Disruption Fallback Provisions*

If the Calculation Agent determines that any Valuation Date in respect of an Averaging Payment is a Disrupted Day, then:

- (a) if “Omission” is specified to be applicable in the applicable Final Terms, such date shall be deemed not to be a relevant Valuation Date for the purposes of determining the relevant Averaging Payment in respect of such Valuation Date, provided that if through the operation of this provision there would not be any Valuation Date in respect of such Averaging Payment, then the sole Valuation Date shall be the earlier of (A) the first Scheduled Trading Day following the Scheduled Valuation Date that is not a Disrupted Day and (B) the Valuation Cut-Off Date;
- (b) if “Postponement” is specified to be applicable in the applicable Final Terms, the Valuation Date shall be the earlier of (A) the first Scheduled Trading Day following the Scheduled Valuation Date that is not a Disrupted Day and (B) the Valuation Cut-Off Date. Any day (including, for the avoidance of doubt, the Valuation Cut-Off Date) determined to be a Valuation Date as a result of the operation of this Condition 6(c) shall be a Valuation Date, irrespective of whether it falls on a day that already is or is deemed to be a Valuation Date;
or
- (c) if “Modified Postponement” is specified to be applicable in the applicable Final Terms, the Valuation Date shall be the earlier of (A) the first Valid Date following the Scheduled

Valuation Date and (B) the Valuation Cut-Off Date, irrespective of whether the Valuation Cut-Off Date falls on a day that already is or is deemed to be a Valuation Date.

(ii) *Determination of Index Levels*

If, in respect of any Index, a Valuation Date falls on the relevant Valuation Cut-Off Date pursuant to Condition 6(c)(i) above:

- (a) if such Valuation Cut-Off Date is not a Disrupted Day for such Index, the Calculation Agent shall determine the Index Level of such Index as at the Reference Time on such Valuation Reference Cut-Off Date; and/or
- (b) if such Valuation Cut-Off Date is a Disrupted Day for such Index, the Calculation Agent shall determine the Index Level for such Index as at the Reference Time on the Valuation Date in accordance with the formula for and method of calculating the Index Level of such Index last in effect prior to the occurrence of the first Disrupted Day using the Exchange traded or quoted price as of the Reference Time on the Valuation Cut-Off Date of each security comprised in such Index (or, if an event giving rise to a Disrupted Day (as defined in Condition 7 (*Equity Linked Notes*) in relation to a share) has occurred in respect of the relevant security on the Valuation Cut-Off Date, its good faith estimate of the value for the relevant security as of the Reference Time on the Valuation Cut-Off Date).

(iii) *Notice of Disrupted Day*

The Calculation Agent shall give notice as soon as practicable to the Noteholders in accordance with Condition 18 (*Notices*) of the occurrence of a Disrupted Day on any day that, but for the occurrence of a Disrupted Day, would have been a Valuation Date. Without limiting the obligation of the Calculation Agent to give notice to the Noteholders as set forth in the preceding sentence, failure by the Calculation Agent to notify the Noteholders of the occurrence of a Disrupted Day shall not affect the validity of the occurrence and effect of such Disrupted Day.

(d) *Definitions applicable to Index Linked Notes*

As used above:

“Early Closure” means the closure on any Exchange Business Day of the Exchange in respect of any Component Security or any Related Exchange prior to its Scheduled Closing Time unless such earlier closing is announced by such Exchange or Related Exchange, as the case may be, at least one hour prior to the earlier of: (a) the actual closing time for the regular trading session on such Exchange or Related Exchange, as the case may be, on such Exchange Business Day; and (b) the submission deadline for orders to be entered into the relevant Exchange or Related Exchange system for execution at the relevant Valuation Time on such Exchange Business Day.

“Exchange Disruption” means any event (other than an Early Closure) that disrupts or impairs (as determined by the Calculation Agent) the ability of market participants in general to effect transactions in, or obtain market values for: (a) any Component Security on the Exchange in respect of such Component Security; or (b) futures or options contracts relating to the Index on any Related Exchange.

“Trading Disruption” means any suspension of or limitation imposed on trading by the relevant Exchange or Related Exchange, as the case may be, or otherwise and whether by reason of movements in price exceeding limits permitted by the relevant Exchange or Related Exchange or otherwise: (a) relating to any Component Security on the Exchange in respect of such Component Security; or (b) in futures or options contracts relating to the Index on any Related Exchange.

For the purposes of determining whether a Market Disruption Event in respect of an Index or a Component Security exists at any time, if a Market Disruption Event occurs in respect of a security included in the Index or such Component Security at that time, then the relevant percentage contribution of that security or Component Security, as the case may be, to the level of the Index shall be based on a comparison of (a) the portion of the level of the Index attributable to that security or Component Security, as the case may be, and (b) the overall level of the Index, in each case either (i) except where the Index is a Designated Multi-Exchange Index, immediately before the occurrence of such Market Disruption Event or (ii) where the Index is a Designated Multi-Exchange Index, using the official opening weightings as published by the Index Sponsor as part of the market “opening data”.

“Redemption Amount” means, in relation to an Index Linked Redemption Note, an amount calculated by the Calculation Agent equal to:

$$\text{Calculation Amount} \times \text{MAX} \left[\text{Floor \%}; \left\{ \text{MIN} \left(\text{Cap \%}; 1 + \left[\text{IRM} \times \frac{\text{Reference Item}_{\text{final}} - (\text{SF} \times \text{Reference Item}_{\text{initial}})}{\text{Reference Item}_{\text{initial}}} \right] \right) \right\} \right]$$

where the value of:

- (a) Floor % shall be specified in the applicable Final Terms;

- (b) Cap % shall be specified in the applicable Final Terms;
- (c) “**IRM**” means the Index Redemption Multiplier specified in the applicable Final Terms;
- (d) Reference Item_{initial} shall be:
 - (i) the amount specified as such in the applicable Final Terms; or
 - (ii) if Reference Item_{initial} Determination is specified as being applicable in the applicable Final Terms, the Reference Price (as defined in this Condition 6(d)) determined (and subject to adjustment) in accordance with this Condition 6 in respect of the Valuation Date_t specified for this purpose in the applicable Final Terms; or
 - (iii) if Reference Item_{initial} Averaging is specified as being applicable in the applicable Final Terms, the arithmetic average of the relevant Reference Prices (as defined in this Condition 6(d)) determined (and subject to adjustment) in accordance with this Condition 6 in respect of each Valuation Date_t specified for this purpose in the applicable Final Terms;
- (e) Reference Item_{final} shall be:
 - (i) the amount specified as such in the applicable Final Terms; or
 - (ii) if Reference Item_{final} Determination is specified as being applicable in the applicable Final Terms, the Reference Price (as defined in this Condition 6(d)) determined (and subject to adjustment) in accordance with this Condition 6 in respect of the Valuation Date specified for this purpose in the applicable Final Terms; or
 - (iii) if Reference Item_{final} Averaging is specified as being applicable in the applicable Final Terms, the arithmetic average of the relevant Reference Prices (as defined in this Condition 6(d)) determined (and subject to adjustment) in accordance with this Condition 6 in respect of each Valuation Date specified for this purpose in the applicable Final Terms; and
- (f) SF means the Scaling Factor specified in the applicable Final Terms,

provided always that the Redemption Amount shall in no event be less than zero and in the case of Index Linked Redemption Notes which are represented by a Global Note, the reference to “Calculation Amount” shall be deemed to refer to the aggregate outstanding nominal amount of the Index Linked Redemption Notes represented by such Global Note. The Redemption Amount will be rounded to the nearest two decimal places (or, in the case of Japanese Yen, the nearest whole unit) in the Specified Currency, 0.005 (or, in the case of Japanese Yen, half of one unit) being rounded upwards.

“**Reference Price**” means, in relation to a Valuation Date an amount (which shall be deemed to be an amount of the Specified Currency) equal to the official closing level of the Index as determined by the Calculation Agent (or if a Valuation Time other than the Scheduled Closing Time is specified in the applicable Final Terms, the level of the Index determined by the

Calculation Agent at such Valuation Time) on that Valuation Date (as defined below), without regard to any subsequently published correction.

“Related Exchange” means, in relation to an Index, each exchange or quotation system specified as such for such Index in the applicable Final Terms, any successor to such exchange or quotation system or any substitute exchange or quotation system to which trading in futures or options contracts relating to such Index has temporarily relocated (provided that the Calculation Agent has determined that there is comparable liquidity relative to the futures or options contracts relating to such Index on such temporary substitute exchange or quotation system as on the original Related Exchange), PROVIDED THAT where “All Exchanges” is specified as the Related Exchange in the applicable Final Terms, “Related Exchange” shall mean each exchange or quotation system where trading has a material effect (as determined by the Calculation Agent) on the overall market for futures or options contracts relating to such Index.

“Scheduled Closing Time” means, in respect of an Exchange or Related Exchange and a Scheduled Trading Day, the scheduled weekday closing time of such Exchange or Related Exchange on such Scheduled Trading Day, without regard to after hours or any other trading outside of the regular trading session hours.

“Scheduled Trading Day” means:

- (a) where the Index is not specified in the applicable Final Terms as being a Designated Multi-Exchange Index, any day on which each Exchange and each Related Exchange are scheduled to be open for trading for their respective regular trading sessions; or
- (b) where the Index is specified in the applicable Final Terms as being a Designated Multi-Exchange Index, (i) any day on which the Index Sponsor is scheduled to publish the level of that Index and (ii) each Related Exchange is scheduled to be open for trading for its regular trading session.

“Scheduled Valuation Date” means, in relation to a Valuation Date, any original date that, but for the occurrence of an event causing a Disrupted Day, would have been that Valuation Date.

“Settlement Cycle” means, in respect of an Index, the period of Clearance System Business Days following a trade in the securities underlying such Index on the Exchange in which settlement will customarily occur according to the rules of such Exchange (or, if there are multiple Exchanges in respect of an Index, the longest such period).

“Valid Date” means a Scheduled Trading Day that is not a Disrupted Day and on which another Valuation Date does not or is not deemed to occur.

“Valuation Cut-Off Date” means the eighth Scheduled Trading Day following the Scheduled Valuation Date.

“Valuation Date” means each date specified as such in the applicable Final Terms or, if any such date is not a Scheduled Trading Day, the next following Scheduled Trading Day unless, in the opinion of the Calculation Agent, such day is a Disrupted Day. If such day is a Disrupted Day:

- (a) which does not relate to an Averaging Payment, then the Valuation Date shall be the earlier of (i) the first succeeding Scheduled Trading Day that is not a Disrupted Day; and (ii) the Valuation Cut-Off Date. If the earlier of such dates is the Valuation Cut-Off Date, (A) the Valuation Cut-Off Date shall be deemed to be that Valuation Date notwithstanding the fact that such day is a Disrupted Day and (B) the Calculation Agent shall determine the Reference Price by determining the level of the Index as of the Valuation Time on the

Valuation Cut-Off Date in accordance with the formula for and method of calculating the Index last in effect prior to the occurrence of the first Disrupted Day using the Exchange traded or quoted price as of the Valuation Time on the Valuation Cut-Off Date of each security comprised in the Index (or if an event giving rise to a Disrupted Day has occurred in respect of the relevant security on the Valuation Cut-Off Date, its good faith estimate of the value for the relevant security as of the Valuation Time on the Valuation Cut-Off Date); and

- (b) which relates to an Averaging Payment, then the Valuation Date shall be such date as is determined in accordance with Condition 6(c) above.

“**Valuation Time**” means:

- (a) where the Index is not specified in the applicable Final Terms as being a Designated Multi-Exchange Index, the Valuation Time specified in the applicable Final Terms or, if no Valuation Time is specified, the Scheduled Closing Time on the relevant Exchange on the relevant Valuation Date in relation to each Index to be valued. If the relevant Exchange closes prior to its Scheduled Closing Time and the specified Valuation Time is after the actual closing time for its regular trading session, then the Valuation Time shall be such actual closing time; or
- (b) where the Index is specified in the applicable Final Terms as being a Designated Multi-Exchange Index, the Valuation Time specified in the applicable Final Terms or, if no Valuation Time is specified, (i) for the purposes of determining whether a Market Disruption Event has occurred: (A) in respect of a Component Security, the Scheduled Closing Time on the relevant Exchange and (B) in respect of any options contracts or futures contracts on the Index, the close of trading on the relevant Related Exchange, and (ii) in all other circumstances, the time at which the official closing level of the Index is calculated and published by the Index Sponsor. If, for the purposes of (i) above, the relevant Exchange closes prior to its Scheduled Closing Time and the specified Valuation Time is after the actual closing time for its regular trading session, then the Valuation Time shall be such actual closing time.

7 Equity Linked Notes

If the Notes are Equity Linked Interest Notes and/or Equity Linked Redemption Notes then the provisions of this Condition 7 apply, as applicable, as completed by the applicable Final Terms.

Unless Equity Linked Notes are previously redeemed or purchased and cancelled, if the determination of (I) an Interest Amount (in the case of Equity Linked Interest Notes); or (II) the Redemption Amount (in the case of Equity Linked Redemption Notes) is postponed as a result of the occurrence of a Disrupted Day (as defined in Condition 7(d) below) which prevents a Valuation Date falling on its corresponding Scheduled Valuation Date, then payment of any such amount (the “**Equity Linked Affected Amount**”) shall be postponed to the date which is the Equity Linked Interest Payment Extension Number (as specified in the applicable Final Terms) of Business Days following the latest Valuation Date that is necessary to determine such Equity Linked Affected Amount, and such Equity Linked Affected Amount shall be paid without any Interest Amount or other sum payable in respect of the postponement of the payment thereof.

(a) *Redemption of Equity Linked Redemption Notes*

Unless previously redeemed or purchased and cancelled as specified below, each nominal amount of Equity Linked Redemption Notes equal to the Calculation Amount set out in the applicable Final Terms will be redeemed by the Issuer at its Redemption Amount (as defined below) on the Maturity Date.

(b) *Potential Adjustment Events, De-listing, Merger Event, Tender Offer, Nationalisation and Insolvency, Correction of Share Prices, Adjustments for Equity Linked Notes*

- (i) If Potential Adjustment Events are specified to be applicable in the applicable Final Terms, then following the declaration by an Equity Issuer of the terms of any Potential Adjustment Event, the Calculation Agent will determine whether such Potential Adjustment Event has a diluting, concentrative or other effect on the theoretical value of the Underlying Equity or Equities and, if so, will (a) either (A) make the corresponding adjustment, if any, to any one or more of the relevant Interest Amount and/or the Redemption Amount and/or the Reference Item_{initial} and/or the Reference Item_{final} and/or the Multiplier and/or any of the other terms of these Conditions and/or the applicable Final Terms as the Calculation Agent determines appropriate to account for that diluting, concentrative or other effect (provided that no adjustments will be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relative to the relevant Underlying Equity) or (B) substitute the Underlying Equity the subject of the Potential Adjustment Event with a replacement equity security selected by the Calculation Agent and the Calculation Agent shall determine the adjustments, if any, to be made to these Conditions and/or the applicable Final Terms to account for such substitution and (b) determine the effective date of that adjustment or substitution, as the case may be. With respect to an adjustment pursuant to (A) above, the Calculation Agent may (but need not) determine the appropriate adjustment by reference to the adjustment in respect of such Potential Adjustment Event made by an options exchange to options on the Underlying Equity or Equities traded on that options exchange.

Upon making any such adjustment, the Issuer shall give notice as soon as practicable to the Noteholders in accordance with Condition 18 (*Notices*), stating the adjustment to the relevant Interest Amount and/or Redemption Amount and/or, the Reference Item_{initial} and/or the Reference Item_{final} and/or the Multiplier and/or any of the other terms of these Conditions and/or the applicable Final Terms and giving brief details of the Potential Adjustment Event.

For the purposes of this Condition 7:

“Potential Adjustment Event” means any of the following:

- (a) a subdivision, consolidation or reclassification of a relevant Underlying Equity (unless resulting in a Merger Event), or a free distribution or dividend of any such Underlying Equity to existing holders by way of bonus, capitalisation or similar issue;
- (b) a distribution, issue or dividend to existing holders of a relevant Underlying Equity of (1) an additional amount of such Underlying Equity or (2) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the relevant Equity Issuer equally or proportionately with such payments to holders of such Underlying Equity or (3) share capital or other securities of another issuer acquired or owned (directly or indirectly) by the relevant Equity Issuer as a result of a spin-off or other similar transaction or (4) any other type of securities, rights or warrants or other assets, in any case for payment (in cash or other consideration) at less than the prevailing market price as determined by the Calculation Agent;

- (c) the declaration or payment of any dividend (or portion thereof) that the Calculation Agent determines to be an extraordinary dividend;
 - (d) a call by an Equity Issuer (other than an ETF Issuer) in respect of a relevant Underlying Equity that is not fully paid;
 - (e) a repurchase by an Equity Issuer or any of its subsidiaries of a relevant Underlying Equity whether out of profits or capital and whether the consideration for such repurchase is cash, securities or otherwise (excluding any redemption of ETF Shares initiated by an investor on terms consistent with the relevant ETF Documents);
 - (f) in respect of an Equity Issuer (other than an ETF Issuer), an event that results in any shareholder rights being distributed or becoming separated from shares of common stock or other shares of the capital stock of such Equity Issuer, pursuant to a shareholder rights plan or arrangement directed against hostile takeovers that provides upon the occurrence of certain events for a distribution of preferred stock, warrants, debt instruments or stock rights at a price below their market value as determined by the Calculation Agent, provided that any adjustment effected as a result of such an event shall be readjusted upon any redemption of such rights; or
 - (g) any other event that has or may have, in the opinion of the Calculation Agent, a diluting, concentrative or other effect on the theoretical value of the relevant Underlying Equity.
- (ii) If (x) De-listing, Merger Event, Nationalisation and Insolvency and/or (y) Tender Offer is specified to be applicable in the applicable Final Terms and (in the case of (x)), a De-listing, Merger Event, Nationalisation or (other than in respect of an ETF Share) Insolvency occurs or (in the case of (y)) a Tender Offer occurs, in each case, in relation to an Underlying Equity, the Issuer in its sole and absolute discretion may:
- (a) require the Calculation Agent to determine the appropriate adjustment, if any, to be made to any one or more of the relevant Interest Amount and/or the Redemption Amount and/or the Reference Item_{initial} and/or the Reference Item_{final} and/or the Multiplier and/or any of the other terms of these Conditions and/or the applicable Final Terms to account for the De-listing, Merger Event, Tender Offer, Nationalisation or Insolvency, as the case may be, and determine the effective date of that adjustment. The relevant adjustments may (i) include, without limitation, the substitution of the Underlying Equity the subject of the De-listing, Merger Event, Nationalisation, Insolvency or Tender Offer by a replacement equity security selected by the Calculation Agent and the Calculation Agent shall determine the adjustments, if any, to be made to these Conditions and/or the applicable Final Terms to account for such substitution or (ii) in the case of adjustments following a Merger Event or Tender Offer include, without limitation, adjustments to account for changes in volatility, expected dividends, stock loan rate or liquidity relevant to the Underlying Equities; or
 - (b) give notice to the Noteholders in accordance with Condition 18 (*Notices*) and redeem all, but not some only, of the Equity Linked Redemption Notes, each nominal amount of Notes equal to the Calculation Amount being redeemed at the Early Redemption Amount.

If the provisions of Condition 7(b)(ii)(a) apply, the Calculation Agent may (but need not) determine the appropriate adjustment by reference to the adjustment in respect of the De-listing, Merger Event, Tender Offer, Nationalisation or Insolvency, as the case may be, made by an

options exchange to options on the Underlying Equity or Equities traded on that options exchange.

Upon the occurrence (if applicable) of a De-listing, Merger Event, Tender Offer, Nationalisation or Insolvency, the Issuer shall give notice as soon as practicable to the Noteholders in accordance with Condition 18 (*Notices*) stating the occurrence of the De-listing, Merger Event, Tender Offer, Nationalisation or Insolvency, as the case may be, giving details thereof and the action proposed to be taken in relation thereto.

For the purposes of these Conditions:

“De-listing” means, in respect of any relevant Underlying Equities, the relevant Exchange announces that pursuant to the rules of such Exchange, such Underlying Equities cease (or will cease) to be listed, traded or publicly quoted on the Exchange for any reason (other than a Merger Event or Tender Offer) and are not immediately re-listed, re-traded or re-quoted on an exchange or quotation system located in the same country as the Exchange (or, where the Exchange is within the European Union, in any member state of the European Union);

“Insolvency” means, other than in respect of an ETF Share, that by reason of the voluntary or involuntary liquidation, bankruptcy, insolvency, dissolution or winding-up of, or any analogous proceeding affecting an Equity Issuer (A) all the Underlying Equities of that Equity Issuer are required to be transferred to a trustee, liquidator or other similar official or (B) holders of the Underlying Equities of that Equity Issuer become legally prohibited from transferring them;

“Merger Date” means the closing date of a Merger Event or, where a closing date cannot be determined under the local law applicable to such Merger Event, such other date as determined by the Calculation Agent;

“Merger Event” means, in respect of any relevant Underlying Equities, any (a) reclassification or change of such Underlying Equities that results in a transfer of, or an irrevocable commitment to transfer, all such Underlying Equities outstanding to another entity or person, (b) consolidation, amalgamation, merger or binding share exchange of the relevant Equity Issuer with or into another entity or person (other than a consolidation, amalgamation, merger or binding share exchange in which such Equity Issuer is the continuing entity and which does not result in any such reclassification or change of all such Underlying Equities outstanding), (c) takeover offer, tender offer, exchange offer, solicitation, proposal or other event by any entity or person to purchase or otherwise obtain 100 per cent. of the outstanding Underlying Equities of the relevant Equity Issuer that results in a transfer of or an irrevocable commitment to transfer all such Underlying Equities (other than such Underlying Equities owned or controlled by such other entity or person), or (d) consolidation, amalgamation, merger or binding share exchange of the relevant Equity Issuer or its subsidiaries (if any) with or into another entity in which such Equity Issuer is the continuing entity and which does not result in a reclassification or change of all such Underlying Equities outstanding but results in the outstanding Underlying Equities (other than those Underlying Equities owned or controlled by such other entity) immediately prior to such event collectively representing less than 50 per cent. of the outstanding Underlying Equities immediately following such event, in each case if the Merger Date is on or before the relevant Valuation Date or, if the Equity Linked Redemption Notes are to be redeemed by delivery of Underlying Equities, the Maturity Date;

“Nationalisation” means that all the Underlying Equities or all or substantially all the assets of an Equity Issuer are nationalised, expropriated or are otherwise required to be transferred to any governmental agency, authority, entity or instrumentality thereof; and

“**Tender Offer**” means, in respect of an Equity Issuer, a takeover offer, tender offer, exchange offer, solicitation, proposal or other event by any entity or person that results in such entity or person purchasing, or otherwise obtaining or having the right to obtain, by conversion or other means, greater than 10 per cent. and less than 100 per cent. of the outstanding voting shares of such Equity Issuer, as determined by the Calculation Agent, based upon the making of filings with governmental or self-regulatory agencies or such other information as the Calculation Agent deems relevant.

- (iii) If Correction of Share Prices is specified to be applicable in the applicable Final Terms, with the exception of any corrections published after the Correction Cut-Off Date specified in the applicable Final Terms, if the price of an Underlying Equity published on a Valuation Date is subsequently corrected and the correction (the “**Corrected Share Price**”) is published on the relevant Exchange within one Settlement Cycle after the original publication, (A) the Issuer shall give notice as soon as practicable of that correction to the Noteholders in accordance with Condition 18 (*Notices*), (B) such Corrected Share Price shall be deemed to be the closing price for such Underlying Equity for that Valuation Date (C) and the Calculation Agent shall use such Corrected Share Price in determining the relevant Interest Amount and/or Redemption Amount. Corrections published after the Correction Cut-Off Date will be disregarded by the Calculation Agent for the purposes of determining the relevant Interest Amount and/or Redemption Amount.
- (iv) In respect of Equity Linked Notes relating to Underlying Equities originally quoted, listed and/or dealt as of the Trade Date in a currency of a member state of the European Union that has not adopted the single currency in accordance with the Treaty establishing the European Community, as amended, if such Underlying Equities are at any time after the Trade Date quoted, listed and/or dealt exclusively in euro on the relevant Exchange, then the Calculation Agent will adjust any one or more of the relevant Interest Amount and/or the Reference Item_{initial} and/or the Reference Item_{final} and/or the Multiplier and/or any of the other terms of these Conditions and/or the Redemption Amount and/or the applicable Final Terms as the Calculation Agent determines to be appropriate to preserve the economic terms of such Equity Linked Notes. The Calculation Agent will make any conversion necessary for the purposes of any such adjustment as of the Valuation Time at an appropriate mid-market spot rate of exchange determined by the Calculation Agent prevailing as of the Valuation Time. No adjustments under this Condition 7(b)(iv) will affect the currency denomination of any payments in respect of the Equity Linked Notes.
- (v) *Offer of a Series of Notes to consumers within the meaning of the Belgian Code of Economic Law*
If the Prohibition of sales to consumers in Belgium is specified as not applicable in the applicable Final Terms, adjustments and modifications pursuant to this Condition 7(b) cannot relate to an essential feature of the Notes and the Notes cannot be early redeemed by the Issuer, other than, in each case, if a force majeure or an event occurs which substantially alters the economics of the contract as initially agreed between the parties and for which the Issuer is not accountable. In addition, any such adjustment or modification may not create a significant imbalance between the rights and obligations of the parties to the detriment of the Noteholder and the Issuer may not charge costs to the Noteholder for any such adjustment or modification.

(c) *Consequences of Disrupted Days: Averaging Payments*

(i) *Disruption Fallback Provisions*

- (a) Where the Notes are specified in the applicable Final Terms to relate to a single Underlying Equity, if the Calculation Agent determines that any Valuation Date in respect of an Averaging Payment is a Disrupted Day, then:

- (i) if “Omission” is specified to be applicable in the applicable Final Terms, such date shall be deemed not to be a relevant Valuation Date for the purposes of determining the relevant Averaging Payment in respect of such Valuation Date, provided that if through the operation of this provision there would not be any Valuation Date in respect of such Averaging Payment, then the sole Valuation Date shall be the earlier of (A) the first Scheduled Trading Day following the Scheduled Valuation Date that is not a Disrupted Day and (B) the Valuation Cut-Off Date;
 - (ii) if “Postponement” is specified to be applicable in the applicable Final Terms, the Valuation Date shall be the earlier of (A) the first Scheduled Trading Day following the Scheduled Valuation Date that is not a Disrupted Day and (B) the Valuation Cut-Off Date. Any day (including, for the avoidance of doubt, the Valuation Cut-Off Date) determined to be a Valuation Date as a result of the operation of this Condition 7(c) shall be a Valuation Date, irrespective of whether it falls on a day that already is or is deemed to be a Valuation Date; or
 - (iii) if “Modified Postponement” is specified to be applicable in the applicable Final Terms, the Valuation Date shall be the earlier of (A) the first Valid Date following the Scheduled Valuation Date and (B) the Valuation Cut-Off Date, irrespective of whether the Valuation Cut-Off Date falls on a day that already is or is deemed to be a Valuation Date.
- (b) Where the Notes are specified in the applicable Final Terms to relate to a Basket of Underlying Equities, if the Calculation Agent determines that any Valuation Date in respect of a Valuation Date for an Averaging Payment is a Disrupted Day in respect of any Underlying Equity, then:
- (i) if “Omission” is specified to be applicable in the applicable Final Terms, such date shall be deemed not to be a Valuation Date in respect of any Underlying Equity in respect of such Reference Date, provided that, if through the operation of this provision there would not be any Valuation Date in respect of such Valuation Date, then:
 - (A) the sole Valuation Date for each Underlying Equity in respect of which the final Valuation Date is not a Disrupted Day shall be the final Valuation Date; and
 - (B) the sole Valuation Date for each Underlying Equity in respect of which the final Valuation Date is a Disrupted Day (each such Underlying Equity, an “**Affected Equity**”) shall be the earlier of (I) the first Scheduled Trading Day following the final Valuation Date that is not a Disrupted Day in respect of such Affected Equity and (II) the Valuation Date for such Affected Equity;
 - (ii) if “Postponement” is specified to be applicable in the applicable Final Terms, then:
 - (A) the Valuation Date for each Underlying Equity in respect of which the Scheduled Valuation Date is not a Disrupted Day shall be the Valuation Date; and
 - (B) the Valuation Date for each Underlying Equity in respect of which the Valuation Date is a Disrupted Day (each such Underlying Equity, an “**Affected Equity**”) shall be the earlier of (I) the first Scheduled Trading

Day following the Valuation Date that is not a Disrupted Day in respect of such Affected Equity and (II) the Valuation Date for such Affected Equity. Any day (including, for the avoidance of doubt, the Valuation Date) determined to be a Valuation Date as a result of the operation of this Condition 7(c)(ii) shall be a Valuation Date, irrespective of whether it falls on a day that already is or is deemed to be a Valuation Date; or

- (iii) if “Modified Postponement” is specified to be applicable in the applicable Final Terms then:
 - (A) the Valuation Date for each Underlying Equity in respect of which the Scheduled Valuation Date is not a Disrupted Day shall be the Valuation Date; and
 - (B) the Valuation Date for each Underlying Equity in respect of which the Valuation Date is a Disrupted Day (each such Underlying Equity, an “**Affected Equity**”) shall be the earlier of (I) the first Valid Date following the Valuation Date in respect of such Affected Equity and (II) the Valuation Date for such Affected Equity, irrespective of whether the Valuation Date falls on a day that already is or is deemed to be a Valuation Date.

(ii) Determination of Reference Price

If, in respect of any Underlying Equity, a Valuation Date is determined pursuant to Condition 7(c)(i) above:

- (i) if such Valuation Date is not a Disrupted Day for such Underlying Equity, the Calculation Agent shall determine the Reference Price of such Underlying Equity as at the Reference Time on such Valuation Date; and/or
- (ii) if such Valuation Date is a Disrupted Day for such Underlying Equity, the Calculation Agent shall determine the Reference Price for such Underlying Equity as at the Reference Time on the Valuation Date as its good faith estimate of the Reference Price of such Underlying Equity as of the Reference Time on the Valuation Date.

(iii) Notice of Disruption Date

The Calculation Agent shall give notice as soon as practicable to the Noteholders in accordance with Condition 18 (*Notices*) of the occurrence of a Disrupted Day on any day that, but for the occurrence of a Disrupted Day, would have been a Valuation Date. Without limiting the obligation of the Calculation Agent to give notice to the Noteholders as set forth in the preceding sentence, failure by the Calculation Agent to notify the Noteholders of the occurrence of a Disrupted Day shall not affect the validity of the occurrence and effect of such Disrupted Day.

- (i) where the Notes are specified in the applicable Final Terms to relate to a single Underlying Equity, the Valuation Date shall be the earlier of (i) first succeeding Scheduled Trading Day that is not a Disrupted Day; and (ii) the Valuation Cut-Off Date. If the earlier of such dates is the Valuation Cut-Off Date (i) the Valuation Cut-Off Date shall be deemed to be that Valuation Date, notwithstanding the fact that such day is a Disrupted Day, and (ii) the Calculation Agent shall, where practicable, determine the Reference Price using its good faith estimate of the Reference Price as of the Valuation Time on that Valuation Cut-Off Date; or

8 Inflation Linked Interest Notes

If the Notes are Inflation Linked Interest Notes then the provisions of this Condition 8 apply, as completed by the applicable Final Terms.

(a) *Adjustments: Delay in Publication, Cessation of Publication, Manifest Error in Publication, Rebasing of the Inflation Index and Material Modification Prior to Relevant Payment Date*

(i) *Delay in Publication*

If the level of the Inflation Index for a Reference Month which is relevant to the calculation of a payment under the Inflation Linked Notes (a “**Relevant Level**”) has not been published or announced by the Relevant Determination Date for such Relevant Payment Date, the Calculation Agent shall determine the level of such Inflation Index for such Reference Month (a “**Substitute Inflation Index Level**”) in place of such Relevant Level by using the following methodology:

- (A) if applicable, the Calculation Agent will take the same action to determine the Substitute Inflation Index Level for such Relevant Payment Date as that taken by the calculation agent pursuant to the terms and conditions of any relevant Related Bond; or
- (B) if (A) above does not result in a Substitute Inflation Index Level for such Relevant Payment Date for any reason, then the Calculation Agent shall determine the Substitute Inflation Index Level by reference to the following formula:

$$\left[\left(\text{Substitute Inflation Index Level} = \text{Base Level} \times \left(\frac{\text{Latest Level}}{\text{Reference Level}} \right) \right) \right]$$

Following the determination of a Substitute Inflation Index Level by the Calculation Agent in accordance with this Condition 8(a)(i), the Issuer shall promptly give notice to the Noteholders in accordance with Condition 18 (*Notices*) of such Substitute Inflation Index Level.

If a Relevant Level in respect of a Relevant Payment Date is published or announced at any time after the Relevant Determination Date for such Relevant Payment Date, such Relevant Level will not be used in any calculations. The Substitute Inflation Index Level determined pursuant to this Condition 8(a)(i) will be the definitive level for that Reference Month.

For the purposes of this Condition 8(a)(i):

“**Base Level**” means, in respect of an Inflation Index, the level of such Inflation Index (excluding any “flash” estimates) published or announced by the relevant Inflation Index Sponsor in respect of the month which is 12 calendar months prior to the month for which the Substitute Inflation Index Level is being determined.

“**Latest Level**” means, in respect of an Inflation Index, the latest level of such Inflation Index (excluding any “flash” estimates) published or announced by the relevant Inflation Index Sponsor prior to the month in respect of which the Substitute Inflation Index Level is being determined.

“**Reference Level**” means, in respect of an Inflation Index, the level of such Inflation Index (excluding any “flash” estimates) published or announced by the relevant Inflation Index Sponsor in respect of the month that is 12 calendar months prior to the month referred to in the definition of “Latest Level” above.

(ii) *Cessation of Publication*

If the level of an Inflation Index has not been published or announced for two consecutive months or such other period as is specified in the applicable Final Terms (the “**Period of Cessation of Publication**”) and/or the relevant Inflation Index Sponsor announces that it will no longer continue to publish or announce such Inflation Index then the Calculation Agent shall determine a successor index (a “**Successor Inflation Index**”) (in lieu of the relevant previously applicable Inflation Index) for the purposes of the Inflation Linked Interest Notes by using the following methodology:

- (A) if at any time (other than after an Inflation Index Cancellation (as defined below)) a successor index has been designated in respect of an Inflation Index by the calculation agent pursuant to the terms and conditions of any relevant Related Bond, such successor index shall be designated the “Successor Inflation Index” for such Inflation Index for the purposes of all subsequent Relevant Payment Dates, notwithstanding that any other Successor Inflation Index may previously have been determined pursuant to paragraphs (B) or (C) below;
- (B) if a Successor Inflation Index is not determined pursuant to paragraph (A) above and no Inflation Index Cancellation (as defined below) has occurred and a notice has been given or an announcement has been made by the relevant Inflation Index Sponsor specifying that such Inflation Index will be superseded by a replacement index specified by the relevant Inflation Index Sponsor and the Calculation Agent determines that such replacement Inflation Index is calculated using the same or substantially similar formula or method of calculation as used in the calculation of the previously applicable Inflation Index, such replacement index shall be the “Successor Inflation Index” for such Inflation Index for the purposes of the Inflation Linked Interest Notes from the date that such Successor Inflation Index comes into effect; or
- (C) if a Successor Inflation Index has not been determined under (A) or (B) above and no Inflation Index Cancellation (as defined below) has occurred, the Calculation Agent shall ask five leading independent dealers to state what the replacement index for the Inflation Index should be. If between four and five responses are received and of those four or five responses, three or more leading independent dealers state the same index, this index will be deemed the “Successor Inflation Index”. If three responses are received, and two or more leading independent dealers state the same index, this index will be deemed the “Successor Inflation Index”. If fewer than three responses are received, the Calculation Agent will proceed to paragraph (D) hereof; or
- (D) if a Successor Inflation Index is not determined pursuant to paragraphs (A), (B) or (C) above by the Relevant Determination Date in respect of the next succeeding Relevant Payment Date, the Calculation Agent will determine an appropriate alternative index for such Relevant Payment Date and such index will be deemed to be the “Successor Inflation Index” for such Inflation Index.

If a Successor Inflation Index is determined in accordance with the above, the Calculation Agent may make such adjustment(s) to these Conditions and/or the applicable Final Terms as the Calculation Agent determines necessary or appropriate to account for such replacement and determine the effective date(s) of the adjustment(s) to the Inflation Linked Interest Notes.

If the Calculation Agent determines that there is no appropriate alternative index, there will be deemed to be no Successor Inflation Index for such Inflation Index (an “**Inflation Index**”).

Cancellation”) and, on giving notice to Noteholders in accordance with Condition 18 (*Notices*), the Issuer shall redeem all, but not some only, of the Inflation Linked Interest Notes, each nominal amount of Notes equal to the Calculation Amount being redeemed at the Early Redemption Amount.

Notice of the determination of a Successor Inflation Index and the date from which such index becomes the Successor Inflation Index and any relevant adjustment(s) to these Conditions and/or the applicable Final Terms or any Inflation Index Cancellation will be given to Noteholders by the Issuer in accordance with Condition 18 (*Notices*).

(iii) *Manifest Error in Publication*

If, in respect of a Relevant Payment Date and a Relevant Level in respect of such Relevant Payment Date, the Calculation Agent determines that the relevant Inflation Index Sponsor has corrected such Relevant Level to remedy a manifest error in its original publication, prior to thirty days following publication of such Relevant Level for such Relevant Payment Date the Calculation Agent may use such corrected Relevant Level to calculate any payments under the Inflation Linked Interest Notes in respect of such Relevant Payment Date. Corrections published on or after thirty days following publication of such Relevant Level for such Relevant Payment Date will be disregarded by the Calculation Agent for the purposes of determining any payments under the Inflation Linked Interest Notes.

Notice of any such correction pursuant to this Condition 8(a)(iii) shall be given to Noteholders in accordance with Condition 18 (*Notices*).

(iv) *Rebasing of the Inflation Index*

If the Calculation Agent determines that an Inflation Index has been or will be rebased at any time, such Inflation Index as so rebased (the “**Rebased Index**”) will be used for purposes of determining any Relevant Level in respect of such Inflation Index from the date of such rebasing; provided, however, that the Calculation Agent shall make (A) such adjustments as are made by the calculation agent pursuant to the terms and conditions of any relevant Related Bond to the levels of such Rebased Index so that such Rebased Index levels reflect the same rate of inflation as the Inflation Index before it was rebased and/or (B) if there is no Related Bond, the Calculation Agent shall make such adjustments to the levels of such Rebased Index so that such Rebased Index levels reflect the same rate of inflation as the relevant Inflation Index before it was rebased and, in each case, the Calculation Agent may make such adjustment(s) to these Conditions and/or the applicable Final Terms as the Calculation Agent determines necessary or appropriate to account for such rebasing and determine the effective date of the adjustment(s) to the Inflation Linked Interest Notes. For the avoidance of doubt, any such rebasing shall not affect prior payments made under the Inflation Linked Interest Notes.

Notice of any adjustment or determination pursuant to this Condition 8(a)(iv) shall be given to Noteholders in accordance with Condition 18 (*Notices*).

(v) *Material Modification Prior to Relevant Payment Date*

If, on or prior to the Relevant Determination Date in respect of any Relevant Payment Date, an Inflation Index Sponsor announces that it will make a material change to an Inflation Index, the Calculation Agent shall (A) make appropriate adjustment(s) to these Conditions and/or the applicable Final Terms, consistent with any adjustments made to any relevant Related Bond as the Calculation Agent determines necessary or appropriate to account for such change to such Inflation Index and determine the effective date(s) of the adjustment(s) to the Inflation Linked

Interest Notes, or (B) if there is no relevant Related Bond make only those adjustments to the Conditions and/or the applicable Final Terms as the Calculation Agent determines necessary for the modified Inflation Index to continue as an Inflation Index.

Notice of any adjustment pursuant to this Condition 8(a)(v) shall be given to Noteholders in accordance with Condition 18 (*Notices*).

(vi) *Offer of a Series of Notes to consumers within the meaning of the Belgian Code of Economic Law*

If the Prohibition of sales to consumers in Belgium is specified as not applicable in the applicable Final Terms, adjustments and modifications pursuant to this Condition 8(a) cannot relate to an essential feature of the Notes and the Notes cannot be early redeemed, other than, in each case, if a force majeure or an event occurs which substantially alters the economics of the contract as initially agreed between the parties and for which the Issuer is not accountable. In addition, any such adjustment or modification may not create a significant imbalance between the rights and obligations of the parties to the detriment of the Noteholder and the Issuer may not charge costs to the Noteholder for any such adjustment or modification.

(b) *For the purposes of this Condition 8:*

“**Fallback Bond**” means, in respect of an Inflation Index unless otherwise specified in the applicable Final Terms, a bond selected by the Calculation Agent and issued by the government of the country to whose level of inflation the relevant Inflation Index relates and which pays a coupon or redemption amount which is calculated by reference to such Inflation Index, with a maturity date which falls on (a) the same day as the Maturity Date, (b) the next longest maturity after the Maturity Date if there is no such bond maturing on the Maturity Date, or (c) the next shortest maturity before the Maturity Date if no bond defined in (a) or (b) is selected by the Calculation Agent. If the relevant Inflation Index relates to the level of inflation across the European Monetary Union, the Calculation Agent will select an inflation-linked bond that is a debt obligation of one of the governments (but not any government agency) of France, Italy, Germany or Spain and which pays a coupon or redemption amount which is calculated by reference to the level of inflation in the European Monetary Union. In each case, the Calculation Agent will select the Fallback Bond from those inflation linked bonds issued on or before the Issue Date of the first Tranche of the relevant Series and, if there is more than one inflation linked bond maturing on the same date, the Fallback Bond shall be selected by the Calculation Agent from those bonds. If the Fallback Bond redeems, the Calculation Agent will select a new Fallback Bond on the same basis, but selected from all eligible bonds in issue at the time the original Fallback Bond redeems (including any bond for which the redeemed bond is exchanged).

“**Related Bond**” means, in respect of an Inflation Index, the bond specified as such in the applicable Final Terms or, if no bond is so specified, the Fallback Bond. If the relevant Related Bond specified in the applicable Final Terms is “Fallback Bond”, then, for any Related Bond determination, the Calculation Agent shall use the Fallback Bond. If “Related Bond: Not Applicable” or no Related Bond

is specified in the applicable Final Terms and “Fallback Bond: Not Applicable” is specified in the applicable Final Terms there will be no Related Bond. If a bond is selected as the Related Bond in the applicable Final Terms and that bond redeems or matures before the Maturity Date, unless “Fallback Bond: Not Applicable” is specified in the applicable Final Terms, the Calculation Agent shall use the Fallback Bond for any Related Bond determination.

“**Relevant Determination Date**” means, in respect of a Relevant Payment Date, each date specified as such in the applicable Final Terms.

“**Relevant Payment Date**” means each date specified as such in the applicable Final Terms.

“**Valuation Date**” means the date specified in the applicable Final Terms.

9 Currency Linked Notes

If the Notes are Currency Linked Interest Notes and/or Currency Linked Redemption Notes then the provisions of this Condition 9 apply, as applicable, as completed by the applicable Final Terms.

Unless Currency Linked Notes are previously redeemed or purchased and cancelled, if the determination of (I) an Interest Amount (in the case of Currency Linked Interest Notes); or (II) the Redemption Amount (in the case of Currency Linked Redemption Notes) is postponed as a result of the occurrence of a Disrupted Day (as defined in Condition 9(c) below) which prevents a Reference Price being determined on the scheduled Valuation Date, then payment of any such amount (the “**Currency Linked Affected Amount**”) shall be postponed to the date determined in accordance with Condition 9(b)(i)(B) and such Currency Linked Affected Amount shall be paid without any interest or other sum payable in respect of the postponement of the payment thereof.

(a) Redemption of Currency Linked Redemption Notes

Unless previously redeemed or purchased and cancelled as specified below, each nominal amount of Currency Linked Redemption Notes equal to the Calculation Amount set out in the applicable Final Terms will be redeemed by the Issuer at its Redemption Amount (as defined below) on the Maturity Date.

(b) Market Disruption

With respect to any Currency Linked Note, if any Valuation Date on which a Reference Price (as defined in Condition 9(c) below) is scheduled to be determined is a Disrupted Day and:

- (i) the Valuation Date does not relate to an Averaging Payment, the Calculation Agent may, in its sole and absolute discretion, take any one or more of the following actions:
 - (A) deduct from the relevant Interest Amount and/or Redemption Amount determined on the basis of such Reference Price an amount calculated by the Calculation Agent as representing the cost, expense, charge and/or deduction arising in connection with such Currency Disruption Event(s) or make any other adjustment with respect thereto; and/or
 - (B) postpone any date for payment of the relevant Interest Amount and/or Redemption Amount; and/or
 - (C) in the case of a Price Source Disruption specify and adopt:
 - (I) an appropriate alternate fallback or alternative price or rate source or method of determination selected by the Calculation Agent in its sole discretion; or

- (II) a replacement of any one or more relevant currencies, as the case may be; or
- (D) give notice to the Noteholders in accordance with Condition 18 (*Notices*) and redeem all, but not some only, of the Currency Linked Notes at their Early Redemption Amount; or
- (ii) the Valuation Date relates to an Averaging Payment, such Valuation Date will be deemed not to be a relevant Valuation Date for the purposes of determining the relevant Interest Amount or Redemption Amount. If, through operation of this provision, there would not be any Valuation Date with respect to the date for payment of the relevant Interest Amount or Redemption Amount, the provisions of Condition 9(b)(i)(A)-(D) will apply for purposes of determining the relevant Reference Price on such Valuation Date.

Condition 9(b)(i)(A) shall not apply if the Prohibition of sales to consumers in Belgium is specified as not applicable in the applicable Final Terms.

If the Prohibition of sales to consumers in Belgium is specified as not applicable in the applicable Final Terms, adjustments and modifications pursuant to this Condition 9(b) cannot relate to an essential feature of the Notes and the Notes cannot be early redeemed by the Issuer, other than, in each case, if a force majeure or an event occurs which substantially alters the economics of the contract as initially agreed between the parties and for which the Issuer is not accountable. In addition, any such adjustment or modification may not create a significant imbalance between the rights and obligations of the parties to the detriment of the Noteholder and the Issuer may not charge costs to the Noteholder for any such adjustment or modification.

- (iii) give notice to the Noteholders in accordance with Condition 18 (*Notices*) and redeem all, but not some only, of the Notes on a date selected by the Issuer by payment of the Alternative Currency Equivalent of, or, if so specified in such notice, an amount in the Specified Currency equal to, the Early Redemption Amount to each Noteholder in respect of each Note held by such Noteholder. Payment will be made in such manner as shall be notified to the Noteholders in accordance with Condition 18 (*Notices*).

Any payment made in the Alternative Currency under such circumstances will constitute valid payment, and will not constitute a default in respect of the Notes.

Upon the occurrence of a Specified Currency Disruption Event and the Issuer in agreement with the Calculation Agent making a determination that such Specified Currency Disruption Event makes it commercially impracticable for the Issuer to satisfy its payment obligations in respect of the Notes when due in the Specified Currency, the Issuer shall give notice as soon as practicable to Noteholders in

accordance with Condition 18 (*Notices*) stating the occurrence of the Specified Currency Disruption Event, giving details thereof and the action proposed to be taken in relation thereto. Where the Issuer determines to take further action in accordance with Conditions 11(c)(i) to (iii), a further notice shall be given to Noteholders as soon as reasonably practicable in accordance with Condition 18 (*Notices*).

In making any determination in respect of any Specified Currency Disruption Event, neither the Issuer nor the Calculation Agent shall have regard to any interest arising from circumstances particular to any one or more Noteholders (whatever their number), and, in particular, but without limitation, shall not have regard to the consequences of any such determination for any one or more Noteholders (whatever their number), resulting from their being for any purpose domiciled or resident in, or otherwise connected with, or subject to the jurisdiction of, any particular territory or any political sub-division thereof and no Noteholder shall be entitled to claim, from the Issuer or the Calculation Agent or any other person any indemnification or payment in respect of any tax consequences or other losses of any such determination upon any Noteholders.

12 Taxation

(a) Tax Gross-Up

In such event, the Issuer or, as the case may be, the Guarantor shall pay such additional amounts as shall be necessary in order that the net amounts received by the holders of the Notes or Coupons after such withholding or deduction shall equal the respective amounts of principal and Interest Amounts which would otherwise have been receivable in respect of the Notes or Coupons, as the case may be, in the absence of such withholding or deduction; except that no such additional amounts shall be payable with respect to any Note or Coupon:

- (i) the Noteholder or Couponholder of which is liable for such taxes, duties, assessments or other charges in respect of such Note or Coupon by reason of such Noteholder or Couponholder having some connection with any Tax Jurisdiction by which such taxes, duties, assessments or charges have been imposed, levied, collected, withheld or assessed (including, for the avoidance of doubt receiving payments in relation to the Note or Coupon by or through a paying agent established in any Tax Jurisdiction) other than the mere holding of such Note or Coupon; or
- (ii) presented for payment in any Tax Jurisdiction; or
- (iii) presented for payment by, or on behalf of, a Noteholder who would be able to avoid such withholding or deduction by making a declaration of non-residence or similar claim for exemption but fails to do so; or
- (iv) presented for payment more than 30 days after the Relevant Date (as defined below) except to the extent that the holder thereof would have been entitled to such additional amount on presenting the same for payment on such thirtieth day.

Notwithstanding any other provision of the Terms and Conditions, any amounts to be paid on the Notes by or on behalf of the Issuer will be paid net of any deduction or withholding (i) imposed or required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986, as amended (the “**Code**”), or otherwise imposed pursuant to Sections 1471 through 1474 of the Code (or any regulations thereunder or official interpretations thereof) or an intergovernmental agreement between the United States and another jurisdiction facilitating the implementation thereof (or any fiscal or regulatory legislation, rules or practices implementing such an intergovernmental agreement) (any such withholding or deduction, a “**FATCA Withholding**”) or (ii) imposed as a result of the application of the provisions of Section 871(m) of the Code or any U.S. Treasury regulations or other administrative guidance published thereunder, or any successor or substitute legislation or provision of law (“**871(m) Withholding**”). Payments on the Notes that reference U.S. securities or an index that includes U.S. securities that provide for dividend reinvestment may be calculated by reference to dividends on such U.S. securities that are reinvested at a rate of 70%. In such case, in calculating the relevant payment amount, the holder will be deemed to receive, and the Issuer will be deemed to withhold, 30% of any dividend equivalent payments (as defined in Section 871(m) of the Code) in respect of the relevant U.S. securities. Neither the Issuer nor any other person will be required to pay any additional amounts in respect of FATCA Withholding or 871(m) Withholding.

As used herein,

- (i) “**Tax Jurisdiction**” means (i) any jurisdiction under the laws of which, in respect of payments by the Issuer, the Issuer or, in respect of payments by the Guarantor, the Guarantor, or any successor thereto, is organised or (ii) any jurisdiction in which the Issuer or the Guarantor (as applicable), or any successor thereto, is resident for tax purposes; and
- (ii) the “**Relevant Date**” means the date on which such payment first becomes due, except that, if the full amount of the moneys payable has not been duly received by the Agent on or prior to such due date, it means the date on which, the full amount of such moneys having been so received, notice to that effect is duly given to the Noteholders in accordance with Condition 18 (*Notices*).

(b) *No Tax Gross-Up*

If the Prohibition of sales to consumers in Belgium is specified as not applicable in the applicable Final Terms, neither the Issuer nor the Guarantor shall be liable for or otherwise obliged to pay any tax, duty, withholding or other payment which may arise as a result of the ownership, transfer, presentation and surrender for payment, or enforcement of any Note and all payments made by the Issuer or, as the case may be, the Guarantor shall be made subject to any tax, duty, withholding or other payment which may be required to be made, paid, withheld or deducted.

13 Prescription

The Notes and Coupons will become void unless claims in respect of principal and/or Interest Amounts are made within a period of 10 years (in the case of principal) and five years (in the case of Interest Amounts) after the Relevant Date (as defined in Condition 12(a)) therefor.

There shall not be included in any Coupon sheet issued on exchange of a Talon any Coupon the claim for payment in respect of which would be void pursuant to this Condition or Condition 4(b) or any Talon which would be void pursuant to Condition 4(b).

14 Events of Default

If any of the following events (each an “**Event of Default**”) should occur, the holder of this Note may, upon written notice of acceleration to the Agent, cause such Note to become due and payable at par (as described in Condition 5(a)), together with accrued interest thereon to the date of repayment, as of the date on which said notice of acceleration is received by the Agent, unless prior to such date the Issuer or the Guarantor, as the case may be, shall have cured or otherwise made good such Event of Default in respect of the Notes:

- (i) default by the Issuer in the payment when due of the principal of or Interest Amounts on any of the Notes in respect of any Note or the delivery when due of any other amount in respect of any Note and the continuance of any such default for a period of 30 days after the due date; or
- (ii) the Issuer shall fail duly to perform or observe any other term, covenant or agreement contained in the Notes or the Guarantor shall fail to perform or observe any other term, covenant or agreement contained in the Guarantee relating to the Notes, in either case for a period of 90 days after the date on which written notice of such failure, requiring the Issuer or the Guarantor, as the case may be, to remedy the same, shall first have been given to the Agent by the holder of any Note at the time outstanding; or
- (iii) an order is made or an effective resolution passed for winding up the Issuer or the Guarantor except for the purpose of a reconstruction or amalgamation and the entity resulting from such reconstruction or amalgamation assumes all the rights and obligations of, as the case may be, the Issuer (including its obligations under the Notes) or the Guarantor (including its obligations under the Guarantee); or
- (iv) the Issuer or the Guarantor shall be unable to pay its debts or becomes insolvent or bankrupt or the Guarantor applies for a “*gerechtelijke reorganisatie*” or “*faillissement*” or any similar procedure shall be initiated in respect of the Issuer or the Guarantor unless it is being contested in good faith by the Issuer or the Guarantor, as the case may be; or
- (v) a distress, execution or other process is levied or enforced upon or sued out against all or any material part of the property of the Issuer or the Guarantor unless it is removed, discharged or paid out within 60 days or is being contested in good faith by the Issuer or the Guarantor, as the case may be.

15 Replacement of Notes, Coupons and Talons

Should any Note, Coupon or Talon be lost, stolen, mutilated, defaced or destroyed, it may be replaced at the specified office of the Agent upon payment by the claimant of such costs and expenses as may be incurred in connection therewith and on such terms as to evidence and indemnity as the Issuer may reasonably require. Mutilated or defaced Notes, Coupons or Talons must be surrendered before replacements will be issued.

16 Agent, Paying Agents and Calculation Agent Provisions

(a) *Agent and Paying Agent*

The names of the initial Agent and the other initial Paying Agents and their initial specified offices are set out below.

The Issuer and the Guarantor are entitled to vary or terminate the appointment of any Paying Agent and/or appoint additional or other Paying Agents and/or approve any change in the specified office through which any Paying Agent acts, provided that:

- (i) so long as the Notes are listed on any stock exchange or admitted to listing by any other relevant authority, there will at all times be a Paying Agent with a specified office in such place as may be required by the rules and regulations of the relevant stock exchange (or any other relevant authority); and
 - (ii) there will at all times be an Agent.
- (b) In addition, the Issuer and the Guarantor shall forthwith appoint a Paying Agent having a specified office in New York City in the circumstances described in the second paragraph of Condition 4(d). Any variation, termination, appointment or change shall only take effect (other than in the case of insolvency, when it shall be of immediate effect) after not less than 30 nor more than 45 days' prior notice thereof shall have been given to the Noteholders in accordance with Condition 18 (Notices).

Whenever the Calculation Agent is required to act or exercise judgement, it will do so in good faith and in a commercially reasonable manner. The Calculation Agent shall, as soon as practicable after making any determination pursuant to these Conditions, notify the Issuer, the Guarantor and the Noteholders of such determination. The Calculation Agent is not acting as a fiduciary for or as an advisor to the Noteholders in respect of its duties as Calculation Agent in connection with any Notes.

The determination by the Calculation Agent of any amount or of any state of affairs, circumstance, event or other matter, or the formation of any opinion or the exercise of any discretion required or permitted to be determined, formed or exercised by the Calculation Agent pursuant to these Conditions shall (in the absence of manifest error) be final and binding on the Issuer, the Guarantor and the Noteholders. In performing its duties pursuant to the Notes, the Calculation Agent shall act in its sole and absolute discretion. Any delay, deferral or forbearance by the Calculation Agent in the performance or exercise of any of its obligations or its discretion under the Notes including, without limitation, the giving of any notice by it to any person, shall not affect the validity or binding nature of any later performance or exercise of such obligation or discretion, and none of the Calculation Agent, the Issuer and the Guarantor shall, in the absence of wilful misconduct and gross negligence, bear any liability in respect of, or consequent upon, any such delay, deferral or forbearance.

17 Exchange of Talons

On and after the Interest Period End Date on which the final Coupon comprised in any Coupon sheet matures, the Talon (if any) forming part of such Coupon sheet may be surrendered at the specified office of the Agent in exchange for a further Coupon sheet including (if such further Coupon sheet does not include Coupons to (and including) the final date for the payment of Interest Amounts due in respect of the Note to which it appertains) a further Talon, subject to the provisions of Condition 13.

18 Notices

All notices regarding the Notes will be deemed to be validly given if published (i), if and for so long as the Notes are listed on the Luxembourg Stock Exchange, either in a daily newspaper of general circulation in Luxembourg or on the website of the Luxembourg Stock Exchange, www.bourse.lu, or (ii), in the case of Notes not listed on a stock exchange, in a daily newspaper of general circulation in such place or places as the Issuer may deem appropriate. It is expected that such publication will be made either in the *Luxemburger Wort* or the *Tageblatt* in Luxembourg or on the website of the Luxembourg Stock Exchange, www.bourse.lu. The Issuer shall also ensure that notices are duly published in a manner which complies with the rules and regulations of any stock exchange (or other relevant authority) on which the Notes are for the time being admitted to trading.

Any such notice will be deemed to have been given on the date of the first publication in accordance with the above provisions.

Until such time as Definitive Notes are issued, there may, so long as any Global Note(s) representing the Note(s) is or are held in its/their entirety on behalf of Euroclear and Clearstream, Luxembourg, be substituted for such publication in such newspaper(s), the delivery of the relevant notice to Euroclear and/or Clearstream, Luxembourg for communication by them to the holders of the Notes and, in addition, for so long as any Notes are listed on a stock exchange and the rules of that stock exchange or any other applicable regulations so require, such notice will be published in a daily newspaper of general circulation in the place or places required by those rules or in such other manner as may be permitted by those rules. In the case of Notes listed on the Luxembourg Stock Exchange, it is expected that such publication will be made either in the Luxemburger Wort or the Tageblatt in Luxembourg or on the website of the Luxembourg Stock Exchange, www.bourse.lu. Any such notice shall be deemed to have been given to the holders of the Notes on the seventh day after the day on which the said notice was given to Euroclear and/or Clearstream, Luxembourg.

Notices to be given by any Noteholder shall be in writing and given by lodging the same, together with the relative Note or Notes, with the Agent. Whilst any of the Notes are represented by a Global Note, such notice may be given by any holder of a Note to the Agent through Euroclear and/or Clearstream, Luxembourg, as the case may be, in such manner as the Agent and Euroclear and/or Clearstream, Luxembourg, as the case may be, may approve for this purpose.

19 Meetings of Noteholders, Modification and Waiver

The Agency Agreement contains provisions for convening meetings (including by way of conference call or by use of a video-conference platform) of the Noteholders to consider any matter affecting their interests, including the sanctioning by Extraordinary Resolution of a modification of the Notes, the Coupons, the Guarantee, the Deed of Covenant or any of the provisions of the Agency Agreement. Such a meeting may be convened by the Issuer, the Guarantor or Noteholders holding not less than ten per cent. in nominal amount of the Notes for the time being remaining outstanding. The quorum at any such meeting, will be one or more persons holding or representing a majority in nominal amount of the Notes for the time being outstanding, or at any adjourned such meeting one or more persons being or representing Noteholders whatever the nominal amount of the Notes so held or represented, except that at any meeting the business of which includes the modification of certain provisions of the Notes or the Coupons (including modifying the date of maturity of the Notes or any date for payment of Interest Amounts thereon, reducing or cancelling the amount of principal or the rate of interest payable in respect of the Notes or altering the currency of payment of the Notes or the Coupons), the quorum shall be one or more persons holding or representing not less than two-thirds in nominal amount of the Notes for the time being outstanding, or at any adjourned such meeting, one or more persons holding or representing not less than one-third in nominal amount of the Notes for the time being outstanding. The Agency Agreement provides that (a) a resolution passed at a meeting of the Noteholders duly convened and held in accordance with the Agency Agreement contained by a majority consisting of not less than 75 per cent. of the persons voting thereat upon a show of hands or if a poll be duly demanded then by a majority consisting of not less than 75 per cent. of the votes given on such poll or (b) a resolution in writing signed by or on behalf of the holders of not less than 75 per cent. of the principal amount of the Notes for the time being outstanding, all as more fully described in the Agency Agreement, shall, in each case, be effective as an Extraordinary Resolution. An Extraordinary Resolution passed at any meeting of the Noteholders or pursuant to a resolution in writing shall be binding on all the Noteholders, whether or not they vote on such resolution, and on all Couponholders.

Without prejudice to Condition 3(g) (*Benchmark Reference Rate replacement*), the Agent and the Issuer may agree, without the consent of the Noteholders or Couponholders, to:

- (i) any modification (except such modifications in respect of which an increased quorum is required, as mentioned above) of the Agency Agreement which is not prejudicial to the interests of the Noteholders; or
- (ii) any modification of the Notes, the Coupons, the Agency Agreement, the Guarantee or the Deed of Covenant which is of a formal, minor or technical nature or is made to correct a manifest error or to comply with mandatory provisions of law.

Any such modification shall be binding on the Noteholders and the Couponholders and any such modification shall be notified to the Noteholders in accordance with Condition 18 as soon as practicable thereafter.

If the Prohibition of sales to consumers in Belgium is specified as not applicable in the applicable Final Terms, adjustments and modifications cannot relate to an essential feature of the Notes and the Notes cannot be early redeemed by the Issuer, unless in the case of force majeure or an event which substantially alters the economics of the contract as initially agreed between the parties and for which the Issuer is not accountable. In addition, any adjustment or modification may not create a significant imbalance between the rights and obligations of the parties to the detriment of the Noteholder and the Issuer may not charge costs to the Noteholder for any such adjustment or modification.

20 Further Issues

The Issuer shall be at liberty from time to time without the consent of the Noteholders or Couponholders to create and issue further notes having terms and conditions the same as the Notes or the same in all respects save for the amount and date of the first payment of Interest Amounts thereon and so that the same shall be consolidated and form a single Series with the outstanding Notes.

21 Contracts (Rights of Third Parties) Act 1999

No person shall have any right to enforce any term or condition of this Note under the Contracts (Rights of Third Parties) Act 1999, but this does not affect any right or remedy of any person which exists or is available apart from that Act.

“**Relevant Resolution Authority**” means any authority entitled to exercise or participate in the exercise of any Bail-In Powers from time to time.

(c) *Payment of Amounts Due*

(d) *No Event of Default*

Neither a cancellation of the Notes, a reduction, in part or in full, of the Amounts Due, the conversion thereof into ordinary shares, other instruments of ownership, other securities or obligations of the Issuer or another person, as a result of the exercise of any Bail-In Power by the Relevant Resolution Authority with respect to the Issuer, nor the exercise of any Bail-In Power by the Relevant Resolution Authority with respect to the Notes will be an event of default or otherwise constitute non-performance of a contractual obligation, or entitle the holder of such Notes to any remedies (including equitable remedies) which are hereby expressly waived.

The Issuer will also deliver a copy of such notice to the Paying Agent for informational purposes, although the Agent shall not be required to send such notice to the holders of such Notes. (f) *Duties of the Paying Agents*

Upon the exercise of any Bail-In Power by the Relevant Resolution Authority, (a) the Paying Agents shall not be required to take any directions from holders of Notes, and (b) the Agency Agreement shall impose no duties upon any of the Paying Agents whatsoever, in each case with respect to the exercise of any Bail-In Power by the Relevant Resolution Authority.

Notwithstanding the foregoing, if, following the completion of the exercise of any Bail-In Power by the Relevant Resolution Authority, any Notes remain outstanding (for example, if the exercise of any Bail-In Power results in only a partial write-down of the principal of the Notes), then the Paying Agents' duties under the Agency Agreement shall remain applicable with respect to the Notes following such completion to the extent that the Issuer and the Paying Agents shall agree pursuant to an amendment to the Agency Agreement.

(g) *Proration*

(h) Conditions Exhaustive

Each Noteholder acknowledges, accepts, consents and agrees that the matters set forth in this Condition 22 shall be exhaustive on the foregoing matters to the exclusion of any other agreements, arrangements or understandings between the Issuer and any holder of Notes.

For the purposes of this Condition, each of the Issuer and the Guarantor waives and each Noteholder (by its acquisition of a Note) is deemed to waive any objection to the English courts on the grounds that they are an inconvenient or inappropriate forum to settle any Dispute.

ANNEX 1 – Credit Linked Conditions

PART A: Overview

The following section answers some questions that prospective investors might have regarding the Credit Linked Notes, in general terms only. It does not contain all the information which may be important to prospective investors, and is not intended to be a substitute for nor a summary of the Conditions of the Credit Linked Notes. Any decision to invest in the Credit Linked Notes should only be made after careful consideration of this Base Prospectus and the Conditions (including the Credit Linked Conditions), as completed by the relevant Final Terms. In addition, prospective investors should consult with their investment, legal, accounting, tax and other advisors with respect to any investment in the Credit Linked Notes.

Capitalised terms in relation to the following questions and answers shall have the meaning given to them in the Credit Linked Conditions.

What are Credit Linked Notes?

Credit Linked Notes are debt securities, the value of which is linked to the credit risk of one or more Reference Entities. The amount of interest and principal which investors will receive on the Credit Linked Notes is dependent on whether certain Credit Events occur in respect of any relevant Reference Entity to which the Credit Linked Notes are linked.

In purchasing the Credit Linked Notes, investors are assuming credit risk exposure to each Reference Entity (and possible successors thereof). A Credit Linked Note is broadly intended to give the investor access to a credit default swap referencing certain Reference Entity(ies) in funded format. Therefore, many of the features and risks applicable to a market standard credit default swap referencing the relevant Reference Entity(ies) will be equally applicable to the Credit Linked Notes.

What is credit risk?

Credit risk with respect to a Reference Entity is the risk that the Reference Entity fails to perform its obligations under certain types of transactions of the Reference Entity. This is generally (but not exclusively) as a result of a deterioration in its financial condition.

For the Credit Linked Notes, the credit risk is in relation to a broad range of transactions of one or more Reference Entities, and may extend to any borrowed money obligations of the Reference Entity. Borrowed money obligations would include any loan agreements entered into by the Reference Entity and any debt securities issued by the Reference Entity.

What is the difference between the Credit Linked Notes and an ordinary debt security?

The Credit Linked Notes are similar to an ordinary debt security in that they provide the investor with a regular stream of interest payments (other than in the case of zero coupon Credit Linked Notes) and the return of par on maturity in the ordinary course. However, the Credit Linked Notes have the added feature not present in ordinary debt securities of an exposure to the credit risk of one or more Reference Entities. If a Credit Event occurs in relation to a Reference Entity, an investor may lose all or part of its investment in the Credit Linked Notes.

The amount of interest and principal which an investor receives will depend on whether a Credit Event occurs with respect to any Reference Entity and whether an Event Determination Date occurs as a result. If no Event Determination Date has occurred then the Credit Linked Notes will be redeemed at the Outstanding Aggregate Nominal Amount on the Maturity Date. If an Event Determination Date occurs, unless Credit Payment on Maturity applies, the Applicable Proportion of the Credit Linked Notes will be redeemed early at the relevant

Redemption Amount (which is likely to be less than the par value of the Credit Linked Notes and may even be zero) (see further and “*What are Noteholders paid if the Credit Linked Notes redeem early due to the occurrence of a Credit Event?*” below), with no further payment of principal on the Applicable Proportion of the Credit Linked Notes (see further “*What is an Event Determination Date?*” and “*What are Noteholders paid if the Credit Linked Notes redeem early due to the occurrence of a Credit Event?*” below). Interest will cease to accrue on the Credit Linked Notes (or the Applicable Proportion where they are to redeem in part) from and including (i) the Event Determination Date, or (ii) the Interest Payment Date immediately preceding the Event Determination Date or, if there have not been any previous Interest Payment Dates, from and including the Issue Date depending on the relevant election in the Final Terms.

What is the difference between the Credit Linked Notes and a bond issued by the Reference Entity?

The Credit Linked Notes give the investor exposure to the credit risk of the Reference Entity without having to own a bond or other type of debt obligation of such Reference Entity. The Reference Entity itself is not a party to and has no direct involvement in the Credit Linked Notes and an investor will not be able to claim against the Reference Entity or Issuer for any losses it suffers from a Credit Event of the Reference Entity. The Issuer is not obliged to hold any obligation of the Reference Entity or otherwise have credit risk exposure to the Reference Entity.

How do changes in share prices of any Reference Entity affect the value of the Credit Linked Notes?

Taking credit risk on the Reference Entity by purchasing Notes is different from taking equity risk by investing in shares of the Reference Entity. There are a number of reasons for this. For example:

- (a) credit derivatives reference debt obligations of the Reference Entity, and a Reference Entity must generally pay amounts due to the creditors on these debt obligations before paying dividends or capital to shareholders;
- (b) the obligations of the Reference Entity referenced by the Credit Linked Notes consist of bonds and other debt; holders of this type of debt will generally rank ahead of holders of ordinary shares in the insolvency of a Reference Entity, and so may have (but are not guaranteed) a higher rate of recovery of moneys due to them;
- (c) because the Credit Linked Notes reference these debt obligations, the market value of the Credit Linked Notes is related to (although not necessarily equal to) the value of these debt obligations; and
- (d) there is no direct link between share prices and the value of the Credit Linked Notes.

However, in some circumstances, changes in the share price of the Reference Entity may result in or from, at a general level, a change in the market value of its debt and vice versa.

What are Single Name Credit Linked Notes?

Single Name Credit Linked Notes represent an investment linked to the performance of only one Reference Entity specified in the applicable Final Terms. If a Credit Event and an Event Determination Date occur then each Single Name Credit Linked Note will be redeemed in full (or may be redeemed in part following the occurrence of an M(M)R Restructuring Credit Event (see further “*What are Noteholders paid if the Credit Linked notes are partially redeemed following a Restructuring Credit Event?*”)) either:

- (a) if “Cash Redemption” applies, by payment of the Cash Redemption Amount, being an amount calculated as equal to the greater of (i) zero and (ii) the lesser of (a) the product of (x) the Applicable Proportion of the Single Name Credit Linked Note and (y) the Final Price, taking into consideration any positive or negative effects of any Unwind Costs (if applicable) and (b) the Applicable Proportion of the Note; or
- (b) if “Auction Redemption” applies, by payment of the Auction Redemption Amount, being an amount calculated as equal to the greater of (i) zero and (ii) the lesser of (a) the product of (x) the Applicable Proportion of the Single Name Credit Linked Note and (y) the Auction Final Price, taking into

consideration any positive or negative effects of any Unwind Costs (if applicable) and (b) the Applicable Proportion of the Single Name Credit Linked Note.

If “Credit Payment on Maturity” applies, payment of the Cash Redemption Amount or Auction Redemption Amount (calculated as described above) in respect of the Applicable Proportion of the Single Name Credit Linked Note will only occur on the Scheduled Maturity Date.

What are Basket Credit Linked Notes?

Basket Credit Linked Notes represent an investment linked to the performance of either: (i) a basket of Reference Entities specified in the applicable Final Terms; or (ii) the component Reference Entities of an index specified in the applicable Final Terms. The Basket Credit Linked Notes are exposed to the credit risk of each Reference Entity in proportion to the weighting specified for such Reference Entity in the applicable Final Terms.

If a Credit Event and an Event Determination Date occurs in respect of any one of the Reference Entities in the basket or index (as applicable), then each Basket Credit Linked Note will be redeemed in part in proportion to the weighting of the affected Reference Entity:

- (a) if “Cash Redemption” applies, by payment of the Basket Cash Redemption Amount, being an amount calculated using the method for calculating the Cash Redemption Amount as described under “*What are Single Name Credit Linked Notes?*” above; or
- (b) if “Auction Redemption” applies, by payment of the Basket Auction Redemption Amount, being an amount calculated using the method for calculating the Auction Redemption Amount as described under “*What are Single Name Credit Linked Notes?*” above.

The remaining portion of each Basket Credit Linked Note will remain outstanding and will be redeemed at maturity at its *pro rata* share of the Outstanding Aggregate Nominal Amount, subject to the occurrence of a Credit Event in respect of another Reference Entity in the basket or index (as applicable).

If “Credit Payment on Maturity” applies, payment of the Basket Cash Redemption Amount or Basket Auction Redemption Amount in respect of each Applicable Proportion of the Basket Credit Linked Notes will only occur on the Scheduled Maturity Date.

What are Index Tranche Credit Linked Notes?

Index Tranche Credit Linked Notes represent an investment linked to the performance of the component Reference Entities of an index specified in the applicable Final Terms and the losses accruing to a specified tranche of such index. The Index Tranche Credit Linked Notes are exposed to the credit risk of each Reference Entity in proportion to the weighting specified for such Reference Entity in the applicable Final Terms.

The applicable Final Terms will specify the Attachment Point of the tranche the Detachment Point of the tranche and a Leverage percentage, which acts as a multiplier in respect of the losses and recoveries incurred within the tranche.

If the aggregate Loss Amounts incurred in respect of the Index Tranche Credit Linked Notes (the Loss Amount being 100% minus the Auction Final Price (if Auction Redemption applies) or Final Price (if Cash Redemption applies)) are greater than the Loss Threshold Amount, then each Index Tranche Credit Linked Note will be redeemed in part in proportion to the weighting of the affected Reference Entity by payment of the Index Tranche Redemption Amount, being an amount calculated as equal to the greater of (i) zero and (ii) the lesser of (a) the Index Tranche Levered Incurred Recovery Amount, taking into consideration any positive or negative effects of any Unwind Costs (if applicable) and (b) the Applicable Proportion of the Index Tranche Credit Linked Note.

The Index Tranche Levered Incurred Recovery Amount is equal to the lower of (i) the Recovery Amount (being the Auction Final Price (if Auction Redemption applies) and the Final Price (if Cash Redemption applies)) in respect of the affected Reference Entity, (ii) the aggregate of all Recovery Amounts incurred to date less the Recovery Threshold Amount, and (iii) the Outstanding Aggregate Nominal Amount, multiplied by the Leverage.

If a Credit Event and an Event Determination Date occur in respect of any one of the Reference Entities in the index, then each Index Tranche Credit Linked Note will be reduced by the Index Tranche Credit Linked Note's pro rata share of the sum of the Loss Amount and the Recovery Amount (being the Auction Final Price (if Auction Redemption applies) or Final Price (if Cash Redemption applies)) for the relevant Reference Entity in respect of which the Credit Event has occurred.

The remaining portion of each Index Tranche Credit Linked Notes will be redeemed at maturity at their *pro rata* share of the Outstanding Aggregate Nominal Amount, subject to the occurrence of a Credit Event in respect of another Reference Entity in the index.

If "Credit Payment on Maturity" applies, payment of the Index Tranche Redemption Amount in respect of each Applicable Proportion of the Index Tranche Credit Linked Notes will only occur on the Scheduled Maturity Date.

What are Unwind Costs?

The amount payable or deliverable after the occurrence of a Credit Event may be adjusted by an amount, determined by the Calculation Agent, relating to the costs and expenses incurred by the Issuer or its affiliates in redeeming the Notes early or terminating, obtaining or re-establishing any related funding, hedging or trading position in connection with the Notes as a result of a Credit Event occurring. Such amount may be positive (and so deducted from the relevant Redemption Amount payable to the Noteholder) or negative (and so added to the relevant Redemption Amount payable to the Noteholder).

What is a Credit Event?

A Credit Event is, broadly speaking, an event which is regarded as being indicative of a default or material decline in the creditworthiness of the Reference Entity.

Credit Events are determined by reference to the relevant Reference Entity itself and certain eligible types of obligations of such Reference Entity which, in relation to the Credit Linked Notes, may include any loans, debt securities or other borrowed money obligations of the Reference Entity (owed to any investor which may not be related to the Issuer or the Credit Linked Notes) ("**Obligations**").

The Credit Events relevant to the Credit Linked Notes may include any of the following events with respect to the Reference Entity, as specified or elected in the relevant Final Terms:

- (a) Failure to Pay: a failure by the Reference Entity to pay amounts when due under its Obligations, where the failure to pay relates to an amount greater than a pre-determined minimum amount;
- (b) Bankruptcy: a bankruptcy or insolvency procedure in respect of the Reference Entity;
- (c) Restructuring: a restructuring of a pre-determined minimum amount in relation to an Obligation of the Reference Entity which amends key terms of that Obligation as to repayment of principal or payment of interest thereunder;
- (d) Obligation Acceleration: the acceleration of one or more Obligations of the Reference Entity before it would otherwise be due and payable in respect of a pre-determined minimum amount;
- (e) Obligation Default: one or more Obligations of the Reference Entity in respect of a pre-determined minimum amount becomes capable of being declared due and payable before it would otherwise be due and payable;

- (f) Repudiation/Moratorium: the Reference Entity or a Governmental Authority repudiates one or more Obligations in respect of a pre-determined minimum amount or imposes a moratorium in respect of one or more Obligations in respect of such minimum amount and a failure to pay under or a restructuring of such Obligation(s) subsequently occurs within a specified time period; or
- (g) Governmental Intervention: an event which would result in the reduction or deferral of payment of principal or interest or change in ranking of priority in, an expropriation of or the mandatory cancellation, conversion or exchange of an Obligation as the result of an action taken or announcement made by a Governmental Authority.

When does a Credit Event need to occur to affect the payout on the Credit Linked Notes?

If a relevant Credit Derivatives Determinations Committee resolves that a Credit Event has occurred in relation to any Reference Entity or an Obligation thereof (see further “*What are the Credit Derivatives Determinations Committees and how do they affect the Credit Linked Notes?*” below), such Credit Event must have occurred during the period from and including the date that is sixty calendar days prior to the date on which it first received a request to resolve whether or not such Credit Event has occurred (the “**Credit Event Resolution Request Date**”) to and including the Scheduled Maturity Date (subject to extension in certain circumstances). However, if the Issuer determines that a Credit Event has occurred in relation to any Reference Entity or an Obligation thereof and delivers a Credit Event Notice to the Agent to that effect, when the relevant Credit Derivatives Determinations Committee is not going to consider the same, such Credit Event must have occurred during the period from sixty calendar days prior to the earlier of the effective delivery date of such Credit Event Notice and the Credit Event Resolution Request Date (subject to extension in certain circumstances).

Can a Credit Event occur prior to the Issue Date?

Yes. A Credit Event may occur prior to the Issue Date of the Credit Linked Notes and may even occur prior to the applicable Trade Date.

Noteholders should conduct their own review of any recent developments with respect to the Reference Entity by consulting publicly available information. If a request has been delivered to ISDA prior to the Trade Date to determine whether a Credit Event has occurred with respect to the Reference Entity, details of such request may be found on the ISDA website at <http://dc.isda.org/>.

What is an Event Determination Date?

In order for Notes to be redeemed following a Credit Event, it is necessary for a relevant Event Determination Date to have occurred. Depending on the circumstances, this may be the date on which a notice describing the occurrence of the Credit Event has been delivered by the Issuer to the Agent (together with, if applicable, a notice containing publicly available information confirming the occurrence of the Credit Event), or the date on which, amongst other things, it is publicly announced that a Credit Derivatives Determinations Committee will be convened to determine if a certain Credit Event has occurred.

Can an Event Determination Date only occur if a Credit Derivatives Determinations Committee determines that one has occurred?

No. The Issuer may also deliver a Credit Event Notice to the Agent in relation to the Credit Event triggering an Event Determination Date. Such notice may be delivered at any time within the Notice Delivery Period including where a Credit Derivatives Determinations Committee has not resolved that a Credit Event has occurred.

What interest payments will Noteholders receive after the occurrence of a Credit Event?

On the occurrence of a Credit Event, interest will cease to accrue on the Applicable Proportion of each Note as at the Interest Suspension Accrual Date. The Interest Suspension Accrual Date is the earlier of the day prior to (i) the Scheduled Maturity Date or (ii) the Interest Payment Date immediately prior to the Event Determination

Date or the Event Determination, according to the election made in the Final Terms. Interest will continue to accrue as before the Credit Event on the remaining portion (if any) of each Note, subject to the occurrence of further Credit Events.

From the Interest Suspension Accrual Date, the Recovery Amount (being the Auction Recovery Amount, Cash Recovery Amount, Basket Auction Recovery Amount, Basket Cash Recovery Amount or Index Tranche Incurred Recovery Amount, as applicable) shall accrue interest at the Funding Interest Rate. If Credit Payment upon Maturity does not apply, interest shall accrue on the Recovery Amount until the Cash Redemption Date, Auction Redemption Date, Basket Cash Redemption Date, Basket Auction Redemption Date, Index Tranche Cash Redemption Date or Index Tranche Auction Redemption Date (as applicable). If Credit Payment upon Maturity does apply, Interest shall accrue on the Recovery Amount until the Auction Final Price (if Auction Redemption is applicable) or Final Price (if Cash Redemption or Fixed Recovery Redemption is applicable) is determined. From the date on which the Auction Final Price or Final Price is determined, the aggregate of all Recovery Amounts calculated to date will accrue interest at the Funding Interest Rate until the Notes are redeemed.

The Issuer may also elect in the Final Terms to pay interest at the Funding Interest Rate on the Loss Amount (being the Auction Loss Amount, Cash Loss Amount, Basket Auction Loss Amount, Basket Cash Loss Amount or Index Tranche Incurred Loss Amount, as applicable) from the Interest Suspension Accrual Date until the date on which the Auction Final Price (if Auction Redemption is applicable) or Final Price (if Cash Redemption or Fixed Recovery Redemption is applicable) is determined.

Funding Interest Rate is a rate per annum, which shall be specified in the Final Terms, and is based on the cost to the Issuer if it were to fund the amount on which such interest is accruing.

What interest payments will Noteholders receive after the occurrence of a DC Credit Event Question?

If a DC Credit Event Question is made in respect of which a DC Resolution (including, but not limited to, a DC Credit Event Announcement or a DC No Credit Event Announcement) has not been published at least five Business Days prior to any Interest Payment Date, the payment of interest in respect of the Applicable Proportion of the Notes scheduled to be paid to Noteholders on or about such Interest Payment Date will be suspended. The suspended interest will be paid to Noteholders on the Interest Suspension Payment Date. The Interest Suspension Payment Date is, depending on the election made in the Final Terms, either: (i) five Business Days after the date on which the Auction Final Price (if Auction Redemption is applicable) or Final Price (if Cash Redemption or Fixed Recovery Redemption is applicable) is determined or the date it is determined that no Credit Event has occurred, as applicable; or (ii) the Interest Payment Date immediately following the date which is five Business Days after the date on which the Auction Final Price (if Auction Redemption is applicable) or Final Price (if Cash Redemption or Fixed Recovery Redemption is applicable) is determined or the date it is determined that no Credit Event has occurred, as applicable.

What are Noteholders paid if the Credit Linked Notes redeem early due to the occurrence of an Event Determination Date?

If the Credit Linked Notes redeem early due to the occurrence of an Event Determination Date, either in part or in full, Noteholders will be paid their pro rata share of the relevant Redemption Amount (see further “*What are Single Name Credit Linked Notes?*”, “*What are Basket Credit Linked Notes?*” and “*What are Index Tranche Credit Linked Notes?*”).

What are Noteholders paid if the Credit Linked Notes redeem early for reasons other than the occurrence of an Event Determination Date?

If the Credit Linked Notes redeem early due to the occurrence of an event other than an Event Determination Date, Noteholders will be paid their pro rata share of the applicable Early Redemption Amount.

What are Noteholders paid if the Credit Linked Notes are not redeemed early?

If no Event Determination Date has occurred, and provided that the Credit Linked Notes are not otherwise redeemed early, repurchased or cancelled, each Credit Linked Note will be redeemed in full on the Maturity Date (which may in certain circumstances have been extended).

When will each of Auction Redemption and Cash Redemption apply?

If the Credit Linked Notes redeem early due to the occurrence of an Event Determination Date, unless the Calculation Agent determines that Auction Redemption will not apply for certain specified reasons (in which case, Cash Redemption shall apply), Auction Redemption shall apply in respect of the Credit Linked Notes and, as such, an Auction Final Price will be determined (see further “*What is the Auction Final Price*” below). Where Cash Redemption applies, a Final Price shall be determined (see further “*What is the Final Price*” below).

What is the Auction Final Price?

The Auction Final Price is the settlement amount calculated in relation to a Credit Event with respect to any Reference Entity where Auction Redemption applies. Such amount is taken into account in calculating the relevant Redemption Amount that is payable to the Noteholders on an early redemption of the Credit Linked Notes following the occurrence of a Credit Event.

The relevant Redemption Amount will be determined by reference to a price (the Auction Final Price) determined by way of a credit derivatives auction sponsored by ISDA (an “**Auction**”). The Auction will involve a bidding process by institutions participating in the relevant Auction, pursuant to a bidding procedure set by ISDA, to establish the value of the eligible obligations (the “**Deliverable Obligations**”) of the relevant Reference Entity (which may be Assets comprising the Asset Package, if applicable). The Issuer may act as a participating bidder in any such Auction and may submit bids and offers with respect to the Deliverable Obligations of the affected Reference Entity.

Deliverable Obligations mean obligations of the affected Reference Entity which satisfy certain specified “Deliverable Obligation Categories” and “Deliverable Obligation Characteristics”.

The auction price is likely to be lower than the par value of the Deliverable Obligations of the Reference Entity and will be reflective of a loss experienced by the holder of such Deliverable Obligations. Moreover, the price is likely to reflect the lowest prevailing market value of any Deliverable Obligation. The lower the Auction Final Price, the lower the relevant Redemption Amount paid to Noteholders on an early redemption of the Credit Linked Notes.

What is the Final Price?

The Final Price is the settlement amount calculated in relation to a Credit Event with respect to any Reference Entity where Cash Redemption applies. Such amount is taken into account in calculating the relevant Redemption Amount that is payable to the Noteholders on an early redemption of the Credit Linked Notes following the occurrence of a Credit Event.

The Final Price will be determined based on the price of certain eligible obligations (“**Valuation Obligations**”) of the Reference Entity on a specified date following the occurrence of a Credit Event with respect to such Reference Entity. With respect to the Credit Linked Notes, the eligible obligations shall be one or more obligations, as selected by the Issuer that are a Reference Obligation and/or would constitute a Deliverable Obligation as at the particular observation time in accordance with elections made in the relevant Final Terms, or if applicable, are Assets comprising the Asset Package. The price of such eligible obligations will be determined on the basis of bid quotations received from third party dealers. The Issuer will be entitled to select the cheapest Valuation Obligations for valuation. This could decrease the Final Price and, as a result, reduce the relevant Cash Redemption Amount payable to Noteholders on an early redemption.

What is Fixed Recovery Redemption?

If “Fixed Recovery Redemption” is specified as applicable then, following the occurrence of a Credit Event and an Event Determination Date, the amount payable on redemption on the relevant Redemption Date shall be calculated as set out in “*What are Single Name Credit Linked Notes?*”, “*What are Basket Credit Linked Notes?*” and “*What are Index Tranche Credit Linked Notes?*” above, provided that instead of the Auction Final Price or Final Price, as the case may be, the “Fixed Recovery Percentage” set out in the applicable Final Terms shall apply, which may be zero.

Why might the Credit Linked Notes be partially redeemed following a Restructuring Credit Event and what will Noteholders be paid?

Where a Restructuring Credit Event occurs and it constitutes an M(M)R Restructuring, a number of Credit Event Notices may be served, with each notice specifying the amount of the obligations in respect of which settlement is to take place. The transaction continues in effect in respect of the remaining portion of the obligations, so that one or more Credit Event Notices may be served later. Indeed, further notice may be served even if the Credit Event specified is the same Restructuring as the one originally relied upon. In this way, valuations can be made in relation to the proportion of the obligations of the Reference Entity which are available to acquire in the market (and so can be valued) and the Issuer is able to provide further notices if and when additional obligations become available in the market.

Accordingly, if a Restructuring Credit Event occurs with respect to the Credit Linked Notes, and it constitutes an M(M)R Restructuring, the Issuer may elect to trigger a partial redemption of the Credit Linked Notes in respect thereof. The Issuer has sole discretion to decide whether it will exercise a partial redemption of such Notes. The amount payable to Noteholders will reflect such partial redemption of the Credit Linked Notes.

What are Noteholders paid if the Credit Linked Notes are partially redeemed following a Restructuring Credit Event?

If a Restructuring Credit Event occurs with respect to the Credit Linked Notes, and it constitutes an M(M)R Restructuring, the Issuer may elect to trigger a partial redemption of the Credit Linked Notes in respect thereof. The Issuer has sole discretion to decide whether it will exercise a partial redemption of such Notes. The amount payable to Noteholders will reflect such partial redemption of the Credit Linked Notes.

When are Noteholders paid if “Credit Payment on Maturity” applies?

If “Credit Payment on Maturity” applies, payment of the relevant Redemption Amount will only occur on the Scheduled Maturity Date (see further “*What are Single Name Credit Linked Notes?*”, “*What are Basket Credit Linked Notes?*” and “*What are Index Tranche Credit Linked Notes?*”).

What is the Applicable Proportion?

The Applicable Proportion for determining the amount payable on redemption or partial redemption of a Credit Linked Note and/or for determining the portion on the Credit Linked Notes on which interest ceases to accrue following the occurrence of a Credit Event will be the Applicable Percentage multiplied by the Specified Denomination of such Credit Linked Note.

The Applicable Percentage means in respect of a Credit Event:

- (a) if the Credit Linked Note is a Single Name Credit Linked Note and the relevant Credit Event is not an M(M)R Restructuring Credit Event, 100 per cent.;
- (b) if the Credit Linked Note is a Basket Credit Linked Note and the relevant Credit Event is not an M(M)R Restructuring Credit Event, an amount equal to the Reference Entity Notional Amount of the Reference Entity to which the relevant Credit Event or the relevant redemption relates divided by the Original Aggregate Nominal Amount of the Basket Credit Linked Notes;

- (c) if the Credit Linked Note is an Index Tranche Note and the relevant Credit Event is not an M(M)R Restructuring Credit Event, an amount equal to the Principal Writedown Amount for the Reference Entity in respect of which a Credit Event has occurred divided by the Original Aggregate Nominal Amount of the Index Tranche Credit Linked Notes; or
- (d) if the Credit Event is an “**M(M)R Restructuring Credit Event**”, an amount equal to the relevant Exercise Amount specified in the relevant Credit Event Notice relating to the relevant Reference Entity and Credit Event divided by the Original Aggregate Nominal Amount of the Credit Linked Notes.

What are the Financial Reference Entity Terms?

Where the Reference Obligation is a senior obligation and, if “**Financial Reference Entity Terms**” has been specified as applicable, if a Credit Event would only affect the subordinated obligations of the relevant obligor, a Credit Event will not be triggered in respect of such senior obligation.

What is Asset Package Delivery?

If (a) a Restructuring Credit Event (which does not constitute a Governmental Intervention) or a Governmental Intervention Credit Event occurs with respect to a senior obligation, or (b) a Restructuring Credit Event occurs with respect to a Sovereign, such a Credit Event will constitute an “Asset Package Credit Event”. In those circumstances, (unless, in respect of a Sovereign Reference Entity, Asset Package Delivery has been specified not to apply in the relevant Final Terms), the obligations or assets used to determine the Final Auction Price or Value of the Valuation Obligations, as the case may be (i.e. the “Asset Package”), will be those assets received or retained by a Relevant Holder after the relevant Credit Event by reference to:

- (i) in respect of (a) above, either an obligation of the Reference Entity which existed immediately prior to the Asset Package Credit Event which would have constituted a Deliverable Obligation, or the Reference Obligation (i.e. a “Prior Deliverable Obligation”); or
- (ii) in respect of (b) above, a benchmark obligation of the relevant Sovereign identified as such by ISDA and published on its website which immediately prior to the Asset Package Credit Event would have constituted a Deliverable Obligation (i.e. a “Package Observable Bond”).

What is ISDA?

The International Swaps and Derivatives Association, Inc. (“**ISDA**”) is a trade organisation of participants in the market for over-the-counter derivatives. It is headquartered in New York, and is responsible for creating standardised contracts such as the ISDA Master Agreement and the 2014 ISDA Credit Derivatives Definitions and a wide range of related documentation, that are used to enter into derivatives transactions. Definitions, confirmations and other documents and information published by ISDA are available on ISDA’s website: <http://www2.isda.org/>. Certain publications are available free of charge while others are available to subscribers of the website only.

At the date of this Base Prospectus, ISDA has over 960 member institutions from 78 countries. These members include a broad range of OTC derivatives market participants.

What are the Credit Derivatives Determinations Committees and how do they affect the Credit Linked Notes?

The Credit Derivatives Determinations Committees were established by ISDA in March 2009 to make determinations that are relevant to the majority of the credit derivatives market and to promote transparency and consistency.

Prospective Noteholders should note that a Credit Derivatives Determinations Committee has the power to make binding decisions which the Calculation Agent may determine are applicable for the purposes of the Credit Linked Notes on critical issues, including:

- (a) the occurrence of a Credit Event and an Event Determination Date;
- (b) whether one or more Auctions will be held in respect of the Reference Entity for which a Credit Event has occurred and the price determined in such Auction;
- (c) if one or more Auctions is to be held, what Deliverable Obligations of the Reference Entity will be used for the purposes of determining the price for each such Auction; and
- (d) the occurrence of a “Succession Event” and the identity of any “Successors”.

Consequently, Noteholders will be bound by any such relevant decisions determined to be applicable to the Credit Linked Notes and the payments on the Credit Linked Notes and the timing of any such payments may be affected by such decisions or determinations. Questions referred to the Credit Derivatives Determinations Committee and the results of binding votes will be published on <http://www2.isda.org/>.

The Credit Derivatives Determinations Committees are regional and there is a Credit Derivatives Determinations Committee for each of the following five regions: the Americas, Asia (excluding Japan), Australia and New Zealand, Europe, the Middle East and Africa and Japan.

The proceedings of each Credit Derivatives Determinations Committee will be governed by rules published from time to time by ISDA. A copy of such rules is available as at the date of this Issue Memorandum free of charge at <http://www2.isda.org/>.

Each Credit Derivatives Determinations Committee is composed of fifteen voting members and three non-voting consultative members. Ten of the voting members are dealer institutions, with eight serving across all regions and two potentially varying by region. The other five voting members are non-dealer institutions that serve across all regions. The three non-voting consultative members consist of one dealer institution and one non-dealer institution that serve across all regions and one dealer institution that could potentially vary by region.

Is it possible to change a Reference Entity?

The Reference Entity may not be changed unless a “Successor” determination has been made with respect to the Reference Entity on or after the “Successor Backstop Date” (or, in the case of a “Universal Successor”, on or after 1 January 2014).

A “Universal Successor” means, with respect to any Reference Entity, the single entity which assumes all of the obligations (including at least one relevant bond or loan) of the Reference Entity and at the time of the determination either (A) the Reference Entity has ceased to exist, or (B) the Reference Entity is in the process of being dissolved (however described) and the Reference Entity has not issued or incurred any borrowed money obligation at any time since the legally effective date of the assumption.

What is a “Successor” to the Reference Entity and how can succession affect the Credit Linked Notes?

If the DC Secretary publicly announces that a Credit Derivatives Determinations Committee has resolved that a different entity or entities has or have become successor(s) to the original Reference Entity to which the Credit Linked Notes are linked, then such entity may be identified as a “Successor” to the original Reference Entity. The Calculation Agent may also, following a Succession Event, identify an entity or entities as a successor(s) to the original Reference Entity.

The identity of the original Reference Entity will be treated as having been amended accordingly for the purposes of the Credit Linked Notes so that, following the determination or announcement of a “Successor”,

the Credit Linked Notes will be linked to the credit risk of the Successor. The credit risk associated with a Successor or Successors may be different from and could be greater than the credit risk associated with the original Reference Entity.

The events which may lead to the determination or announcement of a Successor may occur at any time from and including the “Successor Backstop Date” (or, in the case of a “Universal Successor”, on or after 1 January 2014), which is a rolling date that is:

- (a) if a Credit Derivatives Determinations Committee receives a request to resolve whether or not there is one or more Successors to the Reference Entity, 90 calendar days prior to the date of such request; or
- (b) otherwise, 90 calendar days prior to the earlier of (i) the date on which notice of the occurrence of a succession delivered by the Issuer to the Agent is effective, (ii) where a Credit Derivatives Determination Committee receives a request to resolve whether or not there is one or more successors to the References but has resolved not to make a successor determination and the notice of the occurrence of a succession is delivered by the Issuer to the Agent no more than 14 calendar days after the day on which the DC Secretary publicly announces that the relevant Credit Derivatives Determination Committee has resolved not to make a successor determination, the date that the request to resolve whether or not there is one or more successors to the Reference Entity was received.

Can a succession occur prior to the Issue Date?

Yes. A succession may occur prior to the Issue Date of the Credit Linked Notes and may even occur prior to the Trade Date specified in the relevant Final Terms. The Successor Backstop Date may fall prior to the Trade Date and, accordingly, a succession may occur prior to the Trade Date.

Noteholders should conduct their own review of any recent developments with respect to the Reference Entity by consulting publicly available information. If a request has been delivered to convene a Credit Derivatives Determinations Committee prior to the Trade Date to determine whether a succession has occurred with respect to the Reference Entity, details of such request may be found on the ISDA website <http://dc.isda.org/>.

PART B: Credit Linked Conditions

The following are the conditions (the “**Credit Linked Conditions**”) that will apply to the Notes (the “**Credit Linked Notes**”) if the relevant Final Terms indicate that “Credit Linked Notes” are applicable. These Credit Linked Conditions apply as completed by the relevant Final Terms. In the case of any inconsistency between these Credit Linked Conditions and the Conditions, these Credit Linked Conditions will prevail.

Words and expressions defined or used in the relevant Final Terms shall have the same meanings where used in these Credit Linked Conditions unless the context otherwise requires or unless otherwise stated. All capitalised terms that are not defined in these Credit Linked Conditions or elsewhere in the Conditions applicable to the Credit Linked Notes will have the meanings given to them in the relevant Final Terms. References in these Credit Linked Conditions to “Credit Linked Notes” are to the Credit Linked Notes, as the case may be, of one Series only, not to all Credit Linked Notes that may be issued under the Programme.

Unless otherwise specified, references in these Credit Linked Conditions to a Credit Linked Condition are to the corresponding provision of these Credit Linked Conditions.

1 Redemption of Credit Linked Notes

(a) Redemption on the Maturity Date

Unless the Credit Linked Notes have been previously redeemed or purchased and cancelled by the Issuer, provided that a Relevant Event Determination Date has not occurred and subject to Maturity Date Extension pursuant to Credit Linked Condition 9 (*Maturity Date Extension*), the Credit Linked Notes shall be redeemed in full on the Scheduled Maturity Date.

(b) Redemption following the occurrence of a Credit Event

Unless previously redeemed or purchased and cancelled, if a Relevant Credit Event and a Relevant Event Determination Date have occurred, with respect to:

- (i) Single Name Credit Linked Notes, the Issuer will redeem such Notes (in whole or in part) in accordance with Credit Linked Condition 3 (*Single Name Credit Linked Notes*);
- (ii) Basket Credit Linked Notes, the Issuer will redeem such Notes (in whole or in part) in accordance with Credit Linked Condition 4 (*Basket Credit Linked Notes*); and
- (iii) Index Tranche Credit Linked Notes, the Issuer will redeem such Notes (in whole or in part) in accordance with Credit Linked Condition 5 (*Index Tranche Credit Linked Notes*),

in each case subject to Credit Linked Condition 15 (*Effect of DC Announcements*).

2 Interest on Credit Linked Notes

(a) Accrual of Interest

Subject to Credit Linked Condition 2(c) (*Suspension of Interest following an Applicable DC Credit Event Question*), interest (if any) shall accrue on the Outstanding Aggregate Nominal Amount of the Credit Linked Notes in accordance with Condition 3 (*Interest*) (as completed by the relevant Final Terms), subject to Credit Linked Conditions 3 (*Single Name Credit Linked Notes*), 4 (*Basket Credit Linked Notes*) and 5 (*Index Tranche Credit Linked Notes*).

For the avoidance of doubt, no interest shall accrue on any Note after the Scheduled Maturity Date.

(b) *Accrual of Interest on Credit Event*

If a Relevant Event Determination Date has occurred in respect of a Reference Entity during the Notice Delivery Period but prior to the Scheduled Maturity Date then, notwithstanding anything to the contrary in Condition 3 (*Interest*), with respect to:

- (i) Single Name Credit Linked Notes, interest will accrue on such Notes in accordance with Credit Linked Condition 3 (*Single Name Credit Linked Notes*);
- (ii) Basket Credit Linked Notes, interest will accrue on such Notes in accordance with Credit Linked Condition 4 (*Basket Credit Linked Notes*); and
- (iii) Index Tranche Credit Linked Notes, interest will accrue on such Notes in accordance with Credit Linked Condition 5 (*Index Tranche Credit Linked Notes*).

(c) *Suspension of Interest following an Applicable DC Credit Event Question*

Subject to Credit Linked Conditions 2(d) (*Payment of Suspended Interest following an Applicable DC Credit Event Question*), if an Applicable DC Credit Event Question is made in respect of which a DC Resolution (including, but not limited to, a DC Credit Event Announcement or a DC No Credit Event Announcement) has not been published at least five Business Days prior to any Interest Payment Date, the payment of interest (if any) in respect of the maximum possible Applicable Proportion that could arise as a result of the Credit Event, as determined by the Calculation Agent, of each Note scheduled to be paid to Noteholders on or about such Interest Payment Date will be suspended.

(d) *Payment of Suspended Interest following an Applicable DC Credit Event Question*

If, in connection with an Applicable DC Credit Event Question:

- (i) an Applicable DC No Credit Event Announcement or an Applicable DC Credit Event Question Dismissal is made, any payments of interest suspended under Credit Linked Condition 2(c) (*Suspension of Interest following an Applicable DC Credit Event Question*), shall be paid on the Interest Suspension Payment Date;
- (ii) an Applicable DC Credit Event Announcement is made but the Calculation Agent determines that the Event Determination Date relating thereto is a date falling fewer than five Business Days prior to the Interest Payment Date or later, any payments of interest suspended under Credit Linked Condition 2(c) (*Suspension of Interest following an Applicable DC Credit Event Question*), shall be paid on the Interest Suspension Payment Date;
- (iii) an Applicable DC Credit Event Announcement is made and the Calculation Agent determines that the Event Determination Date relating thereto is a date falling at least five Business Days prior to such Interest Payment Date:
 - (A) any payments of interest suspended under Credit Linked Condition 2(c) (*Suspension of Interest following an Applicable DC Credit Event Question*), in respect of interest that would have accrued in accordance with Condition 3 (*Interest*) from, and including, the Interest Payment Date immediately preceding the date on which the Applicable DC Credit Event Question was made to, but excluding, the Interest Suspension Accrual Date, shall be paid on the Interest Suspension Payment Date; and
 - (E) the accrual of interest from, and including, the Interest Suspension Accrual Date to, but excluding, the date on which such interest is paid will be determined in accordance with Credit Linked Condition 3(a), 4(a) or 5(a) (*Accrual of Interest on Credit Event*) (as applicable).

(e) *Adjustment Payments in respect of Suspended Interest*

No additional amount in respect of interest and no adjustment shall be made to the amount of any interest in connection with the delay or postponement of any payment of interest pursuant to Credit Linked Condition 2(c) (*Suspension of Interest following an Applicable DC Credit Event Question*).

(f) *Notice of Suspended Interest*

The Issuer shall endeavour to give notice to the Noteholders in accordance with Credit Linked Condition 20 (*Notices*) as soon as reasonably practicable should any payment of interest on their Notes be suspended pursuant to this Credit Linked Condition 2 (*Interest on Credit Linked Notes*).

3 **Single Name Credit Linked Notes**

The provisions of this Credit Linked Condition 3 (*Single Name Credit Linked Notes*) shall not apply to Basket Credit Linked Notes or Index Tranche Credit Linked Notes.

(a) *Accrual of Interest on Credit Event*

(i) Credit Payment on Maturity Not Applicable

- (A) If Credit Payment on Maturity does not apply and a Relevant Event Determination Date has occurred during the Notice Delivery Period but prior to the Scheduled Maturity Date then, notwithstanding anything to the contrary in Condition 3 (*Interest*), interest will cease to accrue on the Applicable Proportion of each Single Name Credit Linked Note as at the Interest Suspension Accrual Date.

For the avoidance of doubt, interest will continue to accrue on any remaining portion of each Single Name Credit Linked Note in accordance with Condition 3 (*Interest*) until the earlier of (i) the Scheduled Maturity Date and (ii) the Auction Redemption Date or Cash Redemption Date (as applicable).

- (B) If neither Principal Protection nor Credit Payment on Maturity does not apply and Credit Linked Condition 3(a)(i)(A) applies:

I the Auction Recovery Amount or Cash Recovery Amount (as applicable) shall accrue interest at the Funding Interest Rate from, and including, the Interest Suspension Accrual Date to, but excluding, the Auction Redemption Date or the Cash Redemption Date (as applicable); and

II if “Credit Event Deferred Interest on Loss Amount” is specified in the Final Terms as applicable, the Auction Loss Amount or Cash Loss Amount (as applicable) shall accrue interest at the Funding Interest Rate from, and including, the Interest Suspension Accrual Date to, but excluding, the Auction Final Price Determination Date or the Final Price Determination Date (as applicable).

Interest accrued under this Credit Linked Condition 3(a)(i)(B) shall be payable on the Auction Redemption Date or Cash Redemption Date (as applicable).

(ii) Credit Payment on Maturity Applicable

- (A) If Credit Payment on Maturity applies and a Relevant Event Determination Date has occurred during the Notice Delivery Period but prior to the Scheduled Maturity Date, notwithstanding that the Cash Redemption Amount or Auction Redemption Amount (as applicable) shall be payable on the Final Cash Redemption Date or Final Auction

Redemption Date (as applicable), the Applicable Proportion of each Single Name Credit Linked Note shall cease to accrue interest in accordance with Condition 3 (*Interest*) as at the Interest Suspension Accrual Date.

For the avoidance of doubt, interest will continue to accrue on any remaining portion of each Single Name Credit Linked Note in accordance with Condition 3 (*Interest*) until the earlier of (i) the Scheduled Maturity Date and (ii) the Auction Redemption Date or Cash Redemption Date (as applicable).

- (B) If Credit Payment on Maturity applies and Credit Linked Condition 3(a)(ii)(A) applies:

If, as a result of a Credit Event in respect of a Reference Entity, the Calculation Agent determines that the Outstanding Aggregate Nominal Amount will be reduced to zero, the Index Tranche Credit Linked Notes shall be redeemed by payment of the final Index Tranche Redemption Amount on the relevant Index Tranche Auction Redemption Date

(together with any accrued interest calculated to, but excluding, the relevant Index Tranche Auction Redemption Date) and no further amount (including any Final Redemption Amount) shall be payable on the Index Tranche Credit Linked Notes. Upon payment of the final Index Tranche Redemption Amount, the Issuer shall have discharged its obligation in respect of such Index Tranche Credit Linked Note and shall have no further liability or obligation in respect thereof.

Upon payment of the final Index Tranche Redemption Amount, the Issuer shall have discharged its obligation in respect of such Index Tranche Credit Linked Note and shall have no further liability or obligation in respect thereof.

(iii) Fixed Recovery Redemption

If "Fixed Recovery Redemption" is specified as the Credit Event Redemption Method in the relevant Final Terms, then, following the occurrence of a Relevant Event Determination Date, redemption of the Applicable Proportion of each Index Tranche Credit Linked Note shall take

place in accordance with Credit Linked Condition 5(b)(ii) (*Redemption Following a Credit Event – Cash Redemption*), provided that the Loss Amount and the Recovery Amount shall be determined using the Fixed Recovery Percentage specified in the relevant Final Terms instead of the Auction Final Price or Final Price, as further set out in the definitions of Loss Amount and Recovery Amount in Credit Linked Condition 5(d) (*Definitions*).

6 Credit Event Notice and Notice of Publicly Available Information

- (b) If a Credit Event Notice is not required to be delivered in order for an Event Determination Date to occur, then the Issuer shall give written notice not less than five Business Days prior to the date for redemption of the Notes (or a portion thereof) containing the same information required to be included in a Credit Event Notice to the Agent and the Agent will deliver a copy of such notice to the Noteholders in accordance with Credit Linked Condition 20 (*Notices*) (provided that any failure to give such notice to the Agent or Noteholders shall not affect any determinations made by the Issuer and/or the Calculation Agent or the rights of the Issuer to redeem the Credit Linked Notes (or, with respect to the Basket Credit Linked Notes or Index Tranche Credit Linked Notes or if the Credit Event is an M(M)R Restructuring Credit Event, the Applicable Proportion thereof)).
- (c) The Calculation Agent’s determination of a Credit Event will, in the absence of manifest error and subject to the definition of “Event Determination Date”, be conclusive and binding on all persons (including, without limitation, the Agent and each Noteholder).
- (d) None of the Issuer, the Calculation Agent, the Agent and the Paying Agents will have any liability whatsoever for the failure of the Calculation Agent for any reason to determine that a Credit Event has occurred or with respect to the Issuer’s timing as to when to deliver a Credit Event Notice (or any such other notice required to be delivered by the Issuer to the Agent, the Noteholder(s) or any other party in accordance with these Credit Linked Conditions including a Notice of Publicly Available Information) nor will they have any duty or responsibility to investigate or check whether any Credit Event has, or may have, occurred or may be continuing. In addition, the failure of the Issuer or the Agent to deliver the Credit Event Notice shall not affect the effectiveness of any determination made, or any other notice delivered, by the Issuer or the Calculation Agent in respect of a relevant Reference Entity.

7 Relevant Time

- (a) Subject to Credit Linked Condition 20 (*Notices*) and Credit Linked Condition 7(b) (*Relevant Time*), in order to determine the day on which an event occurs for purposes of these Credit Linked Conditions, the demarcation of days shall be made by reference to Greenwich Mean Time (or Tokyo time if the Calculation Agent determines that Tokyo time is the market convention with respect to the relevant Reference Entity), irrespective of the time zone in which such event occurred. Any event occurring at midnight shall be deemed to have occurred immediately prior to midnight.
- (b) Notwithstanding the definition of “Credit Event Notice” and Credit Linked Condition 7(a) (*Relevant Time*), if a payment is not made by the Reference Entity on its due date or, as the case may be, on the final day of the relevant Grace Period, then such failure to make a payment shall be deemed to have occurred on such day prior to midnight Greenwich Mean Time (or Tokyo time if the Calculation Agent determines that Tokyo time is the market convention with respect to the relevant Reference Entity), irrespective of the time zone of its place of payment.

8 Event Determination Date Adjustment Payment

If, following the determination of an Event Determination Date, such Event Determination Date is deemed either to have occurred on a date that is different from the date that was originally determined to be the Event Determination Date or not to have occurred, or an Event Determination Date is deemed to have occurred prior to a preceding Interest Payment Date, the Calculation Agent will determine (A) the adjustment payment, if any, that is payable to reflect any change that may be necessary to the amount previously calculated and/or paid in respect of the relevant Series and (B) the date in which such adjustment payment is payable, if any. For the avoidance of doubt, no accruals of interest shall be taken into account when calculating any such adjustment payment.

9 Maturity Date Extension

- (a) Where the Calculation Agent determines on or prior to the Scheduled Maturity Date, in its sole and absolute discretion, that one or more Reference Entities is or may be subject to (i) a Credit Event, (ii) if “Grace Period Extension” is specified as being applicable in the relevant Final Terms, a Potential Failure to Pay or, (iii) if “Repudiation/Moratorium” is specified as being applicable in the relevant Final Terms, a Potential Repudiation/Moratorium, it shall notify the Agent and the Credit Linked Notes then outstanding shall not be redeemed on the Scheduled Maturity Date but shall be redeemed instead on the Extended Maturity Date.
- (b) If any amount is payable on the Scheduled Maturity Date of a Credit Linked Note to which the provisions of this Credit Linked Condition 9 (*Maturity Date Extension*) apply, such amount shall fall due on the Extended Maturity Date and shall be payable without any interest or other sum payable in respect of the postponement of the payment of such amount.

10 M(M)R Restructuring Credit Event

- (a) *Credit Event Notice after M(M)R Restructuring Credit Event*

Upon the occurrence of an M(M)R Restructuring, the Issuer may deliver multiple Credit Event Notices with respect to such M(M)R Restructuring Credit Event, each such Credit Event Notice setting forth the amount of the Original Aggregate Nominal Amount of the Credit Linked Notes to which such Credit Event Notice applies which may, if the Notes are Single Name Credit Linked Notes, be less than the Original Aggregate Nominal Amount of such Credit Linked Notes or, if the Notes are Basket Credit

Linked Notes or Index Tranche Credit Linked Notes, may be less than the Reference Entity Notional Amount of the affected Reference Entity (the aggregate of such amounts with respect to a Series, the “**Exercise Amount**”); provided that if the Credit Event Notice does not specify an Exercise Amount, then either (i) if the Notes are Single Name Credit Linked Notes, the Outstanding Aggregate Nominal Amount of the Credit Linked Notes outstanding immediately prior to the delivery of such Credit Event Notice or (ii) if the Notes are Basket Credit Linked Notes or Index Tranche Credit Linked Notes, the relevant Reference Entity Notional Amount outstanding in respect of the affected Reference Entity, (and, in either case, not a portion thereof) will be deemed to have been specified as the Exercise Amount. Accordingly, notwithstanding anything to the contrary in these Credit Linked Conditions, where an M(M)R Restructuring Credit Event has occurred and the Issuer has delivered a Credit Event Notice for an Exercise Amount that is less than (i) the Original Aggregate Nominal Amount of the Notes, or (ii) the Reference Entity Notional Amount outstanding in respect of the affected Reference Entity, in each case as at the date immediately prior to the delivery of such Credit Event Notice, as applicable, the provisions of these Credit Linked Conditions shall be deemed to apply to a principal amount of the Notes equal to the Exercise Amount only and all the provisions shall be construed accordingly.

(b) *Redemption of Notes following partial exercise*

If the Issuer has delivered a Credit Event Notice in respect of an M(M)R Restructuring that specifies an Exercise Amount that is less than the Original Aggregate Nominal Amount of the Credit Linked Notes and, in the case of Single Name Credit Linked Notes, only one Reference Entity is specified for the Credit Linked Notes, or, in the case of Basket Credit Linked Notes or Index Tranche Credit Linked Notes, in relation to a Reference Entity that specifies an Exercise Amount that is less than such Reference Entity’s Reference Entity Notional Amount), then:

- (i) the relevant provisions of Credit Linked Conditions 3 (*Single Name Credit Linked Notes*), 4 (*Basket Credit Linked Notes*) and 5 (*Index Tranche Credit Linked Notes*) relating to Redemption of Credit Linked Notes shall apply to the Exercise Amount, including for the purposes of calculating the Redemption Amount to be Delivered to Noteholders. In such circumstances, the Calculation Agent may adjust such provisions of the Credit Linked Conditions and/or relevant Final Terms as it determines appropriate to take account of this Credit Linked Condition 10 (*M(M)R Restructuring Credit Event*), including the basis of the calculation of any Redemption Amount;
- (ii) following any payment of a Redemption Amount to Noteholders or any other determination made in respect of any Exercise Amount, the Reference Entity Notional Amount for the relevant Reference Entity shall be reduced by an amount equal to the Exercise Amount (and for the avoidance of doubt, the aggregate of the Reference Entity Notional Amounts shall be reduced accordingly). The Notes in an amount equal to the Outstanding Aggregate Nominal Amount shall remain outstanding and interest (if applicable) shall accrue on the Outstanding Aggregate Nominal Amount as provided for in Condition 3 (*Interest*) and the Issuer may thereafter deliver one or more further Credit Event Notices in respect of such Outstanding Aggregate Nominal Amount to which the Credit Linked Conditions shall continue to apply; and
- (iii) the Calculation Agent may adjust the provisions of these Credit Linked Conditions and/or the relevant Final Terms in such manner as it may determine to be appropriate to account for such event.

(c) *Endorsement of Global Note*

If the provisions of this Credit Linked Condition 10 (*M(M)R Restructuring Credit Event*), apply in respect of the Credit Linked Notes, on any redemption of part of each such Credit Linked Note, the relevant Credit Linked Note or, if the Credit Linked Notes are represented by a Global Note, such Global Note, shall be endorsed to reflect such part redemption.

11 Auction Redemption Terms

(a) *Fallback Redemption*

If the Calculation Agent determines:

- (i) except where the Issuer delivers a Notice to Exercise Movement Option to the Agent on or prior to the Movement Option Cut-off Date pursuant to Credit Linked Condition 11(b) (*Movement Option*), that with respect to a Credit Event, no Applicable Auction is being, or will be, held; or
- (ii) with respect to a Credit Event and any relevant Applicable DC Credit Event Question, Applicable Resolution and/or Applicable Auction, that (A) an Auction Cancellation Date has occurred, (B) a No Auction Announcement Date has occurred (and, in circumstances where such No Auction Announcement Date occurs pursuant to this Credit Linked Condition 11(a) (*Fallback Redemption*) or sub-paragraph (c)(ii) under the definition of “No Auction Announcement Date”, the Calculation Agent has not exercised the Movement Option), (C) a DC Credit Event Question Dismissal occurs or (D) a Relevant Event Determination Date was determined pursuant to sub-paragraph (a) of the definition of “Event Determination Date” or pursuant to sub-paragraph (a) of the definition of “Non-Standard Event Determination Date”, and no Credit Event Resolution Request Date has occurred on or prior to the date falling three Business Days after such Relevant Event Determination Date, or (E) a Relevant Event Determination Date was determined pursuant to sub-paragraph (b)(ii)(B)(II)(2) of the definition of “Non-Standard Event Determination Date”,

then, Cash Redemption shall apply and the Issuer shall redeem each Note as if Cash Redemption had been specified as the Credit Event Redemption Method.

(b) *Movement Option*

If “Restructuring Maturity Limitation and Fully Transferable Obligation Applicable” or “Modified Restructuring Maturity Limitation and Conditionally Transferable Obligation Applicable” is specified in the relevant Final Terms and the Calculation Agent determines in respect of a Restructuring Credit Event that a No Auction Announcement Date has occurred pursuant to sub-paragraph (b) of the definition of “No Auction Announcement Date”, the Issuer may elect in its sole and absolute discretion to deliver a Notice to Exercise Movement Option to the Calculation Agent at any time on or prior to the Movement Option Cut-off Date. If a Notice to Exercise Movement Option is so delivered, then provided that the related Event Determination Date is not reversed on or prior to the relevant Redemption Date, redemption of the Credit Linked Notes (or, if the Credit Linked Notes are Basket Credit Linked Notes, or Index Tranche Credit Linked Notes or if the Credit Event is an M(M)R Restructuring Credit Event, the Applicable Proportion of the Credit Linked Notes), shall take place by payment by the Issuer of the relevant Redemption Amount on the relevant Redemption Date, for which purposes the Redemption Amount and the Redemption Date shall be determined by reference to the relevant Parallel Auction identified by the Issuer in the Notice to Exercise Movement Option. If a Notice to Exercise Movement Option is delivered by the Issuer, all references in these Credit Linked Conditions to “Applicable Auction”, “Applicable Auction Settlement Terms”, “Auction Cancellation Date” and “Auction Final Price Determination Date” shall be deemed to be references to the “Parallel Auction”, “Parallel Auction

Settlement Terms” and “Parallel Auction Cancellation Date” and the terms of these Credit Linked Conditions shall be construed accordingly.

(c) *Auction Final Price of the Asset Package*

If an Asset Package Credit Event has occurred and the Auction Final Price for the Applicable Auction reflects the entire relevant Asset Package in respect of the Prior Deliverable Obligation(s) or Package Observable Bond(s) (as applicable) (including any cash forming part of the Asset Package and the Asset Market Value of any Non-Financial Instrument or Non-Transferable Instrument), the Redemption Amount shall be determined using the Auction Final Price. If the Calculation Agent determines that the Auction Final Price does not reflect the price of the entire relevant Asset Package, as determined above, the Calculation Agent shall make such adjustment to the Auction Final Price and/or the relevant Redemption Amount in its sole and absolute discretion as it deems necessary to reflect the value of the Asset Package and to preserve the economic effects of the terms of the Notes and for such purposes the Calculation Agent may take into account any method of determining the Asset Market Value of any Asset that is a Non-Transferable Instrument or a Non-Financial Instrument forming part of the Asset Package but that has not been taken into in the Auction Final Price that may be published by the DC Secretary.

12 Cash Redemption Terms

(a) On the Valuation Date, the Calculation Agent shall commence determination of the Final Price using the Valuation Obligations to be valued selected in its discretion, acting in a commercially reasonable manner.

(b) If:

- (I) “Include Accrued Interest” is specified in the relevant Final Terms, the Outstanding Principal Balance of the Valuation Obligations shall include accrued but unpaid interest;
- (II) “Exclude Accrued Interest” is specified in the relevant Final Terms, the Outstanding Principal Balance of the Valuation Obligations shall not include accrued but unpaid interest; or
- (III) neither “Include Accrued Interest” nor “Exclude Accrued Interest” is specified in the relevant Final Terms, the Calculation Agent shall determine, based on the then current market practice in the market of the Valuation Obligation whether the Outstanding Principal Balance of the Valuation Obligation shall include or exclude accrued but unpaid interest and, if applicable, the amount thereof,

the Calculation Agent shall, as soon as reasonably practicable after obtaining all Quotations for a Valuation Date, notify the Issuer and the Agent in writing of each such Quotation that it receives in connection with the calculation of the Final Price together with a written computation showing such calculation and including the information specified in sub-paragraph (v) of Credit Linked Condition 20(a) (*Notices required to be delivered*) and the Agent will deliver a copy of such notice to the Noteholders in accordance with Credit Linked Condition 20 (*Notices*) (provided that any failure to give such notice to Noteholders shall not affect any determination made by the Issuer or Calculation Agent or the rights of the Issuer to redeem the Credit Linked Notes (or, if the Notes are Basket Credit Notes or Index Tranche Credit Linked Notes, or if the Credit Event is an M(M)R Restructuring Credit Event, the Applicable Proportion thereof)).

(iii) If an Asset Package Credit Event has occurred, (A) valuation of a Prior Deliverable Obligation or Package Observable Bond specified in the notice to the Agent may be satisfied by valuation of the related Asset Package and such Asset Package shall be treated as having the same currency

and Outstanding Principal Balance as that of the Prior Deliverable Obligation or Package Observable Bond, as applicable, to which it corresponds immediately prior to the Asset Package Credit Event, (B) if the Asset Package is zero, a Quotation shall be deemed to have been obtained for the Outstanding Principal Balance of the Prior Deliverable Obligation or Package Observable Bond (as applicable) equal to zero, and (C) for any other Asset Package the Calculation Agent shall determine the value of the Asset Package in its sole and absolute discretion and a Quotation shall be deemed to have been obtained for such valuation provided that the Calculation Agent may obtain Quotations for some or all of the components of the Asset Package and/or take account of any method of determining the Asset Market Value of any Asset that is a Non-Transferable Instrument or a Non-Financial Instrument that may be published by the DC Secretary.

13 Redemption Upon Merger Event

If “Redemption Following Merger” is specified as being applicable in the Final Terms then:

- (a) If at any time the Issuer becomes aware that any Noteholder is a Reference Entity, the Issuer may, in its sole and absolute discretion, elect to redeem all of the Credit Linked Notes of that Noteholder (and the Redemption Amount shall, notwithstanding the Credit Linked Conditions, be an amount determined by the Calculation Agent, acting in a commercially reasonable manner, to be fair (which may, for the avoidance of doubt, be zero)).
- (b) In the event that the Issuer and/or the Calculation Agent determines, in its discretion, acting in a commercially reasonable manner, that a Merger Event has occurred, the Issuer may give notice to the Noteholders in accordance with Credit Linked Condition 20 (*Notices*) and redeem or cancel, as applicable, all of the Credit Linked Notes and the Redemption Amount shall, notwithstanding the Credit Linked Conditions, be zero.

The Issuer shall not be responsible for monitoring the identity of each Noteholder from time to time for the purpose of enabling the Issuer to exercise its rights hereunder or otherwise.

14 Redemption Failure Event

- (a) If a Redemption Failure Event has occurred and exists on the Scheduled Maturity Date or Redemption Date, the obligation of the Issuer to pay the Redemption Amount will be postponed without further act or notice and such payment will be made on a Business Day selected by the Issuer on which such Redemption Failure Event no longer exists, provided that, if such Redemption Failure Event continues to exist on the tenth Business Day after the Scheduled Maturity Date or Redemption Date or other scheduled payment or delivery date (including a date scheduled to be the Delivery Date) in respect of an amount required to be paid, the Noteholder may request the Issuer in writing to make payment of such amount to such account or to such other person as the Noteholder specifies, provided that, the Issuer first receives an irrevocable and unconditional release and indemnity in respect of liabilities arising therefrom to its sole and absolute satisfaction.
- (b) Continuing Redemption Failure Event

Notwithstanding anything to the contrary in the Conditions, if the Issuer determines (in its discretion, acting in a commercially reasonable manner) that such Redemption Failure Event continues to exist on the 90th calendar day after the Scheduled Maturity Date or Redemption Date or other scheduled payment or delivery date (including a date scheduled to be the Delivery Date) (a “**Continuing Redemption Failure Event**”) in respect of an amount required to be paid where the Noteholder has not elected for

payment to be made to a third party (if applicable) in accordance with sub-paragraph (a) (*Redemption Failure Event*) above, or Valuation Obligations to be Delivered (as the case may be) no such payment or Delivery will be made by the Issuer and the Issuer's obligations to the Noteholder hereunder will be deemed to be fully discharged as of that date.

- (c) Any postponement or deemed discharge of payment pursuant to this Credit Linked Condition 14 (*Redemption Failure Event*) will not constitute a default hereunder (including for the purpose of Condition 14 (*Events of Default*)) and will not entitle the relevant Noteholder to any additional interest or other payment as a result thereof.

15 Effect of DC Announcements

(a) Event Determination Dates

(i) Reversal of DC Credit Event Announcement

If an Event Determination Date is subsequently reversed prior to the relevant Auction Final Price Determination Date, a Valuation Date, a Redemption Date or the Scheduled Maturity Date, a Credit Event shall be deemed not to have occurred with respect to the Reference Entity for the purposes of these Credit Linked Conditions.

(ii) Basket Credit Linked Notes and Index Tranche Credit Linked Notes

Where the Notes are Basket Credit Linked Notes or Index Tranche Credit Linked Notes, an Event Determination Date may occur in respect of each Reference Entity comprised in the Basket provided that, other than in respect of a Restructuring, an Event Determination Date shall apply only once to each such Reference Entity.

(b) Redemption Suspension

If, following the occurrence of a Relevant Event Determination Date but prior to the relevant Redemption Date or, to the extent applicable, a Valuation Date in respect of a Reference Entity, there is an Applicable DC Credit Event Meeting Announcement, all timing requirements in these Credit Linked Conditions that pertain to settlement shall toll and remain suspended until the date of the Applicable DC Credit Event Announcement or Applicable DC Credit Event Question Dismissal, as applicable. During such suspension period, the Issuer is not obliged to take any action in connection with the settlement of such Credit Event or the redemption, if any, of the Credit Linked Notes. Once the relevant DC Credit Event Announcement or DC Credit Event Question Dismissal has occurred, the relevant timing requirements that pertain to settlement that have previously tolled or been suspended shall resume on the Business Day following such public announcement by the DC Secretary with the Issuer having the benefit of the full day notwithstanding when the tolling or suspension began. The Issuer shall deliver, or cause the Agent to deliver, a notice (a "**Redemption Suspension Notice**") in accordance with Credit Linked Condition 20 (*Notices*) to the Noteholders giving notice of any suspension or resumption of timing requirements pursuant to this Credit Linked Condition 15 (*Effect of DC Announcements*).

16 Successor Provisions

(a) Successor Determinations

The Calculation Agent will be responsible for determining, as soon as reasonably practicable after delivery of a Successor Notice and with effect from the Succession Date, any Successor or Successors provided that the Calculation Agent will not make such determination if, at the time of the determination,

the DC Secretary has publicly announced that the relevant Credit Derivatives Determinations Committee has Resolved that there is no Successor based on the relevant succession to Relevant Obligations.

The Calculation Agent will make all calculations and determinations required to be made under this definition on the basis of Eligible Information and will notify the Agent of any such calculation or determination as soon as practicable. In calculating the percentages used to determine whether an entity qualifies as a Successor under this Credit Linked Condition 16(a) (*Successor Determinations*), if there is a Steps Plan, the Calculation Agent shall consider all related successions in respect of such Steps Plan in aggregate as if forming part of a single succession.

(b) *Joint Potential Successors*

If two or more entities (each, a “**Joint Potential Successor**”) jointly succeed to a Relevant Obligation (the “**Joint Relevant Obligation**”) either directly or as a provider of a Relevant Guarantee, then (a) if the Joint Relevant Obligation was a direct obligation of the Reference Entity, it shall be treated as having been succeeded to by the Joint Potential Successor (or Joint Potential Successors, in equal parts) which succeeded to such Joint Relevant Obligation as direct obligor or obligors, or (b) if the Joint Relevant Obligation was a Relevant Guarantee, it shall be treated as having been succeeded to by the Joint Potential Successor (or Joint Potential Successors, in equal parts) which succeeded to such Joint Relevant Obligation as guarantor or guarantors, if any, or otherwise by each Joint Potential Successor in equal parts.

(c) *Multiple Successors*

Following a Succession Date if more than one Successor has been identified, the Credit Linked Notes will be amended without the consent of the Noteholders to reflect the following terms:

- (i) each Successor will be a Reference Entity and more than one Credit Event may occur during the Term of the Credit Linked Notes but, subject to Credit Linked Condition 10 (*M(M)R Restructuring Credit Event*), once only in relation to each Successor;
- (ii) with respect to Single Name Credit Linked Notes, where a Credit Event occurs in respect of a Reference Entity after such Succession Date, the Credit Linked Notes will not redeem in whole in respect of a Successor but instead the provisions of these Credit Linked Conditions shall be deemed to apply to the nominal amount represented by that Reference Entity only (the “**Partial Nominal Amount**”), the Credit Linked Notes shall, thereafter, be redeemed in part (such redeemed part being equal to a Noteholder’s pro rata share of the Partial Nominal Amount) (provided that if Credit Payment on Maturity applies such partial redemption shall occur only on the Final Cash Redemption Date or Final Auction Redemption Date (as applicable)) and the Credit Linked Conditions and/or the Final Terms shall be construed accordingly. Following such event, the Credit Linked Notes shall remain outstanding in an amount equal to the Outstanding Aggregate Nominal Amount of the Credit Linked Notes and interest shall accrue on the Outstanding Aggregate Nominal Amount of the Credit Linked Notes only (in accordance with these Credit Linked Conditions, adjusted in such manner as the Calculation Agent in its discretion, acting in a commercially reasonable manner, determines to be appropriate to reflect the economic effects of the identification of more than one Successor); and
- (iii) with respect to Basket Credit Linked Notes or Index Tranche Credit Linked Notes, the Reference Entity Notional Amount of the original Reference Entity will be divided equally between the number of Successors and the Calculation Agent shall determine the relevant type of Reference Entity (including any Relevant Obligation and Valuation Obligation Category and Valuation Obligation Characteristics in its discretion, acting in a commercially reasonable manner) by

reference to market practice in such type of Reference Entity. If a single entity would be a Reference Entity hereunder more than once, then it will be deemed to be a Reference Entity only once, and the Reference Entity Notional Amount for such Reference Entity will be the sum of the Reference Entity Notional Amounts otherwise applicable to it (and such change shall have no effect on the Outstanding Aggregate Nominal Amount of the Basket Credit Linked Notes or the Index Tranche Credit Linked Notes).

(d) *Exchange Offer*

In the case of an exchange offer, the determination required pursuant to sub-paragraph (a) of the definition of “Successor” shall be made on the basis of the Outstanding Principal Balance of Relevant Obligations exchanged and not on the basis of the Outstanding Principal Balance of the Exchange Bonds or Loans.

(e) *Eligible Successors*

An entity may only be a Successor if:

- (i) either (A) the related Succession Date occurs on or after the Successor Backstop Date, or (B) such entity is a Universal Successor in respect of which the Succession Date occurred on or after 1 January 2014;
- (ii) the Reference Entity had at least one Relevant Obligation outstanding immediately prior to the Succession Date and such entity succeeds to all or part of at least one Relevant Obligation of the Reference Entity; and
- (iii) where the Reference Entity is a Sovereign, such entity succeeded to the Relevant Obligations by way of a Sovereign Succession Event.

17 Multiple Holder Obligation

Unless “Multiple Holder Obligation” is specified to be not applicable in the relevant Final Terms, then none of the events described in sub-paragraphs (i) to (iv) of the definition of “Restructuring” shall constitute a Restructuring unless the Obligation is a Multiple Holder Obligation, where “Multiple Holder Obligation” means an Obligation that (i) at the time of the event which constitutes a Restructuring Credit Event is held by more than three holders that are not Affiliates of each other and (ii) with respect to which a percentage of holders (determined pursuant to the terms of the Obligation as in effect on the date of such event) at least equal to sixty-six-and two-thirds is required to consent to the event which constitutes a Restructuring Credit Event (provided that sub-paragraph (ii) shall be deemed to be satisfied where the Obligation is a Bond).

18 Reference Obligation

(a) *Standard Reference Obligation and Non-Standard Reference Obligation*

- (i) If “Standard Reference Obligation” is specified as applicable in the relevant Final Terms, then the Reference Obligation for the relevant Reference Entity will be the Standard Reference Obligation which is the Obligation of the relevant Reference Entity with the relevant Seniority Level specified from time to time on the SRO List published by ISDA on its website at www.isda.org from time to time (or any successor website thereto) or by a third party designated by ISDA for such purposes.

- (ii) If “Standard Reference Obligation” is not specified as applicable in the relevant Final Terms then the Reference Obligation(s) for the relevant Reference Entity will be each Non-Standard Reference Obligation specified in the relevant Final Terms for such Reference Entity.

(b) *Substitute Reference Obligation*

- (i) If a Substitution Event has occurred with respect to a Non-Standard Reference Obligation, the Calculation Agent may identify a Substitute Reference Obligation in accordance with sub-paragraphs (iii), (iv) and (v) of this Credit Linked Condition 18(b) (*Substitute Reference Obligation*) to replace such Non-Standard Reference Obligation; provided that the Calculation Agent will not identify an Obligation as the Substitute Reference Obligation if, at the time of the determination, such Obligation has already been rejected as the Substitute Reference Obligation by the relevant Credit Derivatives Determinations Committee and such Obligation has not changed materially since the date of the relevant DC Resolution.
- (ii) If any of the events set forth under sub-paragraph (a) or (c) of the definition of “Substitution Event” have occurred with respect to a Non-Standard Reference Obligation, such Non-Standard Reference Obligation will cease to be the Reference Obligation (other than for purposes of the “Not Subordinated” Obligation Characteristic or “Not Subordinated” Valuation Obligation Characteristic and sub-paragraph (iii)(B) of this Credit Linked Condition 18(b) (*Substitute Reference Obligation*)). If the event set forth in sub-paragraph (b) of the definition of “Substitution Event” has occurred with respect to a Non-Standard Reference Obligation and no Substitute Reference Obligation is available, such Non-Standard Reference Obligation will continue to be a Reference Obligation until the Substitute Reference Obligation is identified or, if earlier, until any of the events set forth under sub-paragraph (a) or (c) of the definition of “Substitution Event” occur with respect to such Non-Standard Reference Obligation.
- (iii) The Substitute Reference Obligation shall be an Obligation that on the Substitution Date:
 - (A) is a Borrowed Money obligation of the Reference Entity (either directly or as provider of a Guarantee);
 - (B) satisfies the Not Subordinated Valuation Obligation Characteristic as of the date it was issued or incurred (without reflecting any change the priority of payment after such date) and on the Substitution Date; and
 - (C) (I) if the Non-Standard Reference Obligation was a Conforming Reference Obligation when issued or incurred and immediately prior to the Substitution Event Date:
 - 1. is a Valuation Obligation (other than a Loan) determined in accordance with sub-paragraph (a) of the definition of “Valuation Obligation”; or if no such obligation is available,
 - 2. is a Loan (other than a Private-side Loan) which constitutes a Valuation Obligation determined in accordance with sub-paragraph (a) of the definition of “Valuation Obligation”;
 - (II) if the Non-Standard Reference Obligation was a Bond (or any other Borrowed Money obligation other than a Loan) which was a Non-Conforming Reference Obligation when issued or incurred and/or immediately prior to the Substitution Event Date:

1. is a Non-Conforming Substitute Reference Obligation (other than a Loan); or if no such obligation is available,
 2. is a Valuation Obligation (other than a Loan) determined in accordance with sub-paragraph (a) of the definition of “Valuation Obligation”; or if no such obligation is available,
 3. is a Non-Conforming Substitute Reference Obligation which is a Loan (other than a Private-side Loan); or if no such Obligation is available,
 4. is a Loan (other than a Private-side Loan) which constitutes a Valuation Obligation determined in accordance with sub-paragraph (a) of the definition of “Valuation Obligation”; or
- (III) if the Non-Standard Reference Obligation was a Loan which was a Non-Conforming Reference Obligation when incurred and/or immediately prior to the Substitution Event Date:
1. is a Non-Conforming Substitute Reference Obligation which is a Loan (other than a Private-side Loan); or if no such obligation is available,
 2. is a Non-Conforming Substitute Reference Obligation (other than a Loan); or if no such obligation is available,
 3. is a Valuation Obligation (other than a Loan) determined in accordance with sub-paragraph (a) of the definition of “Valuation Obligation”; or if no such Obligation is available,
 4. is a Loan (other than a Private-side Loan) which constitutes a Valuation Obligation determined in accordance with sub-paragraph (a) of the definition of “Valuation Obligation”.
- (iv) If more than one potential Substitute Reference Obligation is identified pursuant to the process described in sub-paragraph (iii) of this Credit Linked Condition 18(b) (*Substitute Reference Obligation*), the Substitute Reference Obligation will be the potential Substitute Reference Obligation that most closely preserves the economic equivalent of the delivery and payment obligations of the Issuer under the relevant Series, as determined by the Calculation Agent. The Calculation Agent will (if a Substitute Reference Obligation has not been identified) notify the Agent of a Substitute Reference Obligation as soon as reasonably practicable after it has been identified in accordance with sub-paragraph (iii) of this Credit Linked Condition 18(b) (*Substitute Reference Obligation*) and the Substitute Reference Obligation shall replace the Non-Standard Reference Obligation immediately upon such notification.
- (v) If a Substitution Event has occurred with respect to the Non-Standard Reference Obligation and the Calculation Agent determines that no Substitute Reference Obligation is available for the Non-Standard Reference Obligation then, subject to sub-paragraph (i) of this Credit Linked Condition 18(b) (*Substitute Reference Obligation*) and notwithstanding the fact that the Non-Standard Reference Obligation may have ceased to be the Reference Obligation in accordance with sub-paragraph (ii) of this Credit Linked Condition 18(b) (*Substitute Reference Obligation*), the Calculation Agent may continue to attempt to identify the Substitute Reference Obligation.

(c) *Reference Obligation Only Series*

- (i) If the event set out in sub-paragraph (a) of the definition of “Substitution Event” occurs with respect to the Reference Obligation in a Series of Notes in respect of a Reference Entity to which “Reference Obligation Only” applies, and such Reference Obligation is the only Reference Obligation for such Reference Entity, the Applicable Proportion of the Notes shall be redeemed at the fair market value of the Applicable Proportion of the Notes determined by the Issuer as at the Substitution Event Date and adjusted to take into account any Unwind Costs, if applicable. The Issuer shall deliver, or cause the Agent to deliver, a notice in accordance with Credit Linked Condition 20 (*Notices*) to the Noteholders stating the occurrence of such Substitution Event and setting out the Redemption Date in respect thereof, which shall be a date not earlier than the relevant Substitution Event Date.
- (ii) Notwithstanding the definition of “Substitute Reference Obligation” (a) no Substitute Reference Obligation shall be determined in respect of the Reference Obligation for a Reference Entity to which “Reference Obligation Only” applies, and (b) if the events set out in sub-paragraph (b) or (c) of the definition of “Substitution Event” occur with respect to the Reference Obligation to which “Reference Obligation Only” applies, such Reference Obligation shall continue to be the Reference Obligation.

(d) *DC Substitute Reference Obligation Resolution*

Notwithstanding the provision of Credit Linked Condition 18(b) (*Substitute Reference Obligation*), the Calculation Agent may, but shall not be obliged to, select as the Substitute Reference Obligation for a Series of Notes an Obligation of the relevant Reference Entity which is determined by DC Resolution to be the Substitute Reference Obligation to a Non-Standard Reference Obligation.

19 Calculation Agent Determination

- (a) The Calculation Agent is responsible for, *inter alia*:
 - (i) determining a Successor or Successors and making any other determinations required to be made under Credit Linked Condition 16 (*Successor Provisions*);
 - (ii) determining whether (A) the aggregate amounts due under any Reference Obligation have been materially reduced by redemption or otherwise (other than due to any scheduled redemption, amortisation or prepayments) (B) any Reference Obligation is an Underlying Obligation with a Qualifying Guarantee of a Reference Entity and, other than due to the existence or occurrence of a Credit Event, the Qualifying Guarantee is no longer a valid and binding Obligation of such Reference Entity enforceable in accordance with its terms, or (C) for any reason other than as described in (A) or (B) above and other than due to the existence or occurrence of a Credit Event, any Reference Obligation is no longer an Obligation of a Reference Entity;

In certain circumstances, the Calculation Agent shall be required to follow the decisions or determinations of a Credit Derivatives Determinations Committee or determinations made by the Calculation Agent may be overridden by subsequent determinations made by a Credit Derivatives Determinations Committee.

(a) *Notices required to be delivered*

The Issuer shall deliver, or may cause the Agent to deliver, notice to the Noteholders of the following, in accordance with Credit Linked Condition 20 (*Notices*), to the extent required to be delivered pursuant to the terms of the Credit Linked Notes:

- (c) third, by determining the Quantum of the Claim, which shall then constitute the Outstanding Principal Balance, in each case, determined: (i) unless otherwise specified, in accordance with the terms of the obligation in effect on the Valuation Date; and (ii) with respect to the Quantum of the Claim only, in accordance with any applicable laws (insofar as such laws reduce or discount the size of the claim to reflect the original issue price or accrued value of the obligation).

- (3) “**Consent Required Loan**” means a Loan that is capable of being assigned or novated with the consent of the Reference Entity or the guarantor, if any, of such Loan (or the consent of the relevant borrower if the Reference Entity is guaranteeing such Loan) or any agent;
- (4) “**Direct Loan Participation**” means a Loan in respect of which, pursuant to a participation agreement, Issuer is capable of creating, or procuring the creation of, a contractual right in favour of each Noteholder that provides each Noteholder with recourse to the participation seller for a specified share in any payments due under the relevant Loan which are received by such participation seller, any such agreement to be entered into between each Noteholder and either (A) the Issuer (to the extent the Issuer is then a lender or a member of the relevant lending syndicate), or (B) any lender or member of the relevant lending syndicate nominated by the Issuer or the Calculation Agent;

“**Valuation Time**” means the time specified as such in the relevant Final Terms or, if no such time is specified, the time determined by the Calculation Agent, which shall be as close as reasonably practicable to 11:00 a.m. London time, unless the Calculation Agent determines that the principal market valuing the Reference Obligation would be closed at such time or such transactions are not being conducted in sufficient volume (as determined by the Calculation Agent in its discretion, acting in a commercially reasonable manner) at such time, in which event the Valuation Time shall be such other time as may be specified by the Calculation Agent that such principal market is open.

“**Voting Shares**” means the shares or other interests that have the power to elect the board of directors or similar governing body of an entity.

“**Weighted Average Quotation**” means, in accordance with the Quotation Method, the weighted average of firm quotations obtained from Quotation Dealers at the Valuation Time, to the extent reasonably practicable, each for an amount of the Reference Obligation with an Outstanding Principal Balance or Due and Payable Amount, as applicable, of as large a size as available but less than the Quotation Amount (but of a size at least equal to the Minimum Quotation Amount) that in aggregate are approximately equal to the Quotation Amount.

“**Weighting**” means in respect of a Reference Entity, the weighting specified for such Reference Entity in the relevant Final Terms.

22 Interpretation of Obligation Characteristics and Valuation Obligation Characteristics

- (a) If either of the Obligation Characteristics “Listed” or “Not Domestic Issuance” is specified in the relevant Final Terms, the relevant Final Terms shall be construed as though the relevant Obligation Characteristic had been specified as an Obligation Characteristic only with respect to Bonds;
- (b) If (i) either of the Valuation Obligation Characteristics “Listed”, “Not Domestic Issuance” or “Not Bearer” is specified in the relevant Final Terms, the relevant Final Terms shall be construed as though such Valuation Obligation Characteristic had been specified as a Valuation Obligation Characteristic only with respect to Bonds; (ii) the Valuation Obligation Characteristic “Transferable” is specified in the relevant Final Terms, such Final Terms shall be construed as though such Valuation Obligation Characteristic had been specified as a Valuation Obligation Characteristic only with respect to Valuation Obligations that are not Loans; or (iii) any of the Valuation Obligation Characteristics “Assignable Loan”, “Consent Required Loan” or “Direct Loan Participation” is specified in the relevant Final Terms, such Final Terms shall be construed as though such Valuation Obligation Characteristic had been specified as a Valuation Obligation Characteristic only with respect to Loans; and
- (c) If more than one of “Assignable Loan”, “Consent Required Loan” and “Direct Loan Participation” are specified as Valuation Obligation Characteristics in the relevant Final Terms, the Valuation Obligations may include any Loan that satisfies any one of such Valuation Obligation Characteristics specified and need not satisfy all such Valuation Obligation Characteristics.
- (d) If an Obligation or a Valuation Obligation is a Relevant Guarantee, the following will apply:
 - (i) For the purposes of the application of the Obligation Category or the Valuation Obligation Category, the Relevant Guarantee shall be deemed to satisfy the same category or categories as those that describe the Underlying Obligation;
 - (ii) For the purposes of the application of the Obligation Characteristics or the Valuation Obligation Characteristics, both the Relevant Guarantee and the Underlying Obligation must satisfy on the relevant date or dates each of the applicable Obligation Characteristics or Valuation Obligation Characteristics, if any, specified in the relevant Final Terms from the following list: “Not Subordinated”, “Specified Currency”, “Not Sovereign Lender”, “Not Domestic Currency” and “Not Domestic Law”.
 - (iii) For the purposes of the application of the Obligation Characteristics or the Valuation Obligation Characteristics, only the Underlying Obligation must satisfy on the relevant date or dates each of the applicable Obligation Characteristics or the Valuation Obligation Characteristics, if any, specified in the relevant Final Terms from the following list: “Listed”, “Not Domestic Issuance”, “Assignable Loan”, “Consent Required Loan”, “Direct Loan Participation”, “Transferable”, “Maximum Maturity”, “Accelerated” or “Matured” and “Not Bearer”; and
 - (iv) For the purposes of the application of the Obligation Characteristics or the Valuation Obligation Characteristics to an Underlying Obligation, references to the Reference Entity shall be deemed to refer to the Underlying Obligor.
- (e) For purposes of the application of the Valuation Obligation Characteristic “Maximum Maturity”, remaining maturity shall be determined on the basis of the terms of the Valuation Obligation in effect at

the time of making such determination and, in the case of a Valuation Obligation that is due and payable, the remaining maturity shall be zero.

- (f) If “Financial Reference Entity Terms” and “Governmental Intervention” are specified as applicable in the relevant Final Terms, if an obligation would otherwise satisfy a particular Obligation Characteristic or Valuation Obligation Characteristic, the existence of any terms in the relevant obligation in effect at the time of making the determination which permit the Reference Entity’s obligations to be altered, discharged, released or suspended in circumstances which would constitute a Governmental Intervention, shall not cause such obligation to fail to satisfy such Obligation Characteristic or Valuation Obligation Characteristic.
- (g) For purposes of determining the applicability of Valuation Obligation Characteristics and the requirements specified in sub-paragraph (a) of the definition of “Mod R” and sub-paragraph (a) of the definition of “Mod Mod R” to a Prior Deliverable Obligation or a Package Observable Bond, any such determination shall be made by reference to the terms of the Relevant Obligation in effect immediately prior to the Asset Package Credit Event.
- (h) If “Subordinated European Insurance Terms” is specified as applicable in the relevant Final Terms, if an obligation would otherwise satisfy the “Maximum Maturity” Valuation Obligation Characteristic, the existence of any Solvency Capital Provisions in such obligation shall not cause it to fail to satisfy such Valuation Obligation Characteristic.

23 CoCo Supplementary Provisions

If “CoCo Supplementary Provisions” is specified as applicable in the relevant Final Terms, the following provisions will apply:

- (a) A CoCo Provision shall be deemed to be a provision which permits a Governmental Intervention for all purposes under these Credit Linked Conditions.
- (b) If, with respect to one or more Obligations and in relation to an aggregate amount of not less than the Default Requirement, the operation of one or more CoCo Provisions results in (i) a permanent or temporary reduction of the amount of principal payable at redemption or (ii) a conversion of principal into shares or another instrument, such event shall be deemed to constitute a Governmental Intervention falling within sub-paragraph (a) of the definition of “Governmental Intervention”.
- (c) For the purposes of this Credit Linked Condition 23 (*CoCo Supplementary Provisions*):

“**CoCo Provision**” means, with respect to an Obligation, a provision which requires (i) a permanent or temporary reduction of the amount of principal payable at redemption or (ii) a conversion of principal into shares or another instrument, in each case, if the Capital Ratio is at or below the Trigger Percentage;

“**Trigger Percentage**” means the trigger percentage specified in the relevant Final Terms (or if no such trigger percentage is specified, 5.25 per cent.); and

“**Capital Ratio**” means the ratio of capital to risk weighted assets applicable to the Obligation, as described in the terms thereof in effect from time to time.

For the avoidance of doubt, the operation of one or more CoCo Provisions shall not result in delivery of the Valuation Obligation to Noteholders.

USE OF PROCEEDS

This section explains what the net proceeds from the sale of the Notes issued under the Programme will be used for.

The net proceeds from each issue of Notes will be applied by the Issuer to assist the financing of the activities of the Guarantor or its Affiliates to the extent permitted by applicable law.

If in respect of any particular issue of Notes, there is a particular identified use of proceeds, this will be stated in the applicable Final Terms.

In particular, the Issuer may issue Notes where the applicable Final Terms specify that an amount equivalent to the net proceeds will specifically be applied for loans, assets, projects and activities of the KBC Bank Group that promote climate-friendly and other environmental or sustainable purposes (“**Green Bond Eligible Assets**”). The Issuer will on-lend the net proceeds to the Guarantor in order for the Guarantor to finance and/or refinance the relevant Green Bond Eligible Assets.

WHEREAS:

- (A) KBC IFIMA S.A., a public limited liability company (*société anonyme*) incorporated under the laws of the Grand Duchy of Luxembourg, with registered office at 4 rue du Fort Wallis, L-2714 Luxembourg, Grand Duchy of Luxembourg and registered with the trade and companies register (RCS Luxembourg) under number B193577 (the “**Issuer**”) and the Guarantor have entered into a Programme Agreement pursuant to which the Issuer may from time to time issue Notes with a denomination of at least EUR 1,000 (or the equivalent in other currencies) (the “**Programme Agreement**”, which expression includes the same as it may be amended, supplemented or restated from time to time) dated 19 January 2022 with the Dealers named therein under which the Issuer proposes from time to time to issue Notes (the “**Notes**”, such expression to include each Definitive Note issued by the Issuer and each Global Note issued by the Issuer).

- (C) The Issuer has executed a Deed of Covenant on 19 January 2022 (the “**Deed of Covenant**”, which expression includes the same as it may be amended, supplemented or restated from time to time) relating to Global Notes issued by the Issuer pursuant to the Programme Agreement.
- (D) The Issuer and the Guarantor have entered into an Agency Agreement (the “**Agency Agreement**”, which expression includes the same as it may be amended, supplemented or restated from time to time) dated 19 January 2022 with Banque Internationale à Luxembourg S.A. - (E) Terms defined in the Conditions of the Notes (the “**Conditions**”), the Programme Agreement, the Agency Agreement and/or the Deed of Covenant and not otherwise defined in this Deed of Guarantee shall have the same meanings when used in this Deed of Guarantee.

NOW THIS DEED WITNESSES as follows:

1. GUARANTEE

- (A) Subject as set out in Clause 6 (*Status of Guarantee*), the Guarantor hereby unconditionally and irrevocably guarantees by way of deed poll to each Holder (i) all sums payable by the Issuer to such Holder or (ii) performance of any delivery obligation owed by the Issuer to such Holder, in each case in

respect of any Note or any Coupon relating thereto or under the Deed of Covenant in respect thereof, as the case may be, (including any premium or any other amounts of whatever nature or additional amounts which may become payable under any of the foregoing) when and as the same shall become due and payable in accordance with the terms thereof. In case of the failure of the Issuer punctually (x) in the case of (i) above, to make any such payment, the Guarantor hereby undertakes to cause such payment to be made punctually when and as the same shall become due and payable and (y) in the case of (ii) above, to perform or procure the performance of any delivery obligation, the Guarantor hereby undertakes to cause such performance or the procurement of such performance to occur punctually when and as the same shall become due to be performed, in each case whether at maturity, upon redemption by acceleration of maturity or otherwise, as if such payment or delivery, as the case may be, were made or performed by the Issuer in accordance with the terms thereof. The Guarantor hereby waives any requirement that any Holder, in the event of any default of such payment or delivery as the case may be by the Issuer, first makes demand upon or seeks to enforce remedies against the Issuer before seeking to enforce this Guarantee; agrees that its obligations under this Guarantee shall be unconditional and irrevocable irrespective of the validity, regularity or enforceability of such Notes or of such Coupons or of the Deed of Covenant in respect thereof, the absence of any action to enforce the same, any waiver or consent by any Holder with respect to any provisions thereof, the recovery of any judgment against the Issuer or any action to enforce the same, any consolidation, merger, conveyance or transfer by the Issuer or any other circumstance which might otherwise constitute a legal or equitable discharge or defence of a guarantor; and covenants that this Guarantee will not be discharged except by complete performance of the obligations contained in such Notes, such Coupons, the Deed of Covenant and this Guarantee.

- (B) For so long as any of the Notes is represented by a Global Note held on behalf of Euroclear Bank SA/NV (“**Euroclear**”) and/or Clearstream Banking S.A. (“**Clearstream, Luxembourg**”) each person (other than Euroclear or Clearstream, Luxembourg) who is for the time being shown in the records of Euroclear or Clearstream, Luxembourg as the holder of a particular nominal amount of such Notes (each an “**Accountholder**”) (in which regard any certificate or other document issued by Euroclear or Clearstream, Luxembourg as to the nominal amount of such Notes standing to the account of any person shall be conclusive and binding for all purposes save in the case of manifest error) shall be treated by the Guarantor as the holder of such nominal amount of such Notes for all purposes other than with respect to the payment of principal or interest on the Notes, for which purpose the bearer of the relevant Global Note shall be treated by the Guarantor as the holder of such Notes in accordance with and subject to the terms of the relevant Global Note.

References to Euroclear and/or Clearstream, Luxembourg shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system approved by the Issuer and the Agent.

The Guarantor covenants in favour of each Accountholder that it will (i) make all payments (if any) under this Guarantee in respect of the principal amount of Notes for the time being shown in the records of Euroclear and/or Clearstream, Luxembourg as being held by the Accountholder and represented by a Global Note to the holder of the Global Note and (ii) perform or procure the performance of all delivery obligations (if any) in accordance with the Conditions, in each case, in accordance with the terms of this Guarantee and acknowledges that each Accountholder may take proceedings to enforce this covenant and any of the other rights which it has under this Guarantee directly against the Guarantor.

2. THE GUARANTOR AS PRINCIPAL DEBTOR

Without affecting the Issuer’s obligations, the Guarantor will be liable under this Guarantee as if it were the sole principal debtor and not merely a surety. Accordingly, it will not be discharged, nor will its liability be

affected, by anything which would not discharge it or affect its liability if it were the sole principal debtor (including (a) any time, indulgence, waiver or consent at any time given to the Issuer or any other person, (b) any amendment to any Note, any Coupon or the Deed of Covenant or to any security or other guarantee or indemnity, (c) the making or absence of any demand on the Issuer or any other person for payment, (d) the enforcement or absence of enforcement of any Note, any Coupon, the Deed of Covenant or of any security or other guarantee or indemnity, (e) the release of any such security, guarantee or indemnity, (f) the dissolution, amalgamation, reconstruction or reorganisation of the Issuer or any other person or (g) the illegality, invalidity or unenforceability of or any defect in any provision of any Note, any Coupon or the Deed of Covenant or any of the Issuer's obligations under any of them).

3. THE GUARANTOR'S OBLIGATIONS CONTINUING

The Guarantor's obligations under this Guarantee are and will remain in full force and effect by way of continuing security until no sum remains payable or delivery obligation in respect of any Note, any Coupon or the Deed of Covenant remains owing. Furthermore, these obligations of the Guarantor are additional to, and not instead of, any security or other guarantee or indemnity at any time existing in favour of a Holder, whether from the Guarantor or otherwise. The Guarantor irrevocably waives all notices and demands whatsoever.

4. REPAYMENT TO THE ISSUER

If any payment or other consideration received by a Holder is, on the subsequent liquidation or insolvency of the Issuer, avoided under any laws relating to liquidation or insolvency, such payment or other consideration will not be considered as having discharged or diminished the liability of the Guarantor and this Guarantee will continue to apply as if such payment or other consideration had at all times remained owing by the Issuer.

5. INDEMNITY

As a separate and alternative stipulation, the Guarantor unconditionally and irrevocably agrees that any sum expressed to be payable or delivery obligation expressed to be owed by the Issuer under any Note, any Coupon or the Deed of Covenant but which is for any reason (whether or not now known or becoming known to the Issuer, the Guarantor or any Holder) not recoverable from the Guarantor on the basis of a guarantee will nevertheless be recoverable from it as if it were the sole principal debtor and will be paid by it to the Holder or otherwise delivered by it on demand. This indemnity constitutes a separate and independent obligation from the other obligations in this Guarantee, gives rise to a separate and independent cause of action and will apply irrespective of any indulgence granted by any Holder.

6. STATUS OF GUARANTEE

The obligations of the Guarantor under this Guarantee in respect of the Notes constitute direct, unconditional, unsecured and unsubordinated obligations of the Guarantor and rank and will rank *pari passu* with all present and future unsecured and unsubordinated obligations of the Guarantor, without any preference among themselves and *pari passu* without any preference one above the other by reason of priority of date of issue, currency of payment or otherwise, except for obligations given priority by law.

7. WITHHOLDING OR REDUCTION

If Condition 12(a) is specified as applicable in the applicable Final Terms, all payments by the Guarantor under this Guarantee will be made without withholding or deduction for or on account of any present or future taxes, duties, assessments or other charges of whatever nature imposed, levied or collected by or on behalf of any Tax Jurisdiction, or any political subdivision or any authority thereof or therein having power to tax, unless such

withholding or deduction is required by law. In such event, the Guarantor will pay such additional amounts as shall be necessary in order that the net amounts received by the relevant Holders after such withholding or deduction shall equal the respective amounts of principal and interest which would otherwise have been receivable in the absence of such withholding or deduction; except that no such additional amounts shall be payable with respect to any Note, Coupon or Underlying Note (as defined in the Deed of Covenant):

- (i) to, or to a third party on behalf of, a Holder who is liable for such taxes, duties, assessments or other charges in respect of such Note, Coupon or Underlying Note by reason of such Holder having some connection with any Tax Jurisdiction (including, for the avoidance of doubt receiving payments in relation to the Note or Coupon by or through a paying agent established in any Tax Jurisdiction) other than the mere holding of such Note, Coupon or Underlying Note; or
- (ii) presented for payment in any Tax Jurisdiction; or
- (iii) to, or to a third party on behalf of, a Holder who would be able to avoid such withholding or deduction by making a declaration of non-residence or similar claim for exemption but fails to do so; or
- (iv) if demand for payment is made more than 30 days after the Relevant Date (as defined in Condition 12(a)) except to the extent that the Holder would have been entitled to such additional amount on presenting the same for payment on such thirtieth day; or
- (v) to, or to a third party on behalf of, a Relevant Account Holder who would have been able to avoid such withholding or deduction by presenting the Note, Coupon or Underlying Note to another Paying Agent in a Member State of the European Union; or
- (vi) where such deduction or withholding is imposed or required pursuant to Sections 1471 through 1474 of the U.S. Internal Revenue Code (the “Code”), as amended, any current or future regulations or official interpretations thereof, any agreement entered into pursuant to Section 1471(b) of the Code, or any fiscal or regulatory legislation, rules or practices adopted pursuant to any intergovernmental agreement entered into in connection with the implementation of such Sections of the Code (or any law implementing such an intergovernmental agreement).

8. POWER TO EXECUTE

The Guarantor hereby warrants, represents and covenants with each Holder and Accountholder that it has all power, that it has obtained all necessary governmental consents and authorisations, and that it has taken all necessary steps, in each case to enable it to execute, deliver and perform this Guarantee and that this Guarantee constitutes legal, valid and binding obligations of the Guarantor in accordance with its terms.

9. DEPOSIT OF GUARANTEE

This Guarantee shall take effect as a deed poll for the benefit of the Holders and Accountholders from time to time and for the time being. This Guarantee shall be deposited with and held by Banque Internationale à Luxembourg S.A. as Agent until all the obligations of the Guarantor have been discharged in full.

10. PRODUCTION OF GUARANTEE

The Guarantor hereby acknowledges the right of every Holder and Accountholder to the production of, and the right of every Holder and Accountholder to obtain (upon payment of a reasonable charge) a copy of, this Guarantee, and further acknowledges and covenants that the obligations binding upon it contained herein are

owed to, and shall be for the account of, each and every Holder and Accountholder, and that each Holder and Accountholder shall be entitled severally to enforce the said obligations against the Guarantor.

11. SUBROGATION

Until all amounts which may be payable under the Notes, the Coupons and/or the Deed of Covenant have been irrevocably paid in full and all delivery obligations of the Issuer thereunder have been performed in full, the Guarantor shall not by virtue of this Guarantee be subrogated to any rights of any Holder or claim in competition with the Holders against the Issuer.

12. CONTRACTS (RIGHTS OF THIRD PARTIES) ACT 1999

No rights are conferred on any person under the Contracts (Rights of Third Parties) Act 1999 to enforce any term of this Guarantee, but this does not affect any right or remedy of any person which exists or is available apart from that Act.

13. GOVERNING LAW AND JURISDICTION

- (A) This Guarantee (and any non-contractual obligations arising out of or in connection with this Guarantee), except Clause 6 (*Status of Guarantee*), shall be governed by, and construed in accordance with, English law. Clause 6 of this Guarantee (*Status of Guarantee*) (and any non-contractual obligations arising out of or in connection with Clause 6 (*Status of Guarantee*)) shall be governed by, and construed in accordance with, Belgian law.
- (B) Subject to (D) below, the English courts shall have non-exclusive jurisdiction to settle all disputes which may, directly or indirectly, arise out of or in connection with this Guarantee (including, in each case, any dispute relating to any non-contractual obligations arising therefrom or in connection therewith) (a “**Dispute**”) and the Guarantor submits and each of the Holders and Accountholders (by its acquisition of a Note) is deemed to submit to the non-exclusive jurisdiction of the English courts. For the purposes of this Clause, the Guarantor waives and each of the Holders and Accountholders (by its acquisition of a Note) is deemed to waive any objection to the English courts on the grounds that they are an inconvenient or inappropriate forum to settle any Dispute.
- (C) The Guarantor appoints its London branch at 111 Old Broad Street, London EC2N 1BR, England as its agent in England for service of process in any proceedings in England relating to the Guarantee and the Guarantor undertakes that, in the event of its London branch ceasing so to act or ceasing to be registered in England, it will appoint another person as its agent for service of process in England in respect of any Dispute in England. Nothing herein shall affect the right to serve proceedings in any other manner permitted by law.
- (D) To the extent that any proceedings in respect of the Guarantee involve consumers (as such term is used in Regulation (EU) No 1215/2012 of the European Parliament and of the Council of 12 December 2012 on jurisdiction and the recognition and enforcement of judgments in civil and commercial matters (the “**Brussels Recast Regulation**”), notwithstanding Clause 13(B), the Guarantor will be required to, and such consumers may, in respect of any Dispute in respect of the Guarantee, take proceedings in the jurisdictions specified in Article 18 of the Brussels Recast Regulation.

14. CONTRACTUAL RECOGNITION OF BAIL-IN

- (A) Notwithstanding and to the exclusion of any other term of this Deed or any other agreements, arrangements or understandings among the Guarantor, the Holder and the Accountholders, each Holder and Accountholder acknowledges and accepts that any liability arising under this Deed may be subject to the exercise of Bail-in Powers by the Relevant Resolution Authority, and acknowledges, accepts, acknowledge and agrees to be bound by:
- (a) the effect of the exercise of the Bail-in Powers by the Relevant Resolution Authority in relation to any liability of the Guarantor to any Holder and Accountholder under this Deed, that may include and result in any of the following, or some combination thereof:
 - (1) the reduction on a permanent basis of all, or a portion, of the Amounts Due;
 - (2) the conversion of all, or a portion, of the Amounts Due into ordinary shares, other instruments of ownership, other securities or obligations of the Guarantor or another person, and the issue to or conferral on the Holder and Accountholder of such ordinary shares, instruments of ownership, other securities or obligations, including by means of an amendment, modification or variation of the terms of such liability, in which case the relevant Holder and Accountholder agrees to accept in lieu of its rights under such liability any such ordinary shares, other instruments of ownership, other securities or obligations of the Guarantor or another person;;
 - (3) the cancellation of such liability; and/or
 - (4) the amendment or alteration of the expiration of such liability, amendment of amount(s) payable in respect of such liability or the date(s) on which any payment(s) are due, including by suspending payment for a temporary period; and
 - (b) the variation of the terms of this Deed, as deemed necessary by the Relevant Resolution Authority, to give effect to the exercise of Bail-in Powers by the Relevant Resolution Authority.
- (B) Any delay or failure by the Guarantor to notify the Holders and the Accountholders of the exercise of the Bail-in Power by the Relevant Resolution Authority shall not affect the validity and enforceability of the Bail-In Powers nor the effects on the Notes described in Clause 14(A) above. None of the cancellation of any liability of the Guarantor to any Holder and Accountholder under this Deed a reduction, in part or in full, of the Amounts Due, the conversion thereof into ordinary shares, other instruments of ownership, other securities or obligations of the Guarantor or another person, as a result of the exercise of the Bail-in Power by the Relevant Resolution Authority with respect to the Guarantor, nor the exercise of any Bail-in Power by the Relevant Resolution Authority with respect to this Deed will be an event of default or otherwise constitute non-performance of a contractual obligation, or entitle the Holders and Accountholders to any remedies (including equitable remedies), which are hereby expressly waived. The terms and conditions of this Guarantee shall continue to apply in relation to the residual amount of, or outstanding amount payable, in respect of the Guarantee, subject to any modification or reduction of the amount payable under the Guarantee to reflect the reduction of the amounts payable under the Guarantee, and any further modification of the terms that the Relevant Resolution Authority may decide in accordance with applicable laws and regulations.
- (C) For the purpose of this clause 14, the following definitions shall apply:

“**Amounts Due**” means any amount payable under the terms and conditions of this Guarantee. References to such amounts will include amounts that have become due and payable, but which have not been paid, prior to the exercise of any Bail-in Power by the Relevant Resolution Authority.

Litigation

In June 2012, the Issuer and the Guarantor were summoned to appear before the court in Brussels on foot of a claim brought on behalf of former bondholders. The claim amounting to EUR 1,306,137 relates to losses incurred by the investors on early redemption of the bonds held by them. The lawsuit is being contested by the Issuer and the Guarantor. Based on the information available to the directors, they are of the opinion that it is unlikely the company will suffer a loss and therefore no provision has been made in the accounts for this. After many changes in the timeline, the judgment has been interrupted due to the decease of two litigants and the fact that there was no regularisation. In March 2017, the Issuer received a formal notice of default from WATT Legal to indemnify 104 clients for an amount of EUR 1,150,585.46, a non-payment triggering a new proceeding or an extension of the existing one. The above is the most recently available information on this matter as at the date of this Base Prospectus.

Except for the above mentioned litigation, the Issuer is not involved in any governmental, legal or arbitration proceedings (including any proceedings which are pending or threatened of which the Issuer is aware) which may have or have had in the twelve months preceding the date of this Base Prospectus a significant effect on the financial position or profitability of the Issuer.

Credit ratings

As at the date of this Base Prospectus, the following long term credit ratings have been assigned to the Guarantor with the cooperation of the Guarantor in the rating process:

Fitch Ratings Ireland Limited ("**Fitch**") – A+

According to Fitch's Rating Definitions, an "A" rating indicates high credit quality. "A" ratings denote expectations of low default risk. The capacity for payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable to adverse business or economic conditions

than is the case for higher ratings. The modifiers “+” or “-” may be appended to a rating to denote relative status within major rating categories.

Moody’s France SAS (“**Moody’s**”) – A2

According to Moody’s Rating Symbols and Definitions, obligations rated A are considered upper-medium grade and are subject to low credit risk. The modifier 2 indicates that the obligation ranks in the mid-range of its generic rating category.

S&P Global Ratings Europe Limited (“**Standard and Poor’s**”) – A+

According to Standard and Poor’s Global Ratings Definitions, an obligor rated “A” has strong capacity to meet its financial commitments but is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligors in higher-rated categories. The addition of a plus (+) or minus (-) sign shows relative standing within the rating categories.

More information regarding the Guarantor’s long term credit ratings can be found in the latest credit opinion from the relevant credit rating agencies, available at <https://www.kbc.com/en/credit-ratings> and in the applicable rating methodologies published by the relevant credit rating agencies. None of that website, those credit opinions or those rating methodologies are incorporated by reference in or form part of this Base Prospectus, and they have not been scrutinised or approved by the CSSF.

A credit rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency. The Guarantor does not represent that it will maintain any level of credit rating, or any credit rating at all, with any credit rating agency.

These credit ratings relate to the Guarantor’s financial obligations generally and not to any specific financial obligation such as the Notes or any Series thereof.

Each credit rating agency referred to above is established in the EEA and is listed on the “List of Registered and Certified CRAs” as published by ESMA on its website (at <http://www.esma.europa.eu/page/List-registered-and-certified-CRAs>) in accordance with Article 18(3) of Regulation (EC) No. 1060/2009 on credit rating agencies (the “**CRA Regulation**”). If an issue-specific credit rating is specified in the applicable Final Terms, then those Final Terms will also specify whether that credit rating is (1) issued by a credit rating agency established in the EEA and registered under the CRA Regulation, or (2) issued by a credit rating agency which is not established in the EEA but will be endorsed by a credit rating agency which is established in the EEA and registered under the CRA Regulation or (3) issued by a credit rating agency which is not established in the EEA but which is certified under the CRA Regulation. None of the credit rating agencies referred to above is established in the UK in accordance with Regulation (EC) No. 1060/2009 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (the “**UK CRA Regulation**”). Accordingly the Guarantor rating issued by (i) Fitch has been endorsed by Fitch Ratings Ltd, (ii) Moody’s has been endorsed by Moody’s Investors Service Limited and (iii) Standard and Poor’s has been in endorsed by S&P Global Ratings UK Limited, each in accordance with the UK CRA Regulation and have not been withdrawn. As such, the ratings issued by each credit rating agency referred to above may be used for regulatory purposes in the United Kingdom in accordance with the UK CRA Regulation.

The powers and composition of the Audit Committee, as well as its way of functioning, are extensively dealt with in the Corporate Governance Charter of the Guarantor which is published on www.kbc.com. The Corporate Governance Charter is not incorporated by reference and does not form part of this Base Prospectus, and it has not been scrutinised or approved by the CSSF.

The members of the Guarantor’s Audit Committee are:

- Marc Wittemans (chairman);
- Nabil Ariss (independent director); and
- Bo Magnusson (independent director).

Risk and compliance committee

The Risk and Compliance Committee has been set up by the Board of Directors and has an advisory role. The Risk and Compliance Committee, among other things, provides advice to the Board of Directors about the current and future risk appetite and risk strategy.

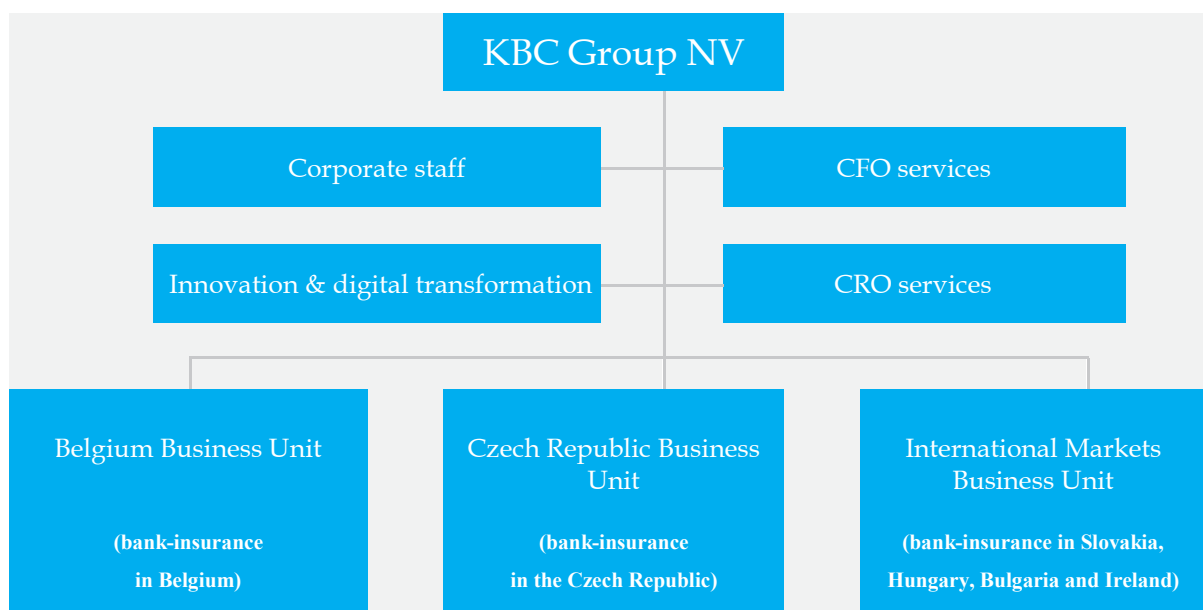

The powers and composition of the Risk and Compliance Committee, as well as its way of functioning, are extensively dealt with in the Guarantor's Corporate Governance Charter, which is available on www.kbc.com. The Corporate Governance Charter is not incorporated by reference and does not form part of this Base Prospectus, and it has not been scrutinised or approved by the CSSF.

The members of the Guarantor's Risk and Compliance Committee are:

- Franky Depickere (chairman);
- Nabil Ariss (independent director); and
- Bo Magnusson (independent director).

Management structure

KBC Group NV's strategic choices are fully reflected in the group structure, which consists, as at the date of this Base Prospectus, of a number of business units and support services and which are presented in simplified form as follows:

The management structure of both the KBC Group NV and the Guarantor essentially comprises:

- the three business units, which focus on local business and are expected to contribute to sustainable profit and growth:
 - Belgium Business Unit;
 - Czech Republic Business Unit; and
 - International Markets Business Unit: this encompasses the other core countries in Central and Eastern Europe (the Slovak Republic, Hungary and Bulgaria) and Ireland;

- the pillars ‘CRO Services’ and ‘CFO Services’ (which act as an internal regulator, and whose main role is to support the business units), ‘Corporate Staff’ (which is a competence centre for strategic know-how and best practices in corporate organisation and communication) and ‘Innovation and digital transformation’.

Each business unit is headed by a Chief Executive Officer (“CEO”), and these CEOs, together with the CEO, the Chief Risk Officer (“CRO”), the Chief Innovation Officer (“CIO”) and the Chief Financial Officer (“CFO”) constitute the executive committee.

Conflicts of interest

The Guarantor is not aware of any potential conflicts of interest between the duties to the Guarantor of the members of the Board of Directors detailed above and their private interests or other duties.

3 The Guarantor’s Business

The strategy of the KBC Group NV

The Guarantor’s strategy is fully embedded in the strategy of its parent company, KBC Group NV. A summary is given below of the strategy of KBC Group NV, where the Guarantor is essentially responsible for the banking business and KBC Insurance NV for the insurance business.

KBC Group NV’s strategy rests on a number of principles:

- “We place our clients at the centre of everything we do.
- We look to offer our clients a unique bank-insurance experience.
- We focus on our group’s long-term development and aim to achieve sustainable and profitable growth.
- We meet our responsibility to society and local economies.
- We build upon the PEARL-values (“Performance”, “Empowerment”, “Accountability”, “Responsiveness” and “Local Embeddedness”), also focussing on the joint development of solutions, initiatives and ideas within the group (for information on PEARL: see page 10 of the Guarantor’s 2020 Annual Report).”.

KBC Group NV implements its strategy within a strict risk, capital and liquidity management framework.

A summary of the Guarantor’s strategy is set out on pages 18 to 33 of the Guarantor’s 2020 Annual Report, which is incorporated by reference into this Base Prospectus as set out in the section entitled “*Documents Incorporated by Reference*” on pages 50 to 52 of this Base Prospectus.

More detailed information regarding KBC Group NV’s strategy can be found on pages 28 to 59 of KBC Group NV’s 2020 Annual Report, which is available at <https://www.kbc.com/content/dam/kbccom/doc/investor-relations/Results/jvs-2020/jvs-2020-grp-en.pdf>.

KBC Group NV’s 2020 Annual Report is not incorporated by reference into and does not form part of this Base Prospectus, and it has not been scrutinised or approved by the CSSF for purposes of this Base Prospectus.

General description of the Guarantor’s activities

The Guarantor is a multi-channel banking group that caters primarily to private persons, small and medium-sized enterprises (“SMEs”) and midcaps. Its geographic focus is on Europe. In its “home” (or “core”) markets (Belgium, the Czech Republic, the Slovak Republic, Hungary, Bulgaria and Ireland), the Guarantor

has important and (in some cases) even leading positions (based on internal data). The Guarantor is also present in other countries where the primary focus is on supporting the corporate clients of the home markets.

The Guarantor's core business is retail and private bank-insurance (including asset management), although it is also active in providing services to corporations and market activities. Across most of its home markets, the Guarantor is active in a large number of products and activities, ranging from the plain vanilla deposit, credit, asset management and insurance businesses (via the Guarantor's sister company, KBC Insurance NV) to specialised activities such as, but not exclusively, payments services, dealing room activities (money and debt market activities), brokerage and corporate finance, foreign trade finance, international cash management and leasing.

Activities in Belgium

Market share (estimates by the Guarantor), end of 2020	Banking products* 19% Investment funds 28%

* Average of the share in credits and the share in deposits.

The KBC Bank Group had, at the mid-2021, a network of 454 bank branches in Belgium: KBC Bank branches in Flanders, CBC Banque branches in Wallonia and KBC Brussels branches in the Brussels area. The branches focus on providing clients with a broad range of credit (including mortgage loans), deposit, investment fund and other asset management products, insurance products (in cooperation with the Guarantor's sister company, KBC Insurance NV) and other specialised financial banking products and services. The KBC Bank Group's bricks-and-mortar networks in Belgium are supplemented by electronic channels, such as ATMs, telephones and the internet (including a mobile banking app). KBC Bank, CBC Banque and KBC Brussels serve, based on their own estimates, approximately 3.4 million banking clients. Including insurance business, the number of clients rises to 3.7 million.

KBC Group NV considers itself to be an integrated bank-insurer. Certain shared and support services are organised at KBC Group NV level, serving the entire Group and not just the bank or insurance businesses separately. It is the Group's aim to continue to actively encourage the cross-selling of bank and insurance products. The success of the Group's integrated bank-insurance model is in part due to the cooperation that exists between the bank branches and the insurance agents of KBC Insurance NV and CBC Assurance, whereby the branches sell standard insurance products to retail customers and refer their customers to the insurance agents for non-standard products. Claims-handling is the responsibility of the insurance agents, the call centre and the head office departments at KBC Insurance NV.

At the end of 2020, the KBC Bank Group had, based on its own estimates (see table above), a 19% share of traditional banking activities in Belgium (the average of the share of the lending market and the deposit market). Over the past few years, the KBC Bank Group has built up a strong position in investment funds too, with an estimated market share of approximately 28%.

The KBC Bank Group believes in the power of a physical presence through a branch and agency network that is close to its clients. At the same time, however, it expects the importance of online and mobile bank-insurance to grow further and it is constantly developing new applications in these areas. That includes the various mobile banking apps for smartphones and tablets, which are being continuously improved and expanded.

With more and more customers opting for digital channels, the KBC Bank Group is gradually aligning its omni-channel distribution network with this changing customer behaviour. The KBC Bank Group is in the process of converting a number of smaller branches into unstaffed ones and closing some of the existing unstaffed branches in Flanders. At the same time, it continues to invest in its full-service branches, in KBC Live (an online contact service with specialists from KBC) and in its digital channels. The KBC Bank Group also optimised its group-wide governance model at management level and is in the process of further improving operational efficiency throughout the entire organisation in order to take customer service to an even higher level. This adaptation is essential in response to the new environment in which organisations are expected to be more agile, take decisions more quickly and thus continue to meet the expectations of customers and society. In this respect, in 2020 the Guarantor announced its updated strategy, 'Differently: the Next Level'. It means that the Group will make the interaction with its clients more future-proof and smarter (i.e. reinforced by artificial intelligence) and that it will evolve from an omni-channel distribution model towards a digital-first model. The human factor remains important and staff and branches will be fully at the disposal of clients. As is always the case, the client decides which distribution channel, digital or physical, is used to contact KBC. In a digital-first distribution model, digital interactions with clients will form the initial basis. The KBC Bank Group therefore aims over time to provide all relevant solutions via mobile applications. In addition to a digital product range, it will offer clients digital advice and develop all processes and products as if they were sold digitally.

In the KBC Bank Group's financial reporting, the Belgian activities are combined into a single Belgium Business Unit. The results of the Belgium Business Unit essentially comprise the activities of the Guarantor, and its Belgian subsidiaries, the most important of which are CBC Banque, KBC Asset Management, KBC Lease Group (Belgium) and KBC Securities.

The KBC Group's aim in Belgium is:

- To continue pursuing its strategy of putting the interests of the client at the heart of all the products and services it develops and at the centre of everything it does. The focus here is on a 'digital first' approach with a human touch, and on investing in the seamless integration of the various distribution channels. KBC Group is working on the further digitalisation of its banking, insurance and asset management services and exploiting new technologies and data to provide clients with more personalised and proactive solutions. Its digital assistant 'Kate', launched in November 2020, is taking this to the next level.
- To support these activities, the KBC Bank Group is also fully engaged in introducing end-to-end straight-through processing into all commercial processes, making full use of all technological capabilities such as artificial intelligence.
- To expand its service provision through own and other channels. The KBC Bank Group collaborates to this end with partners through 'eco-systems' that enable it to offer clients comprehensive solutions. It is also integrating a range of selected partners into its own mobile app and making products and services available in the distribution channels of selected third parties.
- To exploit the potential in Brussels more efficiently via the separate brand, KBC Brussels, which reflects the capital's specific cosmopolitan character and is designed to better meet the needs of the people living there.
- To grow bank-insurance further at CBC in specific market segments and to expand the presence and accessibility in Wallonia.
- To work on the ongoing optimisation of its bank-insurance model in Belgium.

- To continue pursuing its ambition to become the reference bank for SMEs and mid-cap enterprises in Belgium based on thorough knowledge of the client and its personal approach.
- To express its commitment to Belgian society by taking initiatives in areas including environmental awareness, financial literacy, entrepreneurship and population ageing. The KBC Bank Group also actively participates in the mobility debate and develops solutions.

Activities in Central and Eastern Europe

* Average of the share in credits and the share in deposits

In the Central and Eastern European region, the Guarantor focuses on four home countries, being the Czech Republic, the Slovak Republic, Hungary and Bulgaria. The main Central and Eastern European entities of the Guarantor in those home markets are United Bulgarian Bank in Bulgaria, ČSOB and OTP Banka Slovensko (acquired in 2020, see below) in the Slovak Republic, ČSOB in the Czech Republic, and K&H Bank in Hungary. At the end of November 2020, KBC Group completed the acquisition of 99.44% of the shares in OTP Banka Slovensko. This company operates in Slovakia, where it has a share of almost 2% in the market for deposits and loans. This acquisition has bolstered the KBC Group's share of the Slovakian market, where it was already operating through ČSOB.

In its four home countries, the Guarantor now caters to roughly 6 million customers, or 8 million including the insurance business (see below). This customer base makes the KBC Group one of the larger financial groups in the Central and Eastern European region.

The KBC Bank Group companies focus on providing clients with a broad range of credit (including mortgage loans), deposit, investment fund and other asset management products, insurance products and other specialised financial products and services. As is the case in Belgium, the bricks-and-mortar networks in Central and Eastern Europe are supplemented by electronic channels, such as ATMs, telephone and the internet. As regards the updated KBC Bank Group strategy, 'Differently: the Next Level', please refer to the previous section on "*Activities in Belgium*".

KBC Group's bank-insurance concept has, over the past few years, been exported to its Central and Eastern European entities. In order to be able to do so, KBC Group has built up a second home market in Central and Eastern Europe in insurance (via KBC Insurance NV). KBC Group has an insurance business in every Central and Eastern European home country: in the Czech Republic, the KBC Group's insurer is ČSOB Pojist'ovňa, in the Slovak Republic it is ČSOB Poist'ovňa, in Hungary it is K&H Insurance and in Bulgaria it is DZI Insurance. Contrary to the situation of KBC Bank Group in Belgium, the KBC Group's insurance companies in Central and Eastern Europe operate not only via tied agents (and bank branches) but also via other distribution channels, such as insurance brokers and multi-agents. Note that, at the end of July 2021, the Group also acquired from Nationale Nederlanden Group its Bulgarian pension and life insurance businesses, a move that will enable the KBC Group to further consolidate its position in the Bulgarian home market.

The KBC Bank Group's estimated market share (the average of the share of the lending market and the deposit market, see table above) amounted to 21% in the Czech Republic, 12% in the Slovak Republic, 11% in Hungary, and 10% in Bulgaria (rounded figures). The KBC Bank Group also has a strong position in the investment fund market in Central and Eastern Europe (estimated at 23% in the Czech Republic, 12% in the Slovak Republic, 13% in Hungary and 18% in Bulgaria).

In the KBC Bank Group's financial reporting, the Czech activities are separated in a single Czech Republic Business Unit, whereas the activities in the other Central and Eastern European countries, together with Ireland (see further below), are combined into the International Markets Business Unit. The Czech Republic Business Unit hence comprises all KBC Bank Group's activities in the Czech Republic, consisting primarily of the activities of the ČSOB group (under the ČSOB, Postal Savings Bank, Hypoteční banka, Patria and ČMSS brands (the latter is being rebranded into ČSOB Stavební spořitelna)) The International Markets Business Unit comprises the activities conducted by entities in the other (non-Czech) Central and Eastern European core countries, namely ČSOB and OTP Banka Slovensko in the Slovak Republic, K&H Bank in Hungary and UBB in Bulgaria, plus KBC Bank Ireland's Irish operations.

The focus of the KBC Bank Group in the future is the following:

- In relation to the Czech Republic Business Unit:
 - retaining its reference position in banking and insurance services by offering its retail, SME and mid-cap clients a hassle-free, no-frills client experience;
 - using data and AI to offer personalised solutions proactively to its clients, including via 'Kate', its personalised digital assistant;
 - continuing the further digitalisation of its services and to introduce new and innovative products and services, including open bank-insurance solutions aimed at boosting the financial well-being of its clients;
 - concentrating on rolling out straight through processing and further simplifying products, head office, distribution model and branding, in order to enable it to operate even more cost-effectively;
 - unlocking business potential through advanced use of data and digital lead management, to leverage its position as market leader in home finance and to focus even more strongly on growing the volume and profitability of its insurance offering;
 - strengthening its business culture and become more flexible, agile and diverse; and
 - expressing its social engagement by focusing on environmental awareness, financial literacy, entrepreneurship and an ageing population.
- In relation to the International Markets Business Unit (excluding Ireland):
 - the updated KBC Group strategy presents a number of challenges for all countries including the business unit, including:
 - developing new and unique 'bank-insurance+' propositions;
 - continuing to digitally upgrade their distribution model;
 - driving the volume of straight-through and scalable processing;

- increasing capacity in relation to data and AI to enable them to proactively offer relevant and personalised solutions;
 - selectively expanding activities with a view to securing a top-three position in banking and a top-four position in insurance; and
 - implementing a socially responsible approach in all countries, with a particular focus on environmental awareness, financial literacy, entrepreneurship and health.
- the updated KBC Group strategy presents the following country-specific challenges:
 - becoming the leader in the area of innovation in Hungary. KBC Group is aiming to raise profitability by targeting income through client acquisition in all banking segments and through more intensive cross-selling. It also aims to expand its insurance activities substantially, primarily through sales at bank branches and, for non-life insurance, via both online and traditional brokers.
 - maintaining robust growth in strategic products in Slovakia (i.e. home loans, consumer finance, SME funding, leasing and insurance), partly through cross-selling to group clients and via digital channels. Other priorities include the sale of funds and increased fee income.
 - focusing – as regards the banking business in Bulgaria – on increasing the Group’s share of the lending market in all segments, while applying a robust risk framework. The KBC Group’s insurer, DZI, is likewise maintaining its goal of growing faster than the market in both life and non-life insurance, via the KBC Bank NV and other channels.

An overview of the KBC Bank Group’s recent acquisitions is set out in the “We focus on sustainable and profitable growth” section of the Guarantor’s 2020 Annual Report, which is incorporated by reference into this Base Prospectus as set out in the section entitled “*Documents Incorporated by Reference*” on pages 50 to 52 of this Base Prospectus.

Activities in the rest of the world

A number of companies belonging to the KBC Bank Group are also active in, or have outlets in, countries outside the home markets, among which the Guarantor, which has a network of foreign branches and KBC Bank Ireland.

KBC Bank Ireland

The loan portfolio of KBC Bank Ireland plc stood at approximately EUR 10.5 billion as at the end of June 2021, almost entirely relating to mortgage loans. At the end of June 2021, approximately 13% (EUR 1.3 billion) of the total Irish loan portfolio was impaired (of which EUR 0.7 billion more than 90 days past due). For the impaired loans, approximately EUR 0.4 billion impairments have been booked. The Group estimates its share of the Irish retail market in 2020 at 8%. It caters to around 0.3 million clients there. KBC Bank Ireland has 12 branches (hubs) in Ireland, next to its digital channels. A full profit and loss scheme for Ireland is available in the Guarantor’s segment reporting (see page 128 of the Guarantor’s 2020 Annual Report which is incorporated by reference into this Base Prospectus as set out in the section entitled “*Documents Incorporated by Reference*”).

As regards the KBC Group’s strategy in Ireland, please refer to the section entitled “*KBC Group NV*” above. Specifically for Ireland, the focus is on providing an outstanding client experience in Ireland. The KBC Group aims to differentiate itself through the instant and proactive delivery of products and services and

through a high level of accessibility (including mobile and contact centre). It will further develop its strong position in home loans and is fully committed to bank-insurance (to which end it recently launched its own life insurance company in Ireland, through which it is offering a range of innovative digital pension products) and to providing asset management products.

In the KBC Bank Group's financial reporting, KBC Bank Ireland is included in the International Markets Business Unit.

KBC Bank Ireland has entered into a Memorandum of Understanding (“**MoU**”) with the Bank of Ireland, expressing the parties' intention to explore a route that could potentially lead to a transaction whereby the Bank of Ireland commits to acquire substantially all of KBC Bank Ireland's performing loan assets and liabilities. KBC Bank Ireland's remaining non-performing mortgage loan portfolio, which is not part of the MoU, was also analysed whereby KBC Group reviewed its options to divest this non-performing loan portfolio.

On 30 August 2021, KBC Bank Ireland confirmed it has reached an agreement to dispose of a non-performing mortgage loan portfolio of roughly 1.1 billion euros (including, private dwelling house and buy-to-let mortgages and a small number of non-mortgage non-performing loans) in a transaction financed by funds managed by CarVal Investors. More information is available in the press release dated 30 August 2021, published on www.kbc.com. This document is not incorporated by reference and does not form part of this Base Prospectus, and it has not been scrutinised or approved by the CSSF.

On 22 October 2021, KBC Bank Ireland confirmed that it had entered into a legally binding agreement with the Bank of Ireland relating to the sale of substantially all of KBC Bank Ireland's performing loan assets and its deposit book to Bank of Ireland Group. In addition, a small portfolio of non-performing mortgages will also be acquired as part of the transaction. The acquisition for a total consideration of c.EUR 5.0 billion (net of deposits), involves c.EUR 8.8 billion of performing mortgages, c.EUR 0.1 billion of mainly performing commercial and consumer loans, c.EUR 0.3 billion of non-performing mortgages and c.EUR 4.4 billion of deposits. The exact size of the portfolio and consideration payable will depend on movements in the portfolio up to completion, but is not expected to materially change. The transaction remains subject to regulatory, including Irish competition, approvals. More information on the transaction is contained in the press release dated 22 October 2021, published on www.kbc.com. This document is not incorporated by reference and does not form part of this Base Prospectus, and it has not been scrutinised or approved by the CSSF.

Execution of these two transactions would ultimately result in the KBC Group's withdrawal from the Irish market. Notwithstanding KBC Group's expected withdrawal from the Irish market, KBC Bank Ireland remains committed to offering its retail banking and insurance services of the highest level through its digital channels and hubs, for its existing and new customers.

Foreign branches of the Guarantor

The foreign branches of the Guarantor are located mainly in Western Europe, Southeast Asia and the U.S. and focus on serving customers that already do business with the Group's Belgian or Central and Eastern European network. In the past years, many of the other activities of these branches have been wound down, stopped or sold, and the international credit portfolio has been scaled down. In the KBC Bank Group's financial reporting, the foreign branches of the Guarantor are part of the Belgium Business Unit.

Group Centre

The three business units (Belgium, Czech Republic and International Markets) are supplemented by the group centre. The group centre includes, among other things, costs related to the holding of participations and the results of the remaining companies or activities earmarked for divestment or in run-down.

Competition

All of the KBC Bank Group's operations face competition in the sectors they serve. Depending on the activity, competitor companies include other commercial banks, saving banks, loan institutions, consumer finance companies, investment banks, brokerage firms, specialised finance companies, asset managers, private bankers, investment companies, fintech and e-commerce companies.

In both Belgium and Central and Eastern Europe, the KBC Bank Group has an extensive network of branches and the KBC Bank Group believes most of its companies have strong name brand recognition in their respective markets.

In Belgium, the KBC Bank Group is perceived as belonging to the top three (3) financial institutions. For certain products or activities, the KBC Bank Group estimates it has a leading position (e.g. in the area of investment funds). The main competitors in Belgium are BNP Paribas Fortis, Belfius and ING, although for certain products, services or markets, other financial institutions may also be important competitors.

In its Central and Eastern European home markets, the KBC Bank Group is one of the important financial groups, occupying significant positions in banking. In this respect, the KBC Bank Group competes, in each of these countries, against local financial institutions, as well as subsidiaries of other large foreign financial groups (such as Erste Bank, Unicredit and others).

In the rest of the world, the KBC Bank Group's presence mainly consists of KBC Bank Ireland plc, which is active in Ireland, and a limited number of branches and subsidiaries. In the latter case, the KBC Bank Group faces competition both from local companies and international financial groups.

KBC Bank Ireland plc is a challenger bank. Its main competitors are the large domestic banks (such as Allied Irish Banks plc and Bank of Ireland plc).

Staff

In 2020, the KBC Bank Group had, on average and on a consolidated basis, about 28,838 employees (in full time or equivalent-numbers), the majority of whom were located in Belgium (largely employed by the Guarantor) and Central and Eastern Europe. In addition to consultations, at works council meetings and at meetings with union representatives and with other consultative bodies, the KBC Bank Group also works closely in other areas with employee associations. There are various collective labour agreements in force.

Risk management

Mainly active in banking and asset management, the KBC Bank Group is exposed to a number of typical industry-specific risks such as – but certainly not exclusively – credit risk, market risks, movements in interest rates and exchange rates, currency risk, liquidity risk, operational risk, exposure to emerging markets, changes in regulations and customer litigation as well as the economy in general. Material risk factors affecting the Guarantor are mentioned in the section entitled “*Risk Factors*” on page 6 and following of this Base Prospectus.

Risk management in the Group is effected group-wide.

An overview of KBC Bank Group's risk management approach is set out in the “Risk management” section on pages 46 to 80 of the Guarantor's 2020 Annual Report, which is incorporated by reference into this Base Prospectus as set out in the section entitled “*Documents Incorporated by Reference*” on pages 50 to 52 of this Base Prospectus.

More detailed information can be found in KBC Group NV's 2020 Risk Report, available at <https://www.kbc.com/content/dam/kbccom/doc/investor-relations/Results/jvs-2020/risk-report-2020.pdf>.

This document is not incorporated by reference and does not form part of this Base Prospectus, and it has not been scrutinised or approved by the CSSF.

Banking supervision and regulation

Introduction: supervision by the European Central Bank

KBC Bank NV, a credit institution governed by the laws of Belgium, is subject to detailed and comprehensive regulation in Belgium, and is supervised by the European Central Bank (the “**ECB**”), acting as the supervisory authority for prudential supervision of significant financial institutions. The ECB exercises its prudential supervisory powers by means of application of EU rules and national (Belgian) legislation. The supervisory powers conferred to the ECB include, amongst others, the granting and withdrawal of authorisations to and from credit institutions, the assessment of acquisitions and disposals of qualifying holdings in credit institutions, ensuring compliance with the rules on equity, liquidity, statutory ratios and the carrying out of supervisory reviews (including stress tests) for credit institutions.

Pursuant to Regulation (EU) n° 468/2014 of 16 April 2014 establishing a framework for cooperation within the Single Supervisory Mechanism between the ECB and national competent authorities, a joint supervisory team has been established for the prudential supervision of the Guarantor (and KBC Group NV). This team is composed of staff members from the ECB and from the national supervisory authority (*in casu* the NBB) and working under the coordination of an ECB staff member.

The Financial Services and Markets Authority (“**FSMA**”), an autonomous public agency, is in charge of the supervision of conduct of business rules for financial institutions and financial market supervision.

EU regulations and directives have had and will continue to have a significant impact on the regulation of the banking business in the EU, as such regulations have a direct effect and directives are implemented through legislation adopted in each Member State, including Belgium. The general objective of the EU legislation is to promote the realisation of a unified internal market for banking services and to improve standards of prudential supervision and market efficiency through harmonisation of core regulatory standards and mutual recognition among EU Member States of regulatory supervision and, in particular, licensing.

Supervision and regulation in Belgium

The banking regime in Belgium is governed by the Law of 25 April 2014 on the legal status and supervision of credit institutions of and stockbroking firms (the “**Banking Law**”). The Banking Law implements various EU directives, including, without limitation:

- (i) Directive 2013/36/EU of the European Parliament and of the Council of 26 June 2013, as amended by Directive (EU) 2019/878 of 20 May 2019, and as may be further amended or replaced from time to time (the “**CRD**”) and, where applicable, Regulation (EU) n° 575/2013 of the European Parliament and of the Council of 26 June 2013, as amended by Regulation (EU) 2019/876 of 20 May 2019, and as may be further amended or replaced from time to time (the “**CRR**”, and together with the CRD, “**CRD IV**”) implementing the revised regulatory framework of Basel III on the European Union; and
- (ii) Directive 2014/59 of 15 May 2014 establishing a framework for the recovery and resolution of credit institutions and investment firms, as amended by Directive (EU) 2019/879 of 20 May 2019 (the “**BRRD**”).

CRD IV applies in Belgium since 1 January 2014, subject to certain requirements being phased in over a number of years, as set out therein. BRRD has formally been transposed into Belgian Law by amending the Banking Law with effect from 16 July 2016.

The Banking Law sets forth the conditions under which credit institutions may operate in Belgium and defines the regulatory and supervisory powers of the ECB and the NBB. The main objective of the Banking law is to protect public savings and the stability of the Belgian banking system in general.

Supervision of credit institutions

All Belgian credit institutions must obtain a license from the ECB before they may commence operations. In order to obtain a license and maintain it, each credit institution must fulfil numerous conditions, including certain minimum paid-up capital requirements.

In addition, any shareholder acquiring, individually or acting in concert with another person or persons, a “qualifying holding” in the credit institution (i.e. a direct or indirect holding which represents 10% or more of the capital or of the voting rights or which makes it possible to exercise a significant influence over the management of that institution) must be of “fit and proper” character to ensure proper and prudent management of the credit institution. Prior notification to the NBB and no indication of opposition by the ECB is required each time a person decides to acquire a qualifying holding in a credit institution or to further increase such qualifying holding as a result of which the proportion of the voting rights or of the capital held would reach or exceed 20%, 30% or 50%, or so that the credit institution would become its subsidiary. If the ECB considers that the participation of a shareholder in a credit institution jeopardises its sound and prudent management, it may suspend the voting rights attached to such participation and, if necessary, request that the shareholder transfers to a third party its participation in the credit institution.

Furthermore, a shareholder who decides to dispose, directly or indirectly, of a qualifying holding or to reduce it so that the proportion of the voting rights or of the capital held would fall below 20%, 30% or 50% or so that the credit institution would cease to be its subsidiary, must notify the NBB thereof.

The Belgian credit institution itself is obliged to notify the NBB of any such transfer when it becomes aware thereof.

Moreover, every shareholder acquiring a holding or increasing its holding (directly or indirectly, individually or acting in concert with third parties) to 5% or more of the capital of the voting rights without acquiring a qualifying holding, must notify the NBB thereof within ten working days. The same shall apply to a shareholder who no longer holds, directly or indirectly, more than 5% of the voting rights or capital in a credit institution.

The Banking Law requires credit institutions to provide detailed periodic financial information to the ECB and, under certain circumstances, the FSMA.

The ECB also supervises the enforcement of laws and regulations with respect to the accounting principles applicable to credit institutions.

The ECB sets the minimum capital adequacy ratios applicable to credit institutions. The ECB may also set other ratios, for example, with respect to the liquidity and gearing of credit institutions. It also sets the standards regarding solvency, liquidity, risk concentration and other limitations applicable to credit institutions and the publication of this information. The NBB may in addition impose capital requirements for capital buffers (including countercyclical buffer rates and any other measures aimed at addressing systemic or macro-prudential risks).

In order to exercise its prudential supervision, the ECB may require that all information with respect to the organisation, the functioning, the position and the transactions of a credit institution be provided to it. Further, the ECB supervises, among other things, the management structure, the administrative organisation, the accounting and the internal control mechanisms of a credit institution. In addition, the ECB may conduct on-site inspections (with or without the assistance of NBB staff).

The comprehensive supervision of credit institutions is also exercised through statutory auditors who cooperate with the supervisor in its prudential supervision. A credit institution selects its statutory auditor from the list of auditors or audit firms accredited by the NBB.

Within the context of the European System of Central Banks, the NBB issues certain recommendations regarding monetary controls.

The Banking Law has introduced a prohibition in principle on proprietary trading as from 1 January 2015. However, certain proprietary trading activities are excluded from this prohibition. Permitted proprietary trading activities (including certified market-making, hedging, treasury management, and long-term investments) are capped, and these types of activities must comply with strict requirements on reporting, internal governance and risk management.

Bank governance

The Banking Law also puts a lot of emphasis on the solid and efficient organisation of credit institutions and introduces to that effect a dual governance structure at management level, specialised advisory committees within the Board of Directors (Audit Committee, Risk Committee, Remuneration Committee and Nomination Committee), independent control functions, and strict remuneration policies (including limits on the amount of variable remuneration, the form and timing for vesting and payment of variable remuneration, as well as claw-back mechanics).

In accordance with the Banking Law makes a fundamental distinction between the management of banking activities, which is within the competence of the Executive Committee, and the supervision of management and the definition of the credit institution's general and risk policy, which is entrusted to the Board of Directors. According to the Banking Law, the Guarantor has an Executive Committee of which each member is also a member of the Board of Directors.

Pursuant to the Banking Law, the members of the Executive Committee and the Board of Directors need to permanently have the required professional reliability and appropriate experience. The same goes for the responsible persons of the independent control functions.

The NBB Governance Manual for the Banking Sector (the "**Governance Manual**") contains recommendations to assure the suitability of shareholders, management and independent control functions and the appropriate organisation of the business.

As required by the Banking Law and the Governance Manual, KBC Group NV has drafted a Group Internal Governance Memorandum (the "**Governance Memorandum**"), which sets out the corporate governance policy applying to KBC Group NV and its subsidiaries and of which the governance memorandum of the Guarantor forms part. The corporate governance policy of a credit institution must meet the principles set out in the law and the Governance Manual. The most recent version of the Governance Memorandum was approved on 17 December 2020 by the Board of Directors of KBC Group NV, KBC Bank NV and KBC Insurance NV.

The Guarantor also has a Corporate Governance Charter which is published on www.kbc.com. This document is not incorporated by reference and does not form part of this Base Prospectus, and it has not been scrutinised or approved by the CSSF.

Solvency supervision

Capital requirements and capital adequacy ratios are provided for in the CRR, transposing the Basel III regulation into European law. The CRR requires that credit institutions must comply with several minimum solvency ratios. These ratios are defined as Common Equity Tier 1 ("**CET1**"), Tier 1 capital and Total Capital divided by risk weighted assets. Risk weighted assets for credit risk are the sum of all assets and off-

balance sheet items weighted according to the degree of credit risk inherent in them. The solvency ratios also take into account market risk and counterparty risk with respect to the bank's trading book (including interest rate and foreign currency exposure), operational risk, credit valuation adjustment risk and settlement risk in the calculation of the risk weighted assets. On top of the capital requirements defined by the solvency ratios, the regulation imposes a combined buffer requirement (see below).

Solvency is also limited by the leverage ratio, which compares Tier 1 capital to the total exposure measure (non-risk weighted).

The minimum solvency ratios required under CRD IV are 4.5% for the CET1 ratio, 6.0% for the tier-1 capital ratio and 8.0% for the total capital ratio (i.e., the pillar 1 minimum ratios). As a result of its supervisory review and evaluation process ("**SREP**") or its examination of internal approaches, the competent supervisory authority (in the Guarantor's case, the ECB):

- can require the Guarantor to maintain higher minimum ratios (i.e. a pillar 2 requirement of 1.75%) because, for instance, not all risks are properly reflected in the regulatory pillar 1 calculations and a pillar 2 guidance of 1.0% to absorb adverse scenarios;
- can take other measures such as imposing the reservation of distributable profits in whole or in part, requiring that variable remuneration be limited to a percentage of the profits and requiring the institution to limit the risk associated with certain activities or products or with its organisation, where appropriate by imposing the total or partial transfer of its business or network.

In total, this brings the fully loaded CET1 capital requirement to 10.45% (4.5% (pillar 1) + 1.75% (pillar 2 requirement) + 2.5% (conservation buffer) + 1.5% (systemic buffer) + 0.20% (countercyclical buffer)), with an additional pillar 2 guidance of 1% consolidated at KBC Bank Group level.

The fully loaded Tier 1 capital and total own funds requirements amounts to 11.95% (10.45% CET1 + 1.5% additional Tier 1) respectively 13.95% (11.95% Tier 1 + 2% Tier 2).

On top of this, a number of additional buffers have to be put in place, including a capital conservation buffer of 2.5%, a buffer for systemically important banks ("**O-SII buffer**", to be determined by the national competent authority) and a countercyclical buffer in times of credit growth (between 0% and 2.5%, likewise to be determined by the national competent authority).

For an overview of the regulatory capital requirements at the level of KBC Bank for 2020, as well as a breakdown of the total regulatory capital and solvency ratios at the level of KBC Bank as at 31 December 2020, please refer to page 81 of the Guarantor's 2020 Annual Report, which has been incorporated by reference into this Base Prospectus as set out in the section entitled "*Documents Incorporated by Reference*" on pages 50 to 52 of this Base Prospectus.

The payment of dividends by Belgian credit institutions is not limited by Belgian banking regulations, except indirectly through capital adequacy and solvency requirements when capital ratios fall below certain thresholds. The pay-out is further limited by the general provisions of Belgian company law.

In March 2020, the ECB published a 'Recommendation on dividend distributions during the COVID-19 pandemic' in which the ECB recommends that at least until 1 October 2020 no dividends are paid out and no irrevocable commitment to pay out dividends is undertaken by institutions (on a consolidated level) for the financial year 2019 and 2020 and that institutions refrain from share buy-backs aimed at remunerating

shareholders¹⁷. In July 2020, the ECB decided to extend this recommendation until 1 January 2021. On 15 December 2020, the ECB called on banks to refrain from or limit dividends until 30 September 2021 and recommended that banks exercise extreme prudence on dividends and share buy-backs¹⁸. On 23 July 2021, the ECB decided not to extend beyond September 2021 its recommendation¹⁹. However, the ECB has indicated that banks should remain prudent when deciding on dividends and share buy-backs, carefully considering the sustainability of their business model and that they should not underestimate the risk that additional losses may later have an impact on their capital trajectory as support measures expire.

For completeness, in 2020 the Guarantor paid a dividend of EUR 1.1 billion to its parent company KBC Group NV (intragroup payment).

Large exposure supervision

European regulations ensure the solvency of credit institutions by imposing limits on the concentration of risk in order to limit the impact of failure on the part of a large debtor. For this purpose, credit institutions must limit the amount of risk exposure to any single counterparty to 25% of the total Tier 1 capital. European regulations also require that the credit institutions establish procedures to contain concentrations on economic activity sectors and geographic areas.

4 Anti-Money laundering

Belgium has implemented Directive (EU) 2015/849 of the European Parliament and of the Council of 20 May 2015 on the prevention of the use of the financial system for the purposes of money laundering or terrorist financing by the law of 18 September 2017 on the prevention of money laundering, terrorist financing and on the limitation of the use of cash (the “**Law of 18 September 2017**”). This legislation imposes obligations in relation to the prevention of money laundering and the financing of terrorism (“**ML/TF**”) to certain obliged entities, including credit and financial institutions. These obligations are related to, among others, to the identification of the client, the client’s representatives and ultimate beneficial owners, the identification of the client’s characteristics and the purpose and nature of the business relationship, the ongoing due diligence during the business relationship, the enhanced due diligence in particular cases (such as in case of politically exposed persons), the appointment of an anti-money laundering compliance officer, the training of personnel and the restriction on the use of cash. The implementation of measures shall be risk-based meaning that the measures shall be differentiated according to the obliged entities’ ML/TF risk.

The Law of 18 September 2017 also imposes the obligation to promptly notify suspicious transactions to an independent administrative authority, the Financial Intelligence Unit. This Unit is designated to receive reports on suspicious transactions, to investigate them and, if necessary, to report to the criminal prosecutors to initiate proceedings. The NBB has issued guidelines for credit and financial institutions and supervises their compliance with this legislation. Belgian criminal law specifically addresses criminal offences of money-laundering (Article 505 of the Criminal Code) and sanctions them with a prison sentence of a

minimum of fifteen days and a maximum of five years and/or a fine of a minimum of EUR 26 and a maximum of EUR 100,000 (to be multiplied by 8).

5 Consolidated supervision – supplementary supervision

The Guarantor is subject to consolidated supervision by the ECB on the basis of the consolidated financial situation of KBC Group NV, which covers, among other things, solvency as described above, pursuant to Articles 165 and following of the Banking Law. As a subsidiary of a Belgian mixed financial holding company (KBC Group NV) and part of a financial conglomerate, the Guarantor is also subject to the supplementary supervision by the ECB, according to Directive 2011/89/EU of 16 November 2011 amending Directives 98/78/EC, 2002/87/EC, 2006/48/EC and 2009/138/EC as regards the supplementary supervision of financial entities in a financial conglomerate (implemented in Articles 185 and following of the Banking Law). The supplementary supervision relates to, among other things, solvency, risk concentration and intra-group transactions and to enhanced reporting obligations.

The consolidated supervision and the supplementary supervision will be aligned as much as possible, as described in Article 170 of the Banking Law.

6 Bank recovery and resolution

The Banking Law establishes a range of instruments to tackle potential crises of credit institutions at three stages:

(i) Preparation and prevention

KBC Group NV has to draw up a group recovery plan, setting out the measures which would be taken to stabilise the group as a whole or each credit institution in the group if it is in a difficult financial situation, and which seek to address or remove the causes of difficulties and to restore the financial situation of the group or credit institution, having regard also to the financial situation of other group entities. This group recovery plan must, in principle, be updated at least annually or after a change to the legal or organisational structure of the institution, its business or its financial situation, which could have a material effect on, or necessitates a change to, the group recovery plan. In its review of the recovery plan, the ECB pays particular attention to the appropriateness of the capital and financing structure of the credit institutions, of the group, and of group entities in relation to the degree of complexity of their organisational structure and their risk profile.

The SRB will have to prepare a resolution plan for each significant Belgian credit institution, laying out the actions it may take if it were to meet the conditions for resolution. The resolution college of the NBB has the same powers with regard to the non-significant Belgian credit institutions. If the SRB or the Resolution College identifies material impediments to resolvability during the course of this planning process, it can require a credit institution to take appropriate measures, including changes to corporate and legal structures.

(ii) Early intervention

The ECB/NBB disposes of a set of powers to intervene if a credit institution faces financial distress (e.g. when a credit institution is not operating in accordance with the provisions of the Banking Law), but before its financial situation deteriorates irreparably. These powers include the ability to dismiss the management and appoint a special commissioner, to convene a meeting of shareholders to adopt urgent reforms, to suspend or prohibit all or part of the credit institution's activities (including a partial or complete suspension of the execution of current contracts), to order the disposal of all or

part of the credit institution's shareholdings or the transfer of all or part of the net worth, and finally, to revoke the license of the credit institution.

(iii) Resolution

Pursuant to the Regulation (EU) No 806/2014 of the European Parliament and of the Council of 15 July 2014 establishing uniform rules and a uniform procedure for the resolution of credit institutions and certain investment firms in the framework of a Single Resolution Mechanism and a Single Bank Resolution Fund and amending the Regulation (EU) No 1093/2010 of the European Parliament and of the Council (the Single Resolution Mechanism or SRM), as amended by Regulation (EU) 2019/877 of 20 May 2019, the Single Resolution Mechanism entered into force on 19 August 2014 and applies to credit institutions which fall under the supervision of the ECB. It established a Single Resolution Board (SRB), a resolution decision-making authority replacing national resolution authorities (such as the Resolution College of the NBB) for resolution decisions with regard to significant credit institutions. The SRB is responsible since 1 January 2016 of vetting resolution plans and carrying out any resolution in cooperation with the national resolution authorities (the SRB together with the resolution college of the NBB is hereinafter referred to as the Resolution Authority).

The Guarantor and KBC Group NV are credit institutions falling within the scope of the Single Supervisory Mechanism.

The resolution authority can decide to take resolution measures if it considers that all of the following circumstances are present: (i) the determination has been made by the resolution authority, after consulting the competent authority, that a credit institution is failing or is likely to fail, (ii) there is no reasonable prospect that any alternative private sector measures or supervisory action can be taken to prevent the failure of the institution, and (iii) resolving the credit institution is necessary from a public interest perspective. The resolution tools are: (i) the sale of (a part of) the assets/liabilities or the shares of the credit institution without the consent of shareholders, (ii) the transfer of business to a temporary structure ("bridge bank"), (iii) the separation of clean and toxic assets and the transfer of toxic assets to an asset management vehicle and (iv) bail-in.

The fourth resolution tool, i.e. the bail-in tool, entered into force on 1 January 2016. It was implemented into Belgian law through the Royal Decree of 18 December 2015 implementing the Banking Law. Bail-in is a mechanism to write down the eligible liabilities (subordinated debt, senior debt and eligible deposits) or to convert debt into equity, as a means of restoring the institution's capital position. The resolution authority is also empowered (and in certain circumstances required) to write down or convert capital instruments (such as Common Equity Tier 1-, Additional Tier 1- and Tier 2-instruments) and eligible liabilities, before or together with the use of any resolution tools, if it determines that a credit institution becomes non-viable, that the conditions for the exercise of the resolution powers are fulfilled and/or that a credit institution has asked for public support.

The applicability of the resolution tools and measures to credit institutions that are part of a cross-border group are regulated by the Royal Decree of 26 December 2015 amending the Banking Law, which entered into force on 1 January 2016.

7 Material contracts

No member of the KBC Bank Group has entered into any material contracts outside the ordinary course of its business which could result in any member of the KBC Bank Group being under an obligation or entitlement that is material to the Guarantor's ability to meet its obligations under the Notes.

In addition, the Group examined its options for divesting KBC Bank Ireland's portfolio of non-performing mortgage loans. On 30 August 2021, KBC Bank Ireland confirmed it has reached agreement to dispose of a non-performing mortgage loan portfolio of roughly EUR 1.1 billion (including, private dwelling house and buy-to-let mortgages and a small number of non-mortgage non-performing loans) in a transaction financed by funds managed by CarVal Investors. Successful completion of both transactions may ultimately result in withdrawal from the Irish market. See press releases on www.kbc.com.

Banking sector

Although the banking sector in some EU countries is still dealing with a legacy of non-performing loans dating from the global financial crisis of 2008-2009 (“GFC”), the European banking sector is in much better shape to deal with the economic harm of the COVID-19 pandemic than on the eve of the GFC. Despite differences across countries, at 15.5% the average CET1 ratio (fully loaded) of the European banking sector reached a new all-time high in Q4 2020. Non-performing loans still declined on average for both households and non-financial corporates. Nevertheless, first signs of deterioration in exposures to sectors that are most affected by the COVID-19 crisis were visible at the end of 2020.

Looking forward, enhanced economic governance and the banking union, which still needs to be completed, significantly strengthened the Eurozone architecture and offer a more stable banking sector environment than in the pre-GFC years. Amid a very uncertain macroeconomic environment with the impact of the Coronavirus crisis lingering on, bank profitability faces significant challenges to enhance cost efficiency in a competitive environment, and to withstand ongoing pressure on revenue growth. At the same time new technologies trigger new challenges to business models. Banks with a large customer and diversified income base are likely best suited to cope with these challenges.

General economic environment and risks

The global economic recovery remains in full swing, as shown by the latest releases of second-quarter GDP data. Major economies are nonetheless at different stages of the recovery trajectory, reflecting divergent pandemic and vaccination developments, as well as variations in policy support. To begin with, the US recorded another robust growth performance in the second quarter, driven by early progress with vaccination and a massive fiscal impulse. After two quarters of contraction, the euro area rebounded at a surprisingly strong pace amid progress in controlling the pandemic and a gradual reopening of the economies. Finally, China's economic recovery is already in its advanced stage as the growth momentum peaked in late 2020 and economic activity is now slowing on a sequential basis.

Looking forward, the pace of the recovery is expected to remain strong but to moderate somewhat in the second half of the year. That is to say, both the US and the euro area move past peak growth as the reopening effects dissipate, implying still above-potential but slower sequential growth rates. Meanwhile, China's growth is expected to normalise further on the back of some fiscal and credit tightening, exacerbated by the recent drag from the Delta variant. In general, emerging markets are set to see particularly uneven recovery paths from the pandemic. Some of the less developed economies will be the weak links in the global economy, as lagging vaccinations and limited policy support leave them firmly in the grips of the virus.

Overall, the economic outlook remains positive, assuming that the expansion has further to run despite being past peak growth in most major economies. At the same time, the rapid spread of the Delta variant of Covid-19 has become the key concern for the global economy, creating new uncertainties around the path to normalisation. The highly transmissible Delta strain has become the dominant variant globally as it spreads quickly not only in emerging markets but also in some advanced regions with an already high level of immunisation.

In addition to the rapid spread of the Delta variant, the global economy is facing increasing headwinds from supply chain disruptions. Against the background of strong demand conditions, many manufactures are unable to increase output fast enough due to pandemic-induced production cutbacks, input shortages (e.g. essential raw materials and most prominently semiconductors), and surging shipping costs. All this appears to be holding back industrial output, and weighing on growth in major economies – particularly those with a strong industrial backbone – as reflected by the Q2 GDP data.

Strong inflationary pressures

Inflationary pressures have accelerated considerably over the summer months. Headline inflation has reached more than a decade high in both the euro area and the US, significantly above the central banks' target. Since early 2021, the rise in inflation has been mainly driven by higher energy prices and base effects that have yet to fully run their course. Another inflation boost is coming from the reopening of economies, in particular, the sectors severely hit by lockdowns where prices are normalising from depressed levels. Finally, unprecedented supply-chain disruptions have led to a surge in pipeline price pressures and robust core goods inflation across advanced economies.

While inflation is likely to remain elevated in the remainder of 2021 and somewhat stickier also throughout 2022, that inflation seems currently driven mostly by transitory factors. That is to say, price pressures are expected to moderate eventually as the energy base effects turn more favourable (with the stabilisation in oil prices), the disruptive effects of the pandemic ease (i.e. once 'opening up' is completed), and supply bottlenecks start to abate. Importantly, the recent surge in inflation has not dislodged inflation expectations, which can be viewed as another argument in favour of the temporary nature of the currently elevated inflation prints.

10 Litigation

This section sets out material litigation to which the Guarantor or any of its companies (or certain individuals in their capacity as current or former employees or officers of the Guarantor or any of its companies) are party. It describes all claims, quantified or not, that could lead to the impairment of the company's reputation or to a sanction by an external regulator or governmental authority, or that could present a risk of criminal conviction for the company, the members of the board or the management.

Although the outcome of these matters is uncertain and some of the claims concern relatively substantial amounts in damages, the management does not believe that the liabilities arising from these claims will adversely affect the Guarantor's consolidated financial position or results, given the provisions that, where necessary, have been set aside for these disputes.

Lazare Kaplan International Inc.

Lazare Kaplan International Inc. is a U.S. based diamond company ("**LKI**"). Lazare Kaplan Belgium NV is LKI's Belgian affiliate ("**LKB**"). LKI and LKB together are hereinafter referred to as "**LK**". The merger between the Guarantor and Antwerpse Diamantbank NV ("**ADB**") on 1 July 2015 entails that the Guarantor is now a party to the proceedings below, both in its own name and in its capacity as legal successor to ADB.

However, for the sake of clarity, further reference is made to ADB on the one hand and the Guarantor on the other hand as they existed at the time of the facts described.

Fact summary

- Since 2008, LKB has been involved in a serious dispute with its former business partners, DD Manufacturing NV and KT Collection BVBA (“**Daleyot**”), Antwerp based diamond companies belonging to Mr. Erez Daleyot. This dispute relates to a joint venture LK and Daleyot set up in Dubai (called “**Gulfdiam**”).
- LKB and Daleyot became entangled in a complex litigation in Belgium, each claiming that the other party is their debtor. Daleyot initiated proceedings before the Commercial Court of Antwerp for payment of commercial invoices for an amount of (initially) approximately USD 9 million. LKB launched separate proceedings for payment of commercial invoices for (initially) an amount of approximately USD 38 million.
- At the end of 2009, ADB terminated LK’s credit facilities. After LK failed to repay the amount outstanding of approximately USD 45 million in principal, ADB started proceedings before the Commercial Court of Antwerp, section Antwerp for the recovery of said amount. In a bid to prevent having to pay back the amount owed, LK in turn initiated several legal proceedings against ADB and/or the Guarantor in Belgium and the USA. These proceedings, which are summarised below, relate to, *inter alia*, the dispute between ADB and LKI with regard to the termination of the credit facility and the recovery of all the monies LKI owes under the terminated credit facility as well as allegations that LK was deprived out of circa USD 140 million by DD Manufacturing and other Daleyot entities in cooperation with ADB.

Overview Legal Proceedings

Belgian proceedings (overview per court entity)

A.1. Company Court of Antwerp, section Antwerp

On 16 March 2010, proceedings were initiated by ADB against LKI in order to recover the monies owed to it under the terminated credit facility (approximately USD 45 million in principal). LKB voluntarily intervened in this proceeding and claimed an amount of USD 350 million from ADB. LKI launched a counterclaim of USD 500 million against ADB (from which it claims any amount awarded to LKB must be deducted).

LKI and /or LKB started numerous satellite proceedings with the sole aim to delay the decision of the Company Court of Antwerp, section Antwerp regarding ADB’s recovery claim. (see also proceedings described under point A.2., A.3. and A.4.).

Numerous times LKI and/or LKB were convicted for reckless and vexatious legal actions and were ordered to pay the Guarantor in damages for a total amount of EUR 495,000 and legal expenses (including the legal representation costs) of EUR 204,015.51 (including the amounts granted by the decisions described under point A.3 below).

All decisions (45) regarding these proceedings rejected LKI and /or LKB’s claims / legal actions. Only three decisions were rendered in favour of LKI. The first was a decision of the United States Court of Appeals for the Second Circuit in 2013 whereby the RICO case was reversed and remanded back to the District Court on legal technical grounds. The second decision was the ruling of Court of Cassation dated 19 December 2019, which only partially annulled the Antwerp Court of Appeal decision of 13 December 2018 regarding the lack of reasoning in relation to the order of LKI and LKB to pay damages the Guarantor for vexatious

reckless proceedings. The case was only sent to the Brussel Court of Appeal on this aspect. The third decision was the ruling of the Court of Cassation dated 25 January 2021 annulling the decision of the Antwerp Court of Appeals dated 28 February 2019 but only on technical legal grounds (see point A.3. below).

As of today after almost 10 years of litigation the Company Court of Antwerp, section Antwerp has still not been able to decide on the merits of the case. On 6 October 2020, the Company Court of Antwerp ordered a briefing schedule inviting parties to take a position on the procedural objections invoked by LK regarding the handling of KBC Bank's claim by the Court.

On 3 June 2021, the Company Court of Antwerp, section Antwerp declared that it has jurisdiction to rule on all claims and dismissed the procedural objections invoked by LK. A court hearing is set for 8 September 2022.

LKB has appealed against this decision. An introduction hearing before the Court of Appeals of Antwerp was held on 18 November 2021.

By separate petition dated 8 November 2021, LKI also appealed the 3 June 2021 judgement. The introduction hearing before the Court of Appeals of Antwerp is scheduled for December 9, 2021. However, it is expected that both appeals filed separately by LKB and LKI against the same judgment will be merged by the Antwerp Court of Appeals to be heard together.

A.2. Company Court of Antwerp, section Antwerp

On 28 July 2014, LK launched proceedings against ADB and certain Daleyot entities. This claim is aimed at having certain transactions of the Daleyot entities declared null and void or at least not opposable against LK.

LK also filed a damage claim against ADB for a provisional amount of USD 60 million based on the alleged third party complicity of ADB. This case is still pending. The court postponed the case *sine die*.

A.3. Company Court of Antwerp, section Antwerp

On 10 December 2014, LKB filed a proceeding against ADB and the Guarantor claiming an amount of approximately USD 77 million, based on the allegedly wrongful grant and maintenance of credit facilities by ADB and the Guarantor to the Daleyot entities. In its last court brief LK claims an additional amount of approximately USD 5 million.

By decision of 7 February 2017, the Commercial Court of Antwerp, section Antwerp (now Company Court of Antwerp, section Antwerp) dismissed LKB's claim. Moreover, the Court decided that the proceedings initiated by LKB were reckless and vexatious and ordered LKB to pay EUR 250,000 in damages, as well as the maximum legal representation cost of EUR 72,000.

LKB appealed against the decision of 7 February 2017. On 28 February 2019, the Antwerp Court of Appeals dismissed LKB's appeal. LKB was ordered to pay the legal representation cost for the appeal proceedings of EUR 18,000. On 18 June 2019 LKB initiated proceedings before the Court of Cassation against the decision of the Antwerp Court of Appeals dated 28 February 2019. These proceedings are still pending.

LKI – which was not a party to the first instance proceedings – commenced third-party opposition proceedings against the same decision with the Commercial Court (now Company Court). By decision of 7 May 2019, the Company Court dismissed the third- party opposition proceedings initiated by LKI. The Court ordered LKI to pay the legal representation cost of EUR 1,440.

A.4. Criminal complaint

On 13 October 2016 LK filed a criminal complaint with the Investigating Magistrate at the Dutch speaking Court of First Instance of Brussels against the Guarantor.

On 9 April 2019 LK filed an additional complaint with the same Investigation Magistrate against KBC Bank NV and certain of its (former) employees. The criminal complaints are based, *inter alia*, on: embezzlement, theft and money-laundering

On 29 September 2021, KBC Bank received notification that the chambers section of the Criminal Court of Brussels will decide on the closure of the criminal investigation and on the regulation of procedure (either dismissal of charges or referral to the criminal court).

Bernard L. Madoff Investments Securities LLC and Bernard L. Madoff

On 6 October 2011, Irving H. Picard, trustee for the substantively consolidated SIPA (Securities Investor Protection Corporation Act) liquidation of Bernard L. Madoff Investments Securities LLC and Bernard L. Madoff, sued KBC Investments Ltd (a wholly-owned subsidiary of KBC Bank) before the bankruptcy court in New York to recover approximately USD 110,000,000 worth of transfers made to KBC entities. The basis for this claim were the subsequent transfers that KBC Investments Ltd had received from Harley International, a Madoff feeder fund established under the laws of the Cayman Islands. This claim is one of a whole set made by the trustee against several banks, hedge funds, feeder funds and investors. In addition to the issues addressed by the district court, briefings were held on the applicability of the Bankruptcy Code's 'safe harbor' and 'good defenses' rules to subsequent transferees (as is the case for KBC Investments Ltd). KBC Investments Ltd, together with numerous other defendants, filed motions for dismissal. District court Judge Jed Rakoff has made several intermediate rulings in this matter, the most important of which are the rulings on extraterritoriality and good faith defences.

On 27 April 2014, Judge Rakoff issued an opinion and order regarding the 'good faith' standard and pleading burden to be applied in the Picard/SIPA proceeding based on sections 548(b) and 559(b) of the Bankruptcy Code. As such, the burden of proof that lies on Picard/SIPA is that KBC Investments Ltd should have been aware of the fraud perpetrated by Madoff. On 7 July 2014, Judge Rakoff ruled that Picard/SIPA's reliance on section 550(a) does not allow for the recovery of subsequent transfers received abroad by a foreign transferee from a foreign transferor (as is the case for KBC Investments Ltd.). Therefore, the trustee's recovery claims have been dismissed to the extent that they seek to recover purely foreign transfers. In June 2015, the trustee filed a petition against KBC Investments Ltd to overturn the ruling that the claim fails on extraterritoriality grounds. In this petition, the trustee also amended the original claim including the sum sought. The amount has been increased to USD 196,000,000.

On 21 November 2016, Judge Bernstein issued a memorandum decision regarding claims to recover foreign subsequent transfers, including the transfers which the trustee seeks to recover from KBC Investments Ltd. In this memorandum decision, Judge Bernstein concluded that the trustee's claims based on foreign transfers should be dismissed out of concern for international comity and ordered a dismissal of the action against KBC Investments Ltd. and on 3 March 2017, the Bankruptcy Court issued an appealable order denying the Madoff Trustee's request for leave to amend his Complaint and dismissing the Complaint. On 16 March 2017 the trustee Picard filed an appeal of dismissal, on 27 September 2017 the Second Circuit granted trustee Picard's petition for a direct appeal, on 10 January 2018 trustee Picard filed his opening brief in appeal to Second Circuit.

Briefing in the appeal was completed on 8 May 2018, and the Second Circuit held oral argument on 16 November 2018.

On 28 February 2019 the Second Circuit reversed the Bankruptcy Court's dismissal of the actions against KBC Investments Ltd on extraterritoriality and international comity grounds. The action against KBC Investments Ltd has therefore been remanded back to the Bankruptcy Court for further proceedings.

In April 2019 a request for rehearing was denied.

On 30 August 2019, a petition for writ of certiorari was filed with the U.S. Supreme Court to consider the appeal and reverse the Second Circuit decision by the joint defence group.

On 10 December 2019, the U.S. Supreme Court entered a brief order inviting the U.S. Solicitor General to file a brief expressing the views of the United States Government.

On 10 April 2020 the United States Solicitor General filed a brief recommending that the Supreme Court deny the Madoff defendants' petition for a writ of certiorari. On 2 June 2020, the U.S. Supreme Court denied the petition. As a consequence the merits of the case will be handled by the Bankruptcy Court.

KBC still believes there is a strong basis to get the action against KBC dismissed as there are a number of other defences that can be raised together with the joint defence group. The procedure may still take several years.

TAXATION

This section sets out an overview of certain taxation considerations relating to the Notes.

Tax legislation, including in the country where the investor is domiciled or tax resident and in the Issuer's country of incorporation, may have an impact on the income that an investor receives from the Notes.

Prospective purchasers of the Notes are advised to consult their own tax advisers as to the tax consequence of purchasing, holding or selling the Notes under the tax laws of the country of which they are resident, including, without limitation, the consequences of receipt of Interest Amounts and premium, if any, on and sale or redemption of, the Notes or any Interest Amounts therein. The discussions that follow do not purport to be a comprehensive description of all tax considerations which may be relevant to a decision to purchase, hold or sell Notes. In particular, these discussions do not consider any specific facts or circumstances that may apply to a purchaser of the Notes. The discussions that follow for each jurisdiction are based upon the applicable laws and interpretations thereof as in effect as of the date of this Base Prospectus. These tax laws and interpretations are subject to change, possibly with retroactive or retrospective effect.

Belgium

The following overview describes the principal Belgian tax considerations with respect to the holding of Notes. This information is of a general nature based on the Issuer's understanding of current law and practice and does not purport to be a comprehensive description of all Belgian tax considerations that may be relevant to a decision to acquire, to hold or to dispose of the Notes. In some cases, different rules can be applicable. This overview does not describe the tax consequences for a holder of Notes that are redeemable in exchange for, or convertible into assets, of the exercise, settlement or redemption of such Notes or any tax consequences after the moment of exercise, settlement or redemption. The overview is based on laws, treaties and regulatory interpretations in effect in Belgium on the date of this Base Prospectus, all of which can be amended in the future and possibly implemented with retroactive effect. Furthermore, the interpretation of the tax rules may change. Investors should appreciate that, as a result of evolutions in law or practice, the eventual tax consequences may be different from what is stated below.

Each prospective holder of Notes should consult a professional adviser with respect to the tax consequences of an investment in the Notes, taking into account the influence of each regional, local or national law.

For the purpose of this overview, a Belgian resident is an individual subject to Belgian personal income tax (“*Personenbelasting*”/“*Impôt des personnes physiques*”) (that is, an individual who is domiciled in Belgium or has their seat of wealth in Belgium or a person assimilated to a resident for the purposes of Belgian tax law), a company subject to Belgian corporate income tax (“*Vennootschapsbelasting*”/“*Impôt des sociétés*”) (that is, a corporate entity that has its main establishment, its administrative seat or seat of management in Belgium), an Organisation for Financing Pensions subject to Belgian corporate income tax (that is, a Belgian pension fund incorporated under the form of an Organisation for Financing Pensions (an “**OFFP**”)), or a legal entity subject to Belgian income tax on legal entities (“*Rechtspersonenbelasting*”/“*Impôt des personnes morales*”) (that is, a legal entity other than a company subject to Belgian corporate income tax, that has its main establishment, its administrative seat or seat of management in Belgium). A Belgian non-resident is any person that is not a Belgian resident.

In accordance with Belgian tax law, the following amounts are qualified and taxable as “interest”: (i) periodic interest income, (ii) amounts paid by the Issuer in excess of the issue price (whether or not on the maturity date), and (iii) if the Notes qualify as “fixed income securities” (in the meaning of article 2, §1, 8° of the Belgian Income Tax Code), in case of a realisation of the Notes between two interest payment dates, the pro rata of

accrued interest corresponding to the detention period. “**Fixed income securities**” are defined as bonds, specific debt certificates issued by banks (“*kasbon*”/“*bon de caisse*”) and other similar securities, including securities where income is capitalised or securities which do not generate a periodic payment of income, but are issued with a discount corresponding to the capitalised interest up to the maturity date of the security.

Withholding Tax and Income Tax

Tax rules applicable to natural persons resident in Belgium

Belgian natural persons who are Belgian residents for tax purposes, i.e. who are subject to the Belgian personal income tax (“*Personenbelasting*”/“*Impôt des personnes physiques*”) and who hold the Notes as a private investment, are subject to the following tax treatment in Belgium with respect to the Notes. Other tax rules apply to Belgian resident individuals who do not hold the Notes as a private investment.

Payments of Interest Amounts on the Notes made through a paying agent in Belgium will in principle be subject to a 30 per cent. withholding tax in Belgium (calculated on the Interest Amount received after deduction of any non-Belgian withholding taxes). The Belgian withholding tax constitutes the final income tax for Belgian resident individuals. This means that they do not have to declare the Interest Amounts obtained on the Notes in their personal income tax return, provided withholding tax was levied on these interest payments. They may nevertheless elect to declare Interest Amounts in respect of the Notes in their personal income tax return.

If the Interest Amounts are paid outside Belgium without the intervention of a Belgian paying agent, the Interest Amounts received (after deduction of any non-Belgian withholding tax) must be declared in the personal income tax return. Interest income which is declared in the annual personal income tax return will in principle be taxed at a flat rate of 30 per cent. or at the progressive personal tax rate taking into account the taxpayer’s other declared income, whichever is more beneficial. No local surcharges will be due. If the interest payment is declared, any Belgian withholding tax retained is creditable in accordance with the applicable legal provisions.

Capital gains realised on the transfer of the Notes are in principle tax exempt, unless the capital gains are realised outside the scope of the management of one’s private estate or unless and to the extent the capital gains qualify as interest (as defined above). Capital losses are in principle not tax deductible.

Belgian resident companies

Corporate Noteholders who are Belgian residents for tax purposes, i.e. who are subject to Belgian corporate income tax (“*Vennootschapsbelasting*”/“*Impôt des sociétés*”) are subject to the following tax treatment in Belgium with respect to the Notes. Different rules apply to companies subject to a special tax regime, such as investment companies within the meaning of article 185bis of the Belgian Income Tax Code 1992 (“*Wetboek van de inkomstenbelastingen 1992*”/“*Code des impôts sur les revenus 1992*”).

Interest derived by Belgian corporate investors on the Notes and capital gains realised on the Notes are taxable at the ordinary corporate income tax rate of 25%. Subject to certain conditions, a reduced corporate income tax rate of 20% as of 2020 applies for small enterprises (as defined by Article 1:24, §1 to §6 of the Belgian Companies and Associations Code (“*Wetboek van vennootschappen en verenigingen*”/“*Code des sociétés et associations*”)) on the first EUR 100,000 of taxable profits.

Capital losses are in principle deductible.

Interest payments on the Notes (except Zero Coupon Notes and other Notes which provide for the capitalisation of interest) made through a paying agent in Belgium can, under certain circumstances, be exempt from withholding tax, provided a special certificate is delivered. Any Belgian withholding tax that has been levied by, for example, an intervening Belgian paying agent is creditable in accordance with the applicable legal provisions.

Belgian legal entities

Legal entity Noteholders who are Belgian residents for tax purposes, i.e. who are subject to Belgian tax on legal entities (“*Rechtspersonenbelasting*”/“*Impôt des personnes morales*”) are subject to the following tax treatment in Belgium with respect to the Notes.

Payments of Interest Amounts on the Notes made through a paying agent in Belgium will in principle be subject to a 30 per cent. withholding tax in Belgium and no further tax on legal entities will be due on the Interest Amounts.

However, if the Interest Amounts are paid outside Belgium without the intervention of a Belgian paying agent and without the deduction of the Belgian withholding tax due, the legal entity itself is required to declare and pay the 30 per cent. withholding tax to the Belgian tax authorities.

Capital gains realised on the transfer of the Notes are in principle tax exempt, unless and to the extent the capital gain qualifies as interest (as defined above). Capital losses are in principle not tax deductible.

Organisation for Financing Pensions

Belgian pension fund entities that have the form of an OFP within the meaning of the Law of 27 October 2006 on the activities and supervision of institutions for occupational retirement provision are subject to Belgian corporate income tax (“*Vennootschapsbelasting*”/“*Impôt des sociétés*”). OFPs are subject to the following tax treatment in Belgium with respect to the Notes.

Interest Amounts derived by OFP Noteholders on the Notes and capital gains realised on the Notes will in principle not be subject to Belgian corporate income tax. Capital losses are in principle not tax deductible.

Any Belgian withholding tax that has been levied by, for example, an intervening Belgian paying agent is creditable, in accordance with the applicable legal provisions.

Belgian non-residents

The interest income on the Notes paid through a professional intermediary in Belgium will, in principle, be subject to a 30 per cent. withholding tax, unless the Noteholder is resident in a country with which Belgium has concluded a double taxation agreement and delivers the requested affidavit, or unless a domestic exemption applies. If the income is not collected through a financial institution or other intermediary established in Belgium, no Belgian withholding tax should generally be due.

Non-residents who use the Notes to exercise a professional activity in Belgium through a permanent establishment are subject to the same tax rules as Belgian resident companies (see above). Non-resident Noteholders who do not allocate the Notes to a professional activity in Belgium are not subject to Belgian income tax, save, as the case may be, for tax applied in the form of withholding tax.

Pursuant to the law of 16 December 2015 implementing into Belgian national law the provisions of the Directive 2014/107/EU on administrative cooperation in direct taxation (see the section “*Common Reporting Standard – Exchange of information*” below), Belgian financial institutions are required to report, according to a due diligence standard, financial information with respect to reportable accounts, which includes interest, dividends, account balance or value, income from certain insurance products, sales proceeds from financial assets and other income generated with respect to assets held in the account or payments made with respect to the account. Reportable accounts include accounts held by individuals and entities with fiscal residence in another EU Member State.

In addition to the aforementioned Belgian withholding tax of 30 per cent., interest amounts and gross proceeds derived from Notes held on or through accounts with, for example, a Belgian financial institution may therefore be subject to a system of automatic exchange of information between the relevant tax authorities.

Tax on stock exchange transactions

A tax on stock exchange transactions (“*taks op beursverrichtingen*”/“*taxe sur les opérations de bourse*”) will be levied on the purchase and sale of the Notes on the secondary market if (i) executed in Belgium through a professional intermediary, or (ii) deemed to be executed in Belgium, which is the case if the order is directly or indirectly made to a professional intermediary established outside of Belgium, either by private individuals with habitual residence in Belgium, or legal entities for the account of their seat or establishment in Belgium (both referred to as a “**Belgian Investor**”).

The tax is generally due at a rate 0.12 per cent. for transactions in debt instruments and at a rate of 0.35 per cent. for transactions in other securities, with a maximum amount per transaction and per party of EUR 1,300 for debt instruments and EUR 1,600 for other securities. The tax is due separately from each party to any such transaction (i.e. the seller (transferor) and the purchaser (transferee)), both collected by the professional intermediary. No tax will be due on the issuance of the Notes (primary market).

If the intermediary is established outside of Belgium, the tax on stock exchange transactions is due by the Belgian Investor, unless the Belgian Investor can demonstrate that the tax on stock exchange transactions has already been paid by the professional intermediary established outside Belgium. In such case, the foreign professional intermediary also has to provide each client (which gives such intermediary an order) with a qualifying order statement (“*bordereau*”/“*borderel*”), at the latest on the business day after the day the relevant transaction was realised. The qualifying order statements must be numbered in series and a duplicate must be retained by the financial intermediary. The duplicate can be replaced by a qualifying day-today listing, numbered in series. Alternatively, professional intermediaries established outside Belgium could appoint a stock exchange tax representative in Belgium, subject to certain conditions and formalities (“**Stock Exchange Tax Representative**”). Such Stock Exchange Tax Representative will then be obliged to pay the tax on stock exchange transactions to the Belgian Treasury and will need to comply with the reporting obligations and the obligations relating to the order statement (“*bordereau*”/“*borderel*”) in relation thereto. If such Stock Exchange Tax Representative has paid the tax on stock exchange transactions, the Belgian Investor will, as per the above, no longer be the debtor of the tax on stock exchange transactions.

However, the tax on stock exchange transactions will not be payable by exempt persons acting for their own account including investors who are not Belgian residents provided they deliver an affidavit to the financial intermediary in Belgium confirming their non-resident status and certain Belgian institutional investors as defined in Article 126¹, 2° of the Code of Miscellaneous Duties and Taxes (“*Wetboek diverse rechten en taksen*”/“*Code des droits et taxes divers*”) for the tax on stock exchange transactions.

The EU Commission has published on 14 February 2013 a proposal for a Directive (the “**Draft Directive**”) on a financial transactions tax (“**FTT**”). This Draft Directive currently stipulates that once the FTT enters into force, the participating Member States shall not maintain or introduce taxes on financial transactions other than the FTT (or VAT as provided in the Council Directive 2006/112/EC of 28 November 2006 on the common system of value added tax). For Belgium, the tax on stock exchange transactions should thus be abolished once the FTT enters into force. The Draft Directive is still subject to negotiation between the participating Member States and therefore may be changed at any time. The Draft Directive is further described below (see the section entitled “*The proposed financial transactions tax (“FTT”)*”).

Annual tax on securities accounts

Following the Law of 17 February 2021, a new annual tax on securities accounts was introduced (“*Jaarlijkse taks op de effectenrekeningen*”/“*Taxe annuelle sur les comptes-titres*”) (the “**Annual Tax on Securities Accounts**”). The Annual Tax on Securities Accounts is levied on securities accounts of which the average value during the reference period (i.e. a period of twelve consecutive months beginning on 1 October and ending, in principle, on 30 September of the next year), exceeds EUR 1,000,000. The Annual Tax on Securities Accounts

is applicable to securities accounts that are held by resident individuals, companies and legal entities, irrespective as to whether these accounts are held with a financial intermediary in Belgium or abroad. The Annual Tax on Securities Accounts also applies to securities accounts held by non-resident individuals, companies and legal entities with a financial intermediary in Belgium. However, the Annual Tax on Securities Accounts is not levied on securities accounts held by specific types of regulated entities in the context of their own professional activity and for their own account.

The Annual Tax on Securities Accounts may also apply to securities accounts on which the Notes are held, if the average value during the reference period exceeds EUR 1,000,000.

The applicable tax rate is equal to the lowest amount of either 0.15% of the average value of the account or 10% of the difference between the average value of the account and EUR 1,000,000. The tax base is the sum of the values of the taxable financial instruments at the different reference points in time (i.e. 31 December, 31 March, 30 June and 30 September) divided by the number of those reference points in time.

The Annual Tax on Securities Accounts needs to be withheld, declared and paid by the Belgian intermediary. Intermediaries not established or set up in Belgium have the possibility, when managing a securities account subject to the tax, to appoint a representative in Belgium approved by or on behalf of the Minister of Finance (the “**Annual Tax on Securities Accounts Representative**”). The Annual Tax on Securities Accounts Representative is jointly and severally liable *vis-à-vis* the Belgian State to declare and pay the tax and to fulfil all other obligations for intermediaries related to the Annual Tax on Securities Accounts, such as compliance with certain reporting obligations. In cases where no intermediary has withheld, declared and paid the Annual Tax on Securities Accounts, the holder of the securities account needs to declare and pay the tax, unless they can prove that the tax has already been withheld, declared and paid by either a Belgian intermediary or Annual Tax on Securities Accounts Representative of a foreign intermediary.

A retroactive anti-abuse provision, which has applied since 30 October 2020, targets (i) the splitting of a securities account into multiple accounts held with the same financial intermediary and (ii) the conversion of taxable financial instruments into registered financial instruments. Furthermore, a general anti-abuse provision was introduced.

Investors should consult their own tax advisers in relation to this Annual Tax on Securities Accounts.

Gift, estate or inheritance tax

Except for the gift tax payable in the case of a gift by deed made in Belgium, no gift, estate or inheritance tax is due in Belgium in respect of Notes, unless a Noteholder is resident in Belgium at the time of their death.

United Kingdom

The comments below are of a general nature based on current United Kingdom tax law as applied in England and Wales and HM Revenue & Customs' published practice (which may not be binding on HM Revenue & Customs, both of which are subject to change (possibly with retrospective effect), and are not intended to be exhaustive. They assume that neither Interest Amounts on the Notes nor payments in respect of the Guarantee have a United Kingdom source and, in particular, that neither the Issuer nor the Guarantor is United Kingdom resident or acts through a permanent establishment in the United Kingdom in relation to the Notes. Any Noteholders who are in doubt as to their own tax position should consult their professional advisers.

Interest on the Notes

Payments of Interest Amounts on the Notes by the Issuer may be made without withholding or deduction for or on account of United Kingdom income tax.

Payments in respect of the Guarantee

Any payments in respect of the Guarantee may be made without withholding or deduction for or on account of United Kingdom income tax.

Luxembourg

The following overview is of a general nature and is included herein solely for information purposes. It is based on the laws presently in force in Luxembourg, though it is not intended to be, nor should it be construed to be, legal or tax advice. Prospective investors in the Notes should therefore consult their own professional advisers as to the effects of state, local or foreign laws, including Luxembourg tax law, to which they may be subject.

Please be aware that the residence concept used under the respective headings below applies for Luxembourg income tax assessment purposes only. Any reference in the present section to a tax, duty, levy, impost or other charge or withholding of a similar nature, or to any other concepts, refers to Luxembourg tax law and/or concepts only. Also, please note that a reference to Luxembourg income tax encompasses corporate income tax (impôt sur le revenu des collectivités), municipal business tax (impôt commercial communal), a solidarity surcharge (contribution au fonds pour l'emploi) as well as personal income tax (impôt sur le revenu) generally. Investors may further be subject to net wealth tax (impôt sur la fortune) as well as other duties, levies or taxes. Corporate income taxes, municipal business tax, as well as the solidarity surcharge invariably apply to most corporate taxpayers resident in Luxembourg for tax purposes. Individual taxpayers are generally subject to personal income tax and the solidarity surcharge. Under certain circumstances, where an individual taxpayer acts in the course of the management of a professional or business undertaking, municipal business tax may apply as well.

Withholding Tax

Under Luxembourg tax law currently in effect and subject to the exception below, there is no Luxembourg withholding tax on payments of interest (including accrued but unpaid interest) or repayment of principal.

In accordance with the law of 23 December 2005, as amended, interest payments made by Luxembourg paying agents to individual beneficial owners which are residents in Luxembourg are currently subject to a 20 per cent. withholding tax. Such withholding tax will be in full discharge of income tax if the beneficial owner is an individual acting in the course of the management of their private wealth. Responsibility for withholding such tax will be assumed by the Luxembourg paying agent.

Income Taxation on Principal, Interest, Gains on Sales or Redemption

Luxembourg tax residency of the Noteholders

Noteholders will not be deemed to be resident, domiciled or carrying on business in Luxembourg solely by reason of holding, execution, performance, delivery, exchange and/or enforcement of the Notes.

Taxation of Luxembourg non-residents

Noteholders who are non-residents of Luxembourg and who do not have a permanent establishment, a permanent representative or a fixed base of business in Luxembourg with which the holding of the Notes is connected, will not be subject to taxes (income taxes and net wealth tax) or duties in Luxembourg with respect to payments of principal or interest (including accrued but unpaid interest), payments received upon redemption, repurchase or exchange of the Notes or capital gains realised upon disposal or repayment of the Notes.

A non-resident corporate holder of Notes or an individual holder of Notes acting in the course of the management of a professional or business undertaking, who has a permanent establishment or permanent representative in Luxembourg to which or to whom such Notes are attributable, is subject to Luxembourg

income tax on interest accrued or received, redemption premiums or issue discounts, under the Notes and on any gains realised upon the sale or disposal, in any form whatsoever, of the Notes.

Taxation of Luxembourg residents

Noteholders who are residents of Luxembourg will not be liable for any Luxembourg income tax on repayment of principal.

Luxembourg resident individual holder of Notes

Interest received by an individual resident in Luxembourg is, in principle, reportable and taxable at the progressive rate unless the interest has been subject to withholding tax (see above “*Withholding Tax*”) or to the self-applied tax, if applicable. Indeed, in accordance with the Luxembourg law of 23 December 2005, as amended, Luxembourg resident individuals, acting in the framework of their private wealth, can opt to self-declare and pay a 20 per cent. tax on interest payments made by paying agents located in an EU Member State other than Luxembourg or a Member State of the European Economic Area other than an EU Member State.

The withholding tax or self-applied tax are the final tax liability for the Luxembourg individual resident taxpayers receiving the interest payment in the framework of their private wealth. Individual Luxembourg resident Noteholders receiving the interest as business income must include this interest in their taxable basis. If applicable, the 20 per cent. Luxembourg withholding tax levied will be credited against their final income tax liability.

Luxembourg resident individual Noteholders are not subject to taxation on capital gains upon the disposal of the Notes, unless the disposal of the Notes precedes the acquisition of the Notes or the Notes are disposed of within six months of the date of acquisition of these Notes.

Upon the sale, redemption or exchange of the Notes, accrued but unpaid interest will be subject to the 20 per cent. withholding tax or the self-applied tax, if applicable. Individual Luxembourg resident Noteholders receiving the interest as business income must include the portion of the price corresponding to this interest in their taxable income. The 20 per cent. Luxembourg withholding tax levied will be credited against their final income tax liability.

Luxembourg resident corporate holder of Notes

Luxembourg resident corporate Noteholders must for income tax purposes include in their taxable income any interest (including accrued but unpaid interest) as well as the difference between the sale or redemption price and the lower of the cost or book value of the Notes sold or redeemed.

Luxembourg resident corporate Noteholders which are companies benefiting from a special tax regime (such as, (i) family wealth management companies subject to the law of 11 May 2007, as amended, (ii) undertakings for collective investment subject to the law of 17 December 2010, as amended, (iii) specialised investment funds subject to the law of 13 February 2007, as amended, or (iv) reserved alternative investment funds governed by the law of 23 July 2016, as amended, provided it is not foreseen in the incorporation documents that (a) the exclusive object is the investment in risk capital and that (b) article 48 of the law of 23 July 2016 applies) are tax exempt entities in Luxembourg, and are thus not subject to any Luxembourg tax (i.e. corporate income tax, municipal business tax and net wealth tax) other than an annual subscription tax.

Net Wealth tax

Luxembourg net wealth tax will not be levied on the Notes held by an individual Noteholder or a corporate Noteholder, unless (a) such Noteholder is a Luxembourg resident other than a corporate Noteholder governed by (i) the laws of 17 December 2010, as amended and 13 February 2007 on undertakings for collective investment, as amended; (ii) the law of 22 March 2004 on securitisation, as amended; (iii) the law of 15 June

2004 on the investment company in risk capital, as amended; (iv) the law of 11 May 2007 on family wealth management companies, as amended; or (v) the law of 23 July 2016 on the reserved alternative investment funds, as amended, or (b) the Notes are attributable to an enterprise or part thereof which is carried on in Luxembourg through a permanent establishment or a permanent representative of a non resident corporate Noteholder.

Luxembourg levies a minimum net wealth tax for corporate taxpayers, which is due even if the net asset value of the corporate taxpayer is nil or negative. This minimum net wealth tax amounts to a EUR 4,815 flat rate for corporate taxpayers whose total assets amount to at least EUR 350,000 and at least 90% of the corporate taxpayer's assets are financial assets falling within the meaning of accounts 23, 41, 50 and 51 of the Luxembourg standard chart of accounts ("*Plan Comptable Normalisé*").

In all other cases, corporate taxpayers are subject to a minimum net wealth tax ranging from EUR 535 to EUR 32,100. All Luxembourg corporate taxpayers that are subject to net wealth tax are also subject to minimum net wealth tax.

Additionally, please note that securitisation companies governed by the law of 22 March 2004 on securitisation, as amended, capital companies governed by the law of 15 June 2004 on the investment company in risk capital, as amended, and reserved alternative investment funds governed by the law of 23 July 2016, as amended (provided it is foreseen in the incorporation documents that (i) the exclusive object is the investment in risk capital and that (ii) article 48 of the law of 23 July 2016 applies) may be subject to an annual minimum net wealth tax.

Other taxes

No stamp, registration, transfer or similar taxes or duties will be payable in Luxembourg by Noteholders in connection with the issue of the Notes, nor will any of these taxes be payable as a consequence of a subsequent transfer or redemption of the Notes, unless the documents relating to the Notes are voluntarily registered in Luxembourg or appended to a document that requires obligatory registration in Luxembourg.

There is no Luxembourg value added tax payable in respect of payments in consideration for the issuance of the Notes or in respect of the payment of interest or principal under the Notes or the transfer of the Notes. Luxembourg value added tax may, however, be payable in respect of fees charged for certain services rendered to the Issuer, if for Luxembourg value added tax purposes such services are rendered or are deemed to be rendered in Luxembourg and an exemption from Luxembourg value added tax does not apply with respect to such services.

Noteholders not permanently resident in Luxembourg at the time of death will not be subject to inheritance or other similar taxes in Luxembourg in respect of the Notes. No Luxembourg gift tax is levied upon a gift or donation of the Notes, if the gift is not passed before a Luxembourg notary or recorded in a deed registered in Luxembourg.

The proposed financial transactions tax ("FTT")

The European Commission has published a proposal for a Directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and the Slovak Republic. In December 2015 Estonia withdrew from the group of states willing to introduce the FTT (the "**Participating Member States**").

The proposed FTT has very broad scope and could, if introduced in its current form, apply to certain dealings in the Notes (including secondary market transactions) in certain circumstances. Primary market transactions referred to in Article 5(c) of Regulation (EC) No 1287/2006 are expected to be exempt.

The proposed FTT could apply in certain circumstances to persons both within and outside of the Participating Member States. Generally, it would apply to certain dealings in Notes where at least one party is a financial institution, and at least one party is established in a Participating Member State. A financial institution may be, or be deemed to be, “established” in a Participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a Participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a Participating Member State.

However, the FTT proposal remains subject to negotiation between the Participating Member States, and the scope of any such tax is uncertain. Additional EU Member States may decide to participate.

Prospective holders of Notes are advised to seek their own professional advice in relation to the FTT.

Common Reporting Standard – Exchange of information

The exchange of information is governed by the Common Reporting Standard (“CRS”). As of 12 August 2021, 112 jurisdictions have signed the multilateral competent authority agreement (“MCAA”), which is a multilateral framework agreement to automatically exchange financial and personal information, with the subsequent bilateral exchanges coming into effect between those signatories that file the subsequent notifications.

Under CRS, financial institutions resident in a CRS country are required to report, according to a due diligence standard, financial information with respect to reportable accounts, which includes interest, dividends, account balance or value, income from certain insurance products, sales proceeds from financial assets and other income generated with respect to assets held in the account or payments made with respect to the account. Reportable accounts include accounts held by individuals and entities (which includes trusts and foundations) with fiscal residence in another CRS country. The standard includes a requirement to look through passive entities to report on the relevant controlling persons.

On 9 December 2014, EU Member States adopted Directive 2014/107/EU on administrative cooperation in direct taxation (“DAC2”), which provides for mandatory automatic exchange of financial information between the EU Member States as foreseen in CRS. DAC2 amends the previous Directive on administrative cooperation in direct taxation, Directive 2011/16/EU. DAC2 requires EU member states to establish an automatic exchange of information effective as of 1 January 2016 (and in the case of Austria as of 1 January 2017).

On 27 May 2015, Switzerland signed an agreement with the European Union in order to implement, as of 1 January 2017, an automatic exchange of financial information based on the CRS. This new agreement replaces the agreement on the taxation of savings that entered into force in 2005.

Luxembourg implemented the provisions of DAC2 as well as the MCAA into domestic law on 18 December 2015.

The Belgian government implemented DAC2 and the CRS, pursuant to the law of 16 December 2015 regarding the exchange of information on financial accounts by Belgian financial institutions and by the Belgian tax administration, in the context of an automatic exchange of information on an international level and for tax purposes (the “**Law of 16 December 2015**”).

The Notes are subject to DAC2 and to the Law of 16 December 2015. Under DAC2 and the Law of 16 December 2015, Belgian financial institutions holding the Notes for tax residents in another CRS contracting state shall report financial information regarding the Notes (e.g. in relation to income and gross proceeds) to the Belgian competent authority, who shall communicate the information to the competent authority of the state of the tax residence of the beneficial owner.

Investors who are in any doubt as to their position should consult their professional advisers.

Foreign Account Tax Compliance Act

Pursuant to certain provisions of the U.S. Internal Revenue Code of 1986, commonly known as FATCA, withholding may be required on, among other things, (i) certain payments made by “foreign financial institutions” (“**foreign passthru payments**”) and (ii) dividend equivalent payments (as described below in the section entitled “*U.S. Dividend Equivalent Withholding*”), in each case, to persons that fail to meet certain certification, reporting, or related requirements. The Issuer may be a foreign financial institution for these purposes. A number of jurisdictions (including Luxembourg) have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA (“**IGAs**”), which modify the way in which FATCA applies in their jurisdictions. Under the provisions of IGAs as currently in effect, a foreign financial institution in an IGA jurisdiction would generally not be required to withhold under FATCA or an IGA from payments that it makes.

Certain aspects of the application of the FATCA provisions and IGAs to instruments such as the Notes, including whether withholding would ever be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes, are uncertain and may be subject to change. If withholding would be required pursuant to FATCA or an IGA with respect to foreign passthru payments or payments of gross proceeds from the disposition of Notes that generate dividend equivalent payments, such withholding would not apply prior to the date that is two years after the date on which final regulations defining foreign passthru payments are published in the U.S. Federal Register and Notes characterised as debt (or which are not otherwise characterised as equity and have a fixed term) for U.S. federal tax purposes that are issued on or before the relevant grandfathering date would be “grandfathered” for purposes of FATCA withholding unless materially modified after such date. The grandfathering date for (A) Notes that give rise solely to foreign passthru payments, is the date that is six months after the date on which final U.S. Treasury regulations defining the term foreign passthru payment are filed with the Federal Register, and (B) Notes that give rise to a dividend equivalent pursuant to Section 871(m) of the U.S. Internal Revenue Code of 1986 and the U.S. Treasury regulations promulgated thereunder, is six months after the date on which obligations of its type are first treated as giving rise to dividend equivalents. If additional notes (as described under “*Terms and Conditions of the Notes—Further Issues*”) that are not distinguishable from such previously issued grandfathered Notes are issued after the expiration of the grandfathering period and are subject to withholding under FATCA, then withholding agents may treat all Notes, including the Notes offered prior to the expiration of the grandfathering period, as subject to withholding under FATCA. Holders should consult their own tax advisors regarding how these rules may apply to their investment in the Notes. In the event any withholding would be required pursuant to FATCA or an IGA with respect to payments on the Notes, no person will be required to pay additional amounts as a result of the withholding.

U.S. Dividend Equivalent Withholding

Section 871(m) of the U.S. Internal Revenue Code of 1986 treats a “dividend equivalent” payment as a dividend from sources within the United States that is generally subject to a 30 per cent. U.S. withholding tax which may be reduced by an applicable tax treaty, eligible for credit against other U.S. tax liabilities or refunded, provided that the beneficial owner timely claims a credit or refund from the U.S. Internal Revenue Service (“**IRS**”). A “dividend equivalent” payment is (i) a substitute dividend payment made pursuant to a securities lending or a sale-repurchase transaction that (directly or indirectly) is contingent upon, or determined by reference to, the payment of a dividend from sources within the United States, (ii) a payment made pursuant to a “specified notional principal contract” that (directly or indirectly) is contingent upon, or determined by reference to, the payment of a dividend from sources within the United States, and (iii) any other payment determined by the IRS to be substantially similar to a payment described in (i) or (ii). U.S. Treasury regulations issued under Section 871(m) and applicable guidance (the “**Section 871(m) Regulations**”) require withholding on certain

non-U.S. holders of Notes with respect to amounts treated as dividend equivalent payments. Under the Section 871(m) Regulations, only a Note that has an expected economic return sufficiently similar to that of the underlying U.S. security, based on tests set forth in the Section 871(m) Regulations, will be subject to the Section 871(m) withholding regime (making such security a “**Specified Note**”). Certain exceptions to this withholding requirement apply, in particular for instruments linked to certain broad-based indices.

Withholding in respect of dividend equivalents will generally be required when cash payments are made on, or upon the date of maturity, lapse or other disposition of, the Specified Note. If the underlying U.S. security or securities are expected to pay dividends during the term of the Specified Note, withholding generally will still be required even if the Specified Note does not provide for payments explicitly linked to dividends. Additionally, the Issuer may withhold the full 30 per cent. tax on any payment on the Notes in respect of any dividend equivalent arising with respect to such Notes regardless of any exemption from, or reduction in, such withholding otherwise available under applicable law (including, for the avoidance of doubt, where a non-U.S. holder is eligible for a reduced tax rate under an applicable tax treaty with the United States). A non-U.S. holder may be able to claim a refund of any excess withholding provided the required information is timely furnished to the IRS. Refund claims are subject to U.S. tax law requirements and there can be no assurance that a particular refund claim will be timely paid or paid at all. If the Issuer or any withholding agent determines that withholding is required, neither the Issuer nor any withholding agent will be required to pay any additional amounts with respect to amounts so withheld.

The Section 871(m) Regulations generally apply to Specified Notes issued on or after 1 January 2017. If the terms of a Note are subject to a “significant modification” (as defined for U.S. tax purposes), the Note generally would be treated as retired and reissued on the date of such modification for purposes of determining, based on economic conditions in effect at that time, whether such Note is a Specified Note. Similarly, if additional Notes of the same series are issued (or deemed issued for U.S. tax purposes, such as certain sales of Notes out of inventory) after the original issue date, the IRS could treat the issue date for determining whether the existing Notes are Specified Notes as the date of such subsequent sale or issuance. Consequently, a previously out of scope Note might be treated as a Specified Note following such modification or further issuance.

In addition, payments on the Specified Notes may be calculated by reference to dividends on underlying U.S. securities that are reinvested at a rate of 70 per cent. In such case, in calculating the relevant payment amount, the holder will be deemed to receive, and the Issuer will be deemed to withhold, 30 per cent. of any dividend equivalent payments (as defined in Section 871(m) of the U.S. Internal Revenue Code of 1986) in respect of the relevant U.S. securities. The Issuer will not pay any additional amounts to the holder on account of the Section 871(m) amount deemed withheld.

The applicable Final Terms will indicate whether the Issuer has determined that Notes are Specified Notes and may specify contact details for obtaining additional information regarding the application of Section 871(m) to Notes. A non-U.S. holder of Specified Notes should expect to be subject to withholding in respect of any underlying dividend-paying U.S. securities. The Issuer's determination is binding on non-U.S. holders of Notes, but it is not binding on the IRS. The Section 871(m) Regulations require complex calculations to be made with respect to Notes linked to U.S. securities and their application to a specific issue of Notes may be uncertain. Prospective investors should consult their tax advisers regarding the potential application of Section 871(m) to the Notes.

SUBSCRIPTION AND SALE

This section provides an overview of certain restrictions around who can purchase the Notes in certain jurisdictions.

The Issuer and the Guarantor may agree to reimburse a Dealer for certain of its expenses in connection with the issue of Notes under the Programme and to indemnify such Dealer against certain liabilities incurred by it in connection therewith.

The issue price and/or offer price of any issue of Notes may include subscription fees, placement fees, direction fees, structuring fees and/or other additional costs. Any such fees and/or other commissions and inducements will be disclosed to investors in the applicable Final Terms.

General

Each Dealer appointed under the Programme will be required to agree that it will (to the best of its knowledge and belief) comply with all applicable securities laws and regulations in force in any jurisdiction in which it purchases, offers, sells or delivers Notes or possesses or distributes this Base Prospectus and will obtain any consent, approval or permission required by it for the purchase, offer, sale or delivery by it of Notes under the laws and regulations in force in any jurisdiction to which it is subject or in which it makes such purchases, offers, sales or deliveries. None of the Issuer, Guarantor and any other Dealer shall have any responsibility therefor.

None of the Issuer, the Guarantor nor any Dealer represents that Notes may at any time lawfully be sold in compliance with any applicable registration or other requirements in any jurisdiction, or pursuant to any exemption available thereunder, or assumes any responsibility for facilitating such sale.

With regard to each Tranche, the relevant Dealer(s) will be required to comply with such other restrictions as the Issuer and the relevant Dealer shall agree and as shall be set out in the applicable Final Terms.

In particular (but without limiting the generality of the above), subject to any amendment or supplement which may be agreed with the Issuer and the Guarantor in respect of the issue of any Tranche, each Dealer appointed under the Programme will be required to agree, to comply with the following provisions except to the extent that, as a result of any change in, or the official interpretation of, any applicable laws and/or regulations, non-compliance would not result in any breach of the applicable laws and/or regulations.

Prohibition of sales to EEA retail investors

Unless the Final Terms in respect of any Notes specifies the “Prohibition of sales to EEA retail investors” as “Not Applicable”, each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Notes which are the subject of the offering contemplated by the Base Prospectus as completed by the Final Terms in relation thereto to any retail investor in the European Economic Area. For the purposes of this provision:

- (a) the expression “**retail investor**” means a person who is one (or more) of the following:

 - (ii) a customer within the meaning of Directive (EU) 2016/97 (the “**Insurance Distribution Directive**”), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or

(iii) not a qualified investor as defined in Regulation (EU) 2017/1129 (the “**Prospectus Regulation**”);
and

- (b) the expression an “**offer**” includes the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes.

If the Final Terms in respect of any Notes specifies “Prohibition of sales to EEA retail investors” as “Not Applicable”, in relation to each Member State of the European Economic Area, each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not made and will not make an offer of Notes which are the subject of the offering contemplated by this Base Prospectus as completed by the Final Terms in relation thereto to the public in that Member State except that it may make an offer of such Notes to the public in that Member State:

- (A) if the final terms in relation to the Notes specify that an offer of those Notes may be made other than pursuant to Article 1(4) of the Prospectus Regulation in that Member State (a “**Public Offer**”), following the date of publication of a prospectus in relation to such Notes which has been approved by the competent authority in that Member State or, where appropriate, approved in another Member State and notified to the competent authority in that Member State, provided that any such prospectus has subsequently been completed by final terms contemplating such Public Offer, in accordance with the Prospectus Regulation, in the period beginning and ending on the dates specified in such prospectus or final terms, as applicable, and the Issuer has consented in writing to its use for the purpose of that Public Offer;
- (B) at any time to any legal entity which is a qualified investor as defined in the Prospectus Regulation;
- (C) at any time to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Regulation) subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or
- (D) at any time in any other circumstances falling within Article 1(4) of the Prospectus Regulation,

provided that no such offer of Notes referred to in (B) to (D) above shall require the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the Prospectus Regulation.

For the purposes of this provision:

- the expression “**an offer of Notes to the public**” in relation to any Notes in any Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe for the Notes; and
- the expression “**Prospectus Regulation**” means Regulation (EU) 2017/1129.

Prohibition of sales to consumers in Belgium

Unless the Final Terms in respect of any Notes specifies the “Prohibition of sales to consumers in Belgium” as “Not Applicable”, each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered or sold and it will not offer or sell the Notes to, any consumer (“*consument*”/“*consommateur*”) within the meaning of the Belgian Code of Economic Law (“*Wetboek van economisch recht*”/“*Code de droit économique*”) in Belgium.

United States

The Notes have not been and will not be registered under the Securities Act and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons (as defined in Regulation S) except pursuant to an exemption from, or in certain transactions not subject to, the registration requirements of the Securities Act.

The Notes are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a U.S. person, except in certain transactions permitted by U.S. Treasury regulations. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code of 1986, as amended, and U.S. Treasury regulations thereunder.

Each Dealer appointed under the Programme has agreed, that it will not offer, sell or deliver the Notes (i) as part of its distribution at any time or (ii) otherwise until 40 days after the later of the commencement of the offering of any identifiable Tranche and the issue date (the “**Resale Restriction Termination Date**”), within the United States or to, or for the account or benefit of, U.S. persons. Each Dealer appointed under the Programme will be required to agree, that it will send to each dealer to which it sells any Notes before the Resale Restriction Termination Date a confirmation or other notice setting forth the restrictions on offers and sales of the Notes within the United States or to, or for the account or benefit of, U.S. persons. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

In addition, until 40 days after the commencement of the offering of any Series of the Notes, an offer or sale of such Notes within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act if such offer or sale is made otherwise than in accordance with an available exemption from, or in a transaction not subject to, the registration requirements under the Securities Act.

The Notes are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a U.S. person, except in certain transactions permitted by U.S. Treasury regulations. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code of 1986, as amended, and regulations thereunder.

Dealers transacting with the Issuer and the Guarantor

Certain of the Dealers and their Affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform services to the Issuer, the Guarantor and their Affiliates in the ordinary course of business. In addition, in the ordinary course of their business activities, the Dealers and their Affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of the Issuer, the Guarantor or their Affiliates. Certain of the Dealers or their Affiliates that have a lending relationship with the Issuer or Guarantor routinely hedge their credit exposure to the Issuer or Guarantor consistent with their customary risk management policies. Typically, such Dealers and their Affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Notes issued under the Programme. Any such short positions could adversely affect future trading prices of Notes issued under the Programme. The Dealers and their Affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments. For the purposes of this paragraph, “**Affiliates**” means any entity controlled, directly or indirectly, by a Dealer, any entity that controls, directly or indirectly, a Dealer or any entity directly or indirectly under common control with a Dealer. For these purposes “**control**” means ownership of a majority of the voting power of an entity.
